Won't be without these.....	Just returned from a Baltic vacation where we spent hours walking through cities, a lot of it on cobblestones. Everyone else was complaining about their legs and feet aching but I just kept going - no discomfort whatsoever. I'm convinced it's the Circulation Support. Legs never feel tired.....	5	7/8/2019 5:19:17 PM
These are amazing	I have been having leg aches for over a year. Have gone to the doctor and even had an ultra sound to check my circulation and they found nothing. I started on these and the leg aches are gone.	5	7/1/2019 8:48:18 PM
ACTUALLY WORKS!	I ordered and within two weeks my legs started feeling re-energized and painful cramping stopped. Circulation MUCH better! I loved it so much ordered two more - including one for a friend!	5	6/30/2019 10:19:47 PM
5	Work great, relieve night leg pain. Thank you.	5	6/22/2019 8:12:00 PM
I ran out. Never again!	I will never be without this product. I take several Andrew Lessman products. Guess I thought I bought a backup for Circulation and Vein Support. Did not and I paid the price. After a week, my legs felt heavy and hurt. This product was on back order and so glad I received it. Now my legs are pain free, can walk long distances, hardly any varicose veins and no swelling. I am 68yo and run circles around my friends. Thank you, Andrew for a great product. I will not run out again!	5	6/17/2019 4:38:37 AM

Wont be without it!	This product has helped with leg pain for years now. So glad I found it.	5	6/15/2019 6:26:52 PM
It really helped	My varicose veins definitely improved and I continue to use.	5	6/15/2019 4:11:39 PM
No more toe cramps!	I get awful toe cramps during the night whenever I run out of these capsules. As soon as I go back on them, the cramps stop. Thank you Andrew and HSN.	5	6/14/2019 1:17:07 PM
Quality product	This is my 2nd order of this product. My lower leg swelling went away after using this product.	5	6/13/2019 1:23:29 PM
No Swollen Heavy Legs	Not only were my ankles gone from sitting all day, but swollen ankles was a side effect of one of my meds. I was in pain and changed my med for a less effective one. I was so embarrassed I would only wear long pants or long dresses. I am happy to say I have not had any ankle swelling in over a year. Oh and did I mention I am back on my original med without swollen ankles. I can wear whatever I want because I have my legs back. Thank you Andrew. Recommended to my doctor for his swollen ankles.	5	6/12/2019 9:39:26 PM
Great/Amazing	So happy with this product!! No more swollen calfs and ankles. No more tiredness or aching in my lower legs. I am an avid walker (walk an hour daily) and this supplement is amazing. Will not be without Thank you Andrew!	5	6/9/2019 7:04:26 PM
Circulation and Vein Support	Andrew Lessman herbals are the best ever. I cant go with these. I order D3, Alaska Oil, Prostrate and Liver Herbals for my husband and it brought his numbers down, CQ 300. And many more. Its expensive but your health is well worth it.	5	6/5/2019 4:50:53 AM
Color Me Surprised!	I started using this product about a year ago when I was experiencing terrible cramping in my feet at bedtime. This required me to get up out of bed and walk around the house in the middle of the night for 15-20 minutes until the cramping stopped. Within the first week of taking this magic pill, the cramping got better. After 3 weeks, I was surprised most mornings when I woke up and realized I hadn't had any issues with my feet! When I take it regularly, all foot troubles are gone!	5	6/5/2019 2:54:34 AM
Love	I have been using this product for several years and it works!	5	6/4/2019 7:21:12 PM
Happy Legs, Happy Feet	The product works!!! Being a teacher and being on my feet most of the day for several years, my legs and feet began to ache. On the first evening, this product gave me relief! I recommend taking it at least by lunchtime so you can have happy feet and legs when you get home!	5	5/21/2019 10:12:38 PM

Awesome!	I stand all day at work and at bedtime my legs always ached, and I also have really bad varicose veins, so bad that I never leave the house in shorts. I decided to try these and got them in January of this year. I am so glad that I did. After about a week my legs did not hurt in the evening at all. Now after about 5 months of taking these my varicose veins have decreased so much that my spouse even commented how much better my legs are looking. Thank you for an incredible supplement.	5	5/20/2019 12:18:53 AM
Leg swelling diabetic	I bought this for my husband, only hoping for some help with his swollen legs, amazingly I can see his ankles for the first time in years! This supplement has passed my greatest expectations!	5	5/19/2019 10:52:53 PM
Knew it was GREAT; & Proved it to dad	I'm a long time buyer (30+) vitamins & etc.... of Andrew's. I will ONLY take what HE SELLS. I'm an educated patron & adore Andrew for the data about his products. After listening to my dad (84) be a major yenta about his body - I got him to take Circulation & Vein Support He complained about leg heaviness (he's frail & weighs nothing!). Within 2 wks he was complaint free. His recent resting ekg revealed a beautiful well working heart. He told his doctor his veins are thankful for ANDREW	5	5/11/2019 3:00:15 AM
best product ever	i use this product every day and will never be without them, i have bad arthritis in my legs and feet, after taking these capsules, the pain disappears for hours. i love Andrews products.	5	5/5/2019 5:52:48 PM
Never w/o this product	Reordered again just in time for it to be the today's special. Started getting restless leg syndrome from Latina med and didn't stop when I quit using it. Took 2 a day as 1 did nothing. Been using 2 pills a day for over a year. No more unwanted movement in legs. My calves are noticeably slimmer. Never will run out of this product. Can u do the same for my thighs Andrew lol.	5	5/4/2019 1:18:44 PM
Best ever!	I've been taking this for a few years now, and will never stop taking it. I have an inherited blood clotting disorder, so I thought this would be a good idea to take. Also, I have to sit a lot for my job, and this product really helps with leg swelling. Not only that, but I noticed the spider veins in my legs aren't as noticeable anymore! Lastly, and the most embarrassing thing that Andrew has mentioned before is that it helps with those horrible hemorrhoids. Trust me, it helps ;-)	5	4/28/2019 9:01:37 PM
Vitamins	I love these. Was out for a couple of months and noticed difference in my legs. I could not wait to get them again. Great product.	5	4/24/2019 4:21:13 AM

Helps with restless legs	Lessens leg twitching at night and better leg circulation.	5	4/19/2019 9:30:45 PM
My Legs are looking good....	This is my 2nd order of the vein support and my legs are looking healthy. I love the results.	5	4/12/2019 6:04:44 PM
What is left to say?	I have been taking ProCaps Labs supplements for at least 10 years. I'm currently taking 30 different kinds. Not a phonetic just healthier because of them. Quality is truly amazing. I went to a Specialist for a micro-nutrient level to be checked and was told it was 11,000 which the Dr. said was unheard of. That was 6 years ago. I'm highly allergic to unshelled fish but can take the Omega 3 fish oil caps because they'e so refined. I thank God for Andrew because he knows what he is doing & cares!	5	4/8/2019 6:11:54 PM

Total relief for restless leg syndrome	I have suffered with restless leg syndrome for years. After taking 2 capsules a day for 2 weeks all the symptoms are gone. To say I am pleased would be an understatement. Thank you so much for this product.	5	3/24/2019 4:31:55 PM
MY MIRACLE	After using this product for a couple of months, I noticed that I no longer needed to apply pain relief cream to my feet. My story. My truth.	5	3/21/2019 11:44:44 PM
Great product	I'm on my second bottle of these pills & I can tell a difference how my legs feel. I take 2 pills a day & my legs don't ache like they use too. I would recommend these to any person that has leg & vein problems.	5	3/20/2019 11:46:13 PM
A necessity for me!	If I ever happen to run out of this product, after a few days my legs will let me know why this product is so important for me. I used to have restless legs at night, and it was affecting my sleep even. I started taking this product and all my problems have gone away. I have recommend this to friends who have had my same problem, and they tried it and had the same great results as me!	5	3/19/2019 6:48:53 AM

No more jittery/jumpy legs	I have been taking Andrew Lessmans Circulation and Vein Support for 5 years and am very pleased with the results achieved. Some evenings I just had to get up from my chair or the couch and go to bed because my legs were so jumpy. Although not diagnosed with Restless Leg Syndrome, that feeling is gone now, taking this product. I love that Andrews products contain exactly what you need, the purest of product with no fillers. Thank you Andrew for dedicating your life to better ours!	5	3/2/2019 5:03:11 PM
Great Product	This was the first product that I tried with Andrew. I suffer from sever pain, which was arthritis developing. I moved from the southwest to the east coast and would be in pain everyday in the winter from the cold air waiting on platforms. Starting taking this and thought it was not working, as soon as stopped the aches in hip and legs was back. Ordered immediately. I will not be without this product. I always make sure I'm stocked. It truly does works for circulation in your legs.	5	3/1/2019 2:31:35 AM

My favorite of all Andrew Lessman products.	This is the one vitamin I will not do without. I tried it about seven years ago and every time I stop using it and start feeling poorly, I buy it, use it and feel so much better. It has taken away leg pain, and stress related chest tightness. This and the essential 1 vitamin with vitamin D are the two I'd get if I had to cut back on spending. I love all ProCapLab products. I just bought a bottle for my adult son, too.	5	2/24/2019 10:18:03 PM
Love	So far I have found this product to workAt night I get terrible cramps in my toes and the sides of my legs and after this no more! Truly an adocate	5	2/22/2019 1:06:44 AM

Wouldn't Be Without	My feet, ankles, & legs were swollen badly daily. Had desk job & long hours. Shoes no longer fit & feet hurt. Saw this on HSN & ordered. Never looked back. I see bones & veins again. Shoes fit! No more pain. I panic if I run low on these little miracle supplements!	5	2/20/2019 3:46:52 PM

Fabulous results.	I used to have leg pain, I thought it was just me. My ankle was red and now there are only small red spots, it has taken time, but I am still seeing improvement.	5	2/19/2019 9:18:26 PM
It Helps!!!	I take only Andrew's vitamins for all the obvious reasons: they are easy to swallow, digest, and they work! I, approaching 70 years old, started experiencing EXTREME leg and feet cramps, especially after attending the Met Opera in NYC (I go standing room). I decided to add this supplement a month ago. Three operas this week, NO LEG CRAMPS! WOW! Bring on Wagner's Ring Cycle starting in March...Thanks Andrew, I am ready!!!	5	2/17/2019 4:18:13 PM
Works great	I have MS and dont get around like I used to. This circulation and vein support help me tremendously! Thank you Andrew for this product and others that help keep my body working and my blood tests looking great. I feel so much better taking your vitamins and supplements.	5	2/16/2019 8:29:46 PM
Really Works!	I have used this product for over a year and it really does work. My legs and ankles never feel tired or stressed. Have told friends about it too.	5	2/14/2019 6:33:22 PM
smaller veins	The veins in my hands seem smaller. I'm 71 years old and they started looking big and ugly. I think this is helping. Have only been using it for about 2 weeks.	5	2/13/2019 1:17:49 AM
healthy legs	These pills do work. I was having trouble with putting my socks on, so I started taking these pills every day and I regained my ability to manage control of putting my socks on again. I love these pills and how they make my legs feel again. No more swelling.	5	2/12/2019 10:48:21 PM

Thank You	This product has changed my life in just over a week. I have a nephropathy in my hands and feet. I can go to bed now and pull the sheets up over my feet and it not hurt. I am still getting used to it hurting so much less and wishing for it to last. Please try it. I could not give a higher recommendation.	5	2/10/2019 12:53:57 AM
Love it!	I have been taking many of Andrew products and this is one I never want to be without. Thanks Andrew!	5	2/7/2019 3:51:44 PM
Leg pain gone!	This is a great product! I had swelling in my legs with pain.....I took this and swelling went down and leg pain left. I was going to an excercise class and someone mentioned to me I had small legs! I stopped taking this for a while, not for any reason but I forgot and the condition came back. I am a regular now and won't be with out!!	5	2/6/2019 3:06:04 AM
Capsules	Very helpful	5	2/4/2019 5:46:24 PM
No Tired Legs	Just as advertised. My legs would feel like dead weight after a flight or two of stairs. It was discouraging to do any cardio. Now I don't have that leg fatigue I used to have.	5	2/4/2019 12:50:47 AM
No aches	My legs ached and nothing I took seemed to help. Started taking these capsules about 2 years ago and the ache and tiredness of my legs disappeared. I'm able to exercise and walk my dog everyday with pain.	5	2/3/2019 8:43:24 PM
great	I can notice the difference big time in my legs.This is a reorder.	5	2/3/2019 6:10:39 PM
Quite a Difference	So glad I bought this. Prior to taking this I was having constant stiffness and pain in my legs. Since taking this flooke only a week my pain is markedly reduced and if it is any indication I can't wait to see even more improvement.	5	2/3/2019 3:11:41 AM
great product	I have been taking this wonderful supplement since 1998 and it has been a life saver, my legs are as strong as ever, I exercise every day in the gym on the tread mill and bike and also do walking and biking at home, no more swollen legs or aching legs, thank you Andrew for this wonderful product	5	2/3/2019 12:57:11 AM
Circulation vein support	I take many Andrew Lessman supplements but when he said in days I would feel a difference he wasn't lying. I suffer severe varicose Veins and my legs especially one of my legs feels tired and heavy. Within a few days that feeling disappeared God Bless you Andrew LessmanFor making this 65 year grandma be able to run with her two year old daily.	5	2/2/2019 8:41:32 PM

FANTASTIC PRODUCT.	I PURCHASED THIS AS A GIFT FOR MY FRIEND. SHE WAS SURPRISED TO RECEIVE IT. SHE TOLD ME THAT SHE NOTICED A DIFFERENCE IN HER CIRCULATION WITHIN 2 DAYS. SHE LOVES IT.	5	2/2/2019 7:45:04 PM
So great !	I need all the vein support I can get because I have a condition called Venous Insufficiency - very poor circulation. This formula really helps my feet and legs feel lighter and I am more active. The ingredients are a better combination than other products I have tried and my Dr approves. I will continue to take this forever. Thank you HSN	5	2/2/2019 6:58:37 PM
Love it	I noticed significant changes in my legs circulation whas a little skeptical at first so I ordered to smaller bottle but I will reorder and this time the largest size I definitely recommended thank you	5	2/2/2019 5:09:31 PM
It seems to be working	I have only been taking about a week, did not have any pain. But noticing dark areas are fading. One place where I had dark veins is a lot lighter. Take 2 a day as suggested.	5	2/2/2019 5:06:51 PM
AMAZING!	I am 43 years old and have had achy painful legs for a couple of years. I didn't know what the problem was. I thought exercising more would help but it just made the pain worse. I saw this product and read reviews and ordered it. The day it came I had exercised and my legs ached. I took it and within 20 mins my legs felt totally fine, actually they felt good! I never want to be without this supplement. I can't believe how fast it worked. I take it every day to avoid being in pain.	5	2/2/2019 4:39:17 PM
I can really feel the difference.	I recently purchased this product and I already notice the difference in my legs. My varicose veins don't hurt. I can stand for long periods of time with no discomfort and my legs (in general) feel really good. I can really feel the difference. Thank you.	5	2/2/2019 2:30:33 PM
Senior lifesaver	After less than a week, my legs no longer hurt at night keeping me awake. Amazing formula. I am 75 and highly recommend.	5	2/2/2019 2:14:27 PM
Great Relief	This product has helped my legs and feet be relieved of painful Charlie horses. I have been taking 2/day and rarely have any cramping at all. I still notice a little tingling at night but that is about it. Going from pain so bad that I would have to get out of bed and walk them out to no pain is amazing and a huge blessing. I will continue using this supplement and I dont want to be without them for fear of being in pain again. Thank you Andrew for caring about our health.	5	2/2/2019 12:35:47 AM
Good stuff	I've been taking circulation and vein for about a week and my legs feel must better than they did prior to take this product, I will be reordering soon.	5	2/1/2019 10:42:37 PM
Great results	My husband has very bad veins in his legs, resulting in a lot of swelling and discomfort. He started taking these capsules, 2 per day. In several days, his swelling had decreased, and he had much less discomfort. He will still need custom compression hose, elevation and medical followup, but I was amazed at the improvement.	5	2/1/2019 3:41:03 PM
Pain Free~~~Amen!	Thank you, Andrew, for all the uninterrupted dreams and deep sleep I now have after 48 hours of taking Circulation and Vein Support. The hundreds of panicky times trying to get out of bed and never again to fall to the floor rubbing my legs to ease the pain. The smile I have upon waking in the morning, after 12 years of being mentally exhausted from lost sleep and pain. Sonograms, second and third opinions that showed I didn't have clots as thought by 3 physicians. You gave me new lease on life.	5	2/1/2019 1:46:22 PM
Relief!!!	I have suffered with Restless Legs and terrible foot cramps. For the past 9+ years, I was prescribed cyclobenzepine. Helped with lwgs, but, not foot cramps. Nothing helped. I ordered this and began use 5 days ago. I stopped the medication after 3 days. My legs feel great and NOT 1 issue with foot cramps! The relief is miraculous! Another wonderful Lessman product! Thank you, Andrew! You're the best!	5	2/1/2019 1:17:23 AM
Excellent	I start using the products and I can tell the different in my legs.	5	1/31/2019 11:21:06 PM
It works	As always Andrew's product is a hit. Noticed a difference in my aching feet in just a couple of days.	5	1/31/2019 9:28:03 PM

Unbelievable relief from leg cramps	I was unable to take my blood pressure med because it caused terrible legs cramps. I decided to try these caps. I no longer am plagued with leg cramps and realized that I no longer have painful hemorrhoids. Im a lifetime customer! Thank you!!	5	1/31/2019 8:29:24 PM
Great Product	I use a variety of Andrew Lessman products. I have found them to be good. However, this product is fabulous. My leg cramping at night was completely gone in very short order. Since then I have not been without it. Thanks you Andrew.	5	1/31/2019 8:05:59 PM
Reversed diabetic complications	This miraculous product has improved my husbands feet and legs in 3 major ways. The foot neuropathy and electrical impulses have disappeared and he is off gabapentin. There was a blue staining on his feet and ankles from venous blood leaks. His doctor told him to expect the staining to spread up the leg, but in a few weeks it is almost gone. His ankles are thin and flexible. The doctor is amazed. He says no one at 80 with diabetes has skinny ankles. Thanks Andrew for great aging!	5	1/31/2019 7:00:24 PM
Best Supplement Ive Found	In 2013 I started having major problems with my leg circulation causing excessive ankle swelling. By chance, I came across this product while channel surfing. Decided to take a chance, even though I expected nothing. I just completed another new order making this 6 years of highly satisfied use. My Doctors are amazed at the difference this product has made in me. I recommend it to anyone suffering with circulation issues.	5	1/31/2019 4:39:11 PM
Am never without...	I take a few of Andrew Lessmans Products from time to time. This is the one product that I am never without. I have severe osteoarthritis and varicose veins, and Im only 51. I can feel when I have missed a couple days, so I try to make sure I take it every day. Hopefully he never changes or discontinues this product!	5	1/31/2019 3:01:31 PM
A product that made a difference	Bought as a refill for myself and my mother-in-law. We swear by it. I started taking Circulation and Vein Support over 2 years ago. My feet and ankles would swell to 2-3+ frequently. Since starting the product I have experienced Trace to 1+ swelling lasting 1-2 days just twice since starting the product. Thanks Andrew.	5	1/31/2019 2:27:25 PM
Miraculous	Within a week of taking this product, I could feel a change in my feet. That tired, stingy feeling (top and bottom) was gone. I have osteoarthritis in my left knee. The swelling in my left knee and ankle were gone after 6 months. I haven't had to return to my orthopedic doctor for a treatment to remove the water and inject hyaluronan in the knee joint. Lately, I am able to move feely. I do take a hyaluronic acid supplement which could be helping, also. Highly recommend this product.	5	1/31/2019 4:18:20 AM
BENEFITS +	All the reviews for positive improvements with leg heaviness, feet cramping is what I have experienced also. Watched for years and finally purchased. To my surprise, after a pedicure, I opted for no polish. The circulation of blood to my feet, had given me healthy, slightly pink hue to my toe nails. Looking good and feeling great, truly is priceless	5	1/30/2019 7:36:48 PM
A leg up	I have been taking this supplement for about 10 years. I am on my feet constantly and my legs feel fantastic.I would highly recommend this product	5	1/30/2019 5:22:11 PM
Awesome! Wont be without	This is my 3rd year taking them and I find if I forget a couple days my legs are heavy, achy and feet are cold. As soon as I start taking them again legs feel awesome and warm. I will NEVER be without! I love Andrews products and this one is a MUST for anyone of any age! Thank you Andrew!	5	1/30/2019 3:29:16 PM
Fantastic product	You start to see the benefits within one week! No more swelling in your ankles! No more restless leg syndrome! Easier to get comfortable in bed at night, leading to a better more restful sleep. Perfect for anyone who is on their feet for long periods of time!	5	1/29/2019 9:18:32 PM
Great support for legs	I have been taking this product for almost a year & didn't realize how much it helped my legs until I ran out.I will not let myself run out of it again.	5	1/29/2019 2:38:46 PM

Wonderful!!	I've been taking for several years. It helps with the achiness in my legs and feet. I've run out a couple of times, and within a week I noticed the difference. I'm so glad Andrew is now offering the larger sizes. A bit pricey, but my legs are happy.	5	1/29/2019 2:35:52 PM

Well recieved birthday gift!	I bought this for a family member for their birthday. At first, they were skeptical. When it worked they were so grateful. I respect Andrew, when he says to listen to the information he is giving, even if you don't buy his products. I buy Andrews vitamins, products for gifts, Christmas or birthdays. Thank you Andrew, Thank you HSN.	5	1/27/2019 7:13:05 AM
No more swelling!	Great product and noticed such a significant improvement in the circulation of my legs in which I was experiencing a great deal of swelling from varicose veins along with another underlying issue. Re-ordered larger quantity. Thank you!	5	1/24/2019 11:50:57 PM
Incredible Product!!	I will never be without this product. I originally purchased this for circulation because I sit quite a bit. I never dreamed that it would help my restless leg syndrome. I sometimes thought I would go nuts. It seemed like every time I sat down, my legs would start. After taking the circulation and vein support for a couple of days my legs were much better and now I may notice a slight bit of restlessness maybe every couple of months and it only lasts for an hour or so. Amazing Product!!!	5	1/24/2019 4:49:15 PM
Circulation and vein support for healthy legs	WONDERFUL, I USE THIS EVERY DAY, THANK YOU!	5	1/15/2019 2:33:26 AM
Good Product	I had total replacement on both knees. I worked for 43 years straight with no gap in employment in the medical field, was never ill, never had a surgery, never been to the emergency room while working when all of a sudden my right knee gave out and my world turned upside down. Out of desperation I found Vein Support tabs for my legs. Along with these capsules and compression socks the varicose veins disappeared...it took about 8 months and the veins are gone. I ordered 750.	5	1/14/2019 4:44:20 AM

This product works!	I have been using the Circulation and Vein Support since June and let me tell you it works! I had used many other products for leg cramping and restless legs at night and nothing had worked until I tried this. I have also recommended it to my sister and she loves it more than the prescription she was taking for restless leg.The best part is there are NO side affects!I hope I am never w/o this product. Thank you Andrew, keep up this wonderful work that you do.	5	11/1/2018 4:38:47 PM
Circ & Vein with 80mg Butchers Broom	Thank you for extra Butchers Broom. I have seen a significant difference between the 2 mg doses: 40 & 80. The deep, dull aching & cramping in both lower legs has almost subsided with the 80 mg Butchers B. Please keep offering this throughout the year. I can get by with 2 capsules instead of three when more BB is added. Thank you again.	5	10/29/2018 11:18:21 PM
Five star product	This is a five star product for sure. Thanks Andrew and Hsn	5	10/26/2018 6:49:48 PM
So Glad I Bought These!!!	I have a job that requires me to sit most of the day which causes my legs to hurt really bad. I purchased these not expecting to see any relief until I had taken for about a month. After the 3rd day I could already tell a difference in my legs. I hope I never run out. Highly recommend!!!	5	10/26/2018 5:48:50 PM
Great Product	I can't live without this product. For years I suffered from agonizing cramps in my legs that occurred during the night whenever I changed position. Thanks Andrew.	5	10/26/2018 1:41:37 PM
Don't want to be without it.	I have taken Circulation and Vein for years. I absolutely can tell if I haven't taken them for a couple of days. When taking, no leg cramps! After a surgery on my leg, my doctor commented on my legs not swelling and the healthy healing I experienced. I told him about these vitamins and he said "don't stop taking them". The nurses wanted the name of the vits. and where to get them!!	5	10/24/2018 2:40:05 PM
Leg heaven	I am a nurse who is on the go all day long. My legs would pain me at the end of eat day. I purchsed this supplement and it has made such a difference. I now have purchsed the largest bottle for my mom as well. Love doctor Leasemens supplements they will change your life in such a positive way. The money saved buying salts and other things to aid in reducing pain is amazing. His products are must try products you will not regret the investment in yourself and wellbeing.	5	10/21/2018 3:08:42 PM

Really works!	This is the second order of this product. I heard remarks from other people about how this helped their legs and veins.I have seen a dramatic result in my varicose veins in my legs. Also, I saw a review from a customer on Andrew's TV spot. They mentioned they have hemmorhoid. Well I thought we'll see. After taken the first bottle, I found it shrinking. Also, the sorness in my legs decreased. So I ordered again.Amazing! Thank you.	5	10/19/2018 10:18:26 PM

Great for me!	I have restless leg and this item works great for me. One of its active ingredients is prescribed for the condition in Europe. I use this instead of my other meds so I don't get drowsy. I noticed a physical difference after two weeks.	5	10/7/2018 9:48:20 PM

Noticed a difference	I have restless leg. Diosmin is used in Europe to treat this condition and it is included here in Andrew's formula. It works for me enough that I don't need my other meds that make me too sleepy. I recommend.	5	10/7/2018 4:36:02 PM

