

AirPro™

Quick Start Guide

TECH SPECS

Model: LIM-AP4-XXX

Battery Capacity: 4,000mAh | 3.7V

Recharging Time (From 0%): 2-3 Hours

Battery Level Display: 5% - 100%

Type-C: 5V/2A (Max)

USB Output: 5V/2.4A (Max)

Max Operating Pressure: 120 PSI / 8.3 bar

Max Instant Pressure: 150 PSI / 10.3 bar

Air Pressure Range: 3-150 PSI / .2-10.3 bar

Range Resolution: 0.5 PSI / 0.05 bar

Air Pressure Tolerance: ±1.5%

Product Working Temperature:

32°-104°F (0°-40°C)

Charge Operating Temperature:

32°-113°F (0°-45°C)

Discharging Operating Temperature:

14°-140°F (-10°-60°C)

Flashlight: 25 Lumens

Flashlight Modes: On | S.O.S. | Strobe

Dimensions: 6.43" x 2.76" x 2.13"

Weight: 0.95 lb

WHAT'S INCLUDED

A. (1) AirPro™

B. (1) Storage Bag

C. (1) 12" Type-C Charging Cable

D. (1) 1-Port USB Car Charger

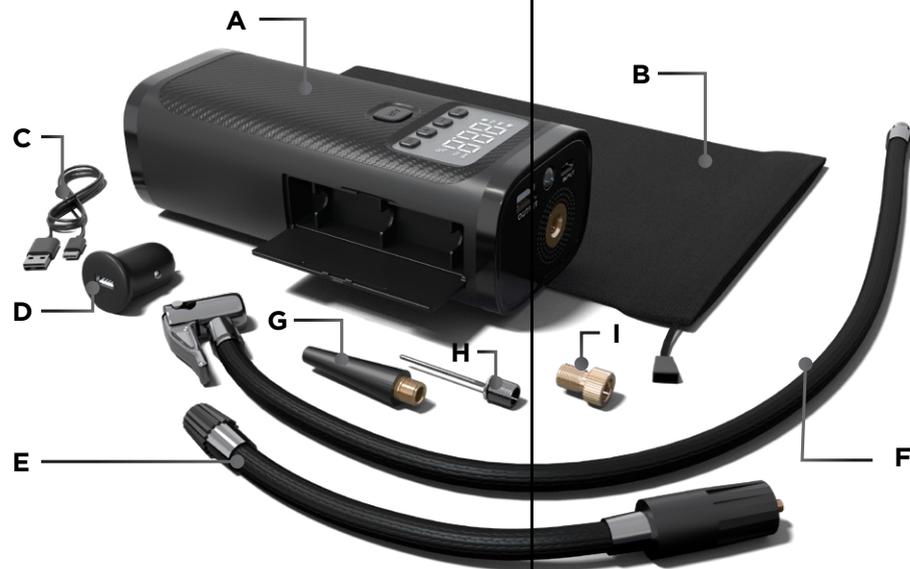

E. (1) 8" Hose

F. (1) 24" Hose with Air Chuck

G. (1) Inflatable Adapter

H. (1) Ball Adapter

I. (1) Bike Tire Adapter

COMPONENTS

1. USB Charging Port (Output)

2. Flashlight

3. Threaded Air Hose Connection

4. Type-C Port (Input)

5. Exhaust

6. Adapter Storage Door

7. Adapter Storage Slot

8. Control Panel

9. Air Compressor Mode

10. Digital Display

11. Unit of Measurement

ADAPTER COMPATIBILITY

Air Chuck

Cars, Trucks, Trailers, ATVs, Motorcycle Tires & more.

Inflatable Adapter

Pool Tubes, Floats, Balloons, Toys, etc.

Ball Adapter

Basketballs, Soccer Balls, Footballs, Volleyballs, etc.

Bike Adapter

Bicycle Tires

CONTROL PANEL

AIR

Press:
Power AirPro On
Press & Hold (2 Seconds):
Activate Air Compressor

SET

Press:
Switch Pump Modes
Press & Hold (2 Seconds):
Switch PSI / BAR

-

Press:
Decrease 1 PSI / .1 bar
Press & Hold:
Continual Decrease
Until Released

+

Press:
Increase 1 PSI / .1 bar
Press & Hold:
Continual Increase
Until Released

LED

Press:
Switch Light Modes
Press & Hold (2 Seconds):
Turn Off Without Cycling
Through the Light Modes

HOW TO USE

Powering On The AirPro

Press the **AIR** button

- The battery level will display for 5 seconds.
- The Car icon and current PSI will illuminate on the Digital Display. The Digital Display will read "0" if nothing is attached to the AirPro. The default unit of measurement is set to PSI.

*The AirPro will automatically shut off after being idle for 60 seconds.

Adjusting the Modes

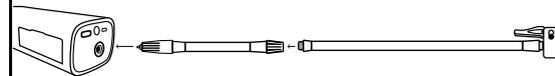

Use the **SET**, **+**, and **-** buttons to adjust the PSI/BAR setting to the desired level. Refer to the Control Panel instructions (left).

