The efforts of many people go into the making of any cookbook, and this book is no exception. First, I would like to thank my food styling team, led by Claire Winslow and including Jeanette Mostowicz and Anthony Contrino. They have contributed greatly not only to this book but also to several infomercial projects, including the one for the Power AirFryer Oven. I want to thank Matt Wagemann once again for his exceptional photography and for bringing the recipes to life.

I’d also like to thank Kris “Chez” Amerine for his masterful culinary skills, which are always accompanied by comic relief. I am once again grateful to Keith Mirchandani and Josef Lavi for giving me this great opportunity.

I want to thank my wife, Jesse, for keeping our life in order while I focused on this project (and Cameron and Max for making that nearly impossible) and my mom, Arlene, who raised me to appreciate good food and taught me to always cook with love.

Eric Theiss
Eric Theiss’s culinary savoir-faire started in northern NJ when his Italian mother, sensing a talent for cooking in six-year-old Eric, borrowed the first cookbook he would ever use from the public library. Her intuition was correct, and Eric began a life of culinary work. As a young adult, he continued to fuel his passion for food and fine dining. During his early 20s, this passion manifested itself in the long nights Eric spent working in NJ restaurants, including his favorite kitchen at The Culinary Renaissance, where acclaimed chef Frank Falcinelli (owner of NY coffee shop Cafe Pedlar and restaurants Frankies 457 Spuntino, Frankies 570 Spuntino, and Prime Meats) exposed Eric to a level of culinary excellence that inspired Eric to strive. In 1997, Eric took a leap of faith and opened his own fine dining restaurant and bar in West Chester, PA called Meritage, which enjoyed rave reviews from some prominent Philadelphia food critics. With Meritage, his dream of owning and operating a fine dining establishment was fully realized.

A few years later, utilizing his inventive and creative flair, Eric moved on to the culinary broadcast world, working in product development for not only QVC’s proprietary kitchenware lines but also celebrity lines (Paula Deen, Emeril, Rocco, Rachael Ray, and Lidia Bastianich) and his own personal line of kitchen tools and cookware.

Eric has been a popular TV chef presenter for over 15 years on QVC’s live shows, promoting both his own brands and a variety of well-known national kitchen brands. In addition, Eric owns and operates a company that brokers many new and innovative products for QVC. His most recent business venture, a successful new publishing company, publishes and distributes cookbooks and pamphlets nationwide.

Currently, Eric hosts several successful, award-winning long-form infomercials for products such as the Power Pressure Cooker XL, Copper Chef, and the Power AirFryer XL, each of which has sold millions of units. Eric wrote this cookbook to complement the Power AirFryer Oven infomercial, and the book contains many delicious recipes and tips.

Eric currently lives near the live studios at QVC in PA along with his wife, Jessica, and his two sons, Cameron and Maxwell.

1. **What is the capacity?**
   The Power AirFryer Oven is large enough to accommodate a 9" round pizza or cake, a 9 x 5" loaf pan, or a 3-lb chicken.

2. **Can I adjust the cooking time manually?**
   Yes! You can manually program the Power AirFryer Oven to your chosen time and temperature. Alternatively, the Power AirFryer Oven has eight one-touch preset functions.

3. **Can I put frozen foods in the Power AirFryer Oven without defrosting them first?**
   Yes! You do not have to allow frozen foods to thaw before cooking in the Power AirFryer Oven.

4. **Can I check my meals during the cooking process?**
   The Rotating Mesh Basket can be removed at any time during cooking. If you wish, you may flip food on the Air Flow Racks to help ensure even cooking. The Power AirFryer Oven will resume its previously programmed cooking cycle. Alternatively, you can turn on the light and watch your meals cook through the glass door.

5. **Is it possible to shut off the unit at any time?**
   Yes. Simply press the Power Button once. Opening the door pauses the cooking cycle.

6. **Can I make more than one type of food at once?**
   Absolutely! The Power AirFryer Oven is designed with three levels of Air Flow Racks.

