

COOKING INSTRUCTIONS — *no oil needed!*

FOR ALL METHODS: Cook until golden brown. Let rest on a paper towel for 2 minutes after cooking.

 **AIR FRYER:** Cook frozen Bings on high (375°-400°F) for **12-16 minutes**.

 **OVEN:** Place frozen Bings on a sheet tray and cook for **20-25 minutes** at 425°F, flipping once halfway through.

 **PAN:** Place frozen Bings in pan and cook on medium for **20 minutes**, flipping once halfway through. Do not adjust the Bing – this allows the oil to render into the pan, creating a crunchy wrapper.

CAUTION: Keep frozen. Cook until internal temperature of 165°F has been reached. Contents will be HOT. Due to appliance variations, heating times and/or temperatures may vary.
