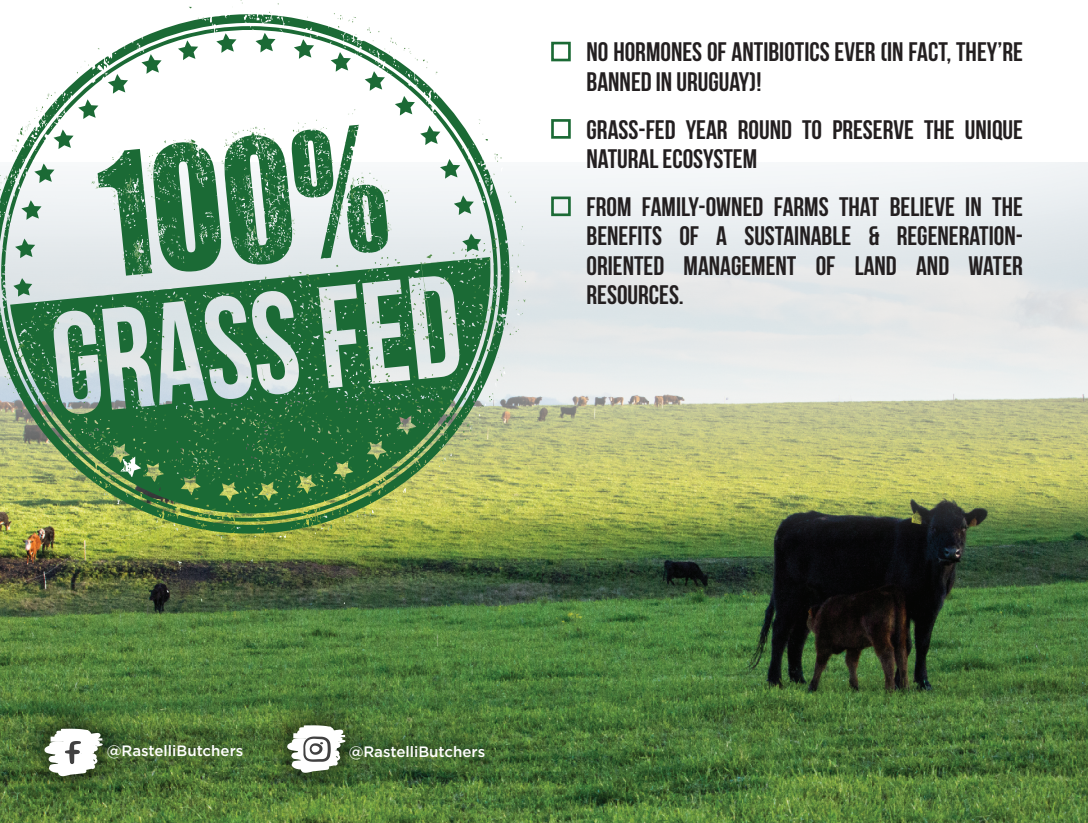
RASTELLI'S™

EST. 1976

Covering more than 9.5 million hectares of natural grasslands with a broad network of rivers and streams, **Uruguay** is home to one of the most biodiverse grass-fed beef programs in the world.

Pasteured in small family farms by Gauchos with a century-old tradition of raising livestock the right way, our grass-fed beef is 100% antibiotic, steroid & hormone free. It's also rich in flavor and leaner than it's grain-finished counterpart.

The Uruguayan commitment to excellence is unmatched, and it's precisely why we chose them as our partner in launching our new grass-fed program to you & your family. We hope you'll enjoy and as always, thanks for giving us a seat at your table!



- ☐ NO HORMONES OF ANTIBIOTICS EVER (IN FACT, THEY'RE BANNED IN URUGUAY)!
- ☐ GRASS-FED YEAR ROUND TO PRESERVE THE UNIQUE NATURAL ECOSYSTEM
- ☐ FROM FAMILY-OWNED FARMS THAT BELIEVE IN THE BENEFITS OF A SUSTAINABLE & REGENERATION-ORIENTED MANAGEMENT OF LAND AND WATER RESOURCES.
