# HOW TO USE YOUR SPIRALIZER

## HOW TO SPIRALIZE VEGETABLES

**F** Noodle Blade

**G** Ribbon Blade

**H** Wide Ribbon Blade

## HOW TO USE YOUR SPIRALIZER

# 01

Drop the Noodle Blade into the Lid. From underneath, carefully rotate the Noodle Blade counterclockwise until it locks onto the Veggie Lid.

# 02

Place the Veggie Lid with attached Blade onto the Bowl and rotate it clockwise to the left until it is locked onto the Lid.

# 03

Then place Veggie Chute on top of the Lid and rotate it clockwise until it is locked.

# 04

Cut your zucchini into 3" pieces, making sure both sides are flat.

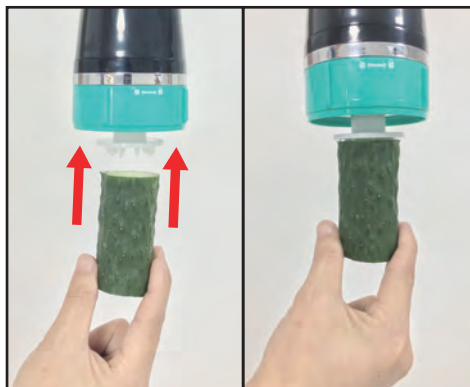

# 05

Attach the Veggie Base to the Motor Unit by rotating it clockwise.

# 06

Firmly press a piece of zucchini onto the fixed plate of the Veggie Base until it is secure.

# 07

Insert the Motor Unit with attached zucchini into the Chute. Press the Power Button, then slowly and steadily spiralize the zucchini.

# 08

Once the zoodles are spiralized and the Motor Unit has reached the bottom of the Chute, you can continue to spiralize more zucchini.

# 09

Rotate the lid counterclockwise with Noodle blade and food chute to remove from the bowl and detach the chute.

# 10

Release the blades by turning counterclockwise from underneath.

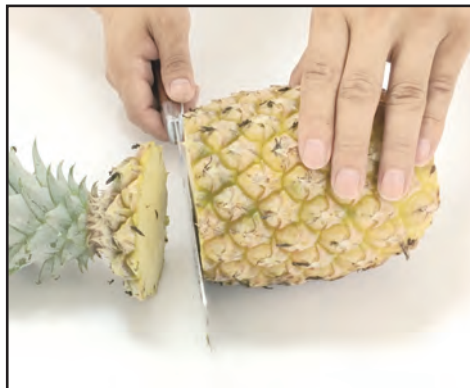

## HOW TO SPIRALIZE PINEAPPLE

# 01

Cut 1" off the top and bottom of the pineapple so that both sides are flat.

# 02

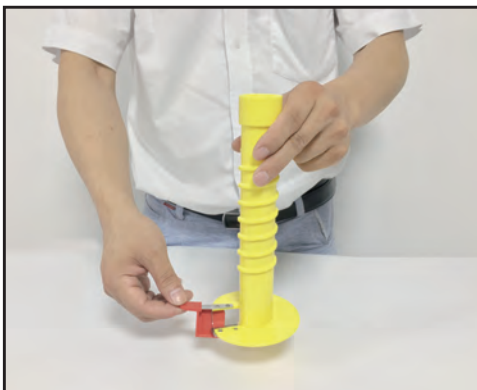

Firmly press one flat side of the pineapple onto the Fixed Plate until the pineapple is secured.

03

Drop the pineapple attached to the Fixed Plate into the Bowl.

04

Carefully remove the blade cover before use.  
Caution: Blades are extremely sharp.

# 05

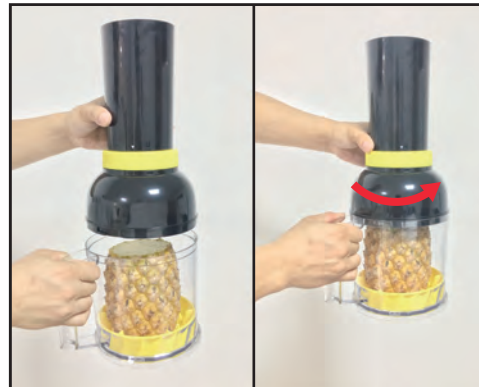

Turn Pineapple Chute & Lid upside down, then insert Spiral Rod (with the blade facing up) completely into the Pineapple Chute & Lid. Rotate the Dial on the Pineapple Chute clockwise until it locks onto the Spiral Rod.

**WARNING:** Use extreme caution in handling the Spiral Rod as the blade is extremely sharp.

# 06

Place the Pineapple Chute & Lid with attached Spiral rod onto the bowl and rotate the Pineapple Chute counterclockwise until it is locked on the bowl.

07

Attach the Pineapple Base to the bottom of the Motor Unit by rotating it clockwise.

08

Plug in your Motor Unit and press the Power Button then slowly and steadily begin feeding the Motor Unit through the Pineapple Chute.

## 09

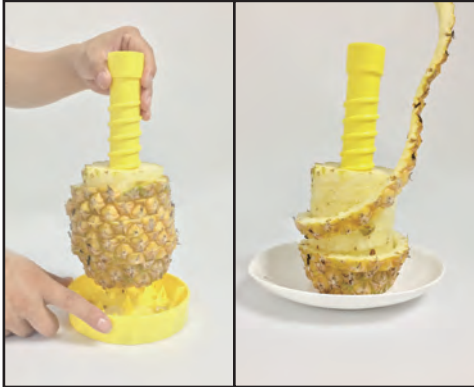

Rotate the dial on the Pineapple Chute clockwise until the Spiral Rod releases.

## 10

Once the Motor Unit is all the way through the pineapple and has reached the Fixed Plate, release your finger from the Power Button. Rotate the yellow Dial on the Pineapple Chute clockwise to unlock it from the Spiral Rod. Remove the Pineapple Chute & Lid and pull out the Spiral Rod with the attached pineapple and Fixed Plate.

# 11

Carefully remove the Fixed Plate from the pineapple's base, place on a plate, and remove the rind.

# 12

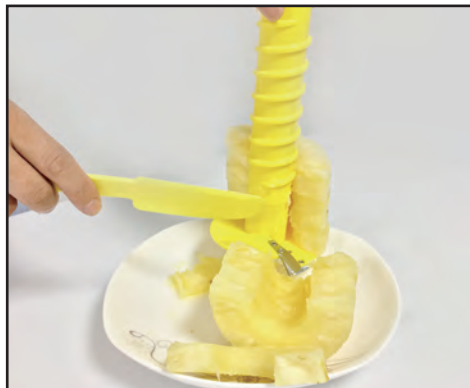

Holding onto the rod with one hand, use the Scraper to remove the pineapple from the Rod.

**WARNING:** Do not use your hands or fingers. Blades are extremely sharp.

# 13

Continue to remove the pineapple from the Rod using the Scraper until all the pineapple is removed.

**CAUTION:** Be aware of the blade while removing the pineapple. Blades are extremely sharp. Never use your fingers or hands. Keep out of reach of children.