Leg Happy	I am using this product for few years now, and will never be w/out this. It keeps my leg happy and so does me...Thanks Andrew & HSN!	5	8/31/2018 6:19:27 PM
They Work!	I had much pain and issues in the front of my shins due to poor circulation. I have taken these for 3 months now, and wow, really see a difference. Tenderness gone and no pain. I believe in his vitamins and take many of his others. Yes, pricey, purchase when has specials, but I would rather take vitamins that I can swallow and that work!	5	8/29/2018 12:09:23 AM
Great product	It was a gift to my daughter, standing up all day at a new job..her legs were hurting...not any more, thanks to this!..thank You Andrew!	5	8/24/2018 3:20:21 PM
REALLY WORKS!!!!	I was skeptical, but I am a believer! I used to get large, raised bruises in my lower, right leg for no reason. They would come and go, but never completely faded and my leg was always sore to the touch. I thought they might have been clots. I would feel self conscious exposing my leg. I took 2 pills at breakfast every morning and after about a few weeks, I noticed that the bruises were completely gone! My leg is not sore to the touch anymore. Will continue to buy for maintenance!	5	8/20/2018 4:39:52 PM
wonderful	had only used it a week and it helped me. my ankles and feet were swollen and such heaviness in my legs. I only take 1 cap. dissolved in water a day. it works. thank you. for 2years I quit taking your vitamins. just could not swallow them. now I am back but I am dissolving them in water. watched you even when I was not taking them. Elaine	5	8/14/2018 9:22:30 PM

Use this all the time	I actually have used this supplement for quite a few years but I just recently found it on amazon for less money. Now, HSN that makes just simply no sense. You keep saying you are the best-priced for these supplements. I guess apparently not.	5	8/13/2018 7:26:51 PM
Works	Started taking this product for 3 weeks now. It took about 5 days before I started to notice subtle changes in my ankles. I noticed less swelling in my ankles and a big change in broken vessels in my leg. I've been taking product for 6 weeks. I have noticed about a 80% difference in my ankles the swelling has almost went away. I just feel better overall. I will take these for the rest of my life. Thank you Andrew for making this product and thank you HSN for having such a true, honest guest.	5	8/5/2018 6:19:17 PM
My feet no longer hurt	Have been taking for several months. My feet used to hurt to walk for about 30 minutes after I got up, but not any longer. Also I have a friend that was able to give up her Gabapentin which made her feel drugged, and use this instead (ask your doctor about d/c'ing any medications). Thanks Andrew!	5	8/4/2018 5:49:31 PM
Reorder for me.	This is great stuff, and I re ordered it at the sale price. I have restless legs, or did for years until I started taking this. Not any more. I am 70 and walk the treadmill (out of the Florida sun) for 5 miles a day, and I dont think I could without this. My flat feet and rheumatoid arthritis would whine too much. I take other Andrew Lessman products and they work well together to keep me moving.	5	8/4/2018 1:02:47 AM
Great Product	Noticed improvement in legs within a week. Less fatigue, achey feeling gone! Love it!	5	8/1/2018 5:21:43 PM

Finally Something That Works!	I have neuropathy and trouble with circulation and swelling feet, legs and ankles. Diuretics bother my stomach and keep me in the bathroom so I cannot take them on days I am at work. This product started helping me immediately with no stomach upset and I don't have numerous trips to the bathroom. Thank you, Andrew Lessman!	5	7/27/2018 3:40:35 PM
The Best	This works well for me & I have recommended it to a lot of women I know. I purchased this one as a gift for a woman I know who has problems with her legs.	5	7/27/2018 2:05:39 PM

I will not be without these again!!!!	I took these capsules a few years ago and for some reason I stopped taking them. My legs hurt just to even touch them (pedicures were murder on me). I knew I had to try this product again. I have only taken them a few weeks but I can really tell a difference in my legs. The pain has eased off and I can enjoy my pedicures again. Thanks for this product.	5	7/25/2018 6:00:33 PM
Happy	I've been taking this product for well over a year. It seems to prevent the leg cramps, pains, and the almost nightly restlessness and discomfort in my legs and feet that I'd been experiencing for several years. When I discontinued taking it for a month or two, the pains and cramping started to come back. My feet and ankles were swollen almost all of the time before I started taking this. No longer. I'm very happy with this product.	5	7/25/2018 4:49:24 PM

They work.	I ordered these as I was having severe leg cramps. So far so good, its been awhile since I got cramps. I'm sure it helps. I'm a 68 year young lady.	5	7/25/2018 2:00:32 PM
Very Happy	I'm giving 5 stars for my results. I suffered from pain in my legs while trying to sleep. I was wearing cuddle duds at night to keep my legs warm which did seem to help with the pain. I had a couple of raised veins appear on my calf. The pain has gone and the raised veins have subsided. I'm just starting my 2nd bottle of 360. I'm delighted with my results.	5	7/25/2018 1:54:12 PM
Circulation Vein Support	Wow, what a difference in such a short time! I'm able to get thru the day without experiencing weakness and pain in my legs and feet!	5	7/24/2018 3:02:28 PM
HUSBAND NOW A BELIEVER	My 90-year-old husband is still working 5 days/week. Of course he thought he was a distant relative of Superman until last week. Unbeknownst to me, he decided to take his supplements at night. Well, for the next 2 days, he came home with hideously swollen ankles and had difficulty getting his boots off. When I asked him if he had been taking his Circulation and Vein Support, a light bulb came on and he confessed. The next day he willingly took his supplements before work. No more swelling. Men!	5	7/15/2018 4:18:50 PM
Saved my feet	I suffer from major heel pain and the cortisone shots were no longer working. I bought this on a whim. One morning I woke up and began to walk around and realized after a few minutes that I wasn't in pain!! OMG NO PAIN! I will never stop talking this product, it truly saved my life and gave me back the ability to walk pain free. THANK YOU ANDREW!!!	5	7/8/2018 5:20:47 PM
Great Product	Since I began taking this product, my feet and ankles have stopped swelling and I no longer experience the very painful leg cramps at night. I can only contribute the improvements to taking this product. I am over 70 years old, and I will always continue to take this product. Thank you Andrew!	5	7/8/2018 3:58:46 AM
Essential product	I should have written a review on this long ago. Although I take several of Andrew's product, this is the most important for my health and well being. It has such a profound effect in my day to day life. Helps with swelling, cramps, pain, etc. I am a very active, healthy woman...eat well, work out, maintain a healthy life style, but I could not do anything without this product. For me...life changing.	5	7/8/2018 3:54:41 AM
Life Changer!	I was such a sad summer girl the past few years, as its my favorite season, but my ankle and leg swelling made me miserable at times. They hurt and looked terrible in the heat! After just two weeks of taking these vitamins, and plenty of time spent in the sun and blistering heat, I have zero swelling! Im absolutely amazed! Will never be without these again, truly a life changer as I am now happy in the summer again! Thank you, Thank you!	5	7/4/2018 9:54:10 PM

ms Moey	Within a week of taking, my leg cramps and stinging went away. I can't do without this product.	5	6/24/2018 8:52:37 PM
Able to walk again.	Andrew, I suffer from Diabetic neuropathy. I have watched you for years and recently decided to give your Circulation and Vein Support a try. I was amazed at the relief I got. The pain is not completely gone but it is sufficiently that I don't dread getting up and walking. My pain has gone from an 8 down to a 2. I take nothing else for the neuropathy.	5	6/22/2018 5:48:53 PM
No more cramps or muscle spasms.	I really like this. I don't have anymore cramps & muscle spasms with my legs & feet. I use to get cramps when I would stretch. Also when I was sleeping I would wake up with painful muscle spasms in my legs. I take 2 capsules. A week ago I noticed I was getting low, so I started taking 1 capsule. It did help but 2 capsules are better. With one capsule I can feel the muscle spasm wants to start but doesn't. With 2 capsules, I don't feel anything. I have ordered more.	5	6/21/2018 11:24:01 PM

Well, what do you know? It works!	I have just reordered more. I am 70, have flat feet, crippled toes, restless legs, rheumatoid arthritis, and am up to four miles a day since beginning this regimen. I was doing a couple of miles on the treadmill (out of the sun because of my red haired skin that burns),and have been able to up it to 4+ miles. I no longer awaken with restless legs. It seems to be like priming the pump. I do the work, but this has helped me get to the next level of physical activity and leg strength. Thanks!	5	6/17/2018 5:25:43 PM
Tired legs	Best product ever. Having restless leg syndrome, this is a life saver. Calms legs down so you can sleep at night. Andrew dont stop making this product. Also use most of your other products. Thank youTerri in Ca	5	6/15/2018 1:15:31 AM
Helpful	Circulation and Vein Support has been very helpful to me. It is a re-order product.	5	6/3/2018 9:35:17 PM
Very Beneficial	I've been using this product for about two years and I can't do without it for long. I sit a lot for work and after a knee surgery it seems to really help with leg fatigue. I can really feel it when I don't take it. Love it!	5	5/31/2018 7:03:23 PM
Love love	I love this product. It is a feel immediate product. I think Andrew is the top in his field and his knowledge overflows. Thanks Andrew!	5	5/25/2018 8:44:55 AM
Best support product for Vascular issues!	I have been taking this product for almost 2 years now. I have vascular issues and stents in my body. My Vascular Surgeon has been amazed at my progress and I know this Circulation and Vein Support has improved my overall health tremendously!!! I highly recommend it for anyone who may have vascular issues.	5	5/22/2018 12:09:45 AM
10 stars	I have used this for several years and it is amazing! I stopped one time for about a week and there was a very noticeable difference in the way my legs felt ! I do not go without this product!!	5	5/18/2018 8:55:42 PM
Love This Product	Won't be without this. If I stop taking it for awhile, my restless legs start up again or I get pains in my calves. It only takes a couple of days to get my legs back to normal. My friend is skeptical about naturals but she asked what I have for restless legs. I gave her 12 tabs and she's now a believer.	5	5/17/2018 11:25:24 PM
Noticable difference	I had small red veins on the back of one knee. I got them from sitting at a desk for many years. But after taking the Circulation and Vein Support for a couple of months the redness is faint and there aren't as many any more. I love this product and will continue to use as I have other areas on my legs that are improving in appearance.	5	5/16/2018 7:01:44 PM
No more leg cramps!	Thank you again Andrew!My leg cramps disappeared in about 3 days. No more night cramps, take 1 in the morning and 1 at night. I tell EVERYONE about Andrews vitamins when I'm talking health to my friends. Best products and quality, and a big thank you for all of your education on ingredients and background info. I'm hooked!	5	5/15/2018 5:17:09 AM

Elderly with Neuropathy should try these	My mom is housebound, partly because she had so much pain, and burning in her lower legs for years. She couldn't sit with her feet dangling for more than 10-20 min at the most. Since I had such great results, I decided to put her on these too! She doesn't complain like she use to. I even get her out in the yard every now and then. The highlight was when she was able to attend my daughters destination wedding! Driving over 2hrs to get there! So thrilled she could do it!! THANK-YOU!	5	5/10/2018 3:51:42 PM

INCREDIBLE!	This product had to be reviewed!!! I really would not believe it if I didn't experience the incredible effect it has had on my life!After many doctor visits and treatment for excruciating leg pain over 9 month period with NO RELIEF or change of any type, I decided to just give this a try. HERE is the important issue: Within ONE WEEK I had minimal discomfort, and within 3 weeks NO discomfort! THANKS ANDREW SO MUCH---I have my life back!!	5	5/9/2018 4:57:05 PM

Leggs	Good product. It really works.	5	5/7/2018 8:08:21 PM
AWESOOOME	I had ordered this dor a friend of mine but she changed her mind. i decided to order a small bottle to try. WOW!!!! This truly does work. My veins were showing allover the place...One day I decided to check my legs. My skin even looks better (I don't know if that is a wonderful treat) but I don't have the leg pain. YES YES YES, this product lives up to its name...	5	5/5/2018 2:42:06 AM
Jumpy legs	I also take this but sometimes during the night I can't sleep because my legs won't stay quiet. I get up and take one more for the night. No problem getting to sleep.	5	5/3/2018 11:01:24 PM
Restless Legs??? Give this a try!	I am in my 30's and I purchased this item because at night my legs ache and hurt and feels like I been running all night long. I am relatively healthy. Exercise and eat healthy but, I suffer from restless leg syndrome. After taking this product, I noticed a difference within 3 days. I stopped taking it just to see if the restlessness would come back, and within 2 days it did. This product works wonders. I will be continuing to purchase this again and again.	5	5/2/2018 12:31:22 AM
It's a miracle	Honestly, this stuff worked so well on me and I only used 1 per day. My legs look so much better.Good job!	5	4/29/2018 5:57:57 PM
Works good	Used for poor circulation in legs and swelling in ankles. This stuff works good taking two tabs a day to help with problem circulation. Will continue to use.	5	4/29/2018 3:56:55 PM

Great Product	They are such a big help for the legs! Thank you for a great product Dr. Lessman	5	4/26/2018 8:11:23 PM
Amazing for leg health!	These really make a difference for me. I take them in conjunction with heavy cardio workouts and I notice that the recovery time is much less and I do not have pain. I get the benefits from these and I only take them occasionally, so I can imagine how good these would be added to an everyday regimen. All of Andrews products are amazing, thank you HSN!	5	4/22/2018 8:41:04 AM

A Chef/Cheese Monger who is on her feet	I bought this because of the work I do - standing for hours on end. I had such pains and swelling in my legs so started taking these with his Glucosamine and Chondroitin and after two weeks I don't suffer anymore. I will never be without them again.	5	4/20/2018 7:05:47 PM
My doctor said so.	My doctor said I have to take a vitamin C to make the iron tablets she prescribed more effective. Again I don't feel any different but I guess my next blood test will be the deciding factor.	5	4/20/2018 4:47:22 PM
This works.	I was skeptical ; I really do feel much better.	5	4/20/2018 1:19:08 PM
I am happy with this product.	This product does what it says and I have been taking it for almost 3 years. I used to have night cramps almost nightly and now only once in a "blue moon". I am very happy with this product. Andrew, thank you.	5	4/19/2018 6:27:26 PM
I won't ever be without this supplement	I have had 3 leg surgeries on my veins but still have some problems with my circulation. I take two of these at bedtime; definitely helps with leg pain and restless legs. If I forget to take them then here comes the leg pain again.	5	4/19/2018 4:43:56 PM
Wonderful Product	This stuff really works! I ran out and could really see and feel the difference that taking it makes!	5	4/19/2018 4:16:48 PM
Great. You're the best Andrew	Andrew is amazing. You have the only vitamins I will take and give to my family. These really work well. I can tell in my legs if I don't take them I get Charlie horses in my left leg and my feet hurt when I don't take these. Thank you for making the best vitamins	5	4/19/2018 4:11:23 PM
It works	I am surprised at how well it works. Not only does it help with swelling but the small veins have disappeared, the large ones are a lot smaller and lighter. The bumps on my legs are smaller. I went to a vein specialist and he said the only thing they could do for me was surgery to remove the vein but it could come back, everything was working fine. I would rather not have the surgery.	5	4/18/2018 1:44:52 PM
Wow - what a wonderful product!	I have suffered with swelling and pain in my legs and feet everyday since and before I had my knees and hips replaced. This really works for me. I have taken away all that creepy feeling and leg jerking at night too. I ran out and waited for a couple weeks to test it and back came all my problems so I ordered the big one. The first time I took it I was working in the garden and came in and sat down and it was about an hour later I noticed my legs were not hurting. I will not be without it again!	5	4/17/2018 1:00:59 AM
Best legs	If you ever stop taking it you'll realize it works.	5	4/16/2018 11:46:42 PM
My legs really feel better!	Andrew teaches us about the product, proudly shows us where he makes it, and I feel great taking them! I take them with my evening meal and I am not having leg pain or cramps any more! Thank you!	5	4/15/2018 5:01:37 PM
Wonderful	This item is unbelievable. A few years ago I had a horrible concussion right where the balance in your brain is. I had to walk with a cane or a walker since I had no balance. Well I bought the circulation and vein support and after 3 weeks I could walk a few steps by myself, well yesterday I walked 200 steps by myself. This item is a god send thank you Andrew and hsn	5	4/15/2018 4:56:51 PM
Miracle worker	I never had any issues standing on my feet, but as I get older, I noticed with shopping, house work, etc I end up with a swollen, achy ankle by day's end. No more...this is another great product	5	4/10/2018 12:52:04 AM
The best on the market	Being originally from Europe, my mom was a pharmacist, she was a big fan of diosmin so I have been exposed to it from a very early age. I was so glad when Andrew Lessman started making it so I didn't have to buy it from Europe anymore. Merci Andrew	5	4/8/2018 3:54:02 AM
Does Help without side effects	I have had poor circulation for years which relates to a prior couple of strokes. I saw this supplement and decided to try it and it does help without side effects. I also feel the formula is based on science and high quality.	5	4/6/2018 11:00:36 PM

Love It	I bought this for my husband that was diagnosed with diabetes, and has poor circulation. Just within days from taking it he felt the difference! His legs changed colors (not red and swollen) and no night cramps! Great product and will continue to get them for him! Thank you Andrew for your great products.	5	4/6/2018 2:29:17 PM
Amazing results	I added circulation & vein support to my regiment of Andrews supplements just a month ago. No more leg pain or heaviness, spasms or cramping. Daily I had to take a concoction of over the counter pain medications to get thru 9 hour shift on my feet, still in pain. Now I take 2 capsules every morning & nothing more. From day one, I was amazed how wonderful I felt. I missed one day & noticed the heaviness & pain returned. I will never miss another day. It truly is a blessing in my life. Thank	5	4/4/2018 3:02:00 AM
Great Product	I've purchased the Circulation & Vein Support before and had good results with it. I have poor circulation in my legs and they tend to swell up, especially the left one. Since I've been using it, I have seen improvement. I just wish it was less expensive.	5	4/2/2018 7:15:52 PM
Been using this product for years!	This will be the one product from Andrew that I can't live without. I have been in jobs where I've either stood or sat for long periods of time and this has helped tremendously. I take it religiously, even though I'm now retired. I also take 15-20 of Andrew's other vitamins/supplements and believe his products are the best for good health! Thank you!	5	4/2/2018 3:28:20 AM
Good stuff!	I have been using the leg supplement for about two weeks now, and I no longer have aching in my left leg. I went to a vein clinic and they wanted to do a vein ablation, and it sounded scary to me right now. I decided to try this and the aching is gone. I find that I don't have to take it every day. I take it every other day I wish they would have it on flex pay though, money is tight at times	5	3/30/2018 6:35:39 PM
Love	I will be reordering soon. Have been using about 6 months or longer. I can really see a big difference in my veins in my legs. It does help to keep the swelling down too.	5	3/29/2018 3:19:31 PM
The best	Put it with my husband's other vitamins from Andrew and didn't let him know. He came to me a week later and told me it was the first time since his knee surgery (in 2005) that his knee wasn't swollen at the end of the day. He was blown away when I told him what he was taking. Andrew's vitamins are the best!!	5	3/22/2018 1:20:48 AM
The Best	I was a real skeptic when it comes to this stuff. But having PAD. This has helped me alot! I tried to stop them for a day and by the end of the day my legs felt very heavy and they were throbbing, back on them the next day and no more pain! The best!!!	5	3/21/2018 3:42:30 AM
Love it	My legs have quit bothering me!	5	3/18/2018 2:24:55 PM
love it	Great product. when I forget to use I feel it and when I use it I also feel it. I highly recommend	5	3/17/2018 1:59:42 PM
AWESOME PRODUCT	I'm a middle aged, working nurse, up on my feet all day having horrific nightly leg cramps. I was resigned to the fact that this was the way it was going to be and nothing could be done for them. WRONG!!! I ordered these hoping that they would work some, and would be very happy if they did... BUT, after using for 2 days, NO MORE LEG CRAMPS. It's been several months now, no more cramps. For me, it has been a miracle. I cannot thank you enough for this product. It's wonderful. I'm so glad I got the jumbo size, because I won't go without these, EVER! I no longer have the terrible, nightly, painful, tearful, restless nights. I'm telling everyone I know about these. They are great!!! Many hugs coming your way. You're a rock star!!!! Thanks, thanks, thanks!!! Don't ever, ever, ever discontinue these, please!!!	5	3/11/2018 3:09:07 PM
Works	Lessens the swelling in my ankles and feet, and leaves them in less pain. I notice the difference if I miss more than a couple of days.	5	3/11/2018 1:14:31 AM

Everyone should be taking Circulation Support	I cant say enough good things about this supplement. My legs have been achey for years and this has taken 90% of the aches away. If I miss taking this supplement for more than a couple of days I feel the lack of not taking it. Highly recommend.	5	3/9/2018 10:42:46 PM
Great pill	I can't live without these! When I first started taking these years ago I had a stand up in one place always on my feet job. Now I sit a lot on my job and it still helps	5	3/8/2018 10:36:50 PM
An old favorite -	I have taken this product for more than 18 years. Initially, I started taking it to just improve all things below. However, as I age I now am taking it to stop a weird sensations in my feet that starts late at night. It stops the restlessness that sometimes happens.	5	3/8/2018 5:45:07 PM
Worth it's weight in gold...	I have neuropathy in one foot..It is painful to walk as the day goes onThis had made a world of difference..I forget I had that problemMay not work that way for you..but I will always take it ..from now on!!	5	3/8/2018 4:59:45 PM
A Miracle	I have a major problem with one leg. I have major swelling and hurting veins. I have noticed a difference in less swelling and the leg more comfortable. It has only been 6weeks since I have been taking this product and I feel in time my bad leg will look like my good one.	5	3/8/2018 3:24:24 PM
No more cane!!	I was going to go to a vein doctor last year when I heard about this pills. I cancelled my appointment and decided to give them a try first. After about a week I noticed some of the throbbing stopped, then after a month or so the pain had gone also. Miracle or not, these pills have helped my legs so much. I had a particular problem with my left leg. It has gone completely and my doctor said if its helping you continue to take them, he believes in Vitamins and alternatives, not many doctors do.So would I recommend them, yes highly, but its not going to work for everyone the same way. It may take a little longer, but I wouldn't be without them at all. If I feel im going to do a lot of yard work or out walking for a long period of time I add an extra one that day. It has changed the way I am able to do things thanks Andrew and HSN great product. By the way im going to be 76 in a few months and im glad I found these, no more cane.	5	3/8/2018 2:48:00 PM
Glad	My gains where so ugly, that I was in pain all h time. This product have help me with the circulation and the gains looks less noticeable. Ready for my next bottle so I can have enough until next year.	5	3/4/2018 10:20:00 PM
Def works	I purchased this after reading all the reviews ,and I'm so glad I did.my legs feel better and I don't have much cramping ...love this formula please don't change it	5	3/4/2018 9:46:18 PM
They work!	I know you can't make any medical claims, but I had something like restless leg problems, started taking these, and I haven't had it since. It's been at least ten years!	5	3/1/2018 8:09:31 PM
Amazing Results!	I purchased this for my husband who has had many vein related issues. After just a few days using this product the discoloration and swelling completely disappeared! He was so encouraged by the results that he told me to go online and order the larger bottle! Thanks so much for creating clean wholesome supplements for our health!	5	2/27/2018 3:56:44 AM
It Works	Have been taking this vitamin for several months now, and have definitely noticed an improvement. My legs used to ache at night and they no longer do that. Also, I don't seem to get spider veins over the slightest bump.Highly recommend.	5	2/26/2018 5:02:34 PM
Bravo, Andrew!	I started having circulation issues in my legs in my 40's. I am 45 now. I exercise often which is beneficial: cardio, weights and core. I tried Andrew's vein support product and it really does make a difference. If I skip a dose, I notice that my legs feel sluggish and achy. I also take his Women's Wellness, Evening Primrose with Black Current Seed Oil and Spice of Life. Good health is a precious gift. Andrew and his team are helping all of us with fantastic products.	5	2/25/2018 9:49:16 PM
Great product	No more leg cramps at night! Feeling great!	5	2/25/2018 2:22:37 AM
Legs feel better	Helped my leg pains. Love all of Andrew's products.	5	2/22/2018 3:57:03 PM

Awesome product	I have been taking these capsules for many years now. What a difference in my legs and I do not have that heaviness and my veins are less noticeable. Andrew explains all the information and technology behind every product which makes his products the best there is. Do not be fooled by these stores that sell low quality products. Listen to Andrew, He definitely knows what is best for our health and well being. Thanks	5	2/21/2018 8:58:19 PM
Does work 4 me	Its been almost a month and feel a difference. I write and spend about 3-5 sitting at a desk. Usually, legs feel numb and look swollen after a while, so far no issues. I just hope can continue to buy. Caught a flex pay sale, that's why tried it.	5	2/17/2018 10:52:54 PM
Happy user	I've gotten this product at least 5 times in the last 5 years. Always get the largest size cause I use it faithfully. Thank for the happy legs!	5	2/17/2018 8:19:23 PM
Good Product	You can never go wrong with any of Andrews products, good quality and produces results	5	2/17/2018 3:54:42 PM
Does what it claims to do	Bought this for my husband who has terrible leg cramps at night -- almost every night, sometimes twice a night. He has been taking this for only a couple of weeks and already, his leg cramps have almost completely gone and when he does have one, it's much less severe. It is definitely NOT a placebo effect, because I didn't even tell him what it was for, just told him it was a different brand of vitamin.	5	2/16/2018 4:58:24 PM
Diane	Great product I have been using for years it helps keep my blood pressure under control	5	2/15/2018 6:12:47 AM
So Happy I Have This!	I used to have bad leg cramps at night or if I sat too long. I also had enlarged veins in my legs, my sister said they looked like ropes wrapped around my legs. I ordered my first bottle last summer and the cramps stopped. My daughter in law who is a nurse on her feet all day mentioned she noticed the veins in her legs getting larger. When I purchased your product, I ordered an extra smaller bottle for her. I feel sure she will have the same results as I have. I'll keep you posted on her results, as for me, I'll stay on your Circulation and Vein Support. Thank you, it's so nice to be able to sleep through the night.	5	2/13/2018 7:27:15 PM
Desperation to relief	I watched your presentation of the TS and went to bed thinking "maybe". However, during the night, i woke to a severe calf cramp as well as two horrendous upper thigh cramps. I am prone to nighttime leg and foot cramps and Restless Leg. I got up and ordered this product. I received immediate relief at night with this product--a real blessing for me. I had no idea how the legs played a roll in ones sleep. I now have quality sleep. I take mine before bed. I am 78, run; walk, workout and work part time-13 yrs. I also take some of your other products. They are amazing and I am grateful for these products. Thank you Andrew--also for the information you provide during your presentations.	5	2/13/2018 3:28:46 PM
Fantastic Stamina	I stand up all day in my job as a customer service/cashier clerk at my local grocery store.The very day I received this at my door I took it and boy was I pleasantly suprised! My legs did not get tired like they normally did after 8 hours on the job. Sure wish I had ordered this soon, Andrew Lessman has brought us all a gift. This is no drug or strictly medicine but this supplement helps to strengthen your veins in the legs if you need stamina to stand up in a job all day. Thank you Andrew!!!	5	2/12/2018 7:21:03 AM
Another Winner	These vitamins are amazing! Was diagnosed with Renauds syndrome, which makes my fingers and toes turn blue. Doctor recommend I move to a warmer climate, but husband refuses. So I have faithfully taken this product with wonderful results. I will be a lifelong customer. Many thanks to you Andrew.	5	2/9/2018 7:26:25 PM

