

Assembly Instructions

CordaRoy's[®]

IMPORTANT: Use a key to score the tape at the top and side corner seams.
Do not use a sharp blade.

Notes:

1) The foam will expand to about 70% very quickly once fluffed. Total expansion may take as long as 24 hours.

2) Zipper handle removed from your Bed Insert for child safety purposes. If you need to access the foam use a paper clip inserted into the zipper slider where the handle was once located. This will release the locking mechanism and allow the zipper to operate.
