

Fresh from our family farm in Iowa, Farmer Jon's brings you these 25pks of Virtually Hulless Microwave Popcorn. Farmer Jon and his family has spent over 75 years perfecting the perfect kernel with a thin outer shell that virtually eliminates those pesky hulls that get stuck in your teeth. Our unique hybrid kernel virtually shatters when it pops leaving significantly less hull in the popped popcorn. Our Virtually Hulless popcorn is soft and tender when you bite into it but still has that crunch you expect when eating a snack.

Our **Movie Theater Butter** has the perfect amount of butter and salt. One bite and you will be hooked. If you love popcorn at the movie theater this is the popcorn for you.

Our **Light Butter** offers the same great flavor of movie theater butter with a little less salt and less calories.

If you love a little bit of popcorn with your butter, then our **Extra Butter** is the right choice for you.

Prefer Sweet and Salty? Our **Kettle Corn** is the perfect combination of sweet and salt.

For you all extreme butter lovers out there we suggest the **Extreme Butter**. This is the most intense butter flavor we produce. Your taste buds will never forget the extreme taste of all the butter on this popcorn.

Rest assured no matter which flavor you choose, you are sure to get our farm fresh Virtually Hulless kernel in each bag!
