Brighten Your Day.

A good skin day can do wonders for your mood. To create a flawless complexion, sweep **Balance-n-Brighten** all over the face, paying attention to areas of discoloration. Blend well for even, weightless coverage. An instant good skin day—every day!

Glow With Happiness!

Nothing is more beautiful than a happy glow. Create instant radiance with a sweep of **Baked Gelato Lace Illuminator!** Sweep the softly shimmering Baked powder all over the face for a luminous, lit-from-within look.

Neutrally Beautiful.

Using the **Baked Marble Eyeshadow Duo** in *Moonlight/Aubergine*, sweep the light shade across eyelids and up toward the brow bone. Then warm it by applying the deeper shade along the crease, top and bottom lashlines. Hello, gorgeous!

Read Between the Lines...

Prettily defined eyes are always in style! Apply **INKcredible** in *Blackbird* along the top and bottom lash lines for stand-out eye style. Smudge gently for a smoky, sultry look.

Style Star.

To top off your eye-catching look, create long, flutter-worthy lashes with **StyleLASH!** Sweep this lengthening mascara onto lashes. Apply a second coat if desired.

Create a Pretty Pout.

Lips get a treat of moisturizing *Coconut Oil* with every application of **Color Brilliance.** Apply *Kiss* directly to lips for a sweet shade that's perfect for every day.
