8. Rinse mouth thoroughly with water.
9. Rinse brush head and return unit to the charging base.
10. To maintain optimal performance, it is recommended to replace the brush head every 2-3 months.
11. The unit has a 2-minute timer that will shut off every 30 seconds to switch to another quadrant of your mouth. Generally, people divide the teeth and gums into four areas for brushing. After 2 minutes the unit will stop operating automatically and will set for another 2 minute cycle.
12. When the power charge drops to a low level the unit will shut off and the LED indicator will alternate fast green and red. To protect the battery, lift the unit should be charged as soon as possible. Do not use the unit until it is fully charged again.
13. While in use, if an abnormal loud noise is generated from the brush head please check to see that the head is tightly attached to the unit and that there are no damages to the brush head. If any damage is found to the brush head it must be replaced.

The battery is to be properly disposed of according to safety regulations.

CLEANING AND MAINTENANCE
1. After use, rinse the brush head and handle separately for several seconds under running water and wipe them dry.
2. After cleaning, place the sonic toothbrush handle back on the charging base.
3. Periodically clean the charging base with a soft cloth or paper towel. Ensure that the base is completely dry before plugging into any electrical outlet.
4. When sonic toothbrush is not in use for an extended period, unplug the cord and place the device into its box. Do not wrap the cord around the appliance.
5. This device is for household use only.
6. This product has no user serviceable parts.

Note: We recommend soaking the brush head in a denture cleaner (commercially available) every 2 to 4 weeks to keep it hygienically clean.

SPECIAL INSTRUCTIONS

IMPORTANT SAFEGUARDS
When using electrical products, especially when children are present, basic safety precautions should always be followed, including the following:

READ ALL INSTRUCTIONS BEFORE USING.

DANGER TO REDUCE THE RISK OF ELECTRIC SHOCK:
Always switch off this product immediately after using.

DO NOT handle the plug with wet hands.

DO NOT place or store the charger base where it can be pulled into a tub, sink or toilet.

DO NOT reach for a charger base that has fallen into water. Unplug it immediately.

DO NOT use while bathing.

DO NOT submerge the charger base in water or any other liquid.

This charger base is designed for use in 100-240 volt, 2W, 50/60Hz outlet. Never force the plug into an outlet.

WARNING
TO REDUCE THE RISK OF BURNS, ELECTRIC SHOCK, FIRE OR INJURY:

DO NOT excessively bend or pull the cord. Unplug the cord by grasping the plug, not the cord.

Keep the cord away from heating surfaces.

Use this product only for its intended use as described in this manual.

DO NOT use the product for any other purpose.

DO NOT use attachments not recommended by the manufacturer, especially any attachment not provided with this unit.

Never drop or insert any object into any opening or hose.

Do not immerse the product in water.

The product should never be left unattended when plugged in.

This product is for household use.

DO NOT use outdoors or operate where aerosol products are being used or where oxygen is being administered.

NEVER insert brush head into or remove it from the sonic toothbrush handle while the unit is on.

NEVER operate the product if it is not working properly, or if it has been dropped or damaged in any manner.

BEFORE EACH USE the brush head should never be used by any individual suffering from any physical ailment that would limit the user’s capacity to operate the device.

This unit should not be used by children without adult supervision.

Avoid using a brush with cracked or bent bristles.

This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.

Children should be supervised to ensure that they do not play with the appliance.

The battery must be removed from the appliance before it is scrapped.

This appliance must be disconnected from the supply mains when removing the battery.

The appliance is to be disposed of safely.

The supply cord cannot be replaced. If the cord is damaged the appliance should be discarded.

SONIC TOOTHBRUSH HANDLE may warm up during charging. This has no effect on the unit’s operation.

This appliance is for household use only.

SAVE THESE INSTRUCTIONS

CHARGING INSTRUCTIONS
Follow these procedure before you use sonic toothbrush for the first time.

1. Plug the charger base into a 100-240 volt outlet. Place sonic toothbrush handle into the base and allow it to charge for full 12 hours before using it for the first time.

2. The charging indicator light will be red when sonic toothbrush is correctly placed on the charger base. The light will go out when sonic toothbrush is removed from the base.

3. After 12-hour charging, the charging will be cut off automatically in order to protect the device.

4. When the sonic toothbrush is fully charged, the light will be green.

Note: During the first few days of use, your gums may bleed slightly. Any bleeding should stop within a few days. If your gums continue to bleed for more than a few days, discontinue use and consult your dentist.

SHORT CORD INSTRUCTIONS
A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord. Longer extension cords are available and may be used if care is exercised in their use.

If an extension cord is used, (1) the marked electrical rating of the extension cord should be at least as great as the electrical rating of the appliance, and (2) the longer cord should be arranged so that it will not drape over the table top where it can be pulled on by children or tripped over unintentionally. The supply cord cannot be replaced. If the cord is damaged, the appliance should be scrapped.

MEDICAL SAFEGUARDS
Place this toothbrush in various locations for your dental care.

1. Contact your dentist before using sonic toothbrush if you have had oral or periodontal surgery.
2. Contact your dentist if excessive bleeding occurs or if bleeding continues after the first week.
3. If you have any questions concerning usage with apace maker consult your physician prior to use.
4. Not recommended for cleaning teeth and gums only. DO NOT use for any other purpose.

Sonic toothbrush can be used with any leading brand of toothpaste.

HOW TO USE SONIC TOOTHBRUSH
1. Insert the brush head into the receptacle of the body. (Fig. 1)

2. Before brushing, rinse your mouth thoroughly, wet the brush head to moisturize, then apply toothpaste.

3. To avoid splashing, guide the brush head to your teeth and gums. (Fig. 2) Lying the brush in a slanted position, 45 degrees towards the gum line. Pressing the short button will turn the unit off.

4. Guide the brush head from tooth to tooth, spending a few seconds on the surface of each tooth. Gently angle the tips of the brushes between teeth and gum line for optimum performance.

5. Brush the gum lines as well as the teeth, starting with the outside teeth and gums, followed by the inside and finishing with the chewing surfaces.

6. Do not press too hard or scrub with sonic toothbrush. The bristles only need to lightly touch your teeth and gum line.

7. Brush your teeth in the pattern that you have been instructed by your dentist or oral hygienist. The sonic toothbrush action will assist your own efforts and assure a thorough cleaning.

There are 3 settings on the sonic toothbrush: 
Firm - for the gentle cleaning of your teeth; 
Normal - for the normal cleaning of your teeth; 
Low - for the gentle cleaning of your teeth, tongue and other sensitive areas. 
Massage - for a gentle stimulation designed to help keeping gums firm and healthy.
