READ ALL INSTRUCTIONS PRIOR TO USE.

BEFORE SETTING UP YOUR SHELTER:

- SELECT A LEVEL SITE FREE FROM ROCKS, BRANCHES AND SHARP OBJECTS.
- DO NOT SET YOUR SHELTER UP UNDER A TREE.

FIRE AND SAFETY PRECAUTIONS:

WARNING: KEEP ALL FLAME AND HEAT SOURCES AWAY FROM THIS SHELTER FABRIC.

EXTREME CAUTION: NEVER USE ANY FUEL BURNING OXYGEN CONSUMING DEVICES OR ANY DEVICES THAT PRODUCE ANY FUMES, INCLUDING STOVES, LANTERNS, CANDLES OR HEATERS IN OR AROUND YOUR SHELTER. THIS COULD RESULT IN CARBON MONOXIDE POISONING, INJURY AND/OR DEATH.

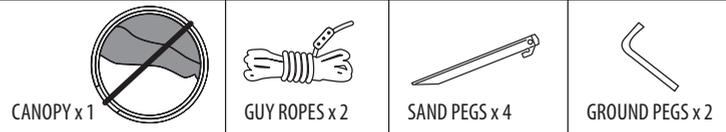

- ALWAYS ENSURE THE SHELTER IS FIRMLY SECURED TO THE GROUND BEFORE USE.
- THIS SHELTER IS DESIGNED FOR TEMPORARY USE ONLY AND NOT AS A PERMANENT STRUCTURE.
- DO NOT SMOKE IN OR NEAR THE SHELTER.

THIS SHELTER REQUIRES AN ADULT FOR SETUP AND PACK DOWN.

THE TENSION CREATED BY THE MECHANISM CAN CAUSE THIS SHELTER TO POP OPEN QUICKLY. ENSURE THE SETUP AND PACK DOWN AREA IS CLEAR.

WE RECOMMEND YOU PRACTICE SETTING UP THE SHELTER BEFORE FIRST USE TO ENSURE ALL PARTS ARE PRESENT AND TO FAMILIARISE YOURSELF WITH THE SETUP / PACK DOWN PROCESS.

WARNING: The UPF50+ rating is for the Shelter material only. The amount of sun protection received will vary depending on the correct positioning of the Shelter. Please note the suggested positioning.

UPF RATING

The UPF rating shown on this product takes into account direct U.V. penetration of the fabric, not reflected U.V. rays from grass, water or sand. We recommend the use of maximum protection sunscreen when outdoors. The Shelter material provides UPF50+, however it is important that you set the shelter up so that shade is maximized. It is common sense that if there is direct sunlight on occupants in the shelter then the material cannot afford you any protection. For further information on UVR Protection, please visit the ARPANSA (Australian Radiation Protection and Nuclear Safety Agency) website at www.arpansa.gov.au
