

# No Drip Umbrella Instructions

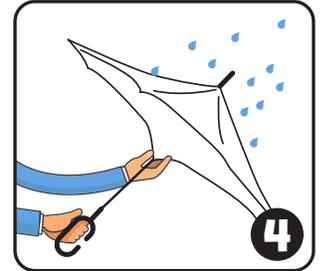

1. Remove Umbrella from carrying bag by pressing and sliding the draw string button to release bag. Expand neck of bag and remove umbrella.

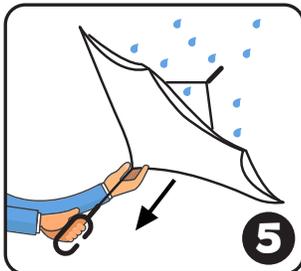

2. To open, unwrap Hook & Loop Strap at top of Umbrella. Press & release Red Button above C-shaped Handle and guide sliding base upward until it snaps into place.

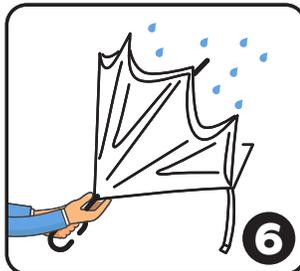

3. To close, locate Red Button on top of the sliding base of Umbrella.

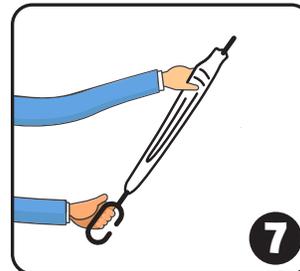

4. Press Red Button to release/collapse base of Umbrella.

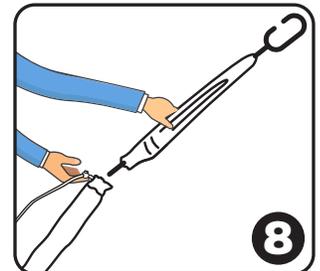

5. Guide base of Umbrella downward as it begins to invert and close upward.

6. Continue to guide Umbrella downward until base connects with top of C-shaped Handle.

7. Wrap Hook & Loop Strap at top around Umbrella until it is fully tight. The wet side of the umbrella is now fully inverted exposing only the dry side.

8. Insert Umbrella back into carrying bag by sliding end of Umbrella with Hook & Loop Strap into open end of bag. NOTE: Be sure to wrap Umbrella tightly to fit into carrying bag.

\*Please Note before wrapping Hook & Loop Strap around Umbrella and standing it with the handle upright, drain the excess water that is captured in the Umbrella.