7. **How do I dehydrate in the Power AirFryer Oven?**
   The Power AirFryer Oven is designed with a pro-grade, built-in Dehydrator. You can easily dehydrate your favorite fresh meats, fruits, and veggies with no added sugar right at home on any or all of the three included Air Flow Racks. See the Owner’s Manual for specific instructions.

8. **Can I make kabobs in the Power AirFryer Oven?**
   Yes! The Power AirFryer Oven is designed with a pro-grade Rotisserie function that includes Skewers. Rotisserie an entire chicken to tender, crisp perfection or make juicy, authentic kabobs right in your own kitchen.

9. **Do I have to use oil?**
   It is not necessary to use oil to air fry. The Power AirFryer Oven cooks food with superheated air instead of oil. You may spray or coat your food with oil as desired for added flavor. Do not pour oil directly into the unit.

10. **Do I need to preheat the Power AirFryer Oven?**
    You don’t have to wait for the unit to heat up. With the Power AirFryer Oven, there is no lengthy preheating process; the unit heats up almost instantly. If cooking from a cold start, we recommend adding three minutes to your cooking time to compensate.
Air frying is quickly becoming a favorite cooking method because everyone loves fried food, and now you can fry your foods the healthy way—without the guilt. Frying with air means you still get to enjoy all that great crispiness and flavor without the extra fat and calories that come along with traditional frying in oil. I still enjoy deep-fried foods sometimes, but air frying is nice because it gives you a lighter option without sacrificing flavor.

First, we brought you the Power AirFryer XL, and people absolutely LOVE it, so we decided to take that technology and make it even better with the all-new Power AirFryer Oven! It fits so much more food all at once and uses 1700 watts of power and cyclonic air technology to air fry delicious meals quickly without all the guilt associated with frying in oil. You get that beloved fried food taste and texture with up to 70% fewer calories from fat! This unit comes with multiple stainless steel shelves, giving you more room for air frying, baking, broiling, toasting, and dehydrating using 360° of cyclonic air.

While the big story with this Oven is its expanded capacity for air frying so much food all at once, it also can do much more than air fryers could before. The Power AirFryer Oven is also a rotisserie and a dehydrator! The Oven’s one-touch technology and preset cooking times and temperatures allow you to do all this at the touch of a button. Happy air frying!

Safe steps in food handling, cooking, and storage are essential for preventing foodborne illness. You can’t see, smell, or taste harmful bacteria that may cause illness.

Cook all food to these minimum internal temperatures as measured with a food thermometer before removing food from the heat source. Let rest for a minimum of 10 mins. before serving unless indicated otherwise.

In every step of food preparation, follow the four guidelines to help keep food safe:

- **Clean**—Wash hands and surfaces often.
- **Separate**—Separate raw meat from other foods.
- **Cook**—Cook to the right temperature.
- **Chill**—Refrigerate food promptly.

SERVES 6

Ingredients

Chicken
2 chicken thighs
2 chicken wings
2 chicken breasts, cut in half
2 chicken legs

1 cup buttermilk

Seasoning
2 cups flour
1 tbsp. freshly ground black pepper
1 tbsp. garlic powder
1 tsp. onion powder
½ tsp. poultry seasoning
1 tsp. cumin
1 tbsp. paprika
1 tbsp. olive oil

olive oil spray

Jersey Hot Sauce
2 tbsp. cayenne pepper
5 tsp. smoked or sweet paprika
2 tsp. ground cumin
1 tsp turmeric
1 tsp. garlic powder
1 tbsp. salt
1 tsp. sugar
2 tbsp. tomato paste
4 cups olive oil (alternatively, 2 cups canola oil & 2 cups olive oil)

9. Plate the steaks and pour the sauce over them.

**Eric’s Tip:** Letting your steaks sit out at room temperature for 15–20 mins. before cooking them produces a more evenly cooked steak. Don’t forget to let them sit after cooking to let them rest so the juices redistribute!