DEFAULT SETTINGS			
	MODE	PSI	BAR
	Car	36	2.5
	Motorcycle	36	2.5
	Bike	60	4.1
	Ball	8	.5

Connecting The Air Hose

Screw the end of the 8" Hose into the AirPro's Threaded Connection.

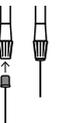

The 24" Hose with Air Chuck can be used as an extender to create a 32" hose.

Connecting The Adapters

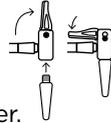

8" Hose:

- Screw the threaded end of the Adapter into the end of the 8" Hose. Do **NOT** over tighten the Adapter.

24" Hose with Air Chuck:

- Open the Lever of the Air Chuck and insert the threaded end of the Adapter.
- Close the Lever to secure the Adapter.

Checking the Tire Pressure

- Connect both the 8" and the 24" Air Hoses to the AirPro.
- With the Lever open, connect the Air Chuck to the vehicle's air valve. Close the Lever. The Digital Display will illuminate the current PSI.

Using The Air Pump

- Power on the AirPro, adjust the modes, and connect the Air Hoses.
- Press and hold the **AIR** button to activate the air compressor.
- The air compressor will automatically shut off once the desired PSI/BAR has been met.
 - * Press the **AIR** button to manually turn off the air compressor.

Notes: When using the air compressor for extended periods of time, It is recommended to allow the unit to cool after 8 minutes has surpassed to prevent over-heating.

Always refer to the manufacturer's recommended PSI level for the item being inflated.

Using The Flashlight

- Press the **LED** button once to turn on the Flashlight.
 - Single press the **LED** button to cycle through the light modes.

- Press and hold the **LED** button to turn off the Flashlight without cycling through the light modes.

Using The Power Bank

- Plug a USB cable into the USB Charging Port and into a device.
- Press the **AIR** or **LED** button. The device will begin to charge.

Recharging The AirPro

Use the included Type-C Charging Cable and 1-Port USB Car Charger or another compatible USB charger.

Air Compressor Built-In Protection Codes

E01 | Protection Type:
Battery Over-Temperature Protection
Troubleshooting: Turn off the AirPro and allow 10 minutes to cool down.

E02 | Protection Type:
Motor Over-Temperature Protection
Troubleshooting: Turn off the AirPro and allow 10 minutes to cool down.

E03 | Protection Type:
Leakage Protection
Troubleshooting: Disconnect and reconnect the Air Hose.

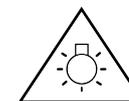

SAFETY INFORMATION

By using the Limitless AirPro, you hereby agree that Limitless Innovations, Inc., an Illinois corporation and its affiliates ("Limitless") shall have no liability for any losses associated with property damage, personal injury or loss of life that are incurred by you or by any third party in connection with or relating in any manner whatsoever to your use of the Limitless AirPro. By using the Limitless AirPro, you hereby agree at all times to comply fully with all safety warnings, operating instructions and general safety information in this user manual. By using the Limitless AirPro, you further agree to hold harmless Limitless, (and Limitless' officers, directors, shareholders and employees) in connection with any losses sustained by you (including, without limitation, losses arising in whole or in part from property damage, personal injury or loss of life) relating in any manner whatsoever to your use of the Limitless AirPro.

WARNINGS

- Do **NOT** leave the AirPro unattended during inflation.
- Limitless AirPro is **NOT** a toy and should be kept away from children.
- Do **NOT** use the Limitless AirPro near a magnetic or electric field.
- Do **NOT** use the Limitless AirPro in direct sunlight or extreme heat for extended periods of time.
- Do **NOT** use the Limitless AirPro if it has been damaged and/or modified.
- Do **NOT** subject the Limitless AirPro to harsh chemicals.
- Do **NOT** submerge the Limitless AirPro or its accessories in water.
- CAUTION:** The surface around the Threaded Air Hose Connection may be hot while the air compressor is in use.
- CAUTION:** Risk of fire and burns. Do **NOT** open, crush, heat above 140° F (60° C) or incinerate. Follow manufacture's instructions.
- Do **NOT** insert any foreign objects into the openings or port of the Limitless AirPro.

- Do **NOT** charge the Limitless AirPro in high humidity conditions.
- Do **NOT** attempt to replace the battery as it is a non-serviceable part.
- Do **NOT** attempt to disassemble, repair, or open the Limitless AirPro or its accessories in any way.
- Do **NOT** use at an altitude higher than 6,562 feet (2,000 meters).
- Do **NOT** paint or apply coatings to the Limitless AirPro as you might affect moving parts or damage internal components.
- Do **NOT** use third party power supplies or non-approved adapters with the Limitless AirPro.
- Batteries should be recycled or disposed of, as per state and local guidelines.

- Do **NOT** stare into beam.
- Turn off the lamp before opening.
- Use eye protection during servicing.
