USER MANUAL

The King James Version as Read by
Alexander Scourby, The Voice of the Bible
Please carefully read this manual before operating this unit.

1. Summary
This device contains the entire audio version of the Bible, both the Old and New Testaments, totaling over 70 hours of audio. Please carefully read the instructions below, which explain how to use the Original GoBible and all its features.

2. Definition of Buttons

2.1 POWER Button:
Use the POWER button to turn on and off the device and also to play, pause and stop.

1.1.1 To turn the power on from the power off position, simply hold down the POWER button for two seconds.
1.1.2 Under Stop status: press and release POWER button to play the audio; Press and hold down POWER button for two seconds to power off the device. Note: the player must be in “Stop” mode or “Browse” mode in order to power down. The device will not power down from “Pause” mode.
1.1.3 Under Pause status: press and release POWER button to play the audio.
1.1.4 Under Play status: press and release POWER button to pause the audio; press POWER button for two seconds to go to “Stop” mode and return to the previous selected menu.
1.1.5 Under Browse status: press POWER key twice to play selected menu.
1.1.6 Under Browse status: press POWER key for two seconds to make the player power off.

2.2 MODE Button:
2.2.1 Under Stop, Play and Pause status: press and hold MODE key for two seconds to go to the Main Menu. You may search through the menu structure while you are playing the audio.
2.2.1 Under Browse status: press MODE key to select the highlighted menu item.

2.3 PREVIEW Button
2.3.1 Under Stop, Pause and Play status: Under Stop, Pause and Play status: press PREVIEW button to move back to the previous chapter.
2.3.2 Under Browse status: press PREVIEW button to return to the previous menu. If you entered the menu to browse for the first time after the player is powered on, press PREVIEW button to go back to the Main Menu. If you entered the menu to browse while the device is playing, press PREVIEW to return to the playing mode.

2.4 NEXT Button
Under Stop, Pause and Play status: Press NEXT button to move forward to the next chapter.

2.5 VOLUME + Button
2.5.1 Under Stop, Pause and Play status: Press VOLUME+ key to increase volume.
2.5.2 Under Browse status: use this button to scroll up the various menus. To browse up through menus rapidly, press and hold down VOLUME+ button.

2.6 VOLUME – Button
2.6.1 Under Stop, Pause and Play status: Press VOLUME – key to decrease volume.
2.6.2 Under Browse status: use this button to scroll down the various menus. To browse down through menus rapidly, press and hold down VOLUME- button.

2.7 HOLD/BOOKMARK Button:
2.7.1 Under Play status: Press and release HOLD/BOOKMARK button to create a bookmark for the current chapter. The user will see an “M” appear on the screen to denote the verse has been successfully bookmarked.
2.7.2 Press HOLD/BOOKMARK button for two seconds to lock the keyboard. The user will see a lock icon appear on the screen to denote the keyboard has been successfully locked. To unlock the keyboard, press and hold down the HOLD/BOOKMARK button for two seconds until the lock icon disappears.
2.7.3 In order to delete a bookmark, the user should go to where their Bookmarks are listed, highlight the desired bookmark to delete press and release the HOLD/BOOKMARK button to delete the bookmark. Under other Browse status: the HOLD/BOOKMARK button is invalid.
3. Operation and Function

3.1 Installation of battery
3.1.1 The player operates on one AAA Alkaline battery to maximize length of play.
3.1.2 On screen, there is a five level indicator which shows approximate remaining battery power. It will show the full battery when the battery is with 1.5 Volts. The indicator will be decreased with the decrease of battery voltage. A new AAA alkaline battery needs to be used to replace the old one when the power is almost used up and the index shows blank.

3.2 Power On
3.2.1 Press and hold down the POWER button for approximately two seconds to make the player power on. The screen will illuminate with the message below.