1. Combine the marinade ingredients in a large bowl.
2. Add the tuna to the bowl and marinate the tuna for 1 hr. in the refrigerator.
3. Alternate skewering the tuna cubes, green bell pepper pieces, red bell pepper pieces, and red onion pieces to fill eight Skewers.
4. Assemble the Adjustable Skewer Racks with the Rotisserie Shaft and secure the Shaft with the Set Screws.
5. Lock each Skewer into the Adjustable Skewer Racks. Set the Racks into the Power AirFryer Oven’s Rotisserie Shaft sockets.
6. Press the Power Button and then the Rotisserie Button (400° F) and decrease the cooking time to 15 mins.
7. Carefully remove the Skewers using the Fetch Tool.
8. Pulse together the pesto ingredients in a food processor.
9. Remove the tuna and vegetables from the Skewers and serve the tuna and vegetables with the pesto.

Eric’s Tip: I love to take warm naan bread and make delicious grilled tuna wraps. Just garnish with thinly shredded cabbage.

3. Alternate skewering three salmon chunks with one zucchini medallion, one cremini mushroom half, and one red onion chunk to fill five Skewers.

Dehydration
Teriyaki Chicken Jerky

SERVES 6

Ingredients

Marinade

¼ cup teriyaki glaze
1 tsp. salt
2 tsp. garlic powder
¼ tsp. red pepper flakes
1 tsp. paprika

1 lb chicken breasts, sliced thinly

Directions

1. Combine the marinade ingredients in a bowl.

2. Marinate the chicken breasts in the marinade overnight in the refrigerator.

3. Remove the chicken breasts from the marinade and pat the chicken dry.

4. Divide the meat onto the three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

5. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 165° F and the cooking time to 5 hrs.

Eric’s Tip: Don’t forget the classic buffalo chicken version for a great gameday snack. Substitute the teriyaki glaze for your favorite buffalo sauce.
Onion Powder

MAKES ABOUT ¼ CUP

Ingredients

1 large white onion, peeled & sliced thinly

Directions

1. Place the onion slices in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

2. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 120° F and the cooking time to 12 hrs.

3. Place the onion slices in a blender to make the powder or use as is.
Garlic Powder

Ingredients

6 heads garlic, peeled & sliced thinly

Directions

1. Separate the garlic heads, peel them, and thinly slice them.

2. Place the garlic slices in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 120°F and the cooking time to 12 hrs.

4. Place the garlic slices in a blender to make the powder or use as is.

Eric’s Tip: Both powders are fantastic as a base in my BBQ rib rub. You get all the flavor without the high salt content. Just mix in equal parts paprika, cumin, and fresh ground black pepper to make the rub.
Garlic & Onion Dip

SERVES 6

Ingredients

1 pint sour cream
¼ cup dehydrated onion
1 tbsp. garlic powder
1 tsp. salt
½ tsp. freshly ground black pepper

Directions

1. Combine the sour cream, dehydrated onion, garlic powder, salt, and ground black pepper in a bowl.

2. Serve the dip with raw vegetables or your favorite chips.

2. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 120° F and the cooking time to 12 hrs.

3. Place the tomato slices in a blender to make the powder or use as is.

Eric's Tip: I love using this tomato powder as a seasoning in cold sauces and dressings. It adds that intense tomato flavor without thinning it out. Try adding tomato powder and fresh tarragon to garlic aioli!
Tomato Sauce Leather

Ingredients

½ onion
2 cloves garlic
2 tbsp. olive oil
28-oz can tomato purée
3 tbsp. tomato paste

3 cups water

Directions

1. Sauté the onions and garlic in a saucepot with the olive oil until the onions and garlic become tender.
2. Add the tomato purée, tomato paste, basil pesto, salt, and ground black pepper to the saucepot and simmer for about 1 hr.
3. Let the sauce cool.

8. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 135° F and the cooking time to 6 hrs.
9. Add the water to the leather when you are ready to use the sauce.

