Thank you for purchasing Le Waf, the artisan waffle !!

How it all began.

Euro Snack was created in Monterey, California, where we first offered our freshly baked Le Waf out of a push cart at a Farmer's Market. Our traditional old-world recipe was an instant sensation. From local street fairs to the world's most prestigious events, Euro Snack has evolved into a true American success story. We now operate several retail locations in Lake Tahoe where we still serve the same quality artisan waffles that got us started in 1997.

What makes Le Waf so delicious?

Our secret is the European pearl sugar we fold into the dough. While melting during the baking process, it gives our authentic Belgian waffle its unique caramelized and crunchy taste. The result: an addictive taste and unbelievable flavor. Now you can enjoy this sensational eating experience anytime, anywhere. Cold out of the wrapper or warmed in a toaster, Le Waf is the perfect snack to eat on the go, no toppings needed. Feeling more creative? Our artisan Liège waffle are the perfect base for sophisticated and decadent desserts: à la mode, flambée, dipped in chocolate and drizzled with coconut flakes... set free your culinary imagination and indulge.

Storage.

Our artisan waffles are safe are room temperature and are delivered to you at ambient temperature. They are ready to enjoy straight out of the box. However, we recommend freezing them if you wish to extend the shelf life. Shelf life from shipping date: 12 weeks at room temperature, 12 months frozen.

Heating instruction.

Although Le Waf is delicious cold, out of the wrapper, as quick grab 'n go snack, it can also be warmed up to enhance your waffle experience. Just follow the instruction below:

1. Remove Le Waf from its cellophane wrapper.
2. Place in a toaster
3. Warm up for approximately 1 minutes depending on toaster
4. Eat as is or plate and add toppings for further delight