3.2.2 From this startup screen, the device will automatically take you to the Main Menu within a few seconds.

3.3 Operation
3.3.1 Play Old Testament and New Testament
This is for the user who knows exactly where in the audio they want to go. The GoBible Traveler is indexed to every chapter in the Bible and there are several ways to enter the audio. The first selection this user must make is on the Main Menu screen where they must choose between the Old and New Testament. Once that choice has been made by pressing the MODE button, a list of books for that Testament will appear on the screen.

3.3.1.1 Choose to Begin Play at the Beginning of A Book
If the user knows that they want to hear a book from the beginning, they should move the cursor to the book they want to play and press the POWER button twice to start. The starting point will be Chapter1 of the selected book. From this point the device will play continuously forward to the end of The New Testament and return the user to the Main Menu unless the user pauses or stops play.
3.3.1.2 Choose to Begin Play at the Beginning of a Chapter
If the user knows they want to hear a particular chapter, they should select the book by pressing the MODE button, thereby bringing them to a screen with the chapters of that book listed, then move the cursor to the chapter they want to play and press the POWER button twice to start. From this point, the device will play continuously to the end of the New Testament and return the user to the Main Menu unless the user pauses or stops play.

3.3.1.3 Browsing while listening
The user may browse the menus while listening to the audio. They should simply hold down the MODE button while the device is playing and the Main Menu will come to the screen. They may search and select from this point as they normally would. When they find a new place to begin listening, they should highlight the selection and press the POWER button twice. If they decide not to change from what they were originally listening to, they should press the PREVIEW button to return to the play screen that shows what they are currently listening to.

3.3.2 Bible In A Year
The Original GoBible is equipped with a special “Bible in a Year” feature that allows the user to listen to the entire Bible in 365 days if they follow the program, which entails approximately between 12-15 minutes of listening every day. Off of the Main Menu, the user must select "Special Features" by highlighting that selection and pressing the MODE Button, they must then select "Bible in a Year” by again highlighting that choice and pressing the MODE button. They will be taken to a list of 52 weeks and then after a week has been highlighted, the user should press the MODE button and a list of 7 days will appear on the screen. Once a day has been selected by highlighting it and pressing the MODE button, several chapters/selections will appear on the screen. The user should highlight the first selection and press the POWER button twice to start. When that selection has completed play, the device will return to that day’s selection list, so the user should scroll down to the next selection and press the POWER button twice to hear that
once and so forth.

3.3.4 Bookmarks

3.3.4.1 Bookmarks Set Up

In order to bookmark a chapter, press and release the HOLD/BOOKMARK button anytime the device is playing. The letter "M" will be displayed on the screen. This indicates that the chapter has been successfully bookmarked.

3.3.4.2 Play Bookmark

From the Main Menu the user must select “Special Features” by pressing the MODE button and then selecting “Bookmarks” and pressing the MODE button again. A list of the user’s current bookmarks will appear. Note: The GoBible Traveler can support 36 bookmarks. To listen the user should move the cursor to the bookmark they want to play and press the POWER button twice. The device will begin play from that verse and it will play continuously to the end of the New Testament and return the user to the Main Menu unless the user pauses or stops play.
3.3.4.3 Deleting a Bookmark
After entering the Bookmark menu, select the desired bookmark to delete and press and release HOLD/BOOKMARK button.

3.3.5 Backlight Timer
The user may adjust the time the backlight timer stays illuminated. After selecting “Backlight” Timer from the Main Menu, a screen will come up which will show what the current Backlight Timer is set for. Please note that the default setting is 30 seconds. Press the MODE button from this screen and you will be taken to a screen that will allow several choices as to the duration of backlight illuminations. Move the cursor to the desired selection and press the MODE button. The device will go back to previous screen automatically and the new backlight time will be displayed. To return to the Main Menu from that screen, press the PREVIEW button.

3.4 Power Off
3.4.1 Press the button “POWER” for two seconds to turn off the machine under menu mode or stop status.
3.4.2 The device will power off automatically if there is no operation for 5 minutes under menu mode or stop status.

4. Attention: please remove the battery if you will not using the GoBible for an extended period time.