Eric’s Tip: For a kicked-up bloody Mary version of this sauce, substitute the pesto with prepared horseradish, the juice of 1 lemon, and add a few drops of Worcestershire sauce.

4 stalks celery, sliced into ¼-in. pieces
3 carrots, peeled & sliced into ¼-in. medallions
½ large white onion, peeled & sliced thinly

2. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 125° F and the cooking time to 12 hrs.

Eric’s Tip: Mirepoix is used in almost every soup and stew. It works well in pressure cooker recipes since the vegetable flavor is already concentrated.
SERVES 4

1 papaya, peeled & seeded
2 tbsp. Chinese five-spice powder

Directions

1. Slice the papaya into long strips and toss the strips with the Chinese five-spice powder.

2. Place the cauliflower florets in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 130° F and the cooking time to 24 hrs.

**Eric's Tip:** My other favorite variation is to substitute the sriracha with curry powder. Middle Eastern seasoning always goes well with cauliflower.

- 3 medium beets, peeled & sliced thinly
- 1 tsp. sea salt
- 2 tbsp. red wine vinegar
- ½ tsp. onion powder

Directions

1. Toss the beets with the sea salt, red wine vinegar, and onion powder.

2. Place the beet slices in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 125° F and the cooking time to 10 hrs.

Eric’s Tip: I love to take these and make a big plate of provincial-style nachos. Just top the chips with pulled rotisserie chicken, warm seasoned lentils, crumbled goat cheese, and some fresh thyme.
SERVES 8

Ingredients

½ medium watermelon

Directions

1. Cut the watermelon into 1-in. medallions.

3. Place the watermelon triangles in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

4. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 130° F and the cooking time to 24 hrs.

5. When the cooking time runs out, press the Power Button and then the Dehydrator Button and increase the cooking temperature to 130° F and the cooking time to 6 hrs.

Eric’s Tip: After slicing the watermelon, I let it sit out for a little while on the Air Flow Racks to allow some of the excess moisture to drain. I also season them with a little sprinkle of salt and a squeeze of fresh lime juice!
Pineapple Banana Leather

Makes 3 sheets

Ingredients

½ pineapple
2 bananas
¼ whole lemon

Directions

1. Place the pineapple, bananas, and lemon in a food processor and purée.

4. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 135°F and the cooking time to 6 hrs.

Eric’s Tip: For a savory island version of this recipe, add 3 tbsp. fresh cilantro and 1 tbsp. chopped jalapeño.
SERVES 2

Dried Grapefruit

Directions

1. Remove the top and bottom of the grapefruit with a knife so that the grapefruit sits flat on the cutting board. Slice down the grapefruit to remove its skin and expose the flesh. Take a knife and slice between the inside skin sections and remove the grapefruit flesh.

2. Place the grapefruit sections in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 125° F and the cooking time to 24 hrs.

Eric’s Tip: I love to dip this dried grapefruit in dark chocolate. The intense flavor of the grapefruit complements the deep cocoa flavor.

Ingredients

1 large grapefruit
Vanilla Bean Meringues

Ingredients

1 ¼ cup sugar
½ tsp. salt
4 extra-large egg whites
½ tsp. vanilla extract
seeds from 1 vanilla bean

Directions

1. Combine the sugar and salt in a bowl.
2. Whisk the egg whites on medium speed in a separate bowl until they are very frothy and soft peaks begin to form.
3. Gradually add the sugar mixture to the egg whites and whip until medium peaks form.
4. Add the vanilla extract and seeds to the egg whites, increase the whisk speed to high, and whip until stiff peaks form.
5. Transfer the egg whites to a piping bag with a star or rosette tip and pipe little mounds on three parchment paper-lined Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
6. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 170° F and the cooking time to 3 ½ hrs.

