

PowerPro 5-Device Charger FAQ's

- Q.** Can I use the cables that come with my phone on the PowerPro 5-Device Charger?
A. Yes, you can use virtually any USB or Type-C charging cable that you have, including those that come with your device.
- Q.** Does the PowerPro 5-Device Charger have an on/off switch?
A. No, there is not a Power on/off Switch.
- Q.** What does a Surge Protector do?
A. A surge protector defends electronics against the harmful effects of power surges and voltage spikes. Surge protectors can absorb and dissipate the power of a surge so that connected equipment is shielded.
- Q.** How many devices can I connect at once?
A. You can plug in up to 5 devices to the PowerPro 5-Device Charger at once using the 2 USB Ports, 1 Type-C Port, and 2 AC Outlets.
- Q.** Can I leave my PowerPro 5-Device Charger plugged in all the time?
A. Yes, there is no harm done if the PowerPro 5-Device Charger is left always plugged in.
- Q.** Will the PowerPro 5-Device Charger “overcharge” my cell phone or device?
A. The PowerPro 5-Device Charger is designed to optimally charge your devices. This means it will charge them quickly, as well as safely.
- Q.** Can I use the PowerPro 5-Device Charger outdoors?
A. The PowerPro is designed for indoor use only in dry locations.
- Q.** Can I plug an extension cord into the PowerPro 5-Device Charger?
A. It is not recommended to plug additional extension cords into the PowerPro 5-Device Charger or daisy chain multiple PowerPro units together.
- Q.** Can I plug a refrigerator into the PowerPro 5-Device Charger?
A. The PowerPro 5-Device Charger is not designed for large appliances such as stoves, over the range microwaves, refrigerators, AC units, etc.
- Q.** Can I use the PowerPro 5-Device Charger Internationally?
A. Yes, the PowerPro 5-Device Charger is Dual Voltage and can be used internationally with the appropriate plug adapters.
