

MOFT

Adhesive Foldable
Laptop Stand

—
USER MANUAL

FAQ:

1. Will the MOFT Stand work on my laptop?

The MOFT Stand is designed to be used on laptops with screen sizes between 11.6" and 15.6". However, we don't recommend this stand for laptops with vents on the MOFT coverage area (near the hinge; 22.4*17 cm2) as it might block the airflow.

2. How to clean MOFT Stand?

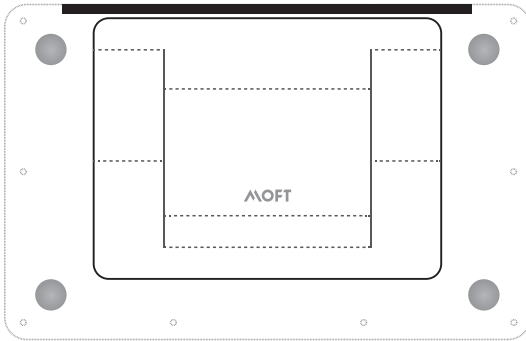

Please use the wet tissue to wipe off the dirt on the stand and the glue pad. After getting it dried, you can re-attach MOFT Stand on the bottom of your laptop.

3. Dose MOFT stand work on the laptop with a plastic case?

Yes. MOFT Stand pastes on the bottom of the laptop via removable glue, so there is no problem working on a plastic case.

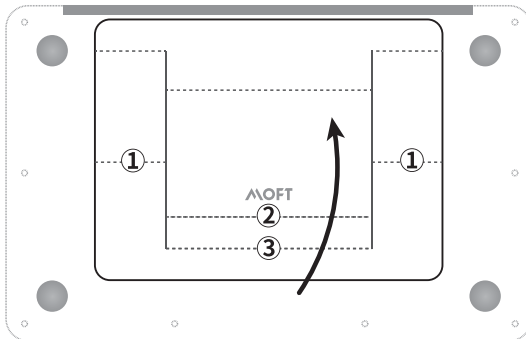

1. HOW TO INSTALL?

Stick to the back of the notebook and near the hinge.

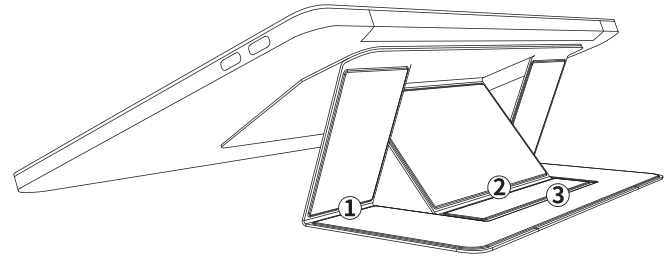

2. HOW TO USE?

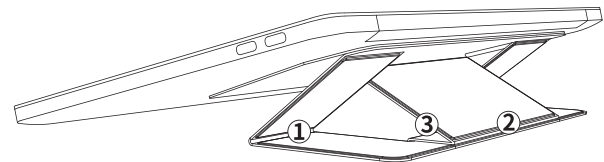

Folding outward along fold line 1.

2.1. HIGH-LIFTING MODE.

2.2. LOW-LIFTING MODE.