Eric’s Tip: Adding 2 tbsp. dark cocoa powder turns these meringues into decadent treats. Don’t forget to drizzle the top with chocolate!
SERVES 6

Ingredients

Marinade
3 tbsp. rice wine vinegar
¼ cup soy sauce
juice of 2 limes
1 tbsp. onion powder
1 tbsp. garlic powder
1 tbsp. ground ginger

1. Combine the marinade ingredients in a bowl.
2. Marinate the salmon in the marinade for at least 8 hrs.
3. Remove the salmon from the marinade and thoroughly pat the salmon dry.
4. Divide the salmon onto three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
5. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 165° F and the cooking time to 5 hrs.

Eric’s Tip: For a super-nutritious dog treat, season the salmon with just lemon juice and salt. Follow the same dehydrating instructions. You can keep these treats in the freezer and pull them out when you need them!
Pineapple Chews

SERVES 6

Ingredients

1 pineapple, peeled, cored & sliced ¼ in. thick
1 tbsp. brown sugar
2 tsp. ground cinnamon
½ tsp. ground ginger
1 tsp. salt

Directions

1. Toss the pineapple slices with the brown sugar, cinnamon, ginger, and salt.
2. Place the pineapple slices in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 120° F and the cooking time to 12 hrs.

Eric’s Tip: You can dip these pineapples in salted caramel for a super-sweet treat. I have also diced them up and used them in my grandmother’s snickerdoodle recipe!
Sweet & Spicy Beef Jerky

SERVES 8

Ingredients

Marinade
1 can cola
½ tsp. Worcestershire sauce
1 tbsp. kosher salt
1 tsp. freshly ground black pepper
½ tsp. garlic powder
2 tbsp. sriracha
2 tbsp. brown sugar

1 lb top round beef, sliced thinly

Directions

1. Combine the marinade ingredients in a saucepan.

3. Reduce the heat and let the marinade simmer for 10 mins. in the refrigerator.
4. Let the marinade cool.
5. Marinate the beef in the marinade overnight.
6. Remove the beef from the marinade and pat the beef dry.
7. Divide the meat onto the three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
8. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 165° F and the cooking time to 5 hrs.

Eric’s Tip: When I’m entertaining, I like to make a savory party mix and add small diced jerky to add that sweet and salty flavor.
SERVES 2

Ingredients

1 head of broccoli, cut into small florets
3 tbsp. extra virgin olive oil
1 package mac and cheese powder

Directions

1. Toss the broccoli florets with the olive oil and mac and cheese powder until the broccoli is well coated.

2. Place the broccoli florets in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.

3. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 130° F and the cooking time to 24 hrs.

Eric’s Tip: When I’m making old-school baked mac and cheese, I’ll crumble these broccoli chips and use them instead of breadcrumbs.
SERVES 4

**Wasabi Green Beans**

**Ingredients**

- 1 lb frozen green beans, thawed & patted dry
- 1 tbsp. sesame oil
- 1 tsp. salt
- 2 tsp. wasabi powder

**Directions**

1. Toss the green beans with the sesame oil, salt, and wasabi.
2. Place the green beans in a single layer on the Air Flow Racks.
3. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
4. Press the Power Button and then the Dehydrator Button and increase the cooking temperature to 120° F and the cooking time to 12 hrs.

**Eric’s Tip:** I like to crush these green beans up and use them as a breading for sautéed chicken cutlets. You can cut out the carbs while still having a crispy texture. Plus, you get that extra wasabi kick!
SERVES 2

**Ranch Kale Chips**

**Ingredients**

1. Place the kale in a large bowl.
2. Drizzle the olive oil over the kale and toss the kale until all the pieces are coated in the oil.
3. Sprinkle the ranch seasoning over the kale and toss the kale well to coat it in the seasoning.
4. Place the kale in a single layer on three Air Flow Racks. Place the Racks on the bottom, middle, and top shelves of the Power AirFryer Oven.
5. Press the Power Button and then the Dehydrator Button (4-hr. cooking time) and increase the cooking temperature to 125° F.

**Eric’s Tip:** I think that chips are the most underrated sandwich condiment. I love to smash these kale chips in a nice turkey, tomato, and avocado sandwich. Who needs the bacon?
