LED CANDLE SPEAKER

Model: iBT100

CHARGING THE UNIT

Connect one end of the included USB-C charging cable to the USB-C Charging Port on the back of the unit. Connect the other end to a USB AC adaptor (not included) or the USB charging port on your computer/laptop.

CONNECTING TO BLUETOOTH

The first time the unit is powered, it will enter Bluetooth pairing mode. Select 'iHome iBT100' on your device's Bluetooth menu to connect. To manually pair, press and hold the Bluetooth button  2 seconds. To reset Bluetooth pairing history, press and hold the Bluetooth button  for 10 seconds.

LIGHT MODE BUTTON

With the Power switch in the ON position, press and hold the Light button  to activate the light. Press the Light button  to choose from 4 light modes: Candle flicker bright, Candle flicker dim, Night light bright, Night light dim, and OFF. Press the light button to cycle through each mode.

LED STATUS

Charging Indicator:	Bluetooth Indicator:
RED LED on (when unit is OFF): Unit is charging	Flashing Blue LED: Unit is in pairing mode
LED OFF: Unit is fully charged	Solid Blue LED: Bluetooth is connected
Fast Blinking Red LED: Battery low	Slow Blinking Blue LED: Auto-linking mode

WIRELESS STEREO

The iBT100 models are wireless stereo compatible. (Requires 2 units.)

- Pair one unit to BT device.
- To initiate wireless stereo pairing, press and hold BOTH the BT button AND the Light buttons together for 2 seconds on each unit. When the two units are wireless stereo connected, would announce "Left Channel", "Right Channel" respectively.
- Once two models have been successfully paired with the wireless stereo function, the pairing will be restored automatically when both units are powered on and in-range.
- To remove wireless stereo, reset Bluetooth pairing history, press and hold the Bluetooth button  for 10 seconds.

INTERNAL RECHARGEABLE LITHIUM-ION BATTERY

This device uses an internal non-replaceable rechargeable lithium-ion battery that should last the lifetime of the device. If you suspect your battery may be dead, try charging it for an extended period of time and try resetting the unit.

WARNING/DISPOSAL OF UNIT

Do NOT attempt to change the battery. Doing so will void the warranty and could cause injury and damage to your device. To dispose of the unit, follow the instructions below:

- Never dispose of used batteries/electronics with ordinary solid wastes, since they may contain toxic substances.
- Always dispose of used batteries/electronics in accordance with the prevailing community regulations.
- Many electronics retailers now recycle batteries and other electronic components at no charge. To find a drop-off location near you, visit www.call2recycle.com

GENERAL BATTERY PRECAUTIONS

- Never use or charge a battery if it appears to be leaking, discolored, deformed, or in any way abnormal.
- Never disassemble the unit or attempt to remove battery as that could cause leakage of alkaline solution or other electrolytic substances.
- Avoid charging a rechargeable battery when the temperature is not within 5°C - 35° C (41° - 95° Fahrenheit).
- Never expose a battery to any liquid.
- Never expose a battery to excessive heat such as direct sunlight or fire. Never use a battery pack in an unventilated vehicle where excessive internal temperatures may be encountered.
- Always keep batteries out of the reach of infants and small children.

IMPORTANT SAFETY INSTRUCTIONS

Please heed all warnings, read and follow all instructions and keep these instructions handy for future reference.

1. Do not use this product near water.
2. WARNING: To reduce the risk of fire or electric shock, do not expose this product to rain or moisture.
3. Unplug unit and clean only with damp cloth. Stronger cleaning agents, such as Benzene, thinner or similar materials can damage the surface of the unit.
4. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
5. Heat - This product should be situated away from heat sources such as radiators, heat registers, stoves or other appliances (including amplifiers) that produce heat.
6. Only use attachments/accessories specified by the manufacturer.
7. Unplug this product during lightning storms or when unused for long periods of time.
8. Damage Requiring Service - This product should be serviced by qualified service personnel when:
 - Plug has been damaged.
 - Objects have fallen into or liquid has been spilled into the enclosure.
 - The unit has been exposed to rain. The unit has been dropped or the enclosure damaged.
 - The unit exhibits a marked change in performance or does not operate normally.
9. No naked flame sources, such as lighted candles, should be placed on this product.
10. Attention should be drawn to the environmental aspects of battery disposal.
11. This product is suitable for use in tropical and/or moderate climates.
12. Charging the device should always be conducted under adult supervision.
13. Never leave a charging unit unattended. Always charge lithium devices on a non-flammable surface - wooden tables, bedding and carpeted floors are not recommended charging surfaces.

WARNING:

- Do not dispose of batteries in the household trash or fire.
- If the unit is to be unused for an extended period of time, such as a month or longer, charge the unit fully before storage.
- Always use a UL/ETL certified charging adapter (not included), and the supplied USB charging cable.

FCC Information

This equipment complies with FCC RF radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules, operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
- Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
 - NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
 - Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

ISED Information

This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

- (1) This device must not cause interference.
 - (2) This device must accept any interference, including interference that may cause undesired operation of the device.
- The device complies with ISED RF exposure requirement, users can obtain Canadian information on RF exposure and compliance.
- Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
- Cet équipement est conforme aux limites d'exposition aux radiations IC CNR-102 établies pour un environnement non contrôlé.
- L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
- (1) L'appareil ne doit pas produire de brouillage;
 - (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
- L'appareil est conforme aux exigences d'exposition RF ISED, les utilisateurs peuvent obtenir des informations canadiennes sur l'exposition aux RF et la conformité.
- Tout changement ou modification non expressément approuvé par la partie responsable de la conformité peut annuler l'autorité de l'utilisateur à utiliser l'équipement.
