Care

PRE-WASH:

- Remove any food soil prior to loading into the dishwasher.
- Soaking flatware is not recommended however to remove stubborn food; soak in warm water for no more than 10 minutes using a mild detergent.

WASH:

- Load items into the dishwasher loosely.
- Use mild detergent (avoid acidic detergents or detergents containing bleach).
- Do not wash items with dissimilar metals such as aluminum or copper.
- Use of a rinse aid is recommended.

DRY:

- When washing is complete make sure flatware is completely dry & free of stains/water spots.
- If stains or spots are present wiping the items down with vinegar & a soft cloth followed by a warm water rinse can help.

STORE:

- Once flatware is completely dry and clean store in a dry place.

The Cambridge Promise

At Cambridge Silversmiths, we promise to deliver flatware with unforgettable style that lasts a lifetime. We have created over 300 different flatware designs for you to choose from, which we design and manufacture ourselves. Our collections represent five generations of skill and expertise. We think of our business as “A Craft of Hands” that adds grace to your family’s table with flatware that is designed and finished in accord with time-honored techniques. Our standards of craftsmanship apply to every piece, every setting, and accessory in our line. The result is that we provide the highest quality products to make your tabletop experience truly exceptional. From our hands to yours, Cambridge flatware reflects dining experiences and memories that last generations. Easy to hold, beautiful to behold, and built to last.
