Size: W8.5" x H11"

Client: Samsung

Date: 01.29.13

Instructions:

Note: Printer responsible for trap. A minimum of 3 complete samples due to Ignite.

# Getting to Know the Samsung Galaxy Centura™

## Google Play™ Store — Customizing and Personalizing

Customize your Samsung Galaxy Centura™ by downloading applications, games and more with the Google Play Store app. Simply press the Play Store icon on your Home screen and log in to browse and access over 700,000 applications.

## Tips on Entering Text Using Swype™

**Spacing Is Automatic:** When you finish a word, just lift your finger and start the next word.

**Capitalization:** Swype™ recognizes and capitalizes the first word of sentences. If you want to capitalize a word that isn't at the beginning of a sentence, just glide above the keyboard before gliding over the next letter.

**Contractions:** Swype recognizes most words that include an apostrophe.

**Punctuation:** Touch and hold a key to view the punctuation menu and make a selection.

**Error Correction:** If you make a mistake, double-tap the word you want to change.

## Adding and Removing Widgets

Widgets are self-contained applications that reside in your Applications tab, Home screen or extended screens.

### Adding a Widget

- Touch and hold on an empty area of the Home screen.
- On the Add to Home screen window, touch **Widgets**.
- Touch an available widget to place it on your current screen.

### Removing a Widget

- Touch and hold a widget until you can move it around on the screen.
- Drag the widget over the Delete tab and release it (both items will turn red).

*Note: This action does not delete the widget; it just removes it from the current screen.*
