RECHARGING A DEVICE

First, determine which charging connection the device is compatible with: Micro, Lightning®, or Type-C.

If Type-C or Lightning®, use one of the built-in cables (*pictured below*).

1. Locate the appropriate cable by removing it from the Built-In Cable Storage.
2. Plug the Cable Connector into the charging port of the device. The device will begin to charge. If the device does not begin to charge, check the connection and the battery level of the CreditCharge 5k.

If Micro, use the included 4" Micro Charging Cable.

1. Plug the Type-C Connector into the Type-C Port of the CreditCharge 5k.
2. Plug the other end of the Micro Charging Cable into the charging port of the device. The device will begin to charge (*pictured below*). If the device does not begin to charge, check the connection and the battery level of the CreditCharge 5k.

TIP: The Micro Cable can be folded backwards to simplify charging & carrying the device.