No swollen ankles or stuff like that but my pain is osteoarthritis and or osteoporosis .im very tall for a female so i blame everything on that .my blood does have long way to travel. 36 inch inseam. Can only buy when tsv because truthfully prices are crazy but I'm still hopeful.	5	2/5/2018 8:37:41 PM

Wonderful Product!	I highly recommend this product! It does everything Andrew Lessman says it will! My husband and I have both taken this product for many years and we both notice a BIG difference in how we feel since we started taking this years ago Our legs arent as tired, plus the horrible leg cramps we both use to get eased up! We recently ran out of our supply of this vitamin and boy did we notice a big difference while being out of these vitamins the horrible leg cramps came back, our legs were more tired and heavy feeling again etc., etc. We couldnt wait for our new supply of these vitamins to arrive so we could get back on them!! Needless to say, we will make sure we NEVER run out of these again!! Thank you very much Andrew for a WONDERFUL PRODUCT!!!	5	2/5/2018 2:09:46 AM
Unbelievable Results...	So far I have taken this for about 2 weeks. I had deep Iron Staining around my left ankle after only about 1 week the staining started to fade away. Its now two weeks in and my wife tells me its the lightest its been in 20 years. I will NEVER be without Circulation and Vein Support Capsules... if you have any doubts bout this, please cast them aside. I NEVER review things but I felt compelled to let everyone know this is the real deal and I want EVERYONE to know it!!! Thank you Andrew for this and everything you do!!!!!!	5	2/4/2018 11:23:41 PM
amazing product	i have been using this product for 3years now and will never be without it. i do not have as many spasms with my flat feet and legs.	5	2/4/2018 8:13:24 PM
Leg cramps gone	Luv this product. My legs NO longer ache. No more leg cramps. My legs actually feel energized.	5	2/4/2018 6:43:03 PM
Can't seem to do without it.	I'm a big fan of Andrews and as a result I take many of his supplements. Occasionally I look at my supplement basket and think that I'm overdoing it and attempt to cut back. Every time I try to leave these off I start getting that creepy crawly feeling in my legs. I start taking them again and it goes away. Enough said. Can't do without them! Thanks Andrew!	5	2/3/2018 11:01:39 PM
Circulation capsules	I received these and started taking them immediately. I have circulation issues and tried everything. Within a few days I noticed the difference in my legs. If anyone has circulation issues these are the capsules to buy!	5	2/3/2018 5:54:42 PM
Works!	I have been taking this product for a few years now and wont be without it !! I tested it out by stopping it for a few days and my legs felt terrible... soon I started it again my legs felt normal !	5	2/3/2018 5:43:58 PM

Happy Leg Life	My bottle was running low and so I started taking every other day or every third day, AND SAW THE DIFFERENCE, legs were bothering me at night, and it is winter so heavy socks and boots, was becoming very uncomfortable..... NOW THE NEW BOTTLE I ORDERED RECEIVE LAST WEEK, AND OH WHAT A DIFFERENCE IT MADE,WHEN IMMEDIATELY I STARTED TAKING EVERY DAY AND AFTER WHOLE ONE WEEK I AM FEELING SO NORMAL..... SO REALLY THIS IS A MUST FOR ME. Thanks Andrew & HSN	5	2/3/2018 4:33:39 PM
Take it every day	For the past year or so I have been taking 2 capsules of this product every day without fail. It has made a great deal of difference in a positive way for me. My feet and legs rarely swell any more. I even took a very very long international flight recently, expecting I would once again have elephant legs, and that did not happen! I did not swell at all during 24 hrs of flying. Also I traveled to a place with high elevations and my legs did not swell at all. I could hardly believe it as I had dreaded this trip figuring I would be gigantically swelled at some point in the trip. It didn't happen. Thanks to this product.	5	2/3/2018 3:19:12 AM
Excellent Product	I have not had this product very long, but noticed an amazing difference in my knees almost immediately. I was considering knee surgery until I began taking this Circulation & Vein Support. Now I definitely will NOT be getting a knee surgery because this product has helped me recover my knee strength with no more pain. I highly recommend this product to anyone with problem knees or legs.....even if it takes a little longer to repair, its worth the wait. Thank you Andrew for making such wonderful products.!!!	5	2/3/2018 1:52:44 AM
review time given too short	I guess I could recommend to anyone based on reviews-that's why I bought in the first place-but how can I post a review now and I just received them a about six days ago-i am giving the five stars because of Lessman's presentation, reputation and customers reviews.	5	2/2/2018 10:54:39 PM
It Really Works	I have been using this for years and will continue to use.	5	2/2/2018 5:33:22 PM
Circulation & Vein Support Capsules	I ordered these capsules to alleviate my annoying cramping in my legs that I get at night. The cramping has been completely eliminated and I just reordered more during the sale since I dont want to be without this enormous relief.	5	2/2/2018 4:18:58 PM
A real miracle product!	My boyfriend had huge varicose veins on his legs the size of grapes and they were purple. Years ago he had extensive surgery on them, which helped some. I had been taking the circulation and been support for many years and they completely got rid of the pain from standing and dancing and no more varicose veins, so I thought it would help my boyfriend s legs and boy did it! He started out with veins the size of a finger and others that looked like big purple grapes. After taking circulation in vein support for 6 months he no longer has varicose veins, its absolutely amazing and he couldnt be happier. He has no more pain with them either. You can barely see where the veins use to be. If you look close you can see very tiny normal looking veins under the skin. Thank you Andrew, your products are outstanding! Sincerely Tina Bullington	5	2/2/2018 4:07:32 PM
Won't be without it!	Truly helps with the veins in my legs. I have noticed any new ones since using this product. It has been many years. Will not run out.	5	2/2/2018 3:59:33 PM
Awesome	Within the first day of using this product my legs immediately felt much better I'm so excited that I happened to turn on the TV when this product was being reviewed.	5	2/2/2018 3:52:37 PM
Helping me!	Since taking "Circulation & Vein Support" my legs don't feel tired and Heavy. I can sleep much better. My legs used to pulse and throb all night. Thank you Andrew	5	2/2/2018 3:48:36 PM

Incredible experience! Try it!	I wouldn't have believed the relief that I got from continual pain/discomfort from leg pain, if I didn't personally experience it!!! For 9 months I have had significant pain/discomfort and after less than ONE week, it is almost totally gone!! I had several medical specialists try to help me and no procedure or awful medicine had any effect! THIS WORKS!! I learn so much from Andrew Lessman and watch often when he is on. I trust him and have benefitted a lot from many other supplements, BUT THIS EXPERIENCE IS MORE LIKE A MIRACLE! I feel so thankful and it has given me back a happy and healthy life! Thanks, Andrew!	5	2/2/2018 3:25:09 PM
Circulation & vein support.	Really workks. You will feel a difference. Love this product.	5	2/2/2018 3:18:20 PM
Best Vitamins	I love all of Andrew products, they're the only vitamins I take. The circulation and vein support are great, I take them every morning before I go to the gym. I notice a big difference, my legs don't hurt and I'm strong.	5	2/2/2018 4:45:05 AM
In my top 7 must have ProCap Labs Supplements	I travel frequently and as a Senior, truly appreciate this product because of no swollen legs and no sitting problems which I used to have. This supplement eliminated that problem. Thank you for all you do and HSN for flex pay options.	5	2/2/2018 1:42:52 AM
Relief	Due to medication I have swollen ankles and feet. It also caused a lot of pain and discomfort. I'm delighted that the circulation and vein support has really given me relief and far less swelling. Since I've been taken two pills a day it has made a big difference. It is certainly worth the price to me.	5	2/1/2018 11:33:21 PM
Highly recommend!	I've been using this for 3 or 4 months. The swelling in my feet, ankles, and legs is gone. I had been told by others that I had swelling but I hadn't paid much attention to it before. I became aware & knew I had to do something. When I saw this on HSN, I decided to give it a try. It definitely has worked for me! Try it as instructed and see if it works for you.	5	2/1/2018 5:41:31 PM
Cant Be Without This	I have been taking this for a very long time and it really helps with my varicose veins. On occasion, when I have forgotten to take it, I start having leg pain at night and restless leg symptoms. I get up immediately and go down and take it with some Advil. I no longer forget to take it. I also take extra if I am driving for long periods of time.	5	2/1/2018 3:16:12 PM
Great Product....	This is my 2nd order of the Circulation and Vein Support. I tried it for the 1st time last year and was pleasantly surprised on the results that I have experienced. I think it works great, at least for me, with help keeping the swelling in my legs down. I have recently stopped using my compression stockings as well. I was beginning to wonder if it would be offered as a today's special as I was going to be running out soon. When I realized it was going to be a today's special I was really glad and placed an order as soon as I got online that day. Thank you Andrew for such amazing products and thank you HSN for having Andrew as a regular guest on your show.	5	2/1/2018 3:00:14 PM
Love the product	Bought this product as a refill for myself and my mother-in-law. I started using the product over a year ago. The swelling that I had in my feet and ankles has never returned since taking the product. I take 2 capsules a day. Thanks Andrew.	5	2/1/2018 2:29:12 PM
Has helped me significantly with Charlie Horses.	I was having calf cramps every now and again. I got this after reading up on it hoping it would help. Boy did it. Since taking I have not had a single cramp in my calves. I can walk around the theme parks and not cramp up.	5	2/1/2018 2:17:43 PM

Linda	I have PAD and had a hard time walking started taking these and wow i can walk like a normal person thank you Andrew	5	1/31/2018 8:26:31 PM
Great product!	I literally will never be without this product! It works so well if you have a challenge with swelling.	5	1/31/2018 4:21:22 PM
BENEFITS	I have arthritis - very bad. After one week my hip was less painful but the arthritis in the thumbs and wrists practically went away. It's not supposed to target the hand area but I'm not going to question it. I'll just buy it again and keep at it.	5	1/31/2018 2:18:18 PM

Excellent	I have only taken 3days of this and I have noticed a big difference in my legs. I have Parkinsons and spinal stenoses. I was really surprised.and quite happy.that I was watching HSN at that time..Thank you J.H on Florida	5	1/30/2018 12:36:51 AM
Won't be without them!	I just reordered this large bottle for my mom who's legs and circulation have been horrible in the past. I figured if they didn't work, then oh well but WHAT IF it could help. That was several years ago. It took about 3 weeks but what a difference they made. A couple of years ago I decided to try them myself because my feet fall asleep really easy AND my legs just felt like bricks all the time. Now I take 2 every morning. I can really tell the days I miss because that heavy brick feeling is there when I try to go up a flight of stairs. When I take them, they just feel light. I really don't know how else to describe it other than it took her pain away and made me light on my feet.	5	1/29/2018 1:22:22 AM
Life changing	I have Fibromyalgia and restless leg syndrome and my boyfriend has circulation and vein issues. We decided to try this product several years ago but went into it being skeptical. We'd been using the product for about two weeks when I first started noticing a difference and he said he was too! We're skeptics no more! We take this twice a day and can't live without it and never let ourselves run out. Amazing life changing product!	5	1/27/2018 3:30:36 AM
MY LEGS FEEL GREAT!!! BYE-BYE LEG & FOOT PAIN	I work in the grocery industry so I'm on my feet alot. Was reading the reviews on this & decided to try it! I am so glad I did!!! This supplement is beyond good! I have no pain in my legs or feet. I have told all my co-workers that have the same issue's & we are all very happy with the results! Once again Thank you Andrew for another great supplement!!! If your having the same issue's don't hesitate to try this!!! None of Andrew's vitamins have ever made me sick to my stomach & I take alot!!	5	1/25/2018 6:47:25 PM
Great product	Really like this product & have been taking it for several years.I appreciate getting the pre-TSV email notices to order because listening to the vendor waste everyone's time reading reviews is beyond annoying!	5	1/21/2018 5:37:53 PM
Stopped kick at night and chronically itchy legs.	My husband would kick in his sleep every night. It was nearly impossible to get a good nights sleep. I had chronically itchy legs that no amount of lotion would ease. It drove me crazy and my legs always had red scratch marks all over them. I live in Florida and wear shorts 11 of the 12 months of the year. It was embarrassing and uncomfortable. This product stopped both. It's expensive and we are on a tight budget but some things are so important that you find a way to fit them in to your budget. This is one of those items. We hope we never have to go without this product. It really did change our lives!	5	1/21/2018 2:57:24 PM
Legs feel young and pain free	Andrew, I love long walks, but I noticed my feet would throb and I suffered from plantar fasciitis. I started to take Circulation and Vein Support and my legs AND my feet have never felt better. I have not felt any leg or foot pain and will not go without this product. I have also seen great results with both my parents taking this as well. Keep making this vitamin and it will be in my Lessman daily supplement plan!!!	5	1/21/2018 2:36:29 AM
Works!	I had calf pain and I'm on my feet for long hours, in four days I didn't have it.	5	1/7/2018 3:46:26 PM
Great Product	I love all of Andrew Lessman's vitamins. This is my second purchase of this product. I would recommend this for people who have troubles with their legs and for people that work out.I feel the difference when I don't take these vitamins. My legs feel tired and my muscle spasms come back.	5	12/31/2017 4:05:53 PM
Superb Product	We have used the Circulation & Vein Support and yes we do have healthy legs. We ran out and we ordered on the next visit. My legs were hurting and restless again. My husband saw a difference in his legs too. We ordered two of the largest size and we will never run out again. A very feel the difference product.	5	12/23/2017 6:37:47 PM

These work!	I dont take a lot of vitamins but thought to try this for my neuropathy. Doctor prescribed first Nerotion the Lyrica neither provided any relief. Both have many side effects With two weeks of starting these i could definitely feel a difference in the pain and burning in my legs and feet !!!! Thank you.	5	12/21/2017 2:50:35 AM
Very Satisfied Customer	Fine transaction, good product and reasonable price. Rapid shipping, excellent packaging and convenient delivery to front door. Highly recommend consideration.	5	12/16/2017 5:44:54 PM
Another Home Run	If you have achy, painful legs, then this is a Must Buy for you! I had run out of these and my legs were letting me know it! Forget ugly compression stockings/socks, just take these twice a dayyou wont regret it!	5	12/15/2017 10:46:21 PM
Circulation and Vein Support	I got a bottle of these for my 87 year old mom, who has swollen legs and ankles. She likes them and says that she can tell a difference in her pain levels when she takes them. She is on her third bottle now, and I will continue to order them for her as long as she continues to have less pain.	5	12/15/2017 7:08:00 PM
100%	I had doubts about this product but the restless leg problems I was having every night outweighed that. I started taking 2 capsules a day expecting atleast a 2 week wait period before I would see any change (if at all). About a week went by & the restless legs were gone! I am now a true believer! I will not be without this product ever again! Hopefully if you have this problem, this will work for you as well.	5	12/15/2017 3:15:19 PM
Worth the Price	I purchased this product many many months ago to help with circulatory issue I was having in my left leg. I would have some swelling at the end of the day. I lost some hair on my leg (not diabetic). After using this product, I have not had an issue with swelling and the hair on my leg has started to grow back.	5	12/9/2017 6:46:37 PM
Vein support supplements	I am taking medications to control my high blood pressure. I had been experiencing legs pain and swelling everyday although I am also taking a prescribed dietetic. I went to my doctor about the discomfort and he told me it was normal. I didnt feel comfortable about his diagnosis. I saw this on your program and decided to try them. Praise God! Ive been taking them for approximately a month and, WOW! My legs feel normal now. They dont hurt or swell anymore. Love them. Thank you, Mr Andrew. God bless you 24/7.	5	12/6/2017 6:57:36 PM
Great for Leg Cramps	Husband suffered from terrible leg cramps. This helps tremendously. Will keep buying.	5	12/5/2017 2:51:06 PM
Works	I was not expecting the results I got. I can't say enough about this product. I couldn't walk thur the grocery store without my legs killing me. I went shopping last week and was able to walk thur 5 stores, haven't done this in 5 years. I am not going to be without this product.	5	12/4/2017 5:24:22 PM
No more tingly legs	Being a man, my husband didn't tell me he had some tingling in his right leg. He had previously had some vein surgery on that leg and didn't want to worry me. I saw Lessman's Vein Support and was thinking of my varicose veins. Bought a large size and we both took it. AFTER his tingling stopped, then he told me he had had it. Am not sure about my varicose veins--I don't examine them--but I do know it helped my husband. It surely wouldn't hurt anyone to try it, if they thought they needed it.	5	11/26/2017 7:26:28 PM
Really works	I read the reviews and still did not fully believe this supplement would make a difference. I was wrong, it definitely made a big difference and within just a few days. I've been on a fluid pill for years due to swelling of my ankle. After two days I decided to cut back the fluid pill to every other day then within two weeks I finally just stopped taking the pill all together. Traveling is no problem now and I just take one pill a day. Great product and it really works.	5	11/24/2017 7:18:29 PM
Product is a miracle!	Love it n stops my legs from aching!!	5	11/20/2017 2:53:17 PM

Can't walk without it!	I've been using this product for about 8 years or more. Without it I can't walk. I had a heavy achy painful feeling in my legs. I thought it must be a circulation problem so bought this. Within 2 weeks I felt so much better. A few years ago I had my circulation checked with a Doppler, the test said my circulation was fine. So I stopped taking this, the pain returned. I will never be without it and just placed an order for 360. I started out with 2 a day but now take 4 a day. I wish I could ask questions about the safety of taking 2 twice a day however without it I get awful leg skin and ankle pain.	5	11/19/2017 6:17:47 PM
Circulation & vein support	These pills are a total life saver, I was contemplating getting knee surgery because I have suffered knee pain over 10 years, and sometimes the pain gets so bad that I could hardly walk. I need use of a wheelchair and leg brace. But since using this I have not experienced much pain and can even walk farther and longer without any pain. It's helped with my back pain also. The pain didn't stop right away, it took a good 2 weeks 1/2 of daily two pills as soon as I wake up. I just wish the price on these were a little cheaper because I am on fixed income. But thank-you Andrew Lessman!!	5	11/9/2017 3:50:37 AM
It works!!!!	I take my supplements with my afternoon meal (all Lessman's btw) but I found out that taking Leg Support works best if I take it about an hour before bedtime. My leg nerves would cause me grief; it felt like mild electric shocks in one and then the other. Couldn't sleep because of it. With Lessman's supplement; I don't have that so-called "tingling" anymore and can fall asleep easier. I'll do without other items I may need before I'll run out of this. Thanks goodness Andrew believes in SCIENCE. Thanks Andrew.	5	11/7/2017 9:15:05 PM
Legs feel better	Love these vitamins! They really work. I'm a nurse and on my legs for long periods. I will continue to keep buying them.	5	11/5/2017 5:55:37 PM
Must have!	I have been taking Andrew's circulation and vein support capsules for years. My ankles would swell terribly during the week so that I would spend the entire weekend with my feet up, only to start the swelling again come Monday. By Friday they would always be the size of soft balls. Since taking these capsules I have seen a dramatic difference. The swelling is not even close to what it once was. I am not saying there is not some swelling on occasion but when there is, it goes down the same night. I cannot live without these little miracle pills and would highly recommend them to anyone that suffers from leg or ankle swelling. They are well worth the money. Thank you Andrew!	5	11/3/2017 5:03:18 AM
Great product	I use this and more of Mr. Andrew's products. I use to own a vitamin store, so I am probably a bit more familiar with supplements than the average person His products have the proper dosages & combinations, plus I love the way his facility is put together. Bottom line: just try it !!	5	11/1/2017 7:38:09 PM
Legs Feel GREAT	I have used this product for the past 7-8 years. I can tell when I haven't taken this product. Thanks	5	10/31/2017 10:03:12 PM
I have ankles again	I let this product lapse. Wrong thing to do. Finally got my refill. Feeling good again.	5	10/31/2017 12:56:57 AM
One of my daily vitamins for sure	These I will not be without! I take a lot of Andrew's products, I have my list everytime he's on air. been taken his products for over 10 years. I take what I can, what I can afford and in the sizes I can afford, but I will tell you this is one I won't be without. This C&V is a must!! I try many others when I can. but I always stick to my staples can not be without Andrew Lessman vitamins, I take no RX medication and at my age?? this is rare! I know his vitamins have kept me healthy for all these years. Thank you Andrew...	5	10/29/2017 10:39:55 PM
NO MORE LEG CRAMPS	I have been taking this vitamin for 6 months now however. I suffer with very bad leg/feet cramps especially during the night. The Charlie horses are the worse and would send me flying out of bed at night! However within only a couple months of taking this faithfully daily I have 85% less cramping! I would highly recommend this for anyone that has varicose veins and leg cramps.	5	10/26/2017 5:31:24 PM
great	my first hope they do good	5	10/26/2017 1:58:05 PM

Amazing!	I bought these on the recommendation of a dear friend. My legs have been aching and full of pain recently. Then the swelling started. Dr. Advised elevating my legs during the day...nothing was helping.After receiving these I took them for three days and started seeing and feeling the difference!!Im 76 years old and feel like I have been given a new pair of legs to stand on!!!Thank you, thank you!	5	10/25/2017 11:18:17 PM

this helps my legs	I really didn't know if these pills worked, even though I've ordered them twice before, so when they ran out this time, I didn't order more. Within two weeks I noticed my legs were swollen and rock hard by mid afternoon, something I've never experienced. I was going to order the circulation and vein support before I saw they were on sale, so that was a bonus to me. Now that I have started taking the pills my legs feel better and are not swollen and tight. I'm a believer!	5	10/20/2017 6:48:39 PM
IT'S LIKE A MIRACLE	i HAVE BEEN SUFFERING FROM SWELLING OF MY ANKLES, FEET AND LEGS FOR TOO LONG. I STARTED TAKING CIRCULATION AND VEIN SUPPORT WHEN I RECEIVED IT A WEEK AGO. THE SWELLING HAS SIGNIFICANTLY DIMINISHED. IT WAS PAINFUL TO WALK ANY DISTANCE, LESS PAINFUL NOW. THANK YOU ANDREW AND GOD BLESS YOU.	5	10/20/2017 5:31:54 PM
No more heavy legs	Ive only been taking this a couple weeks but so far Im very pleased. After a day or two I noticed my legs didnt feel like tree trunks ! Im not a big time walker but Im starting to walk a little more.	5	10/20/2017 1:11:28 PM
Highly Recommend! It really Works!	My husband and I have both used this product for years! We recently ran out of this vitamin and decided to wait until it came on sale again (which was a few months) before buying it again and boy did we regret waiting to re-purchase this right away! During the time that we were not taking this vitamin both my husband and I started having pain in our legs and leg cramp, which we did not have before while taking this vitamin! Needless to say we will continue to purchase this vitamin in the future! We highly recommend this vitamin to everyone! Thank you Andrew for making this vitamin and all of the others! Your products real do work and we appreciate the purity of ingredients and high quality of them! Thank you!	5	10/19/2017 5:08:59 PM
love it	it's helping me a lot	5	10/19/2017 2:11:05 PM
Excellent	This is marvelous for your legs and the circulation.I have one vein that shows on my leg. If you sit or stand you need this vitamin.I ran out and my legs let me know and I will never let that happen again. This deserves more than 5 stars. I recommend this to everyone. Thank you Andrew.	5	10/17/2017 2:10:05 PM
This Really Works	I have stiffness in my knees and spider veins on my legs and I took these as soon as I received them thinking I would need to wait a while before I could write a review and that was not the case. They worked right away and I could feel my knees and legs feeling better. The second day I took it again and went to my Yoga class and I could do the elliptical machine with no achiness, WOW!! Thank you Andrew for making my knees and legs feel younger, LOL!	5	10/16/2017 8:38:49 PM
This product saved me	My feet were always swollen and theres disappeared since I started taking the product two days ago this is amazing love this product	5	10/16/2017 1:22:28 AM

