

KitchenAid Glass Tea Kettle FAQs

How does this KitchenAid® Glass Tea Kettle simplify the process of making tea?

The new KitchenAid® Glass Tea Kettle makes easy work of brewing the perfect cup of tea. Designed with tea enthusiasts in mind, the Glass Tea Kettle features convenient water level markings on the glass (in both cups and liters), a removable stainless steel tea steeper and tea temperature selector with five temperature settings.

How does the KitchenAid® Glass Tea Kettle work?

Simply select your tea type on the KitchenAid® Glass Tea Kettle base to brew at just the right temperature. When the kettle cycle has finished heating the water, the kettle automatically goes into Hold Temp mode for up to 30 minutes, then automatically shuts off. The Hold Temp Mode allows your tea to stay at the optimal drinking temperature for up to 30 minutes

What are the specialty tea settings on the KitchenAid® Glass Tea Kettle?

Green, White, Oolong, Black and Herbal.

Why are different temperatures important?

Each tea variety requires a different brewing temperature; simply select your tea type on the kettle base to brew at just the right temperature.

What if I don't know which temperature to select for my tea?

Most tea packages will instruct you which temperature to use, but if it does not include that, follow this guide as a starting point:

- Green : 176F
- White: 185F
- Oolong: 194
- Black: 203F
- Herbal: 212F

How do I use the stainless steel steeper?

Use the stainless steel tea steeper for brewing tea in the kettle or simply remove it to boil water for other uses.

How is the steeper holder used?

The stainless steel tea steeper is easy to remove after the appropriate steeping time, so tea doesn't over steep. After removing from the tea kettle, place steeper in the holder to keep your counter clean from water and tea drips.

Can I use the KitchenAid Glass Tea Kettle for just boiling water?

Yes! We made the stainless steel steeper removable so it can be removed and stored away when not in use.

Are instructions included?

Yes, a Use & Care Guide is included.
