

KPHONE K5 GSM Carrier Support

The K5 unlocked smartphone from KPhone works on any GSM network in the U.S. Some of the major GSM carriers include:

- **AT&T**
- **T-Mobile**

as well as other smaller and prepaid carriers, such as:

- **Cricket Wireless**
- **MetroPCS**
- **Pure Talk USA**
- **Straight Talk USA**

Carriers who run on a CDMA network however are not supported. Therefore carriers such as Verizon, Sprint, Boost Mobile, and other CDMA network carriers will not work with the K5 unlocked smartphone.

If you do not see your carrier listed above, please contact your carrier to ensure your K5 smartphone will work with their networks in your area.

You may also refer to the below listed bands and frequencies the K5 smartphone supports for further technical details.

FDD-LTE	band 1/4/7/17
TDD-LTE	band 38/29/40/41
WCDMA	850/1700/1900/2100/1700
GSM	850/900/1900