Works On Edema	I am about halfway through my first large bottle and I have to say I see a noticeable difference in swelling in my feet. If I forget to take it, which is rarely, my feet swell up like balloons. I won't be without this product if I can help it. It is expensive, but I look at it like a prescription medicine that I really need and must take, so that justifies the expense for me. Thank you for making this, Andrew!	5	10/15/2017 6:55:58 PM
It Actually Worked For Me!!!	I am sitting down for a period of about 10hrs a day 4 to 5 days a week. After working these hours for months my legs started getting ugly veins and my feet started swelling by the end of every day. I saw this product and decided to buy it hoping it will work. Well after trying it for just a week (which I have been using it for over a month now) I realized how much it have helped on my swollen feet. I don't have to worry about what shoes or socks I wear anymore. I even bought a bottle for my mom to try. Hopes she loves it as much as I do!!!	5	10/15/2017 5:49:34 PM
It works!	I run out of these and forget to replenish. I bought a years supply this time. Wonderful for my ankles that tend to swell when I consume salt. Within one day the swelling was gone. Cant imagine what else good it is doing for my system.I recommend highly for everyone of a certain age. I'm 62, now with ankles of a 20 year old. Makes you look so much younger when you don't have the "Cankle Look"	5	10/15/2017 5:30:35 PM
Love Andrew's Products!	Bought this for my mother-in-law. I have got her started using Andrew's Products. She loves them. She and myself have noticed that our leg swelling has drastically changed since using the product.	5	10/4/2017 7:30:04 PM
best ever	this product is the best I've ever used. I use to have bulging veins popping out of my legs. no more. my veins are back where they belong == under my skin . I will be using your product for a very long time. I hope others with same problem I had will read this and give it a try. you won't be disappointed.	5	9/21/2017 11:04:25 PM
stops ankle swelling	I have RA and take lots of pain medication. When I take these, my ankles don't tend to swell when I eat the slightest bit of sodium. You should definitely try them.	5	9/9/2017 7:32:25 PM

Didn't realize how amazing it was working till i ran out and the stinging returned.... This entire line of supplements never fails to amaze me. Thank you Andrew!!	5	9/3/2017 1:04:25 AM
Have seen a good improvement	Am diabetic and have vein issues in my legs, along with tired and sore legs at the end of the day. This has really reduced the varicose veins a lot and lightened the spider veins some. My legs are not near as tired and sore at the end of a work day. Will definitely reorder	5	9/1/2017 6:19:11 PM
Gave it a try and BEST EVER	I have become obese and my feet, ankles, legs were all becoming painful bloated tubes to the point I was finding walking painful. So when I saw this I couldn't believe it. I read the reviews and tried the smallest quantity. O-M-G!!!! I will be purchasing this again and again and again. I am moving without pain, swelling has gone done and since both of these work together I on the whole am moving more! So happy I found this. If you have a problem in any of these areas then I would say to "give it a try". Seriously! Very best luck and health to all!	5	9/1/2017 7:37:03 AM
don't run out!	I thought I had enough capsules but ran out. I could tell the difference taking only one instead of the recommended 2 capsules. Then i had 2 days without any. Wow, these really work to relieve pain and enhance mobility.	5	8/30/2017 1:31:20 AM

Really Works!	Although I have taken many of Anthony Lessman supplements for years and been very happy with the results, I was very skeptical about the effectiveness of this supplement. I had been having very swollen ankles however and thought it was worth trying this Circulation and Vein Support. Well I have been using for a couple of weeks now, and I have seen a noticeable reduction in the swelling I had been having in my ankles and feet. I take one each morning and one each night and they are actually working with no known side effects! Thank you so much!	5	8/8/2017 3:28:12 AM
Legs better	My legs would ACHE after being on my feet for an hour. That is now gone and legs feel great.	5	8/2/2017 9:09:19 PM
Quick relief	I was amazed to feel and see immediate physical changes, improved circulation, and lessened pain, stiffness, and swelling. Unlike prescriptions, this is the only one I have taken that did not cause me fainting or vertigo. Natural botanicals are my first choice, and after watching Andrew Lessman's presentations, I plan to buy more of his products.	5	8/1/2017 9:56:22 PM
legs feel ready to go	I teach fitness classes and several a week so I feel my legs get tired plus I have vericose problems. I thought I would try and my legs feel good after a days working out. Good!	I have no muscle spasms with this easy to swallow small capsule. I don't know the why's and wherefore's but my feet and legs feel better.	5	7/21/2017 9:08:12 PM

Can't be without it	I had a blood clot in my lower leg that resulted in a pulmonary embolism in 2012. During and long after my recovery my lower leg was always in pain and swollen. I have a desk job and that does not help either. About 6 months after I tried these and about 4 to 6 weeks later I noticed a big difference. Not only did the pain lessen but the swelling I dealt with every day went away. Last year I stopped taking them to try and save money and thought I would no longer need them. Boy was I wrong. The swelling was back and I could not make it through a full days work before the unbearable pain took over. I ended up standing at my desk which was very difficult to do my job this way . Needless to say, I will never go without these again. Thank you Andrew, I'm forever grateful!!	5	7/21/2017 1:40:35 AM
Very Effective	Husband noticed decrease in dark discoloration in his legs (coupled together with regular exercise and healthy diet). Thanks Andrew!!!	5	7/21/2017 12:13:20 AM
Swollen Ankles	I was using up my first bottle and ordered this. I can see my ankles again. This hot weather really makes my ankles swell but after less than a week, I can really see a difference.	5	7/20/2017 11:29:59 PM

These vitamins are good for anyone having a problem with their legs. I take 3 per day.I am on auto delivery so I will never be out of them.	5	7/18/2017 2:45:17 PM
Great supplement	Have been using this product for about a year and really notice the difference in my ankles and legs. I take them at night and never have restless legs or cramps in my calves. I take many of Andrew Lessman's products and feel very thankful to have discovered them. I have complete confidence in his products and their health benefits. Thank you, Andrew, for all that you do and all that you stand for.	5	7/18/2017 1:50:29 PM

works well	I have been using over a month and have noticed a difference in my swelling and pain in my feet and ankles I still have some soreness and swelling but I have noticed a difference and it has only been a short time.I have reordered to see what will happen with continued use, i have also told my doctor and she felt that it was not a bad thing use, and to continue that she saw a difference in my swelling.Thanks for the great product.	5	7/15/2017 2:54:57 PM
I am back	I have been taking this supplement for a long time my legs felt great, so I stopped taking it. The discomfort in my lower legs came back. I am taking it again my legs feel great.	5	7/13/2017 1:55:36 PM
Makes a Big Difference!	When I take Circulation and Vein Support every day the swelling and severe pain in my ankles and lower legs goes way down! If I stop taking it, the swelling and severe pain goes back up again! It is most noticeable after 20 or 30 days so hang in there and take it faithfully every morning with your breakfast and Andrew Lessman Multi Vitamins. Even my doctors see a big difference!	5	7/9/2017 6:07:33 PM
WOW WHAT LEGS !!!!!	I love this product, I can really see the difference in my legs, pretty nice for a 57year old NONNI of 2	5	6/29/2017 3:25:46 PM

WILL NEVER LIVE WITHOUT THIS PRODUCT!	I have used the circulation & vein support for over 12 years now. I ran out once and it will NEVER happen again. My ankles have always swollen up after doing a lot of walking or standing. Once I used this product - NO MORE SWELLING! My husband also uses it and he had very bad charley horses in his legs and restless leg syndrome but NO MORE! If you have any of these problems, you won't be sorry and you will never miss a day taking these in the future! Love Andrew and the other 14 products that we take everyday!	5	6/27/2017 5:28:21 PM
Amazing!	I cannot be without these supplements any more! And yes, they are a bit pricey considering that I need D3 and vitamin complex and women's ultimate etc., but it does miracles. I was battling with restless legs syndrom and these 2 capsules a day helps me alleviate issues related to that + burning sensations in legs are gone, i recommend this to everyone suffering from similar problems!	5	6/25/2017 3:13:27 AM
It works!	I have had leg cramps ever since I was a kid because I was so athletic and I am still so physically active. I have always used potassium but it didn't really help all the way for restless legs at night for sleeping. This works for me and I hope it does for you, too!	5	6/24/2017 1:32:20 PM
This Changed My Life! THANK YOU!!!	For years I had problems with swelling in my feet and ankles. I went from doctor to doctor because I thought there was something very wrong and was told by all there was not. Still my ankles and feet were like sausages after work every day and I was miserable. Also I'm a very thin person. I spent every night with my legs up to get the swelling down only to have it come back the next day. Then I saw these awesome supplements. I must have watched EVERY show. I was skeptical but you'll try anything when you're desperate. I ordered Circulation and Vein Support for Healthy Legs and started taking 2 a day. I realized within about a week that I hadn't even noticed that the swelling had stopped COMPLETELY. Honestly, ankles and feet are totally back to normal since I started taking these supplements and my legs feel much better too. I never want to be without these so please get them back in stock and THANK YOU Andrew!!!	5	6/23/2017 3:32:57 AM

This works.	I have had problems with cramps in my feet. My doctor said it was circulation. I tried these for the first time and they have made a tremendous difference with the frequency of cramps, Happy I finally tried this product.	5	6/6/2017 11:52:06 AM
It works!	For years walking was a chore for me, my legs felt like they weighed a ton. After only a week of taking this supplement I am doing so much better. I still have a day or so a week with aching but really these pills have changed my life.	5	6/4/2017 2:43:02 PM
Wonderful results	After vein surgery my leg felt tingly, like the nerve endings were dancing. The leg was swollen and tender even 3 years after the procedure. I discovered Andrew's Circulation & Vein Support about 6 months ago. Within the first month my leg felt better. I ran out of the capsules and the issues returned. I won't run out again!! I'm extremely happy with this product and highly recommend it to anyone with vein or circulatory issues. I wish I'd discovered this product before I had the surgery, for I believe it would not have been necessary.	5	5/31/2017 3:10:46 PM
It works	This product does what it says it does is amazing best to take it at night for me I feel I get tire after I take it this is good because it helps with tire legs.... I LOVE IT!!!!	5	5/29/2017 5:46:27 PM

Seems to be a great product	I have only been using it a week or so, and so far my legs seem to feel better with less aching and swelling. I was suffering from leg and foot cramps during the night, but not since I have started this product. The color is better in my legs and feet also. thank you for your excellent products, Andrew Lessman! You are the KING of Nutritional and health supplements!	5	5/27/2017 11:22:34 PM
No more leg cramps!!	I was skeptical about this product, but I thought that I'd give it a try.I am amazed. This is my 3rd week using this product and by darn, it works. I've had cramps and you name it twitching my legs for years and years. It was a chronic condition. I'd be okay for a week and then it would start!!! AwfulLet me add that I am not diabetic. I do not have a circulatory issue.Since using this product, tp my amazement and delight, I have had no muscle cramps. My toes can sting but that sensation has been reduced big time. I have hammer toes!!!! OUCH!Oh, yeah -I'm 80.I initially ordered the 60 capsule size and just re-ordered the 180 count.	5	5/26/2017 1:35:31 PM
They do work!	I've been skeptical but wanting to try these for years tried the drugstore brand and upsets my stomach. I kept getting severe leg cramps and my doctor prescribed something else that didn't work so I went for it and finally ordered these! Because of the price and the numerous other products I use by Andrew I take one every other day and I can definitely tell the difference! I believe I'm just going to jump in and order the larger bottle since they're 20 percent off. Hopefully they'll work for you but order the smaller bottle first to make sure they work I've learned that from past experiences.	5	5/22/2017 6:34:30 PM
Best foot shrinker	I started taking these about 2 weeks ago. I instantly saw my feet return to their normal size. In the past, by the time I would reach noon my feet would swell up and my shoes hurt like mad. It made it hard to get through the work day. Now my feet are skinny, skinny, skinny!! No more swelling and my shoes look great on my feet again!! Love that part!!Only issue I noticed is a lot of bloating and gas. Has anyone else experienced that while taking this product?	5	5/22/2017 5:16:04 PM
Good product.	My son and I both have swollen legs and this product helps the discomfort and swelling stay under control.	5	5/21/2017 5:05:30 PM
My Veins Are Shrinking	It's been one month and my mass of veins seem to be shrinking. I take 2 in morning and 2 in evening.	5	5/19/2017 4:07:37 PM
Great Product!!	I started taking these as soon as they arrived. I have a couple spots on my legs that my veins are popping out. Let me tell you what!! They're fading away after 4 days. I can't say enough about this product. I will never be without it. I can't wait to see to what my legs look like after 1 month. Thanks Andrew!!	5	5/18/2017 1:50:28 PM
Best ever for legs!	I suffered for over five years with internal varicose veins. Leg cramps, rumbling in my legs and instability. When the pain became too severe, I would take a 12-hour pain reliever. Since taking Dr. Lessman's capsules these symptoms have stopped! I am so amazed. I will never be without it. God bless you, Dr. Lessman.	5	5/17/2017 8:20:03 PM
Love the product	I take 24 of Andrew's Products. I love this product. It has completely eliminated the swelling in my legs as well as my varicosities. Thanks Andrew.	5	5/15/2017 5:51:27 PM
Circulation & Vein Support	Nothing to say except five stars tells it all, Have used this product for years and I love it.	5	5/14/2017 1:17:03 AM
Great product when you are on your feet all day.	I have had these in the past, and found them to be very effective in helping my aching legs, when I stand up at work all day long. I have not ordereed them for some time, and my legs are really bothering me. So re-ordered them recently, and finding my legs are feeling far better again. Would highly reccommend.	5	5/10/2017 2:31:24 AM
Painless Legs, Finally	I was having terrible cramps in my legs, especially at night and would wake up in pain. After just 30 days of taking this product I no longer get cramps day or night. This is my second order and I would NEVER be without it again. Thank you Andrew!!!!	5	5/9/2017 2:57:37 PM

Improvement of leg pain	My husband has varicose veins and he has had no pain while taking this product. He did have surgery to remove some veins before starting this product but he feels the product has made a huge difference in how his legs feel and look. I also take this product for vein support throughout my body.	5	5/7/2017 5:57:33 PM
Great	Excellent product took all the numbness out of my legs	5	5/3/2017 1:13:42 PM
Makes sense	Andrew's products make sense to me. His delivery system to the body seems better than what is available on the open markets. I want the dollars I spend to make a difference in what I take. I like learning from him when he is on air.	5	5/2/2017 9:02:23 PM
Makes sense	Andrew's products make sense to me. His delivery system to the body seems better than what is available on the open markets. I want the dollars I spend to make a difference in what I take. I like learning from him when he is on air.	5	5/2/2017 8:38:56 PM
Keeps swelling down in legs	My son is a semi driver and spends hours sitting and driving so this works wonders in keeping down the swelling in his legs from sitting. He doesn't want to be without these.	5	5/2/2017 12:20:24 AM
Couldn't believe it!	I ordered this product because my feet are always cold and I was hoping it would help improve my circulation and thereby warm up my toes. Not only did it help my feet in only a few weeks, but also helped with my wonky knee! I showed it to my doctor and told him how it was helping me. He was quite happy.	5	4/30/2017 3:46:12 AM
Great legs	I love this product. I take two capsules every day. I no longer have cramps on my legs and can move around without pain. I used to get up every morning with pain in my legs, no more. I will take this product forever.	5	4/22/2017 9:20:24 PM
Believe	Not a fan of supplements, and I wanted to believe all the good reviews I had read, but still somewhat skeptical. Wow was I happy to be so wrong about this product. I'd been suffering from aching legs for several months, which was preventing me from getting any rest at night. After only two days I was ache free and have been since. I'm never going to let my supply run out. Believe!!!!!!	5	4/21/2017 10:12:16 AM
Color returning to lower legs	I have used circulation and vein support for 4 months now and this product really does increase circulation and improve skin tone to lower extremities. This is a wonderful product I highly recommend it.	5	4/21/2017 2:22:17 AM
Amazing Product	A lifetime retailer, have worked on my feet, standing or otherwise all my life. Even after retirement I still take it everyday. Noticeable difference when I either ran out or tried to substitute to save a few dollars. There are no substitutes for this product, I come from a long line of people with circulatory issues and though I know you make no medical claims, in my own case I confidently say I will take CVS for the rest of my life. Thank you Andrew and also HSN for facilitating affordable ways to stay on track.	5	4/20/2017 5:11:58 PM
Beyond My Expectations! It just WORKS!	I've had circulatory/pain issues with my legs and feet for quite a while and basically presumed it was part of getting older. When I saw the promo for this on HSN I figured...why not try it? People listen: Within TWO DAYS I could feel an improvement, and I've already re-ordered and my wife is now using it and feeling results, too! This is a HUGE improvement in my quality of life AND helps me get a better night's sleep because of a lack of the pain/discomfort I was having too! If you have any doubts, you owe it to yourself and your legs/feet to try it--and MEN, I mean YOU. This isn't about cosmetic results--this is about pain relief!	5	4/18/2017 6:36:59 PM
excellent	I have been using this product for a year and my legs & feet can not live without these capsules. They help with my arthritis in my legs and feet. Thank you	5	4/17/2017 9:51:26 PM
Must Have	This is great for me I have problems with my legs /arthritis this helps me 300% can't ask for anything better	5	4/6/2017 6:31:23 PM
My Legs Feel and Look Better	Before I started this product, my legs would swell around the ankles and feel uncomfortable. Since I've been taking this, they look normal and feel much better. I stand a lot at work but now I am confident my legs won't swell. Since this is working for me, I will continue to take it. Thanks Andrew!	5	4/5/2017 10:56:49 PM

Lessman Circulation and Vein Control	These easy to swallow capsules were just what I needed. Only good things to say about what a difference these pills have made in my life. Goodbye leg cramps and swollen ankles.	5	3/30/2017 5:25:13 AM
It Works Better Than You Think	I have been pain-free in my legs and behind one knee where I had severe pain. I am no longer taking my prescription drugs for pain because this product works BETTER! Who knew?? I am now walking pain free and returned to daily walking of 10k steps. I don't even need a pillow under my knees when I sleep anymore. I also do not use my knee brace, cane, or walker for support. It's like a miracle! I'm 67 years young and I can't wait to tell my doctor when I go for annual physical. I have had such success that I have since included marine collagen with MSM, over the counter glucosamine, and Tumeric. I'm telling anyone who will listen to try this if they have leg pain and leg fatigue. My feet don't swell like they used to either. Thank you Andrew Lessman.	5	3/29/2017 6:33:51 PM
Really Helps !!	This really helps my legs ALOT !!! Just will not b able to afford keep getting them. Wish we all got discounts on reorders ? or coupons to help us save like a todays special price.... I did 1 reorder, but will have to make them last, can not buy any more as I have bought other Vit. from Andrew. I just can not afford hundreds of dollars to b spent like this...I GOT BILLS TO PAY !!!	5	3/21/2017 10:24:35 PM
Another Awesome Product!!!!	I was watching one of Andrew Lessman's shows one day and he was presenting this product. I read the many positive reviews and thought that it might help my husband as well as myself. My husband has been suffering from severe leg cramps at night that actually wake him up and keeps him up. After he started to take these capsules only after a few days he told me that he was no longer getting the leg cramps. So far since he has started taking them I think he might have had 1 maybe 2 occurrences.	5	3/21/2017 8:59:52 AM
Amazing	I actually ordered this as a last resort. Ive tried so many things for the pains I get in my legs, especially at night time. So, I started taking these half heartedly, since nothing else has worked. So, I got the biggest bottle I could and started taking 2 a day as suggested. I figured I'd give it to the end of the bottle and if it hadn't worked, well at least I gave it a good shot. Then, 1 week into taking them, I slept through the night with no leg pain. I haven't slept through the night in many years. I am absolutely amazed that this works, but I am thrilled and so happy that it does. If you have leg trouble, please just give it a shot like I did.	5	3/18/2017 5:36:05 PM
Great product.	I love this product. It has helped my legs feel less tired.	5	3/17/2017 4:35:09 PM
Really helping my legs.	I have dermatomyositis and neuropathy in my legs. This product helps them feel better. They are not so tired. I will continue to use it. Barbara	5	3/17/2017 1:49:24 PM
LOVE THIS	I started this about 9 months ago, took them for 30 days and stopped because I ran out and I thought I would be ok. Well low and behold I could not move one day and remembered I was out of these. I went online and re-ordered them. These are wonderful and really take the pain away completely. You will forget you take them.	5	3/16/2017 2:18:05 PM
Easy to forget ... until you need it	I've been taking this daily for years to help prevent my legs from twitching as I drift off to sleep. It's easy to forget about it when my legs are doing fine, but then when I run out, I go into panic mode until my order arrives again. I've tried other products, but nothing lives up to Andrew Lessman's Circulation and Vein Support.	5	3/16/2017 1:54:20 PM
Excellent Results; Highly Recommend	As the result of cancer surgery, that included removal of lymph nodes, I had significant (painful) swelling of my lower legs and ankles for several years. Based on the excellent reviews of this product, I decided to give it a try. I have had excellent results. I now have only occasional, minimal swelling. If I discontinue use for more than a few days, the significant swelling recurs. For anyone experiencing similar problems, I would highly recommend giving this supplement a try. I am a senior, on a tight budget, and the special pricing events make it possible for me to use this supplement on a daily basis.	5	3/15/2017 9:24:22 PM

Best ever	I have been taking these for several months now and at first I only took 1 a day and noticed some change before I realized I can take 2 per day. I used to have swelling in my right foot/ankle and doctors could not give me a reason other than simple edema. I started taking this product and no more foot swelling. At 57, I stay active but have 1 varicose vein in the right leg which appears to be gone and the few spider veins I have seemed to have diminished as well. In addition, my legs just don't seem to get as tired as they used to so I can work out longer! Thank you Andrew! I take this and turmeric for my knees and feel like & look like a 37 year old instead of 57! I am always promoting your products to my friends which was always a bit of a joke that I purchased them on a shopping channel until they too started seeing the difference! Finally some relief!!	After suffering from leg pain for 20+ years finally a product that works! I've never been into taking traditional medication for pain so to find a natural supplement to relieve the heaviness, throbbing, pins and needles pain in my legs has been a godsend. Thank you! I've tried support hose, elevating my legs etc and never had relief from the pain. The only thing that would provide short term relief before was to massage my legs to get the throbbing and heaviness to cease, only to come back almost daily. Thank you, Mr. Lessman! I'll never be without this product.	5	3/5/2017 3:42:48 PM
Will always take	Suffice it to say we will always have this product in the house! My husband suffers from veinous insufficiency causing swelling in his legs. This cut that swelling down markedly! The numbing and heavy feeling went away. Would rather take this then wear compression stockings for sure!!	5	3/5/2017 5:19:26 AM
Many benefits	Stopped taking & excruciating leg cramps came back. I started taking these 1 in the a.m. & 1 in p.m. No more cramps & added benefit of no more hemorrhoids. Unbelievable product. Have high blood pressure, so can't use hemorrhoid creams. Work 12 hour shifts at hospital, this takes away so much pain in my legs. Will never be without. Thank you Andrew.	5	2/27/2017 9:51:01 AM
Save Legs	My husband was always complaining about his legs hurting. I saw this on Andrew Lessman show and thought I would get him a bottle to try. He thought his legs felt better and continued taking them. Then he ran out. How he suffered those few days until another bottle arrived and we will not run out again! Fabulous product and we have already told some friends about it. Thank you.	5	2/26/2017 3:38:55 PM
Thankful for everything	Has helped me and my mom enjoy a better way of living. Ordered for her originally. Decided to order for myself. I suffer with restless leg syndrome stemming from a car accident. This has helped me to sleep at night. So thankful for this product. It has improved our way of life greatly. With the availability of flexpays I am able to purchase for us with no worries. ML	5	2/25/2017 7:29:53 PM

Circulation & Vein Support for legs	Before I used this my legs were painful every night, now they're hardly ever painful. I've used it for years.	5	2/24/2017 12:17:46 AM
It really works!!!!	This product helped with the little swelling I had in my ankles. Don't walk, but run to purchase this product!	5	2/23/2017 10:05:11 PM
Really works!	Formerly used another leg solution, and used it for years, thinking it would eventually work, ordered this stuff and waala in a week those spider veins were gone!	5	2/23/2017 6:20:14 PM
Excellent	I have been talking these for years and they have been very important for my daily activities.	5	2/16/2017 2:52:30 PM

Awesome!	This product has changed my life ! I am so excited I want to tell everyone I know. I have been suffering, REALLY suffering for two years. Could hardly even walk. I have serious back problems and was blaming the back problems for all of the pain and swelling in my feet, ankles, legs. These swelling and pain problems started right after I had Sciatica and the Sciatica was on both sides, both legs. I also have arthritis. I just thought I was doomed. I truly cannot even imagine going without these pills. I am able to shop, walk sleep without pain & swelling. Thank you Andrew from the bottom of my heart!	5	2/10/2017 5:35:55 AM
circulation vein sport	Before I started using this product my legs would keep me up every night, They would ache from my ankle all the way to my hip. My doctor had no answer. As soon as I started taking Circulation Vein Support the pain has gone away and has not come back since, I will never be without this again. It's amazing!Debby Lacey	5	2/8/2017 5:19:55 PM
The Best	I bought the Circulation and Vein Support for my mother as she suffers from poor circulation she said to me after taking it for 1 week she felt a difference in her legs. I was so excited to hear her testimony because she has taken everything over the counter. Andrew we thank you so much for such great product, I just ordered your biggest bottle.	5	2/7/2017 6:56:59 PM
Amazed!	I use so many of Andrew's products and love them all. I waited awhile to order this, thinking it probably wouldn't help. I listened to his presentation this last time and read all the great reviews and decided to give it a chance. So glad that I did! I have used a little over a week and can tell a huge difference in my legs and knees....during the day and at night. My most noticeable difference was when my rings slipped right onto my finger with no effort! I can't thank Andrew enough for providing all of these vitamins for us. Changed my life and I will never stop taking them.	5	2/5/2017 9:43:26 PM
Magnificent	I've been taking circulation vitamins for years now and I recommend them to anyone that's having poor circulation these are wonderful vitamins they have really helped me my legs used to go to sleep all the time and now I don't have that problem they really do work	5	2/5/2017 2:39:45 PM
Great help with circulation	A++++ Great product...really improved my circulation in my legs....	5	2/4/2017 9:52:02 PM
LOVE LOVE LOVE	I started to take this vitamin when Andrew first introduced it to us on HSN. I ran out one time and believe me could tell the difference. My legs told me to get another bottle. It was not on sale but I ordered another bottle. Now I keep them ahead all the time. If you are active and on your legs a lot this is for you because I had some swelling in my legs and after I got them again no more swelling. If I could give this 100 stars I would. It is the best since sliced bread. Thank you Andrew.	5	2/4/2017 2:38:05 PM
Get your legs back in good shape	Almost immediately removes swelling. 20 years ago took this product because left Achilles tendon was severed as child & ankle always swollen. Ran out & forgot about product. Swollen ankles again. Started back on it & swelling gone. When I ran out, forgot to reorder for quiet a while. March 2016 I got severe dehydration & my popliteal veins in both legs coagulated & both legs looked like telephone poles, ended up with major blood clotting in both calves. I'm now on Warfarin but still with swollen ankles. Daahhh! I remembered to order this product again to see if it helps with this severe condition.UNBELIEVABLE!!! My horribly swollen ankles have yet again returned to normal size once I started taking these again. Can put my feet back into my shoes again.I will ALWAYS be on these from now on.	5	2/4/2017 12:01:50 AM
Great product	I ran out of this for about a week and my feet started to swell again. When I saw this on sale I reorder the 360 count. After three days, the swelling in my feet went away. This is the best you can buy anywhere.	5	2/3/2017 7:55:59 PM
Noticing improvement already	Decided to try this product to see if it would help with my varicose veins. In approximately a week my legs are feeling better - swelling of ankles has improved - I also take a prescription medication for water retention in my ankles - the two combined are making for the improvement. Thank you!	5	2/3/2017 2:29:29 PM

