\*You may notice some discoloration of chocolate chips. **No cause for concern!** This is called Bloom, the result of using premium chocolate with hot caramel. The gourmet taste is not changed at all. Here's what happens: When our fresh hot caramel is rolled into chocolate the pure cocoa butter component of the chocolate melts without the whole chocolate chip melting. Sometimes it cools with a slight discoloration. We could prevent this with preservatives, BUT, not on Mrs. Prindable's products! Enjoy! Thank you for ordering Mrs. Prindable's products.
