POPROCK JUMBO STEREO

DIGITAL TREASURES

IMPORTANT: Please make sure that your PopRock Jumbo is fully charged before first use.

Charging the PopRock Jumbo
1) Open the Interface Cover.

2) Insert the Micro-USB end of the Charging Cable into the Micro-USB Charging Port.

3) Insert the USB end of the Charging Cable into a USB port on your computer. You can also use a USB-enabled wall charger.

4) A light below the Play/Pause button will glow steadily until the unit is fully charged, at which time the red light will go out.

5) You can use the PopRock Jumbo while it is charging.

6) When the battery is low and needs to be charged, the PopRock Jumbo will beep steadily and the light below the Play/Pause button will glow steadily.

Using a Single PopRock Jumbo in Standard Mode
Pairing the PopRock Jumbo with a Bluetooth-Enabled Smartphone, Tablet, or Other Device
1) Make sure the device with which you want to pair the PopRock Jumbo has its Bluetooth setting in the "On" position and that it is searching for devices.

2) Open the Interface Cover and switch your PopRock Jumbo on. The LED Indicator below the Play/Pause Button will blink steadily to show that the PopRock Jumbo is on and in pairing mode.

3) Find and select "Jumbo Stereo" on your device. The LED Indicator blinks quickly while it is pairing with your device.

4) The PopRock Jumbo will beep and the LED Indicator will blink slowly, about once every five seconds, to show that it is paired with your device.

Using Two PopRock Jumbos in Stereo Mode
If you have two PopRock Jumbos, they can be used together to produce rich, vibrant stereo sound. Here's how:

Connecting Two PopRock Jumbos to Work in Stereo Mode
1) Open the Interface Covers on both PopRock Jumbos.

2) Turn both PopRock Jumbos on within ten seconds of each other.

Turn On   **Be sure to turn both PopRock Jumbs on within ten seconds of each other.**   Turn On

3) The PopRock Jumbos will automatically connect with each other. You will hear a "Doo-Doo" sound when the speakers have successfully connected.

4) The PopRock Jumbo with the LED Indicator that is blinking the fastest is the parent speaker. The other one is the child. Use the controls on the parent speaker to Play/Pause music, adust volume, answer phone calls, etc.

5) You are now ready to pair the connected speakers with your Bluetooth-enabled device. Refer to the next panel for further instructions.

LED Indicator

Pairing Connected PopRock Jumbos with a Bluetooth-Enabled Smartphone, Tablet, or Other Device
1) Make sure the device with which you want to pair the PopRock Jumbo has its Bluetooth setting in the "On" position and that it is searching for devices.

2) Find and select "Jumbo Stereo" on your device. The LED Indicator on the parent speaker blinks quickly while it is pairing with your device.

3) The PopRock Jumbo will beep and the LED Indicator on the parent speaker will blink slowly, about once every five seconds, to show that it is paired with your device.

Using the PopRock Jumbo as a Phone or Tablet Stand
The PopRock Jumbo can be used as a handy phone or tablet stand. Simply adhere the suction cup to the back of your phone or tablet.
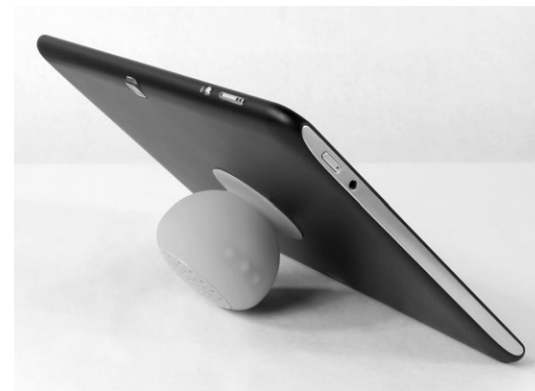

Troubleshooting
The PopRock Jumbo should work well within the effective range of approximately 33' (10m). If it does not, please try the following:
1) Should you experience any performance issues with your PopRock Jumbo upon first use, please reset it by turning the unit off and then back on.

2) To turn the volume up or volume down on the PopRock Jumbo press the volume up "+" button or volume down "−" button.

3) Make sure that your PopRock Jumbo is charged up and turned on.

4) Make sure that the device with which you want to pair has its Bluetooth setting in the "On" position and is within the effective range of 33' (10m).

5) Move your PopRock Jumbo and/or Bluetooth Device away from sources of electromagnetic interference such as cordless phones, microwave ovens, wireless network routers, or other Bluetooth devices.

6) If you hear a "pop" noise every two songs during music playback, your device is not fully compatible with your PopRock Jumbo.

7) If you have difficulty connecting your device with your PopRock Jumbo after it has been paired with your device, delete it from your device and re-pair.

8) If you have too many Bluetooth devices listed under "Devices" the pairing process may take longer or be unsuccessful. Delete one or more of the devices to improve pairing performance.

How to Properly Dispose of Batteries
This product contains a lithium-ion battery. To properly dispose of expired batteries, view your city's website or newsletter to find what guidelines, if any, should be followed and to make note of their hazardous waste collection days.

Technical Support