Your Legs will thank you	I have been taking the Circulation & Vein Support supplements for years. I will never go without them. As a dancer I would experience toe/foot cramps, especially during the night. I don't have to be awakened with these problems since taking this supplement. I am a senior and can still enjoy weekly swing dancing and my legs feel great!	5	2/2/2017 6:11:10 PM
The Best	Been taking this since Andrew offered it. No pain in my legs from my varicose veins. When I have stopped, my veins do hurt and I have restless leg problems at nighttime. I have learned to be faithful in taking it everyday. One product I can't live without. I am 70 years old.	5	2/2/2017 4:39:37 PM
love love love	i tried to go without and the cramps came back in a couple of days i couldnt wait to order it again and got it on todays special great product	5	2/2/2017 3:10:24 PM
My legs feel better!	Andrews products by far surpase anything sold over the counter!	5	2/1/2017 3:45:05 PM
Truly a life saver	I work at my computer all day, and recently started having a serious issue with leg swelling and fatigue. Support hose and elevating my feet at the end of the day had ceased to be effective, and I was getting concerned. I'm not a pill taker, but Andrew's presentation of the Circulation and Vein Support supplement was compelling, so I decided to give it a try.It took less than a week to begin seeing results, and within two weeks, my swollen feet and legs were a thing of the past! I will never be without this product again. I doubled up on the dosage the first few days and on those rare days when I feel a little leg fatigue, I take an extra capsule and I'm right back to where I need to be by morning. What a fantastic discovery! Thank you Andrew!	5	1/31/2017 10:10:06 PM
Thrilled with this product.	I have restless leg syndrome. I have tried sleeping pills. Ambien, does crazy stuff to me so I can not take it. Benadryl, which makes me sleepy the next day. I have only been using this for 5 days and I am having no symptoms of restless legs and able to sleep through the night. I have been dealing with this problem for years. I feel like this is my dream come true. Thank you.	5	1/31/2017 4:37:16 PM
Excellent	Love how this has improved my circulation.	5	1/27/2017 6:36:50 PM
TAKING THIS SINCE 2000!!!	This product helped me recover over time from peripheral neuropathy and nerve and vein damage to my legs and feet from medication. Along with B complex and B12, and the Womens Complete Multivitamins.	5	1/27/2017 3:13:41 PM
Great product	My mother love this pills great benefits to her legs, very happy with the results	5	1/27/2017 2:09:25 PM
Wow! Not just for women.	I recently started noticing 'bald' spots on my lower legs (yes, I'm a guy). My Dr. sent me to a cardiologist, and thankfully my heart was ok.He chalked it up to poor circulation from long periods of sitting and not enough exercise thus depriving the follicles. I bought a smaller bottle from Andrew first, and noticed in a few weeks the hair was growing back. It was working. I ran out and unwisely bought a similar product from the vitamin store. In a few weeks I started noticing the unwanted smoothness returning. Bought a HUGE bottle from Andrew and again, in a few weeks the hairs were returning.There's no doubt that this product works.This is not a problem most women would notice because of shaving their legs. But if you're a man noticing this problem I couldn't recommend it enough.Amazing product!	5	1/22/2017 5:48:46 AM
Great product!	I was having bad leg cramps every night and now I can rest easy because they are gone. Wonderful.	5	1/18/2017 4:02:10 PM
Circulation & Vein Support Really Works !!	I have been amazed at how much this supplement has helped the swelling in my ankles and lower legs. I wondered if it was really true so I did a two month experiment. I stopped taking it for 2 months and then took it again for 2 months. The 2 months without I got worse and worse in my ankles and lower legs. After I went back on within 2 weeks I was already much better because I had been taking it before I improved faster the second time. After the 2 months of taking it again me, my caregiver and my doctors knew for sure I am greatly helped by this supplement !!	5	1/14/2017 6:06:20 AM

GREAT PRODUCT	but why not have the more flex pay payments especially this time of year ...us on fixed incomes, most, can not afford high flex payments. as a widow so one fixed income makes my buying for my health a challenge...I have loved and used these products for years..but now have to make harder choices.I needed at least two products due to not having the more flex pays ..I will have to pass buying	5	12/7/2016 5:52:43 PM

Outstanding Product	I bought this product due to positive reviews, but I had no idea it would work as well as it has. My legs hurt so badly at night that I could not sleep without taking pain meds. My feet were swelling also. This product is amazing! No more pain in my legs and feet, and the veins in my legs that were protruding are not anymore. You will see results in a short time also. I will never be without this product.	5	12/1/2016 2:43:55 PM
Helps with swelling	I have leg swelling and have noticed an improvement when I take these supplements. My doctor isn't such a believer, but I know that these are helping me.	5	11/30/2016 2:50:54 AM

Good Results	I ordered this for my daughter who has spider and varicose veins in her legs. She started taking this product hoping for the best. After about 3 weeks of taking it, she started noticing a decrease in the leg pain, discoloration, and varicose veins getting less noticeable. She is very pleased with the results and will continue to take it. Thank you, Andrew, for all of your wonderful products!.	5	11/19/2016 7:09:40 AM

Very pleased!!!!	I'd just started taking the pills and I can fill a difference in my legs already!!! A coworker had advised me to give the product a chance. I am so pleased with how fast its working. There was a time when getting out the bed was such a struggle and painful. I'd decided to buy monthly. so much searching and hopefully this is the end.	5	11/9/2016 8:57:02 PM

Not a day without it, works so well.	I wrote a review a couple of years ago saying that my varicose veins were shrinking and spider veins disappearing after taking this product for 2 - 3 months. My legs look even better now and I'm assuming the benefits are for all veins not just legs. My husband has developed non-diabetic neuropathy. He has started taking this product daily and we will see how it works for him. Will update!	5	11/7/2016 11:09:54 PM

Works for me.	I can definitely tell a difference when I am using Circulation and Vein Support.. I used it and then ran out, about 2-3 months went by before I reordered again. Excellent Product - Great results	I started using this product in 2013 after an episode with cellulitis on my left leg. My legs were swelling wors than ever. I saw the segment on the Circulation and Vein Support and thought I had nothing to loose, so ordered some. Within a week the swelling was down significantly. I have been using it ever since. I have recommended to many friends and anyone I know with swelling issues.	5	10/16/2016 8:27:33 PM
fantastic	I've been taking this for a couple of years and am diabetic with vericos veins from years of stand up job. This product has changed my life as I no longer wear support hose have been able to get out walk loose a few ponds and my legs feel great. I too noticed the difference shortly after starting them and I make sure not to run out. Thank you Andrew for wonderful supplements that work. Auntie deb	5	10/15/2016 10:02:04 PM
Impressive results	I have a palm size area of tangled spider veins on the side of my lower leg from a childhood injury. They had become raised as my skin thinned with age. After taking Vein Support for a few weeks, I noticed the skin has smoothed out and the injured area is lighter and less noticeable. It is still there but the improvement looks dramatically improved to me	5	10/15/2016 8:06:26 PM
Works for me	I am on my second bottle and this has helped with an uncomfortable feeling around vein cluster near ankles. Upon rising I take 2 capsules in the morning with a warm glass of water with lemon drops squeezed into water; occasionally if I forget, will take before bed with couple sips of lemon water.	5	10/15/2016 3:09:26 PM
FOR ALL THE LADIES OUT THERE!!!! AWESOME!	I have been taking these vitamins for the past 6 months. When you sit at a desk, etc. for long periods of time, the legs can get tight or weak and sometimes swelling occurs. I do not have that problem when taking these vitamins. Believe me, THEY WORK!!	5	10/14/2016 4:51:28 PM
Great	I have been using this product for a few years & it definitely makes a big difference in how my legs look & feel. The achy feeling at the end of the day is less or gone. Veins are less noticeable. Would recommend.	5	10/14/2016 2:08:14 PM
Just ordered for my mom	Love love them	5	10/13/2016 1:18:04 PM
Amazing!	This product is absolutely amazing! Started working within 2 weeks! My legs were swollen and tight as a drum. Always felt cold. They looked like bowling pins! I'm 53 overweight but have been going to the gym and my legs have always been a struggle. I cannot stress enough how great this product is!! You will not be disappointed!!! I've had my family watching the change in my veins and legs. I've tried so many different things that didn't work, this product is a life saver. I highly recommend it. You will not be disappointed!!It is worth every penny to me. Thank you for a great product.	5	10/12/2016 11:08:35 AM
Awesome supplement	I've been using this supplement for a while now. And I truly see and feel the difference. This supplement is really amazing. Thank you Andrew	5	10/9/2016 11:34:37 PM
OUTSTANDING	I started using this when Andrew first offered it. Then stopped because I thought it was not all that important. Immediately, I noticed a difference..and reordered and have not been without it since. God bless your work, Andrew. Consider organic ingredients, if possible.	5	10/9/2016 3:50:23 PM
Excellent product	I love the product and I swear by it now. Due to my diabefortics it helps my legs and feet very much. I even tripled my order this time Excellent pproduct. Thank you Andrew Lessman	5	10/6/2016 11:04:10 PM

Love this product!	This is one of MANY Pro-Cap vitamins that I take on a daily basis. I'm 64 and have a few varicose veins in my left leg. If I miss a day or 2 not taking these, my leg will just throb and I will not get any sleep. I also take Andrew's Nighttime that works great too! One thing I would love to see made available would be a brochure of some kind that gives a thorough description of all of your vitamins. When my doctor asks what vitamins I take, I really don't even know where to begin because I take so many. It would be very helpful to have all of this info readily available with a thorough description of each vitamin included. Simple to hand over to the doctor when questions are asked.	5	10/5/2016 3:31:30 AM
Wonderful	You may not see or feel a change until you stop using then you will be on the phone for another order. Had my husband on these and ran out...a few days later after he was having sore legs he asked what changed in his daily vitamins...needless to say I was ordering them in the next few minutes.	5	10/2/2016 12:58:04 PM
Will never be without again	I sit at a desk 50 plus hours a week. My legs hurt,they swell, and I do try and walk around. I have been taking this for years. Ran out, didn't refill because I thought maybe it's all in my head. Within days swelling and pain again. I take two in am and one before bed. If I fly I take two as does my hubby. We ride Harley's , when we ride I take an additional. This gives me my life style back pain free. Thank you Andrew! When we were in Nevada I wanted to visit your facility but our friends didn't think that was a fun place to go. Next time cause they all call me an Andrew lessman addict. Proud to say YES	5	10/1/2016 2:22:06 PM
Great	Several reorders of this product because it works. If you have restless legs at night; this will stop it. When I run low; I get more. Won't be without.	5	9/30/2016 7:53:27 PM
Great product	Really reduced the swelling in my legs. Just ordered another bottle. Wish I could figure out when Andrew Lessman will be back because the products are less expensive when he is on.	5	9/29/2016 6:30:24 PM
Reduced swelling	It took about 30 days to reduce swelling, but when it did it was remarkable. Will definitely keep on using.	5	9/28/2016 4:04:06 PM
I love Andrew's supplements	I love most of the supplements I have bought from Andrew Lessman but this is one of the few I come back and repurchase over and over. I really do notice a huge difference when I take it.	5	9/26/2016 2:05:29 PM
Saw improvement	I tried these few months ago and they seemed to help. But when I ran out and didn't re-order right away was when I noticed just how much they were helping the appearance of larger veins. Also, my legs don't ache when taking this.Definitely worth a try.	5	9/23/2016 3:01:30 PM
It works	My husband had bunion surgery and ever since then, his ankle swells. I bought this to see if it would help. Within 3-days, the swelling significantly improved. My husband told me to buy more of it as I started out with the 60-day supply.	5	9/21/2016 1:27:52 PM
Wow	So far I am impressed. I could feel the difference in my feet .. They don't hurt.and they used to be terrible.	5	9/20/2016 12:23:05 AM
It works	I bought this for my 70 something mom who complains for poor circulation. She loves it because it works. It makes her legs feel energized.	5	9/19/2016 4:51:43 PM
Awesome	I really love this circulation and vein support. I was having trouble with my legs and veins, and remembered that my sister told me she has taken this for many years. Her legs are wonderful with no signs of any vein problem, nor any varicose veins popping out (like I have). So I decided that I needed to order some of these and they have done wonders! I am on my second bottle and will continue to take them.	5	9/17/2016 11:15:53 PM
Great help	I had been wearing compression socks every day. I find that these capsules help my legs with swelling. Cramping has also been almost eliminated. I notice a difference if I do not take them. I take one in the AM and another in the PM instead of two at a time.	5	9/16/2016 1:42:28 PM
Great stuff!!!	This is very good stuff when used regularly, I love his products!!!!....	5	9/13/2016 4:44:53 PM

The difference in my veins is extraordinary!	I wish I had taken pictures before I started taking this, but the size of my veins have shrunk and I'm loving it. I have not had twinges of pain in both my legs since starting this. Wish I had bought the largest bottle.	5	9/12/2016 4:36:02 PM
Helps my Psoriasis AND RLS	I suffer from severe psoriasis on my scalp and face. I also often wake up kicking in my sleep. My wife purchased this product for me in the hopes of getting a good night's sleep. It worked! I rarely kick anymore. I sleep so much better. And my wife finally gets a good night's rest because my kicking actually kept her up more than it did me. I was shocked to discover it helped my psoriasis. I hope it goes on sale because I really don't want to go back to living without it. It has become a must have in my life! Thank you Andrew!	5	9/9/2016 12:45:21 AM
It works for me !	I love them !! You can't stop taking them though ..I have poor circulation in my legs.. I take these and after a week I feel so much better . Ordering more now	5	9/8/2016 11:23:39 PM

Love	I will not be without this product, Myles thank me at night	5	9/4/2016 8:56:33 PM
Quality Supplements	Andrew produces high quality supplements. I tried the Circulation and Vein Support because I was experiencing occasional numbness in my left leg. I'm healthy, get regular check-ups and had no need to be concerned about anything being wrong with me, but figured it couldn't hurt to try this supplement. I'm happy to report that since taking this supplement I have not experienced any numbness in my leg at all.	5	8/31/2016 8:57:30 PM
Difference Maker!	This product makes such a difference in the way my lower extremities feel! As a senior citizen I've been suffering with poor circulation for some time now. When I take these capsules just before bedtime I can get a good night sleep; no more restless leg syndrome, pain or cramps. This product is a godsend! Thank you, Andrew!	5	8/29/2016 9:51:20 AM
Excellent product	I was having painful swelling in my hands, feet & legs. I take many of Mr. Lessman's supplements, each w/great success. So I read the reviews & purchased. I am so happy w/the results. Within a few days the swelling subsided & has not returned. I will continue to use daily & repurchase when large quantities are available on sale.	5	8/27/2016 10:35:12 PM
It works...	I don't know how or why. I believed that I felt a difference right away when I started taking it. Finished my bottle - was on the fence about re-ordering. THAT'S when I realized how much it did work. So now I won't be without it. Lessman has great supplements!	5	8/26/2016 4:44:37 PM
A+	I teach fitness and can't live without them.	5	8/22/2016 4:18:35 AM
Working for me	Nocturnal foot and leg cramps significantly improved after one months use. Also notice an increased feeling of power and agility in my legs during the day. What a relief!!	5	8/20/2016 11:45:21 PM
Great product	I am glad I tried this product. I work as a cashier and am standing all day and throughout the day my legs and feet bothered me. I heard the host say how it helps her because she stands on the air for long periods of time so I decided to try the product for me and my husband who has always had continual leg and feet pain. I noticed an immediate difference. I still have the spider veins but I do notice a big difference in my legs so it is helping. My husband however has noticed a slight improvement but like I said he always has had leg and feet problems his whole life so things take time to see improvement he has always worked in retail but even as a kid he had problems but anything is worth a try and some improvement for him is better than none. Thanks for a great product. Try it folks you have nothing to loose.	5	8/19/2016 12:03:09 PM
Good for my legs	Is very good	5	8/17/2016 2:37:43 AM
Good for my legs	At last I can sleep at night	5	8/17/2016 2:36:20 AM

REALLY REALLY WORKS!!!	I'm truly surprised. Bought this because I sit at a computer a good portion of the day. Trying to be proactive with my health and low and behold the swelling in my one ankle disappeared after about 3 days using this product. Also had some pain in my hip and it's gone for the most part. Like everyone else.....a regular in my daily routine now. I highly recommend.	5	8/16/2016 2:35:35 PM
I Love It! :-)	I'm a cancer survivor (Thank God!). The chemo and radiation treatments I had to undergo played havoc with my veins - especially those veins in my lower extremities. My feet would tingle from lack of good blood flow. Well, since I've been taking the Circulation and Vein Support for Healthy Legs Capsules, my feet and toes are no longer tingling - the blood flow to my legs and feet have been remarkably improved. Without doubt or hesitation, I recommend these capsules. They DO deliver.	5	8/16/2016 2:13:25 PM
Vein Support	Made in the USA by Dr Andrew Lessman. Need I to write more? What Dr. Lessman states his supplement do, they really DO!	5	8/12/2016 1:45:34 PM
Lucky	I was just flipping through channels and i seen mr lessman talking about it. I said maybe this will help my veins. It more then worked my ankle went down and my vein are better. This product has been a life saver.	5	8/11/2016 5:53:21 AM
Exceeded my expectations	I regularly see a vascular surgeon for hereditary varicose veins that are somewhat severe, definitely not just a cosmetic problem. I've had 3 surgical procedures which have been helpful, yet I still live with a constant nagging ache in my legs every single day. I really did not think this product would help much, but within just a few days of trying it, the nagging ache was gone. I take one pill every morning and my legs feel good. Some days I don't even wear my compression stockings. This product is definitely effective and worth every penny. After a couple years of being 'ache free' I stopped taking my daily capsule thinking I didn't need it any longer. Big mistake. The daily nagging ache came back. I reordered the largest size bottle and will continue to take it. It really did work for me.	5	8/10/2016 11:30:08 PM
Amazing	My swollen ankle and leg is gone. I can't believe how quickly this works. Just ordered a second bottle. Don't want to be without this product.	5	8/8/2016 2:51:08 AM
Wonderful!!	My legs and feet use to cramp so bad. I suffered so much and nothing the Dr. gavel me helped at all. I did not think there was anything that would help me. Several RX without relief. I did not think this would help either but had to try it as the cramps was awful. Oh my what a difference, it really did work and only took two days when I could see the difference and by the 4th day I have not ..had but a handful of cramps WOW what a relief.!!! Please don't stop making this wonderfulpill,	5	8/7/2016 4:34:11 PM
good	help some what so day yes	5	8/5/2016 10:09:05 PM
Son's Neurophy relief	My son has said his feet and hands don't bother him as much after 2 weeks use. He has been having Chemo treatments which Neurophy is a side effect.	5	8/4/2016 3:55:43 AM
MIRACLE IN A SMALL PACKAGE !!!	I have taken Andrew's vitamins for several years. Recently purchased the Circulation & Vein Support. I have problems with circulation and it has made a HUGE difference in my legs. I ran out and the shipment took longer than expected. I was without these miraculous little bundles of circulation for only 3 days and I could feel a huge difference. After 2 days 2 X's a day my legs were feeling fabulous again. I highly recommend to anyone with leg issues. It works. Nuff said.	5	8/3/2016 9:50:05 PM
Excellent	Will not be without. I can feel the difference in my legs.	5	8/2/2016 11:00:00 PM
Surprised	I purchased this because I get bad leg and feet cramps in the middle of the night. Not sure why, the doctor says some people just get them. I thought maybe it was because of long hours in the yard working in the extreme heat. Tried Gatorade, power aide, etc. No luck. My doctor told me to eat a tablespoon of mustard every day. I don't like mustard. Thought I'd try these. Wow, within 1 week, no leg cramps. I have had my feet cramp twice since I've started taking these. Not bad after about 3 weeks of taking this product considering my feet were cramping every night. I take 2 capsules daily.	5	8/1/2016 1:15:30 AM

California Sunshine	Circulation and Vein Support has help me so much.Thank you for wonderful product.	5	7/31/2016 11:03:10 PM
Cirdulation and Vein Support	My legs have been swollen all summer and even in the fall, winter and spring. I decided to try these pills and my legs are no longer swollen and haven't been since I started taking them. What else can you say but that they work!!! Thanks Andrew	5	7/31/2016 9:23:26 PM
Still Shocked by the Results!!!	For months, I'd been struggling with heavy, achy, tired and swollen legs and feet. My ankles looked like sausages at the end of every day. It had gotten to the point where the only relief I got was wearing those awful compression stockings. I would elevate my feet twice a day, and my husband would rub my feet and legs, but the swelling never completely subsided. I'm skeptical by nature when it comes to claims often made by supplement manufacturers, but I was intrigued by the amount of knowledge Andrew Lessman seem to have about each of his products, so I decided to give his Vein Support product a try. AM I GLAD I DID! As soon as it came in the mail, I took the first dose of two capsules, and I saw some relief by the next morning! I wore the stockings another day, and took my second dose. By day three, I was able to shed the stockings, and my 9 yr. old grandson remarked "Wow Grammy, I can see the bones in your feet again!".I'm not a doctor or a nutritionist so I don't understan	5	7/31/2016 12:54:40 PM
Single BEST Item I have Ordered on HSN EVER!	I have only been taking these supplements a few weeks and am absolutely blown away at the improvement in my legs! I suffered from swelling on a daily basis in my left leg for the past 8 months and this is the first week that hasn't happened! I fell in December and had some internal bleeding and had really not recovered 100%. My doctor recommended elevation and ice which helped but this product has done more for me than I could ever hope or ask for. Incredible! Thank you Andrew for this amazing product.	5	7/30/2016 5:12:31 PM
No Bad Veins	I've been a hairstylist for 50 yrs. I retired 2 yrs. ago and have taken this product since Andrew introduced it. I have a few spider veins but other than that nothing ! I have recommended this product many times over to my co-workers and friends. They too, have great results.	5	7/29/2016 6:31:08 PM
WONDERFUL!!	Been using this for years because it has really helped the way my legs feel. I used to wrar support stockings/knee highs every day and also sleep in them. Now I weat them occasionally. My legs feel so good now. Get these pills if you want relief. Bernice N. Ambler PA	5	7/28/2016 7:34:30 PM
Really works.	Bought these for my husband, he is on his feet for 12 hours a night. They have really seem to help him. Coming home after work at night his legs would cramp on him so bad he had to get out of bed, the cramping has stopped,since he started taking these. I would have to give these a 10 if possible in order to have helped him. I am so glad I saw these that night,love these for all the help it has done.	5	7/28/2016 3:27:16 PM
They do the job	While it may not be easy to tell if this product does what it says for most people because our veins are on the inside -- Since I have to have Chemo Therapy every six (6) weeks all day for a week straight to keep a couple of nasty autoimmune system illnesses under control, I do not think I would have veins left, or they would be very weak, if I were not taking this formula. I have been doing this for the past 11 years and have yet had the need to have a "Pic" line put in. I highly recommend this product and it is so much easier than hunting down the individual products to take, not to mention much less costly..	5	7/28/2016 8:28:00 AM
helps legs	This product is so great. It helps w/ decease in bulging veins. Amazing	5	7/27/2016 5:08:59 AM
The best	Just started taking and look forward to better circulation in my legs.	5	7/26/2016 2:15:18 PM
Malia in Central Texas	Been using these for years. My number 1 go to supplement.	5	7/26/2016 3:37:12 AM

vein circulation support	I have used this product for many years now ,checking my legs out after a long day on my feet and found I had some veins in my legs ,that looked like they were larger than normal, I looked on line and had just missed Andrew visit , but was still able to order ,and I order this amazing product I have no swelling in my feet or legs , my veins look wonderful I was afraid I would have varicose veins ,if I did not do some thing about it .when I don't take the this product , my legs let me know about it right away.	5	7/25/2016 3:36:41 AM
Feeling better immediately!	No more cramps in my legs????	5	7/24/2016 3:26:10 PM
CIRULATION VAIN SURPORT	GREAT!!!!!!!!!! SOME OF MY VAINS HAVE GOT SMALLER AND SOME ARE NO LONGER THERE	5	7/24/2016 2:52:50 PM
Great Product	Have used this product for years. My legs use to ache and feel heavy at the end of the day. Not so since using this. I highly recommend it.	5	7/24/2016 1:37:56 PM
great vitamin	As I stand on my feet all day, I have many spider veins. I started taking these about a month ago, and my husband said to me one day that my legs were looking good. He noticed the difference before I did. My spider veins have lightened and my legs don't feel heavy at the end of the day. Will keep taking these vitamins faithfully!!!!	5	7/24/2016 1:29:26 PM
ShaSha	I recently ran out of these and definitely felt a difference. I got some at the drug store but there is NO comparison. My solution to this problem is... DON'T RUN OUT!!	5	7/23/2016 7:31:03 PM
It really works!	This vitamin has made a huge difference in my life. I had lymphedema and was getting sores that wouldn't heal. Since taking this product I don't have the swelling and no sores.	5	7/22/2016 4:01:06 AM
WOW	I never expected this to work. I have been disappointed in many vitamin or probiotic products I have purchased in the past so this time I only bought the smallest bottle of these capsules. What a mistake! I came back to buy the 300+ capsules because it works that well. I honestly can't believe my eyes. I had some really blue varicose veins by my right knee and after LESS THAN A WEEK of taking these vitamins, the veins have diminished profoundly. Another benefit that wasn't mentioned on air but I did see a few mentions of it in the reviews, is that it works wonders for hemorrhoids too. I'm never going to stop buying this product. The reviews are real AND the benefit is noticeable.	5	7/22/2016 2:55:21 AM
Circulation and Vein support	Really great vitamins from Andrew, could really tell a difference when I ran out, never be without again.	5	7/21/2016 6:58:59 PM

