\*Subject to the full terms available on reverse side.

# Important Information Listed Below Please Review

## **SYSTEM INSTALLATION, ACTIVATION AND USE.**

Customer must abide by Company's written requirements for the installation and use of the System outlined in the System User Manual. Customer acknowledges receipt of a copy of the system user manual with the delivery of the System. Company may re-publish the System User Manual from time-to-time and Customer shall be bound thereby upon Company's delivery thereof to Customer.

## **LIMITATIONS OF THE SYSTEM AND THE SERVICES.**

Company is not responsible for the promptness, sufficiency or adequacy of the action of any Responder. Company will not send any of its personnel to the Customer location in response to an emergency signal. Neither the System nor the Services can prevent death, bodily or personal injury, or any other harm or damage to the Customer or others who use them. The System and the Services may rely on the availability of the Customer's cellular network coverage, and the availability of global positioning system ("GPS") data to operate properly. There is always a chance that the System may fail to operate properly. The 911 emergency services line is an alternative to the System and the Services.
