

No Drip Auto Open Umbrella Instructions

1. Remove Umbrella from carrying bag by pressing and sliding the draw string button outward to release bag. Expand neck of bag and remove Umbrella. Remove and discard the protective bubble wrap cover from the C-shaped Handle.

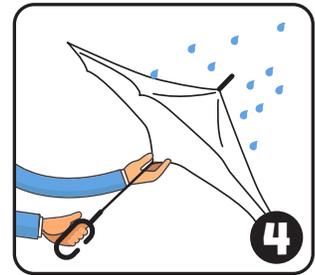

2. To open, unwrap Hook & Loop Strap at top of Umbrella.

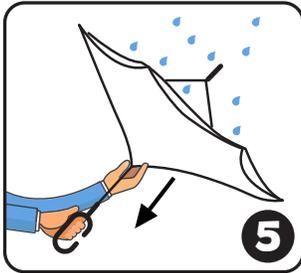

3. With Umbrella facing away from you, Press Red Button above C-shaped Handle. The Umbrella will open automatically.*

*Please use caution when opening Umbrella as it opens quickly.

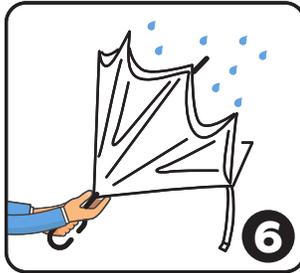

4. To close, wrap your hand around the sliding mechanism at top of Umbrella.

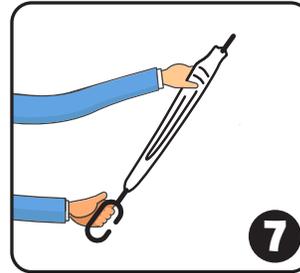

When closing, please make sure to not hold the Red Button.

5. Guide sliding base of Umbrella downward as it begins to invert and close upward.

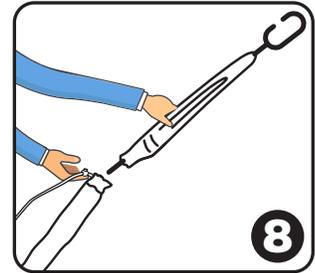

6. Continue to guide Umbrella downward until sliding mechanism connects with top of C-shaped Handle.

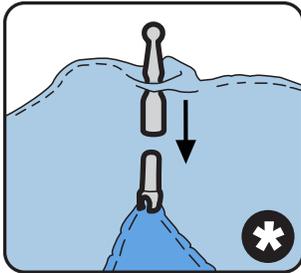

7. Wrap Hook & Loop Strap at top around Umbrella until it is fully tight to be able to fit into carrying bag. The wet side of Umbrella is now fully inverted exposing only the dry side.**

** Please Note: Before wrapping Hook & Loop Strap around Umbrella and standing it with the C-shaped Handle upright, drain the excess water that is captured in the Umbrella.

8. Insert Umbrella back into carrying bag by sliding end of Umbrella with Hook & Loop Strap into open end of bag. Press and slide the draw string button inward to close bag.

NOTE: Removable Truss Tips are designed to come off. If tips happen to come off, simply reattach as illustrated.