Best supplements ever!!!!	These have helped so much..do alot of standing. Helps reduced the pain, don't need to take ibuprofen as much. Can tell the difference when I run out.bought the largest bottle this time around ..some doctors just say aches & pain is part of growing old..Thanks Andrew for producing products they help keep us feeling young!!!!	5	7/19/2016 9:20:24 PM
Great	I'm a senior lady. I started taking Circulation & Vein Support for a few years now.My legs felt heavy & I have veins that don't look nice. My legs don't hurt any more.I'm physically active & I can walk w/o any problems now.I have been taking several of Andrew's vitamins for years now & will continue.Thank you.Bette from Calif.	5	7/19/2016 1:34:24 PM
Gotta Have!	I have learned the hard way over the years not to run out of this product. Since my last child seven years ago I have had bad circulation in my legs and knees and the pain comes and goes but at times it is pretty painful. When I regularly take this product I have greatly reduced throbbing and most of the time it is completely diminished. When I run out within about a week or so it comes right back. Will never be without, thank you Andrew!	5	7/18/2016 7:54:12 PM

Amazing product!	I've had swollen ankles for so many years. The past several years when I got up in the morning, I had problems starting to walk because it was painful. Even going down the stairs was a problem. I had heard Andrew and Collen speak about this product but never order it. My mother had problems with circulation in her and she had to have her legs amputated due to complications with diabetes. After that, I ordered this product and started using it because I didn't want to have the same problem. One day I got up in the morning and I noticed that I didn't have pain walking. My ankles aren't swollen anymore. I will not be without this product and I also have recommended to my sisters.	5	7/17/2016 2:40:02 AM
Super Power	I have busted veins in my right leg that throbs with pain if I don't take this product. Never want to be without. I take about 15 of his products. I love, love Andrew Lessman.	5	7/15/2016 1:28:36 AM
IT REALLY WORKS for Leg Pain and Swelling!!!	This is an amazing product. I had daily serious painful leg and foot swelling. This product is the only thing that has helped and now I don't want to live without it. If you suffer for leg pain or swelling you must try it.	5	7/8/2016 2:15:39 PM
FEEL THE DIFERENCE OF CIRCULATION,	I can feel the difference when I run out of my circulation and vein support, I'm on my feet all day at work , and I also lift weights , so I can really feel how the product aids in my everyday situations as well as the added pump while working out. the better the blood can flow from the heart down to the feet and back up through open veins the better, you will perform even walking.Thank you HSN and Andrew for offering a great and effective product.	5	7/7/2016 9:51:49 PM
PM legs shakes are gone	I can go to bed knowing my legs won't keep me awake for hours with twitching/jerking/pain issues.I put up with that for a long time before I foundthis product; and I will NEVER be without it.Thanks Andrew.	5	7/7/2016 12:59:51 AM
Amazing	I fractured my big toe years ago, over time my nail started to discolor. The skin became dry, hard extremely uncomfortable and also numb . I didn't realize the discoloration was gone the skin was not numb or hard and dry,couldn't think what made this happen then I thought it must be this product , I am so happy with the way my toe looks now and the fact that I have feeling there. Thank you Andrew product well done.	5	7/1/2016 2:24:45 AM
excellent	I am an R.N. I work hard shifts on my feet for up to 14 hours. My calfs and legs where always "hurting". An ache really. I started this circulation vein support and within just 1 week my legs felt great!!!! NO pain, No ache. I really could not believe the difference. I tell all my co workers about this product. Thank you Andrew Lessman!!	5	6/27/2016 5:32:34 PM

Circulation vein support WORKS	This is an awesome product that truly works the swelling in my legs was going down before I even finished the first bottle not a script for pills with all sorts of side effects a natural vitamin worked I have all sorts of products to help with my body/health that were a scam finally found help thanks !!	5	6/18/2016 2:20:54 PM
Fabulous	They work GREAT. Pain and swelling goes away.	5	6/17/2016 4:23:38 PM
Could not use	I received this product and tried a couple of times to use it but it seemed to make my legs ache. I gave it 5 stars because I know it was just me and not the product. I use many of Andrews products and are all great so I knew this one was good also even though it didn't work for me.	5	6/16/2016 3:16:23 PM
Awesome!	So far so good! I've been taking these for about a week, and so far the aches and heavy feelings in my legs are gone! So weird. After reading the reviews I thought... What the heck, I'll try them. And I definitely feel a difference ! Thank you HSN	5	6/13/2016 10:35:34 PM

Something is finally helping!	Way back in Aug.2008, I had a nice accident on gravel. Afterwards, my right knee started feeling odd...not painful...just odd. I had an MRI taken which showed I had a ruptured Baker's cyst. Well, I tried acupuncture. I tried a professional massage. I wore a compression knee sleeve. My knee felt too tight! Baker's cysts do that. This supplement has helped!! I am ecstatic about that!! I can walk around w/ out my wonky knee feeling like it isn't going to work. Thank you, Andrew!!	5	6/9/2016 5:30:11 PM
They work!	I like many was skeptical at first. But I can't go a day without taking them and feeling the affects of missing a day. I had knee surgery 15 years ago. I work on my feet all day. I arthritis in that knee. I need ibuprofen on a regular basis. Since I started the vein support I rarely take the ibuprofen. It will take about 3-4 weeks to kick in, stick with it. You'll see a difference. And who doesn't want to take less unhealthy "medicine".	5	6/9/2016 1:43:13 PM
Circulation and Vein Support	Great product. Occasionally my legs and feet swell. I take these capsules and no swelling. I can show my legs and feet with no problem. Will share with family and friends, especially this time of year.An awesome product! Thanks Andrew!	5	6/6/2016 1:20:49 PM
No more leg cramps or restless legs!!	No more leg cramps is the huge benefit that this vitamin gives me. Also my restless legs syndrome is gone!!! It is a miracle!!I highly recommend this product!!	5	5/29/2016 7:05:07 PM
Great product	I take many of Andrew's vitamins and recommend weekly to friends. They all are excellent and will change ones life.	5	5/26/2016 10:12:43 AM
Six stars	I am 70. My legs look as if I am 40. They feel great, there are no vein problems at all And few age spots, I love all of Andrew's products, but this is very near and dear to my heart. Thank you Andrew, and please keep these amazing products coming	5	5/21/2016 11:29:31 PM
Andrew Lessman Circulation and Vein Support	I use to suffer from really bad leg cramps. They would be so excruciatingly painful it would wake me up at night and bring me to tears. I noticed that nowadays, I seldom get cramps and when I do, they are not as bad or intensely painful. Also, I don't know if this is a result of the pills but my legs do not swell, ache or bloat like it used to. The pills have done wonders for me and I won't stop saying so to anyone who would care to listen.	5	5/17/2016 9:33:17 PM
vein and circulation support	helped to some degree	5	5/15/2016 10:30:15 PM
Love this!	These are the best supplements I have ever tried that target the legs. I notice a significant reduction in puffiness. If I forget to take for a couple days then take again, I have to make more frequent trips to the ladies room as my body removes excess fluids. It's crazy. Also, my legs feel less heavy when I take these.	5	5/13/2016 4:42:30 AM
Excellent.	Andrew has always been my favorite at HSN.I love this product. I work 9 to 10 hours standing on my feet. I own a business. This is the second time I am ordering this product, cant do without this. The days I forget I have pain in my legs. Cant afford to not to buy this product.Thank you Andrew for taking care of Seniors like me.Agnes (72 years old)	5	5/10/2016 9:19:30 PM
Feel Good	I just received this product and I immediately tried it. I stand for eight hours five days a week and my legs and feet get really tired and swollen, due to diabetes. I have noticed after a week of taking two capsules a day, my swelling has gone down 75 percent. I will continue taking this product, since it has relieved my swelling and I cannot go a day without them! My energy has increased as I have more flexibility on my legs, I don't have that heavy sluggish feeling I used to suffer from. I highly recommend this product to anyone experiencing this condition. Thank you Andrew Lessman, you are a Godsend. I will continue to use this product. Everyday my swelling is less and less!	5	5/9/2016 5:42:34 AM
Can't miss a day	My legs are icky, spider veins and for some reason at night my feet have a burning sensation at night especially. When I am taking at least 1 of these daily, all seems to feel fine. My legs are also starting to look clear. I am going to stock up so I don't miss a day! Thank you.	5	5/8/2016 10:26:33 PM

something we don't want to talk about	I ran out of the circulation and vein support and found out how important this supplement really is. This takes care of an area of the body that none of us really want to discuss and that is our bottom. Yes, without the circulation and vein support my hemorrhoids returned. I am now taking them again and have seen dramatic improvements.Thank You HSN and especially Andrew for bringing such wonderful products to us to enhance our health.	5	5/7/2016 2:42:33 PM
good bye foot camps	Has diminished Charley horses and foot cramps also, the appearance of the vericoise veins seems to be lessened. The spider veins around my ankles are considerably less and the aching is all but gone. Thank you so much! ??	5	5/5/2016 3:46:01 PM
Lookin' Good!	I noticed within a couple of weeks that my legs' skin color had improved. My circulation has greatly improved, too.	5	5/4/2016 4:51:37 PM
Circulation and vein support Andrew Lessman	I have a lot of trouble with my feet and legs stood on them all day at nursing home and when I started taking these the difference was like night and day stopped taking them because I switched jobs but had to order some more I will not be without them they are awesome	5	5/4/2016 4:24:37 PM
I am amazed	I purchased these pills not really sure if they would work, but took a chance anyway and I can't believe that after only 2 weeks I have noticed a BIG difference in the way my legs feel. I didn't expect it to work this fast. My legs used to ache and throb all the time but I have been telling my husband that they feel so much better now. Normally when I walk in mall My legs tire out very fast but the other day I was shopping just about all day with my husband and they didn't tired until night.	5	5/3/2016 2:50:03 AM
Its given me back life in my legs!	It REALLY WORKS! The end.	5	5/3/2016 1:29:06 AM
Works	I've been taking these for two weeks now and I can tell a difference in my legs. I do not get woke up at night with leg cramps. Thanks!	5	4/30/2016 2:10:44 PM
Really works!	I've had problems with a lot of aching in my legs on & off, due to an accident I was involved in decades ago..I knew even if they still hurt after using this product, it would at least be good for the circulation.I was so surprised the first day I used this how great my legs felt. However, I wasn't going to write a review until I had used it for a while.This is an excellent product, & the first time I've ever written a review about any supplement.I will definitely be buying this again!!My legs feel great!!	5	4/29/2016 4:55:20 PM
Awesome	I have been using Andrew's products for years and this is one of my top 5. I work as a server and I'm on my feet all day. I do have problems with my veins and this product is great. I will never be without	5	4/29/2016 1:29:27 PM
muscle support	I've only been using this product for one week, so I don't know yet, it it's helping for not,	5	4/28/2016 4:27:28 PM
Delivers results	I suffered for years with legs swelling so badly that it made it almost impossible for me to work in my garden after only days of taking this supplement the improvement was incredible. I will never be without them. Thank you Andrew for giving me back the joy of working in my garden pain free.	5	4/28/2016 3:41:32 AM
NO MORE CHARLEY HORSES!	I wouldn't get these cramps too often but when I did, they were brutal. I got them mostly in the middle of the night and I'd wake up screaming and scaring my husband half to death as he pounded the terrible squeezing hard lump away. Then I'd be limping for a day or two as my calf recovered from the trauma. That routine was bad enough but then I got a whallop of a "horse" while swimming laps (in the deep end of course) and if I hadn't been able to grab onto the lane rope, I would've definitely gone under! Scary - and I started gulping bananas like a crazed ape. Good grief, I was ready to swing from the trees! Anything to stave off these miserable attacks. Needless to say, Andrew's capsules are much better than bananas and 9 quarts of water a day. I haven't had these horrific "horses" since taking these little jewels and can now go to sleep - and swim - with confidence. Thanks for a great product!	5	4/27/2016 6:17:53 PM
glad I tried again	Helped pain in legs at night	5	4/27/2016 5:26:14 PM

Great Product	I had jerking legs and that weird feeling no one can ever explain. You can call me crazy but the very first ill I took worked. I am never without them. Great product..	5	4/25/2016 4:30:01 AM
Wouldn't go a day without it	I have been taking this supplement for about 3 years now. My spider veins are pretty much invisible and varicose veins so minimized. The interior of my veins must be healthier too. If you have any of these problems, stick with taking these for at least three months, you will definitely see results. Thank you Andrew!	5	4/24/2016 6:25:11 PM
Circulation and Vein Support	It must be a good product because I ordered a second bottle. I work as a Sales Associate standing on my feet at all times. I usually purchase support hose but since I have been taking this product I don't need them. My legs and feet are not tired or ache. When I use up the second bottle I will purchase a larger bottle. My legs do not feel stiff.ReginaCincinnati, OH	5	4/24/2016 5:36:21 PM
OMG	Did not believe the hype but tried these pills and after only a week my legs feel so much better and usually at the end of the day because of poor circulation my feet were usually blue but not anymore ! Cannot believe the difference these made ! But I tried them because I use the hair skin and nails vitamins and prenatal vitamins and live them now these great products!	5	4/24/2016 12:49:44 AM
This product is really amazing	I feel that this product has made a terrific change in the appearance of my legs because they not only feel better but some veins are not as noticable. Thank God and your product.	5	4/22/2016 8:08:44 PM
Will always take this product	I have ordered this product from the first day Andrew introduced this to us. I had a test done the one time at the hospital when I had my yearly check up and the technician said you have the best circulation. It truly helps your legs. I ordered the large one when Andrew was here this last time. I always enjoy when Andrew comes because I listen to every word he says and keep learning more about each product. I have one vein that shows on my legs. It does not matter if you stand or sit you need the Circulation Vein Support for Healthy Legs. Thank you Andrew.	5	4/22/2016 3:29:44 PM
WORKS	Take it every day, keeps my legs from swelling.	5	4/22/2016 2:33:11 PM
Love this products	Use to have leg pain at night and my hubby use to kick. Since taken this product we do not have hardly any more pain or kicking. Love all Andrew Lessman's products. They work.	5	4/22/2016 2:15:54 PM
Vein Support	I think this product is helping, but I really haven't been taking for very long. I have bad circulation in my legs and my legs seems to feel somewhat better.Shirley	5	4/21/2016 8:23:50 PM
A must have for me!	I thought I would be o.k. without it because my legs were feeling fine. After not having it for a few days, I realized my legs feel "fine" because I take this supplement. I highly recommend it!	5	4/20/2016 2:45:12 PM
best supplement	I started using this supplement 2 yrs ago and will never be without it! It hasn't diminished the appearance of my spider veins, it may have slowed progression, I don't know but the reason why I'll never be without is due to the fact when I remember to take my two capsules in the mornings my legs don't hurt and ache and keep me up at night due to the pain,that itself makes this supplement worth buying over and over!! Thank you!	5	4/20/2016 2:17:42 PM
I'm a believer	I purchased this item based on reviews.After taking one pill a day for 2 weeks my friend and I starting walking for 45 minutes a day. Im 62 years old and she is 52. Neither one of us is much of a walker. My friend on day one told me how her legs were hurting from all the walking we had done. Day 2, she complained more and by day 3 she was hurting all over all legs. I couldnt understand how she was hurting so much and I wasnt. Then I went to visit my aunt which meant I had to go up a flight of stairs. Going up those stairs is usually a struggle for me, it feels as if my legs dont have the strength to carry me up the stairs and I find myself going up on my fours. This time my husband who was walking behind me noticed how I was flying up those stairs. And then it dawned on me the Circulation and Vein Support vitamins must be working. When I showed my friend the vitamins I was taking I realized I should have been taking 2 pills a day and not one, and yet after 2 weeks taking just	5	4/19/2016 1:22:19 PM

nor for me	This made my heart rate speed up to 150 bpm for over 18 hours..SCARY!! I'm glad these have help so many but my body did not handle this well. Everyone is different. I can only speak for myself.I sent them back	5	4/18/2016 8:44:42 AM
BONUS RESULTS!	I purchased this product to see if it would help with my upper leg and calve pain which my doctors had been unable to help me find any relief from. I couldn't figure out exactly where the pain was or what was causing it. Doctors said must be restless leg but again offered no relief. It was so bad I was no longer able to fly as you can't just get up and walk around on the plane. I decided to just give this product a try even though Andrew never said anything about it helping with my problem. After the first couple of days I noticed that I was no longer having this pain and I was so excited. It wasn't a complete miracle I do still have it sometimes but it no longer happens on a daily basis and I am going to try to fly again. Thanks Andrew! I do take many of your vitamins and supplements and have been happy with almost all of them. I have recommended this one to many of my friends and family.	5	4/17/2016 4:30:10 AM
miracle support	These pills works well! i use to have cramps in my left leg when i get out of bed but since i been taken these pills I don't have them anymore ! good product.	5	4/16/2016 3:28:49 PM
Must Have	My ankles, feet, and legs swell during long distance flights. I'd been advised by my PCP to wear compression socks and elevate both legs, to aid in circulation and comfort. I also began taking Circulation and Vein Support; the first week of taking 2 capsules per day I noticed my legs and feet weren't as cold as before. This symptom is very important, an having it disappear was paramount to my well-being. I will continue taking this supplement because Andrew Lessman Supplements are the Best and I wish he offered Auto-Ship as a result.	5	4/12/2016 5:12:58 PM
Beyond awesome	The greatest quick way to fix swollen ankles or leg cramps ever! Buy this!	5	4/12/2016 4:23:20 AM
Legs look and feel great	New supplement to add to the list	5	4/11/2016 5:06:02 AM

Circulation & Vein support	I was shocked when I went to get my pills ready for the week and I didn't have enough Circulation & Vein support capsules for the week! I had to place and orde!!! I notice a definite difference when I take the pills. This is a must have supplement for me.	5	4/5/2016 3:42:50 PM
Used the product for years	Had leg aches for all my life. This product eliminates them. Just had a calcium screening and score was zero (no noted calcium build up).	5	4/5/2016 2:57:31 PM
Time will tell	Vericose veins no more? Achy legs feel better - yes. Improved circulation and vessel support? I am trusting Andrew at this point. It was worth a try. So far achy legs improved and night cramps subsided.	5	4/3/2016 4:02:09 AM
Thank you Andrew on behalf of my mom and me!	Andrew, my husband and I have used your products for years and love them all but this one is really outstanding. My mom has had swelling in her legs for years. She's gone to doctors about it but found no relief. I gave her the large bottle of your Circulation Vein Support in January and asked her to try it. When visiting for Easter, she told me that the swelling had reduced and she no longer has pain in her legs. She thought she would live with the pain for the rest of her life. She was amazed. Honestly, I was too. You have really helped her. I can't thank you enough Andrew. Your products make a difference. You make a difference. Bless you!	5	4/2/2016 6:25:36 PM

Legs Feel Better!	This product really helps my legs feel so much better. I have noticed reduced swelling in my legs and ankles which translates into less pain from water retention. I don't want to be without Andrew's Circulation & Vein Support!	5	4/2/2016 4:39:33 PM

Love this circulation vitamin	Andrew Lessman vitamins are the only vitamins we take because they are "natural". Recommend all his vitamins to friends and family all the time.	5	3/26/2016 3:20:42 PM
They have helped me tremendously!	I started taking these because I had swollen ankles and was finding it difficult to walk. Since I have been using them, the swelling in my ankles has gone away and I am now able to walk further with no pain. On vacation , I was able to walk all the way across the Golden Gate Bridge and back again when previously I had difficulty walking more than a quarter of a mile.Great product which has worked for me.	5	3/25/2016 5:33:19 PM
FABULOUS!!!	I LOVE ALL ANDREW LESSMAN products. The quality is the finest available, I have so many of Andrew's products and I am completely satisfied with each and every one. The difference you feel in your body from taking Andrew's products as compared to what is available in stores is a night and day difference. I know when purchasing Andrew's ProCaps I am buying the absolute best for me and my family. I love everything and will be a life long fan of these fabulous products.	5	3/23/2016 5:06:10 PM
Good product	It helps with veins, for me specially with burning in the veins.	5	3/23/2016 2:10:43 PM
EXCELLENT	This is a must have like all of Andrew's vitamins. Some people have veins showing and from the time he brought this to HSN I started using. I have one vein that shows and my legs look good and feel good. I had an appointment at the hospital for yearly check up. The technician did a rather long test and said your results are amazing. Your circulation is perfect. I won't go without this product. I recommend this to everyone. Andrew is on his 20th year and that is how long I have used his products.	5	3/21/2016 2:09:11 PM
helps my legs feel better	I have poor circulation and vein problems in my legs....this product makes them feel a lot better...thank you Andrew for putting this product together for us....I use so many of your vitamin supplements and they are FAR SUPERIOR to other brands...All of your products WORK.	5	3/19/2016 5:46:23 PM
Worth every penny!	I'm a factory worker and I stay in one spot for long periods of time and veins in my legs hurt and were kinda nasty looking, shortly after taking this product I noticed a change in how my legs felt and looked! Don't hesitate to buy this product is worth every penny!!	5	3/19/2016 8:45:41 AM
Great Product!	Purchased this to try because I have circulation issues. This product has been a great help. I've even noticed that some of the little veins I had around my ankles seem to be disappearing. Not claiming any cures but it does help a great deal.	5	3/18/2016 7:18:48 PM
No more tired legs at night	I will never be without them again. I used to go to bed with heavy tired legs, Ate banana, drank orange juice, tried all the things everyone tells you to try and my legs still ached. Showed these to my doctor and she told me to give them a try. 'Don't know how they work, but they do. Wake up ready to go in the morning.	5	3/18/2016 3:35:05 AM
it works	I purchased this because I started a new job where I be walking up to 15 miles a day on hard surface floor. The following day my feet and ankles would be swollen. Once I began taking these vitamins on a regular basis my swelling has been reduced.	5	3/17/2016 7:09:58 PM

Feel great	When our legs hurt we go straight to this. It always goes on vacations with us. Can't be without it. Another great product and life saver.	5	3/17/2016 2:21:55 PM
really works!	I have experienced leg fatigue and cramping for years, especially during the night. I have been taking these for about a month and have not had cramping or Charlie horses in my calves since taking it. I would highly recommend this. I will most surely go back for the larger size.	5	3/16/2016 2:29:06 PM
Products that really work	I love Andrew lessman. He speaks so well and I learn so much from watching him. These vitamins are terrific.	5	3/16/2016 4:10:11 AM
does what it says it does!	Ever since I started using this supplement, I noticed that I don't get as much restless leg syndrome as before. I still do from time to time but it's not as bad as before when I experience it almost every night.	5	3/14/2016 2:36:46 AM
THE best evere	This product got my mom moving around like a young chicken again her legs she said was so loose when they were tight before she started this Vein support	5	3/11/2016 5:42:55 PM
Saved my life	My ankles were swelling from standing all day. I was having SEVERE leg cramps at night to the point where I was afraid to go to bed. My doctor said I must do stretches before I go to bed, but how do you do that when your legs are Restless. I was also lightheaded and dizzy and sometimes I was feeling like I was going to faint. My doctor wanted me to go on water pills I said no that would cause more intense cramping in my legs. I was concerned that I was heading for a stroke or a heart attack I am over 50. I was watching your segment. So I googled you and I saw these pills for circulation of the vein in your legs. I was told that what I was taking was not getting inside of me it was just going straight through. The first night I took your pills no leg cramp I slept the entire night and woke up extremely well rested. I usually get between 4 to 5 hours of sleep. Now I have normal ankles again no more cramps I feel fantastic for the first time and I am sleeping a full night. All my	5	3/11/2016 4:06:15 PM
HEMORRHOIDS EASING ITS SWEET RELIEF!!!!	My spider veins are diminished almost like a fade cream some are gone! If that was not impressive enough time to get all embarrassed. Other veins (hemorrhoids) in your body also calm down. I read one review that was broaching the subject and thought worth a try. I really appreciate the reviews and know some have to park pride to write them so I will join that club. Glad I did because now I have movement and can work out with a vengeance. Walk my little heart out too and I am. This is just me but I was accommodating that issue it controlled me what I could do. If I pushed it to far well you know. Now I can kick over my head and drop into almost a full split. I can and have walked miles a day, lift weights without a total breakdown. And maybe with a bit more time. I will ride a horse again!!! So much I stopped doing just to accommodate a painful embarrassing situation. THANK YOU HSN & ANDREW LESSMAN & REVIEWER REVIVE (LINDA) FROM IL. Because without Linda's review I would not have purcha	5	3/11/2016 3:12:56 PM
GREATEST	NO PAIN IN MY LEGS SINCE I'VE TAKEN THIS PRODUCT ANDREW IS THE BEST Have cut down on lessman vitamins because of the way the hostess always says she takes everything I take several but will only continue with this one thanks andrew	5	3/11/2016 4:15:29 AM
Wonderful product	My father 79 has suffered for years with arthritis and just this past year suffered from a stroke. He had to have a pace maker put in and underwent a carotid surgery. While recovering, he was unable to get around because of his legs having arthritis and also swelling. The doctors could not find anything to help. I having used other vitamins from Andrews decided to try giving this product a try. My dad within a day had relief and within a week said he had no more pain or discomfort in his legs. Thanks a bunch!!!!	5	3/10/2016 9:08:12 PM
Great for my poor legs	I have dvt in both legs. I use this product everyday and my dr said it was a good product to use. My legs hurt more if I miss a day of taking this item	5	3/10/2016 9:00:47 PM
It works	No more tingling in my fingers when I walk.	5	3/10/2016 5:08:38 PM

