TASTING NOTES

Dappled horses have always fascinated humans since the first hunters recorded its spotted image on their cave wall many millennia ago. These patterned horses were often gifted to the highest rulers and have always been regarded as powerful and legendary. Just like these magnificent steeds, our Cabernet Sauvignon is powerful and delightful.

FLAVOR PROFILE

The fruit in Silver Dapple Reserve was selected by our winemaker because of the high quality and exceptional flavor profiles. Light oak aging enabled the wines robust dark fruit flavors to develop. It is bursting with black cherry, baking spices, and graphite flavors ending with a smooth finish with balanced tannins that make it a perfect companion for any occasion.

FOOD PAIRING

Enjoy our Cabernet with savory grilled tri-tip, burgers, roasted leg of lamb, or dark chocolate and cherry layer cake.
