## COMPONENTS

1. Adapter Compartment
2. Rotating Adapters: Type-C | Lightning® | Micro
3. Digital Display
4. Flashlight
5. Power Button
6. Kickstand with Magnetic Close
7. Type-C Input/Output Port

## CHARGING THE POWER BANK

**Checking the Battery Level:** Press the Power Button to display the current battery percentage on the Digital Display.

**Charging the Power Bank:** Plug the included 36" Type-C to USB Charging Cable into the Type-C Input/Output Port and into a USB power source (not included).

## USING THE FLASHLIGHT

Press and hold the Power Button for approximately 2-3 seconds to turn the light on. Single-press the Power Button once the light is on to get to S.O.S. mode. To turn off the light, press and hold the Power Button.

## USING THE KICKSTAND

Extend the Kickstand from the Magnetic Close until fully open to be able to use vertically & horizontally with most mobile phones.

## USING THE ADAPTERS

**Locate the Adapter Compartment:**

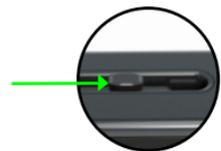

On the top surface of the power bank, you'll see a recessed area or slot where the Adapters are stored in a concealed position. You should be able to see the tips of the Adapters nestled within this compartment.

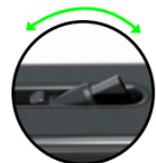

**Identify the Adapter You Need:** Determine which of the three Adapters (Type-C, Lightning®, or Micro) you need to charge your device.

**Focus on the Base:** You'll see a small, slightly raised area or a textured surface on each Adapter's base. This is what you'll use to rotate it.

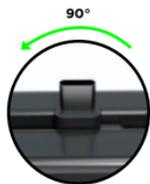

**Apply Gentle Pressure:** Apply a small amount of inward pressure towards the center of the power bank. Carefully rotate the Adapter 90°. The Adapter will pivot on its connection point.

### Rotate to the Fully Extended Position:

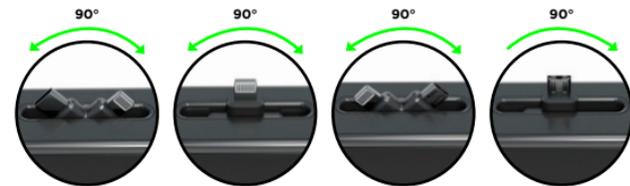

Continue rotating the Adapter until it clicks or feels firmly in place in a fully extended position. This ensures a secure connection when you plug in your device.

**Charging a Device:** Connect the Power Bank to a device using a compatible Adapter. To charge a device via the Type-C Charging Port, connect a compatible Type-C cable.

**NOTE:** The Lightning Bolt Charging Icon indicates that a device is charging.

**Repeat for Other Adapters (If Needed):** If you need to use a different Adapter later, simply repeat the steps above.

Some phone cases may be too thick and prohibit a successful connection to the Adapter. If that's the case, remove your phone case and try again.

**NOTE:** Always rotate the Adapters until concealed when not in use to avoid any accidental damage.