Surprising results!	I sit for most of my shift and walking out to my car was painful quite a few nights. I gave my bottle to my brother-in-law as he has vein problems and forgot about taking it for myself. Watching Andrew reminded me about this wonderful product and I reordered. I can now walk without pain. This is my truth and I hope it works the same for everyone else. I take several of Andrew's products and I won't take anything but his. I appreciate his attention to detail, his green operations and his honesty. And his dog is adorable!!!!	5	3/9/2016 3:19:12 PM
Another Great One	I can sum it up by the old saying, "you don't miss your circulation and vein support for healthy legs until it's gone." That's what happened. My wife got caught up in the business of life and for a while we did not maintain our supply and use of this product. Once we started back, boy did we notice the difference. It wasn't like fireworks on the fourth of July, but instead, a noticeable and appreciable increase in our well being. That's all we ask for and now we know that this product is doing it's part to contribute to bettering our health.	5	3/6/2016 3:38:02 PM
Works for me!	Stand on my feet all day and I'm in my 60's. Many younger women complain about standing and walking all day with more problems and more broken veins. I have recommended it to many others and can tell the difference when I'm without it for a few days.	5	3/6/2016 2:41:24 AM
Works wonderful for me.	I have had spider veins for (all my life) since a teenager. I have been using this product for a couple of years and my ankles are not almost black any longer. I am now 70 yrs. young now and I am so happy with this vein support. I wish I had this when I was young. It truly was no fun wearing long slacks to hide my veins especially during the summer and never wearing shorts even in my own home. I hope this will help someone who is thinking about this product. Get it, it works.	5	3/5/2016 5:03:04 AM
Circulation & vein support5 ROCKS!!	This product is awesome !! For the 1st time in years my legs look & feel so much better the swelling has gone down ...just ordered my 2nd bottle, thank you so very much	5	3/4/2016 1:30:39 PM
Excellent	I have been taking this product for over a year and would not be with out this product.	5	3/3/2016 11:52:39 PM
vein support	Love this product. Really works.	5	3/3/2016 2:45:52 PM
It Works!	I bought the 60 tablet bottle and it worked so well, I bought the 360 tablet bottle. Before taking this, My legs felt heavy and had knee pain. I took 2 a day for a month and when it was gone, I didn't feel as well as I did when I was taking them, so that's why I bought the 360 bottle! Thank you Andrew and Lincoln! oxox	5	3/2/2016 6:09:32 AM
Less swelling	Love this stuff. It works.	5	2/29/2016 5:32:53 PM
I noticed improvement fast.	I have been concerned with my left toe feeling strange, My Dr has been monitoring it but isn't worried. After two weeks the strange feeling is rarely noticed and that toe even has better color. I will continue taking tablets and order more!	5	2/28/2016 12:22:31 AM
Andrew does is again!	I love these pills. Working wonders for my legs and my vein health. What Andrew promises on his supplements always delivers! Worth every penny.	5	2/27/2016 10:04:05 PM
Tears Of Joy!!	After reading dozens of reviews, I figured I had nothing to lose but to try this product. As an overweight female (age 60) , I suffer with severe knee problems, and after six surgeries and looking at a knee replacement I was at wits end. Over the years I have been plagued with constant pain. It's difficult to be an active person when you suffer with pain. Soooo, I got the bottle, took the capsules as directed and I have noticed a HUGE difference. In two weeks time, I feel like a new person, happier, sleeping better, moving more and all around grateful for this product. If Andrew Lessman walked through my door right now, I would hug him. Thank you Thank you Thank you. Feeling sooo grateful!!!! I am saying NO to surgeries!!!!	5	2/22/2016 7:27:54 PM
NP more pain	My husband and I had pain in our legs at night, and is now gone	5	2/22/2016 12:52:54 PM

Unbelievable results!!!	My husband has been suffering with major legs cramps for years and recently multiple times a day. He also has had blood pooling in the lower part of his legs. I decided to try this to see if he could get some relief. The result is unbelievable. Not one cramp since starting this product and the bonus is that the dark areas where the blood was pooling are gone as well. This should be on auto delivery, he is worried about running out. This product has improved his quality of life dramatically. Please restock quickly, he needs is worried about running out!	5	2/20/2016 3:45:40 PM
Could Not Believe the Difference!	I've watched Andrew present this product a few times on HSN, but did not buy it because I didn't actually believe it would work. But I am here to tell you that this product works!! I've worked for over 40 years and for the past 4 or 5, my ankles and feet would swell from sitting most of the day at work. I couldn't wait to get home, take off my shoes and put my feet up which would usually relieve the swelling after a few hours. When I saw Andrew present this product the last time he was on HSN, I figured, what the heck, I'll try it, because I was really tired of the daily swollen feet and legs. And, let me tell you that everything that he said about this product is TRUE!. I could tell the difference in just a few days!! I took 2 capsules a day for the first couple of days, and the swelling and discomfort was gone!! I usually just take 1 capsule daily, now, and my ankles and feet don't swell anymore, and it's because of this wonderful product! Thank you, Andrew, and God Bless you!!	5	2/19/2016 5:25:51 PM
No swelling legs!	I used to have to take a prescription medication for fluid retention. Now using this produce and works great. Several great side effects!!	5	2/18/2016 9:24:01 PM
Excellent product!	Have watched and listened to Andrew many times and finally decided to try his product. Could kick myself for not purchasing sooner. Have also purchased his vitamin D and Calcium and my doctor asked what I was doing differently because my test results came back with flying colors. I told him I met Andrew and his products are wonderful. My doctor does not believe in vitamins but he now does since he tried Andrew's vitamin to help control his cholesterol. Do not wait as long as I did to start using his products. They are worth every penny.	5	2/18/2016 6:29:26 PM
WOW	This is just awesome, been on them for a week and the swelling in my right ankle has gone away. Not sure what caused it, had my right hip replaced in August 2014 so maybe cause of that, but my legs, knees and ankles feel wonderful. I will be 62 in July and very grateful I found this on HSN one night. I found a similar product with the same ingredients and her product was around \$70-80 for a months supply, glad I didn't purchase and waited. Plus you know the great integrity of Andrew's products.	5	2/17/2016 5:49:51 PM
Miracle in a bottle!	I bought this last month when it was the TS. Oddly, I almost never listen to the vitamin presentations. Was impressed by the overwhelmingly positive reviews, so I took advantage. Nothing to lose with HSN's return policy. Well, I did not see results in three days, more like a few weeks, but my left ankle has not looked "normal" in years- until taking this product. No cramps, less fatigue. Like thousands of others I cannot and will not be without this product. Thank you, thank you, thanks you!!	5	2/16/2016 1:55:39 PM
It won't hurt to try	I had my suspicions but after several days use I could tell the difference. I've been a nurse on my feet for 35 years and for the past 5 or so years the pain I experienced after I got off my feet would be excruciating. I have taken analgesic and anti inflammatory meds to kill the pain but when I started taking Andrews circulation vein support "it's a blessing", I won't be without it. I know and can feel the dramatic difference; I'm experiencing relief I'd never thought would happen in my lifetime without being drugged to death. I've recommended this wonder products to my friend who recently had knee replacement and her circulation was poor but has noted an improvement since taking it also.Lovin it!RHolman	5	2/16/2016 11:04:47 AM

Repurchase	Have been taking this for awhile and am pleased. Seems to help my legs and veins do well.	5	2/15/2016 11:30:47 PM
IT GOES TO A QUALITY OF LIFE YOU WANT	I had noticed for a year or so a certain feeling in my hands and ever so often a cramp in the legs and a feeling that I might be having also a restless leg type of situation occasionally. I began taking this product and a few days later I noticed my veins in the hand were not protruding as much. I always felt I moved comfortably and well but I really feel well rested when I awaken after beginning this product. There has been no leg cramp yet. I think this line is so wonderfully supportive especially at my age I am about to take a trip to Cuba and see South Miami for my first time and I feel I will be in better shape thanks to these vitamins. I wish even with not great supportive results that Mr Lessman would undertake a next generation of support with combination product of CoQ10, PQQ and Glutathione. I cannot praise the efforts of this line enough to improve our quality of life. My mother had her leg cut off three times as a diabetic. I take the Cinnamon also and while threatened with	5	2/15/2016 10:18:37 PM
Never Without	I waded into using this product, initially starting with a 30 day supply and I liked it but I didn't order a replenishment soon enough and went without. THAT is when I realized how much good it was doing (as so many other reviewers). I went to a 90 day supply and made sure to reorder before that ran out. I now have the 360 ct. and take 2 a day. The biggest testament to a products effectiveness is return customers/reorders...so my review should be self-explanatory. I will never be without.	5	2/15/2016 3:58:36 AM
Honey's Valentine Gift	This really really helps with his legs and feet cramps. I highly recommend..because after taking , he has much less fatigue due to cramps keeping him up all night. LOVE.	5	2/14/2016 2:40:34 PM
Just Wonderful	This product worked right away when I took it no poor circulation in my legs or throbbing. Believe me it's worth a try.	5	2/13/2016 5:26:56 PM
Greatly performs as advertised	This is a staple in my vitamin collection by Andrew Lessman. I feel great when taking this product and I feel the difference when I haven't taken them.	5	2/13/2016 2:47:26 PM
Great Leg support vitamins	I've been ordering a lot of vitamins from Andrew Lessman for years. I had knee replacements on both my knees and I didn't think I needed these vitamins, I was wrong. I exercise everyday and sometimes have pain in my legs from working with weights, these vitamins have taken all the pain away, they worked immediately. I've told my family and friends about them, I'll never be without them. Thank You Andrew	5	2/12/2016 9:18:53 PM
NO MORE RESTLESS LEGS!!!	Great product...I've noticed a significant difference at night. Thank you...thank you,,thank youthank you... thank you...thank you.....and THANK YOU!!	5	2/12/2016 3:07:16 PM
So Impressed	Andrew I must say I am so impressed with these. When I ordered them I thought we will see if they do what everyone says. Well by the 2nd day I truly could tell a major difference in my legs when I got off work. They felt so much better and was not as tight feeling and most of all my legs wasn't hurting. I missed taking them and honestly I could tell a big difference by the time I got home from work. I am so thankful for these. You've made my legs feel so much better and I can sleep at nights with out destroying my bed. No more kicking for me.Ellie	5	2/11/2016 6:16:34 PM

miracle worker	My husband and I have both had week ankles that were sore and sore knees. We have had a hard time with stairs for quite a while. We have both been taking this product for about 3 weeks and already feel quite a lot of relief. I could dance around in church yesterday and don't feel like I did today. I believe that if I keep taking the Circulation and vein support long enough that I won't have to wear orthotic shoes anymore. I'll let you know in a few months when I am wearing sandals that I couldnt wear last year. Thank you so much.	5	2/8/2016 7:30:54 PM

Great Product	Last year I had triple bypass surgery They took a vein out of my right leg to complete the surgery.. After the surgery, I had a problem with swelling in my right foot. I was not able to wear tennis shoes without swelling and discomfort. Being that I work as a manager in the fast food industry, this was becoming a problem for me because I have to be on my feet 10 hours a day while at work. I was up one night watching HSN and saw this product being offered. I decided to order the product to see if it could help with my problem. I took the product as offered as soon as I received it. I noticed that the product began to work almost immediately. I can now wear tennis shoes and it makes it easier for me to do my job without any discomfort. I would recommend this product to others. Thank you so much for this product!!!	5	2/8/2016 5:16:15 PM
Love this product. Was highly skeptical	The reviews are right!! This product absolutely works. I had ankles that would get very stiff whenever I sat down so much that I had trouble walking until they loosened up. Have been using about a week and no more stiffness. AMAZING! Actually a product that does what it says. Thank you Andrew.	5	2/7/2016 4:00:52 AM
Little known concern; solved.	Andrew's products are designed to address specific needs and contribute to overall health and well-being. Keep in mind when price shopping that you get what you pay for, and check out the ingredients. Great Job! as always.	5	2/6/2016 9:28:39 PM
Always have faith with ANDREW products	I always have good faith with Andrew products. He does not in cooperate products that is made with foreign substances. Mostly pure stuff.just started using this product plus the Cinnamon for less than a month so..I cannot tell if it HELPS my circulation or not. I heard that Cinnamon is good for DIABETIC , and if it works I will order more next time. The Cinnamon that he used was pure..	5	2/6/2016 5:38:41 PM
Best for Feet Cramps	3 days after i started taking these capsules I stopped having leg and feet cramps/charlie horses when I slept. I had tried everything before and nothing worked. If you get cramps when you go to bed then you must order these...do NOT hesitate!	5	2/5/2016 6:01:35 PM
No more 'running' in my sleep	Sometimes my legs would seem to 'run' all night long. That's the only way I can describe it. I took two of these vein support pills a day and on about day 13 or so, no more RUNNING in my sleep. My legs actually stayed STILL!!	5	2/5/2016 12:54:29 AM
Wonderful product	I don't know if these are suppose to help with nightly leg cramps but they sure help me with mine. Can't live without them. Thank you Andrew for all your wonderful products.	5	2/4/2016 8:06:02 PM
Leg sores have healed	I've been using this product for only a short time. I had sores on my legs for months which would not heal, just remained scabs that would crack and bleed. Nothing I tried worked. Since using this product all of the sores have healed completely and the scabs have fallen off, without any other treatment. I am completely sold.	5	2/4/2016 7:21:26 AM
GREAT	Wasn't sure what was going on with my legs and swollen ankles. Then I was watching HSN and had forgotten that I had been with out this productfor months. Three days after I received this and began to take it the difference was incredible. Will never forget to reorder again.	5	2/4/2016 3:35:25 AM
AMAZING PRODUCT!!!	Believe me I was prepared for this product not to work,BUT IT IS FANTASTIC!!! It helped to lessen my leg cramps within 5 days...and I have suffered with them for 45 years! I take 2 capsules every morning...and they work great...	5	2/4/2016 2:18:13 AM

THIS PRODUCT IS INCREDIBLE!	I have suffered from heavy, swollen legs since I was 19 years old. After 3 children later and at age 49, I have tried any and all products that claim to help, with no results. I am a real skeptic, especially since nothing out there helped me so I decided to try these and figured, if they don't help, I can return them for a full refund. My Dr. gave me a Prescription for thick support hose along with the advice that nothing else will help me. My choice of shoes depended on how swollen my feet and ankles were. After only a few days of taking this Supplement, my legs are actually skinny, and I have ankles. I haven't seen them in years. Also, gone is the heavy, aching, feeling. This product is really a Godsend!! Now that I have found it, I don't ever want to be without it. I have also been taking the Glucosamine/Chondroitin Supplement, and I find that is also excellent. I don't get up in the morning with stiff hands and my joints going, "Snap, Crackle, and Pop". Please try these p	5	2/3/2016 3:02:16 PM
Love	These work t of help the pain go away.	5	1/31/2016 11:45:49 PM
Great product	Helps so much with the aching in my legs! Highly recommend.	5	1/31/2016 11:45:42 PM
No more leg cramps	My partner and I both get leg cramps and he has always taken quinine when he gets his but quinine is no longer given out in prescription form and the amount in OTC products is minimal. We gave these a try over a year ago and have stayed cramp free from the first bottle. Thank you so much for this wonderful product.	5	1/31/2016 3:55:49 AM
excellent product	i did not know a product like this was on the market,i've been using aspirin all these years for the cramps that i get on the bottom of my feet and ankles. i now take two pills and the pain is gone.thank you.they also work for the pain i get in my hands.	5	1/30/2016 6:37:07 PM
Great Product	I buy this for daughter who is a civil engineer in London, UK and she is on her feet or sitting for over 12 hours a day. The first time I bought it for her to try last year and she loved it so much that I am buying this to take with me. Please keep doing this size every year and thanks for making my daughter's legs feel better :-)	5	1/29/2016 10:54:47 PM
Legs feel great	I bought because one reviewer talked about phantom pain. My husband is an amputee also. He has more pain in his real foot due to neuropathy than from phantom pain. He said the circulation in his foot has greatly improved. His leg had turned very dark due to poor circulation and he noticed the color begin to return. He has stopped so much with the restless leg and sleeps better. The swelling has gone down in my feet and legs also. I'm glad I have this. Very easy on the stomach.	5	1/29/2016 6:09:36 AM
So much better...	My legs feel so much better since beginning the Circulation & Vein Support. The veins looked "ropey" and my legs ached constantly.. The really good news, I haven't needed to use my cane in a while - and exercise is easier to perform.	5	1/28/2016 11:50:44 PM
Circulation and Vein Support	This is a great product. I take it everyday.	5	1/28/2016 9:27:58 PM
Excellent product!	I am a retired Registered Nurse and I have severe leg edema due to lymphaticblockage. So far this product has helped me a great deal, in reducing the fluid accumulation in my feet and legs. After listening to Andrew on HSN one day I decided to give these capsules a try, and I have been taking them for several weeks now with awesome results. The edema reduction in my legs and feet is nothing short of remarkable, [-21/2" from my left ankle and -1" from my right ankle], and my legs feel much more comfortable and lighter. After having been told by my doctor that most likely no one will be able to help me with my condition, I am very pleased with these results. I will continue to take this supplement, and I have just ordered another 750 Capsules container.I am very grateful to Andrew for manufacturing this product, for me it is a life changer	5	1/28/2016 6:54:49 PM
The best!!	Been using for many years, I always take advantage of the free shipping when Andrew has it on sale. I'm never without it.	5	1/28/2016 6:28:32 PM

returning due to ordering issue	HSN said they would pay for me to return this because at the time I ordered, couldn't order online, had to go thru customer service..turned out was because info being changed due to this coming on sale a day later! So I called , cause I ordered the great deal on 720 and HSN said return the 360 and they will not charge me for the return...they need to fix their system so that when an item will be on sale in the next day or 2, it tells people that. Is quite upsetting to order and then the next day, it be on sale. So am most thankful to HSN for no charging for the return of this item.Have used this product for a few yrs now....only thing that takes care of RLS that I've ever tried. It works!!!! Amazing product.	5	1/28/2016 4:55:27 PM
STAMINA	i TRULY LIKE THIS PRODUCT I TAKE IT EVERY MORNING AND CAN SEE THE DIFFERENCE . MY LEGS FEEL STRONGER. I WILL BE BUYING A BIGGER BOTTLE NEXT TIME.	5	1/28/2016 4:39:34 PM

Heavy legs RELIEVED!	Long story short...broke ankle in five places, two surgeries later can't go up or down stairs fast cos I lost 30% mobility due to injuries in my ankle. I learnt to live with this swollen ankle and discomfort for the past 6 to 7 years! NO MORE! Three days into taking this Circulation Vein Support capsules I can actually walk without pain no swelling, I can get up and start walking prior to this capsules I would get up, stand for a minute before walking due to pain! NOT ANY MORE! Still skidish about going up and down stairs but with time I will sum up enough courage to go up and down stairs without FEAR!THANK YOU Andrew! I bought the largest bottle will return for more!I will tell everyone who will listen...this product is vein-support-tanstic!	5	1/28/2016 2:47:17 PM

surprizing results	I am a big user of your products and when I ordered this I did not really feel a need for it. This was a give it a try and probably send it back. Surprise, I felt a difference within 48 hours. A big problem has been cramps in my legs at night as I sleep and this has changed since I started taking this. Have seen other improvements also. Happy I tried this product.	5	1/28/2016 2:25:42 PM
OMG is about all I can say!	I am a 67 year old woman who was experiencing leg cramps at night. The cramps were so bad that it would keep me up crying! I swear to you, I started taking these capsules on Sunday, January 24 of this year. Yes, this year. I took 2 pills as directed and I was able to sleep through the night. Yes, I slept through the night without waking up, without pain, without tears! I have been shouting out loud how wonderful I think this product is. I've told my family, my-co-workers and even people on the bus and train how great it is. And that's a feat being that I work in New York City and I ride the city buses and trains. I should be a spokesperson for this product!	5	1/28/2016 2:20:38 PM

I bought a bottle of this for him and in two days, his ankles are normal. I started taking this too and feel the difference in my feet and legs, this is the greatest product Andrew makes. Thank you Andrew.	5	1/26/2016 5:12:34 PM
Smiling	I really believe in this product. I tried the other over the counter types for years and ended up having the very painful leg vein surgery. Never again! Worked for me, placed 2nd order today	I happened to see this product when it aired on tv last summer. I had night time cramps in the tops of my feet that kept recurring. I researched the problem and tried a couple of things I found online without success. After using this product for about a week, the night time foot cramps were gone. When I miss taking Circulation & Vein Support, my feet feel heavy when I first get out of bed in the morning. If I miss several days, the cramps return. It truly makes a difference for me so I will continue using. By the way, I am not overweight and generally walk at least 3 miles a day.	5	1/18/2016 3:30:59 AM

Made life so much better!	I have suffered from swollen legs and ankles for some time and even had all kinds of tests to see why. Nothing ever showed up, so I was told to just wear the heavy support hose. I was listening to Collen and Andrew Lessman and she made a comment that she and the other girls could not live with out this supplement as they were on their feet all the time. I tried the Circulation and Vein support and it started to help immediately! It was a miracle to me as the pain went away. I wouldn't be without it.	5	1/1/2016 6:26:55 PM

As soon as I started taking my circulation and vein support again, the pain was gone. I would recommend this to anyone, give it a try and see what happens. I did, and have been satisfied with the results.	5	12/19/2015 3:06:44 PM

Circulation and Vein Support	I've been troubled by charlie horses my whole life. Since I've been taking these pills, they have disappeared. I wish I had discovered them years ago. I could have saved myself a lot of pain. Since these are muscular cramps, I don't know how vein support figures into this, but this is the only thing I'm doing differently than before.	5	12/8/2015 6:52:52 PM

Won't be without again	I have been taking this for about 12years. I used to be on my feet all day. It helped tremendously. Then I changed jobs and wasn't standing all day. I still had a good supply left so I kept taking it. Then I ran out!! About 2 weeks later my legs started hurting just aching. I couldn't figure out why. Then I remembered I wasn't taking the circulation & vein support. I tried to order more but it was sold out!! I was on a waiting list & received it in a month. After about 3 weeks my legs don't ache anymore. I will never be without again! Andrew please keep making this!	5	11/22/2015 2:28:05 PM

You Won't Want to Go Without It	I tested this product for 30 days (taking two per day) and "did" see a difference. I ran out before I realized and went without for a few weeks. I noticed a marked difference during those few weeks. Reordered the 180 count (90 day supply). If I could have afforded to, I would have gotten the largest size. This product is now a daily part of my routine - my legs feels so much better using it than without it. Try it. You won't want to go without it. Definitely worth a try!!	5	11/19/2015 4:04:15 AM
Stopped the pain	I'm on my feet all day long, as many as 10 hours a day, and was in constant pain and had a lot of swelling in my legs. I saw this product on HSN and figured I had nothing to lose. After 2 days of taking this product I was without pain in the legs, the swelling in my feet and legs is way down, almost to of the point of being non existent and I can get through my day much easier. Thank You for such a great product and will be ordering more soon.	5	11/15/2015 11:30:37 AM
Helps!	These vitamins have definitely helped my tired legs. Won't go without them!!!	5	11/11/2015 6:46:38 PM
really helps the cramps	my daughter recommended these as she uses them. my husband would get up w/leg cramps and walk them off so many nights. I ordered these and put them in his pill case for over a month. he didn't think much of them until I forgot to put them in the case daily and after a few days he was walking off cramps each night again till I realized what I did. needless to say they are back on his schedule and we will not make the mistake of being without them again. they really help him.	5	11/11/2015 4:49:09 PM

A definite 'feel-the-difference' product	Both my husband & I take quite a few supplements, try to eat well, & exercise. Some products are 'feel-the-difference' if you only miss taking them for a day or two & this is one of those. For me, by the end of the day, my feet are bothering me & my legs just feel tired & heavy regardless of the shoes I'm wearing & my husband reports similar results. We definitely love this product & would highly recommend it!	5	11/6/2015 5:35:51 PM
Every one LOves Andrews Vitamins	I Love this vitamins for Circulation & Vein Support.	5	11/4/2015 4:12:43 PM
Helped Me	Like every vitamin he sells, this one is great. I have poor circulation in my legs, and feet. I am 75 years old, and have tried everything. Nothing worked, until I tried these, now I can feel the difference. Still have some numbness, and my feet stay cold, but not nearly as much as in the past, pre-Lessman that is. Try them, great money back no hassle guarantee, you have nothing to lose but your misery.	5	11/3/2015 3:23:42 AM
Circulation and Vein Support	I have used this product for about two years now. I have continued to purchase it because it is effective. My doctor no longer frowns when he examines the circulation in my legs and ankles.	5	11/3/2015 3:18:16 AM

