Chicken Marsala

Cooking Instructions (from frozen):

Bring 3-4 quarts of water to a boil.

Add pouch to water and immediately reduce heat to low.

Simmer approximately 8-10 minutes. (Simmering is when small bubbles are rising from the bottom of the pot.) Stir occasionally to circulate water around the pouch. Do not overheat.

To serve:

Remove pouches from water using tongs and place them on a paper towel or plate. Be careful, pouches are very hot. Using scissors, carefully cut along the top of the pouch and pour the contents onto a serving plate.

Alternative stovetop cooking instructions:

Defrost pouch overnight in refrigerator, or in cold tap water.

Carefully cut the top of the pouch and transfer contents to a small saucepan.

Heat on medium heat, stirring occasionally for

4-6 minutes or until internal temperature is 165F. Stir, and let

stand for 1 minute before serving.

Note: Ovens and cookware vary. Heating time is approximate.

Be sure to heat food to a minimum of 165 F
