

FAQ's

Q: Is this a bagless vacuum?

A: Yes - This vacuum features a removable, washable dust bowl.

Q: Is this a rechargeable cordless vacuum?

A: Yes – this is a Lithium Ion cordless vacuum that must be recharged on the charging base provided. Please see the owner's manual for further information on charging this unit.

Q: Can this vacuum be used on liquids and dry messes?

A: Yes this vacuum can be used for wet spills and/or dry debris pick-up.

Q: Can a filter be replaced?

A: Yes, replacement foam filters are available for purchase.

Q: How long does a filter last?

A: For best performance it is recommended to replace the filter every 6-9 months.

Q: How do you remove the filter canister/bowl assembly?

A: Push the "Filter" button on the handle of the vacuum and the bowl will pop off the main housing. Pull the deflector and filter out of the bowl and you'll have full access to clean the bowl.

Q: Can the filter be washed?

A: The filter is washable; use warm water and thoroughly rinse. Allow to air dry completely.

Q: What is the capacity of the bowl?

A: The bowl capacity is 23.7 oz for dry debris and 6oz for liquid.

Q: How much does the unit weigh?

A: The unit's weight, not including the charger, is 1.92 lbs.
