

DC65 Multifloor Exclusive V32759

Standard Tools

Additional Tools

Stair Tool

Removes dirt and dust from corner and against vertical edges of stairs

Combination Tool

Reaches further and has softer bristles for improved spot cleaning and gentle dusting.

Multi Angle Brush

Flexi Crevice Tool

Mattress Tool

Soft Dusting Brush

Flexi Crevice Tool

The Dyson Flexi crevice tool extends and flexes to clean awkward gaps with your Dyson vacuum cleaner, such as between cabinets and beneath car seats.

Soft Dusting Brush

The Dyson Soft dusting brush attaches to your Dyson upright or canister vacuum for vacuum-assisted dusting around the home. It removes dust and allergens from flat surfaces, delicate areas and upholstery

Multi Angle Brush

The Dyson Multi-angle brush twists to give multiple angles to remove dust, dirt and allergens from hard to reach surfaces such as cupboard tops, door frames and lampshades. It attaches to the wand or hose of your Dyson vacuum cleaner.

Mattress Tool

The front and back edges gather, ball and release fibers into the airflow, where they are sucked away. The top is angled to distribute suction power evenly across the tool.
