

Frequently Asked Questions:

Arlo Pro 3 Floodlight Camera

This FAQ applies to the Arlo Pro 3 Floodlight Camera.

What are the key features of the Arlo Pro 3 Floodlight Camera?

- 100% wire-free
- Bright LED-powered floodlight
- Built-in 2K video with HDR
- Rechargeable Battery
- Connects directly to Wi-Fi
- Arlo Secure trial included

Is a subscription required for my Floodlight camera to work after the 30-day trial ends?

No. A subscription is not required for your Floodlight camera to work after the 30-day trial period. Without a subscription, you will continue to receive notifications when motion is detected and be able to view your camera's live video feed. However, a subscription is required to maintain premium features like Video Cloud Storage, Interactive Notifications, Video Object Detection, and more.

How bright is the floodlight?

The floodlight can be adjusted up to 3000* lumens (lm) of brightness when connected to the Arlo Outdoor Magnetic Charging Cable. Without the cable, you can adjust the brightness up to 2000 lm.

You can also use the Arlo Outdoor Magnetic Charging Cable¹ or Arlo Solar Panel Charger¹ to keep your camera outdoors with continuous power.

Can I adjust the brightness?

Yes. You can adjust the brightness between 5-100% through the Arlo Secure App.

Can I set the floodlight to trigger when motion is detected?

Yes. The floodlight will trigger when motion is detected within the camera's field of view.

What are the benefits of 2K resolution in a security camera?

2K means you can see more details in every image, even when zoomed in, allowing you to capture more details that matter.

Can I separate the camera from the floodlight?

No. The camera and floodlight are integrated together in the Arlo Pro 3 Floodlight Camera.