Lessman Circulation and Vein Support	My favorite thing about any of Lessman's pills is that they are in capsule form....easy to swallow....and to digest. I hate those hard chalky pills that get stuck in my throat and obviously would take a long time to dissolve...if ever.	5	11/2/2015 6:24:58 AM
great product	most of my working years were spent standing up/ i have just started this product and hope it will help with varicose veins.	5	11/1/2015 11:28:05 PM

necessary item	Iran out and thought I could get along without it. tried another product and discover I need this as well. keep up the good work Andrew	5	11/1/2015 8:14:56 PM
THIS STUFF TRULY WORKS !	I take both a B.P and a water pill so I was concerned about how this product would work for me if I added it.. I was doing rather ok before but I am astounded and delighted at the difference. as my ankles have done much much better since I added the Circulation and Vein Support.I am not overweight, and very active and yet I can tell the difference in the lightness I feel in my feet and legs and discoloration around my ankles is now gone ! WOW ! I AM impressed.	5	11/1/2015 6:46:35 AM
Excellent Product	This helps my husband's circulation and he really feels the difference when he is taking them.All of Andrew's products are Grade A and we wouldn't take any other vitamins.Thank you Andrew - you're the best!	5	10/31/2015 2:28:56 PM
This started it all!	I suffered from restless leg syndrome or what I call "jimmy legs" for years. Not wanting to take aprescription from my doctor I ordered these. This was my 1st Andrew Lessman product. Within a week the horrible sensations & jumpy legs were gone! It's all been uphill from there. I take so many of Andrews products as does my husband & dogs. We all feel better because of them. Thank you!	5	10/29/2015 2:54:35 AM
The only one I have tried that actually works	I have taken Andrew's Circulation and Vein Support for at least 20 years and have always had great results. I used to have restless legs and some tingling in my feet especially at night. I notice that these symptoms return if I stop taking it for a while. This is one of Andrew's supplements I have always relied on and I take quite a few daily. His by far are the best of all the different brands I have used.	5	10/26/2015 2:44:45 PM
excellent.	Excellent product, Andrew's supplements are the best.	5	10/25/2015 2:41:46 PM
GREAT!!!!	THIS WORKS GREAT!! IHAVE A TON OF BLUE SPIDERS VEINS ON MY FEET. AFTER JUST 3 days there was less and after one week they were 95% gone!!	5	10/24/2015 5:05:07 PM
Miracle	I purchased these in January 1st as a TTV but ended up giving them to my brother whose ankles were so swollen despite all the meds his doctor prescribed for him. Within DAYS, his ankles went back to normal. My ankles were not swollen so I thought I didn't need them yet. Well, then I heard Andrew talk about restless legs at night which I have so I purchased them for myself a few weeks ago. No more restless legs.You rock Andrew!	5	10/24/2015 3:11:05 PM
Highly recommended this product	I have previously used AL's Circulation and Vein support for several months and was convinced to buy a years supply this time, because of 2 things: 1)This product really works. I have always had problems with poor blood leg circulation to the point of severe pain. After using this product for several months, I can honestly state that my legs no longer experience that negative experience as long as I take the pill. 2) I love the savings on purchasing a years supply. Many thanks Andrew	5	10/22/2015 10:42:09 PM
leg swelling	LOVE this product. It works	5	10/18/2015 6:56:05 AM
Product works fast	I have only used this product for a week and can tell the effect of this product on my legs. My legs were felling heavy, I sit at my computer for long periods of time for work and I know it is impacting circulation to my lower extremities, My legs move easier, they are not as stiff, especially noticeable when I exit my automobile. I notice less cramping and a lot of relief. I recommend this product to anyone experiencing symptomolgy to their lower extremities. This product works fast.Thank you so much for your product Mr. Lessman.	5	10/16/2015 10:37:52 PM
Miracle	This stuff is terrific. I have had problems with my veins and was getting sores that wouldn;t heal. After taking this, I haven't had any problems whatsoever. I'm a believer.	5	10/15/2015 4:47:41 AM
swelling	I have swelling of my lower legs. This product just works.	5	10/13/2015 5:13:26 AM

Pleasantly Surprised - Won't Go Without	Cankles run in my family. It can be especially bad in the hot summer months, which we had MANY of in Oregon this year. I have found Circulation and Vein Support to make a marked difference with this. Additionally, I have had knee surgery and both knees have inflammation/arthritis. I've noticed that I can actually "see" my knees again - much less puffiness/inflammation. Initially I purchased the 60 count (30 day supply) but plan on ordering a larger size next time (wanted to try it out first). I anticipate never going without this product.	5	10/4/2015 5:17:13 PM
I Couldn't believe the results	This is the most amazing product and I would highly recommend it. I have spider veins on my ankles that almost covered the entire inside of my ankle. After taking this supplement the spider veins have reduced by I would say at least 75%. My legs looks so much better. I'm not embarrassed to wear dresses and shorts. My mom has terrible varicose and spider veins and her legs have improved at least 50%. I can't believe the results. Thank you Andrew for making an incredible product!	5	10/2/2015 12:41:20 PM
ANDREW'S MIRACLE SUPPLEMENT	I began taking this supplement about a year ago and was amazed at how wonderful it worked. It took about 3 weeks to kick in, but worth the wait after seeing such amazing results. At one point I had to stop taking all supplements, and what a disaster, as my feet and ankles swelled severely again. I went back on this miracle supplement and there again in about 3 weeks right back to normal with no swelling whatsoever. I can't thank you enough Andrew for creating an amazing supplement that works the way it does. I also take several other of your supplements and get sensational results from each of them. Again, Andrew my sincere thanks for what you have done for me as I use the CIRCULATION AND VEIN SUPPORT SUPPLEMENT...Harriet S	5	9/29/2015 7:09:01 PM
Amazing	My mother has has swollen ankles for years and years. Shes been to the doctor and they can't figure out what's wrong. Well I bought her a small bottle to see if they would work. Plus I wasn't sure if she would take it. Well she's loves these miracle pills!!!! Her ankles have gone down so much it's incredible. I couldn't believe my eyes. She's on her second bottle. Now I'm recommending these to other family members.	5	9/29/2015 11:08:22 AM
No more tired legs!!!	I love this product. This is a reorder because I don't know if I can live without it! My legs used to get tired walking up one flight of stairs; BUT after using this circulation & vein support from A.L. for approximately 1 to 2 weeks, I can honestly say that it is remarkable how I don't have any problems anymore with my leg feeling heavy & tired. I don't even think about it now compared to the way I used to dread walking up the stairs so I would take an elevator. I can keep up with my grandchildren.	5	9/27/2015 5:06:07 PM

Great	been taking for 2yrs now and love this	5	9/10/2015 3:26:53 PM
Only thing that helps!	Used these for 3 yrs now....Only thing that helps the occasional RLS and swelling of my legs....If your doctor says it's ok and you have RLS or swelling, please give this a try. My friend has bad veins and was set to have surgery on them...she was having pain and swelling...Her doctor said ok to try, so I gave her some. That was 2 yrs ago and she's yet to need the surgery.....Only suggestion I have , other than please try these, is if first trying, take them at night....sometimes I need 2 and it seems to help me sleep...just calms.....but have taken just 1 during the day and am fine.....I almost never ever give 5 stars---see my reviews.....these are the only thing in all the years I've had issues with my legs, that give me relief and without having to take prescription medication! Thank you so much! Huge difference in my life and ability to sleep at night!	5	9/8/2015 5:48:31 PM
Works!	I CAN NOT live without this effective product. So much less swelling in my ankles that I am amazed. I don't have leg cramps in the night. Buy this and get great results!	5	9/7/2015 2:31:28 PM
Wont be without these!	After some surgery complications which produced swelling and aching feet and legs I thought I'd give these a try. The swelling went down after about 3-4 weeks of starting these and my feet looked more like what they used to and I could get my shoes and socks on again! Thank you Andrew!	5	8/29/2015 8:18:26 PM
Absolutely the best supplement I've ever tried!	Amazing product. I could tell a difference in 3 days. Swollen feet and tired legs gone. I have more endurance now when I workout. I will never do without this supplement. You have to try it to believe it. I can't stop talking about it. Thank you for making it affordable too. I love it! I only wish I started it sooner. Thank you Andrew.	5	8/29/2015 7:26:01 PM

Works great!	I have trouble sleeping due to tingling and pain in my legs. I ordered this last month to see if it would help and within a couple of days, the symptoms disappeared. I waited too long to reorder and ran out of these vitamins; my discomfort was back in a couple of days. I won't make that mistake again!! These vitamins are the best!	5	8/28/2015 1:47:16 PM

Miracle	I bought this product for my friend, who has a leg that even the doctors can't find a pulse!! He has severe leg cramps and is on his feet outside doing hard property management all day. This interrupts his all important sleep. I bought 30-days worth for him to try it. TWO DAYS later he noticed he had not had leg cramps and could walk without fatigue in his legs - AND HE IS SLEEPING through the night for the first time in years! I am reordering the big size. Thank you for providing such a life changing product.	5	8/19/2015 4:37:23 PM
Great product	I have taken these for years because I used to walk a lot and wanted to keep my legs in good shape. I am now almost 81 years old and although I do not walk like I used to, when I had my legs checked via ultrasound at the cardiologist office, the technician remarked that I had excellent circulation in my legs for my age. I told her what I was taking, and she said, "don't stop - I will tell the doctor about these vitamins." Andrew Lessman is the best!	5	8/18/2015 1:29:21 PM
Happy legs	Actually, I'm kicking myself with those happyfeet; why didn't I try this sooner?I reorder numerous products from Andrew& had heard this mentioned before but hadn'ttried it. (Head slap)But I'm so happy I finally did. My RLS isgone.I have trouble sometimes falling asleep& when that happens, after 10-15 minutesmy leg nerves start jumping keeping me awake longer.But since taking Andrew's Circulation Supportmy legs are nice & quiet, so even on nightswhen I can't drift off quickly, they don'tbother me.EXCELLENT PRODUCT AND THANK YOU!!Recommend this? 1000%.	5	8/17/2015 8:56:53 PM

A God sent!	This supplement is really Aaaaamazing! It took just one pill to alleviate the constant pain I had been having for the past 4 month! Love it and will definitely be reordering more and recommending this supplement to my family and friends who are suffering from any type of leg discomfort.	5	8/5/2015 11:52:40 PM
Legs less tired	Since taking this product,I notice I don't have the crawly feeling in my legs when I lay down. I will always take this .thanks Andrew	5	8/5/2015 2:33:32 PM
Best of its kind	I can only say good things about the circulation and vein support. I had problems with varicose veins and spider veins most of my adult life. I had sclerotherapy and also had some varicose vein removed.they always seemed to come back. Especially the spider veins. And my legs felt heavy and tired.This supplement really helped me. My legs didn't botherme and it seemed to keep the veins from showing up again.I ran out and took another brand that I had tried before these. They just didn't do anything.So when I saw Andrew back on with these I quickly brought them again Don't think I could be without them. especially in the summer when my legs seemed to bother me the most.	5	8/5/2015 1:53:59 PM
vein support	i've only taking it two days as directed and i beleive its going to be a great productfor my varicose veins.	5	8/5/2015 1:22:18 PM
Life Changing	Thank you for making such a wonderful product!I ran out of the Circulation & Vein Support, I couldn't figure out what was wrong, why it was so difficult to walk. I am 68 years old, thought I was going to have to live with difficulty with walking. I realized that I had not reordered, it took a few days to get this back into my system but I am happy to say, no pain, no exhaustion.	5	8/5/2015 12:29:39 PM
best stuff evermade	I have been having problems for years. I ordered this product thinking I would probably send it back. But in two days I could tell the difference. The pain became less and less and I could stand longer and walker further with out pain. I will never be without this product. I am going to try more of Andrews products now that I know they work. Thank you and God bless, Renee	5	8/4/2015 12:16:54 AM
Awesome!	Love this product! Only been using for 5 days & can tell a HUGE difference in the swelling in my feet! Will never be without!!	5	8/2/2015 7:08:12 PM
Helps with leg cramps.	I have taken this product for over a year now and it really seems to help with nightly leg cramps and pain in legs from standing. It's just expensive so I try to order when they are on special but anything beats the leg cramps. Doesn't hurt your stomach.	5	8/2/2015 3:27:11 AM
Miracle worker	For years I wouldn't wear a dress or skirt because of my swollen legs and ankles. After only taking this product for three days I know have skinny legs and ankles again and they feel great. Who would believe. Kathy	5	7/31/2015 6:09:49 PM
Great Results So Far	I haven't been using this very long so visibly I don't notice much however I was having leg pains that started when I changed to a job that required sitting for extended periods of time. I never had that when I had a job where I moved around most of the day. This coupled with the magnesium have eliminated the weird pains/cramps I was having in my legs and feet. Very happy with this purchase. There is no stomach upset, the capsules are small and easy to swallow and no after taste whatsoever. I hope to have continued improvement as I continue to take this supplement.	5	7/31/2015 3:44:38 PM
Legs	This product is amazing. When I don't use it for a few days and am on my feet a lot I can see and tell the difference.	5	7/30/2015 2:44:12 PM

Thankful in CT	Dear Andrew, I have CVI which causes my legs to be painful to the touch at times and tired. I went from standing over the years in my work, to now sitting which does not help with circulation. I stated to take Circulation Vein Support and now after a week, I do not feel as I did. I see improvement and with continued use, hope to stay as such. Thank you	5	7/30/2015 1:44:22 AM
I can finally get some rest	For the past few months, whenever I would lay down, the tops of my legs would ache between my knees and my ankles. Occasionally the outer sides of my thighs as well. To my amazement, within a few days after taking 2 capsules before bedtime the pain is practically gone. What a great product! Thanks Andrew.	5	7/30/2015 12:25:22 AM
Great legs.	After having a blood clot in my leg and lungs, I started taking this product. I noticed that my legs did not feel as tired walking, sitting, or standing. When I ran out, I noticed a difference and re-ordered. My mom also started on this as well and she too notices how good her legs feel. Thank you Andrew for another great product.	5	7/29/2015 11:25:11 PM

Veins are improving in appearance	Had almost given up on the knots from my leg veins improving. Just a few, but still ugly and slightly painful. After the 1st month the pain started to subside, and now after several months I am noticing an improvement in their appearance.	5	7/16/2015 8:41:55 PM
The Best	I've used Circulation & Vein Support for about 5 years. I was diagnose with Lymfedema, swelling in the foot. I ran out of this product about a month ago. My foot has started swelling up more since I've been off this product. I highly recommend this product.	5	7/14/2015 4:00:41 AM
Gotta have it	Whether I am busy running around all day, or sitting at my desk for longer than I'd like, at bedtime my legs are much more relaxed than they were before Circulation and Vein Support for Healthy Legs. Those restless legs would keep me from settling down to a good nights sleep. Thank you for a remedy that has NO side effects and NO after taste.	5	7/13/2015 1:52:57 AM

Wonder supplement	I bought this for my mom who has veins that she says burns and bursts. She has varicose veins and her legs would hurt non-stop. She was skeptical but desperate so she tried them. She was nearly a month into them and felt no difference but kept taking them because I had bought them for her and she figured she would finish them and not get them again. Well about the 1 month mark her legs began to feel wonderful. When she ran out her leg pain came back on just as before. She placed an order and very quickly was feeling better again. She has not been without them since. That was a couple years ago. Thank you Andrew!	5	7/12/2015 4:02:05 AM
The Only Thing That works!	I love this product. This the only thing that works.. After only using this for one week, my legs no longer cramp up. I bought some for my mom and I recommended to my co-worker Thanks Andrew ! You're the best!	5	7/10/2015 11:23:22 PM
No pain in my legs with this product!	I have some varicose veins, which I have had for years, however since I started taking 2 of these jell caps every morning for the past several years my legs do not hurt me at night anymore and I have no more restless leg syndrome. No more leg cramps	I really like the Circulation &Vein Support! It has stopped my leg cramps that I had daily. I recommend this product to anyone who has leg cramps regularly.	5	6/13/2015 3:50:07 AM
Very effective	I have poor circulation and have endured years of swelling in my ankles, to the point that the skin on my ankles has discolored and darkened. What I like about these is that they relieve the heaviness and prickly feeling I sometimes get. Won't be giving these up anytime soon!	5	6/11/2015 6:14:49 PM

Circulation Vein Support stopped my cramps	I can actually feel the change in my legs when I use it.	5	6/2/2015 2:26:10 PM
	i got this for one reason, because i was at my wit's end getting painful cramps in my feet and toes every single night at bedtime. nothing had worked to stop them.... not stretching, having enough fluids, etcetera. someone suggested this might work for the cramps, and within just a few days of taking it, my cramps are gone.	5	6/1/2015 11:52:23 PM
Greatest Product Ever	I had many sleepless nights due to my restless legs or as I called them Jerky. I saw product on air and thought It can't hurt to try". I can't be without this...works like a charm for me. Love it!	5	6/1/2015 9:47:37 PM
Who knew these would help in my 50's	Recently added this and peptides to my supplement repertoire for joints.(have completely switched to Procaps) I have osteoarthritis and injured both legs at one time or another . I teach A&P and kinesiology so I can spend up to 3 hours a night at a podium. Usually I wake up several times a night with gastroc. and plantar cramps. They are gone and I am shocked. Actually sleep through the night without interruption. Where have these been my whole life. I also notice I don't have the need to constantly crack my ankles and toes. Legs are an extremity, but so are arms and I noticed less cramping and cracking of wrists and fingers.	5	5/22/2015 2:30:54 AM
Beneficial	On behalf of my wife I would like to acknowledge the benefits of this product for the circulation in my wife's feet. Circulation has improved to the point where ongoing numbness gives way to "feelings" and movement. Swelling in her feet and ankles is diminished as well. This product actually works. When my wife runs out of the product the numbness and swelling return. Thank you so much Andrew.	5	5/19/2015 2:29:57 PM
relief	I have been using this product for awhile now and I have not had any leg cramps. Feel that this product is helping.	5	5/17/2015 7:38:18 PM
Longtime User	Used Circulation & Vein Support for many years and found it very helpful with my leg circulation, which was poor. Really noticed the difference when I was in the hospital for three months after an accident and was not taking my supplements. Glad to be home and back on them.	5	5/13/2015 6:07:37 PM
wonderful	I sometimes get leg cramps at night. I take one and within a few minutes, no more cramps.	5	5/13/2015 2:22:00 PM
helped my leg cramps	since taking this i dont have the leg cramps i use to get	5	5/11/2015 2:16:49 PM

Healthy legs	I have been using leg circulation for 5 years. I have poor circulation because I have been standing on my feet for 40 years with retail positions. My legs don't feel so tired. Thank you	5	5/9/2015 2:13:37 PM
Excellent product!	These work. I have told friends & family about these. They are now taking them as well & feel the same way I do. The swelling in the legs & feet are reduced. Overall circulation has improved dramatically. This is the best circulation support on the market! Another winner from Andrew Lessman!	5	5/2/2015 8:28:57 PM
Work Great	I ordered these because my feet swell if I'm on them alot,especially in summer. These work great and keep my legs from that "fatigued" feeling.	5	4/29/2015 4:49:49 PM
check with your doctor, first	After taking the circulation and vein support supplement, I discovered that the ingredients in it has caused a rise in my blood pressure. I am returning it.	5	4/28/2015 5:45:01 AM
Leg cramps be gone!	Been using this product for a while now and have decreased swelling and painful cramps. Now starting to get my husband to use. Thanks Andrew for another product that really delivers.	5	4/26/2015 9:04:06 PM
It works	I bought a trial size to see if it would help my ugly varicose veins. I took one capsule not expecting much and was quite surprised the next morning when I caught a glimpse of my ankles in the mirror. I thought my "cankles" were just fat, but apparently it was edema from poor circulation- because my ankles were now normal size. The varicose veins took a little while (maybe a week and a half) to improve in appearance but now I am considering wearing shorts again! Another excellent product from Andrew Lessman!	5	4/25/2015 5:34:52 PM
Works Wonders	I trust Andrew because I can tell he is very knowledgable. I use a lot of supplements that you can only get through a doctor. I have to use products that are gluten and dairy free and I appreciate there are no additional inactive ingredients. That said I love this stuff. My legs always ache and I have Raynauds syndrome. It helped almost instantly. I have been taking 2 capsules a day. Glad I bought a year supply when it was at a great price. Highly recommend.	5	4/25/2015 3:12:59 PM
pretty legs	my legs feel good again-much lighter-my feet too thank you so very much rate 5 stars plus	5	4/25/2015 3:12:20 PM
This Product Is Awesome!	Take 2 of these a day and you will feel and see relief!	5	4/25/2015 1:42:41 AM
I can dance again!	I have been using this product for years and have been able to do many things swollen legs stopped me from doing. This beats surgery and pills that DON'T work! TY Andrew!	5	4/25/2015 1:28:35 AM
SUPERB!	This product has really helped my baker's cyst. I started walking 2 miles a day last March 2014. By May 2014, I couldn't make it through the second mile & had bad leg pain. I went to the dr & found out it was a baker's cyst. Just have to live with it. But this product has really helped with the leg pain. I can now walk really well on the treadmill. Thank you Andrew!	5	4/24/2015 5:31:19 PM
Legs and veins	I stand on my feet for long period of time and at the end of the day my legs and feet feel good Thank you Andrew for such a good product love you	5	4/23/2015 8:57:12 PM
Worked!	Had terrible leg cramps. Dr. gave me Magnesium Oxide 4 mg. 2 x day. Still having leg cramps but not quite as bad but enough to make me jump up and painful. My daughter suggested these leg support caps, I did and it worked. I am taking 3 a day along with the magnesium and will gratefully say the cramps are under control. Would not want to be without them.	5	4/23/2015 4:28:29 PM
Works for RLS	I have RLS and issues with swelling legs. This is amazing. Keeps legs , mostly R leg, from swelling and totally stops my restless leg syndrome...I realize I am not a doctor and if one suffers from these issues, they should make sure what is the actual cause. I've gotten a friend of mine who had poor leg circulation and bad veins and it's really helped her, too. It even kept her from having to get surgery on her veins...Again...if you've these problems, you must see a doctor to find out what' going on with you. All I can really tell you is that they , for me, are amazing! If you have RSL, ask your doctor if ok to take this. My friends' doctor gave her the a-ok.	5	4/22/2015 1:32:56 PM

Circulation Vein Support	Excellent for anyone who stands a lot or sits a lot (at their desk jobs).	5	4/21/2015 3:51:04 PM
Wonderful	My varicose veins have shrunk and are not aching non stop like they did before. Wonderful results. Thank you!	5	4/21/2015 12:53:11 AM
Just what the "doctor" ordered!	I purchased a smaller bottle of this for my father a few months back to try it out. He could tell a difference within a few days of taking this. My dad drives a LOT for his job, so his legs are always sore and swollen by the end of the day. These have helped ease the pain and we have noticed less swelling than normal. Just knowing that he gets relief from taking these pills is a weight off of our shoulders. I will continue to keep purchasing these for my dad. Thank you!	5	4/20/2015 9:04:49 PM
really works!!	I was skeptical but I thought was worth a try. My legs are stiff when I have been sitting for awhile and I stand up. after about a week of using this product I noticed I didn't have the pain and stiffness when I stand up. Cant wait to see what happens after I finish my first bottle. Thanks for creating superior products.	5	4/20/2015 2:42:04 AM
Great Product	I sit all day at work. When I get up my legs were stiff. I now this happens with age. After taking using the Circulation-Vein Support Capsules, I have noticed a dramatic difference especially my ankles. My legs feel great and my ankles look great. I love this product. I saw and felt a difference in 3 weeks. Try it!	5	4/19/2015 8:18:28 PM
great	Reorder But really all Andrews products are a reorder I am a lifetime customer. .My legs do not hurt or feel heavy NOR restless that feeling is going away. started with 1 daily then slowly went up to 2 to allow my body to adjust to change. Perfect it did.Love all Andrews products and HSN for making it affordable for those who could not without your help. These products are true and deliver results that can help you live a quality life and for this May GOD bless you always.	5	4/19/2015 8:07:06 PM
THIS WORKS	I have used this product since Andrew came out with it and I can tell you I don't want to be without it. I ran out one time and could hardly wait after I ordered another bottle for it to get here. It definitely makes a big difference. I recommend this and have to many people. Thank Andrew for this product.	5	4/19/2015 1:38:17 PM
Problem solved	This product started helping within three days for my chronic nighttime leg aches. I got better results taking two caps at bed time rather than one. No side effects.	5	4/17/2015 5:00:50 PM
How many needed to remove spider veins?	I am 45 and have been taking 2 a day for several years. I have had a problem with spider veins since my 20's. It definitely has minimized vein pain and cold feet, but I still continue to get new spider veins and soon I think my legs will be completely covered, especially lower legs. Granted, I do sit at a desk all day! I'd like to know if anyone has found success with their spider veins disappearing and how much was needed.	5	4/17/2015 3:51:16 PM
Could not use this	I am taking Warfarin and my Pharmacist told me that it was not good to take along with the blood thinner! I thought Andrew would want to know this information. I am a fan of his products and use many of them. I am 73 and feel sooo much better taking his vitamins and especially the CQ10 for my heart.	5	4/17/2015 2:44:23 PM
Circulation and Vein Support	I have the worst circulation of anyone I know. My husband and I are taking this and I can't feel a real difference. Again, thank you Andrew. I can feel it working	5	4/14/2015 5:55:38 PM
Product works and gives Extra benefits!	My legs/ankles were swollen and i had to take medications for the swelling. Now i was able to stop the medication, this works much better. Also, helps me with a mild ED problem! Fantastic!	5	4/14/2015 5:23:05 PM

circulation and vein support	I had A problem with my left ankle swelling at times & noticeable veins in my foot , after standing for A long period. I've been to the Dr. was told I needed to have A vein removed from my leg because that was the reason for the ankle swelling, so I tried the circulation and vein support and noticed after 2weeks of taking this product my ankle didn't swell and the overall appearance of my left foot looked better, I was so excited about the results I take several of Andrew lessman products, this one works for me I will definitely continue to take it because I like the results. No upset stomach with any of his supplements. Thanks for another great product	5	4/13/2015 1:26:31 AM
Great Legs	This product has improved the circulation in my legs. My legs do not tire as easily when standing for long periods. My 80 year old mother swears they help reduce the pain from her leg veins. Great product. Have ordered for years.	5	4/12/2015 5:35:36 AM
Truly Amazing	This product has changed my life. My husband and I would try to take walks and about 1/4 mile into the walks he would have to massage my calves and this would continue every 1/4 to 1/2 mile or so. My calves would be so tight that I could hardly walk. Also, at night when I went to sleep my legs would ache and be restless to where I couldn't get comfortable or get to sleep. I decided to start taking it and was truly amazed. I started taking the product about 5 days before my husband and I went to San Diego to visit our son. We went to the San Diego Zoo and I couldn't believe that I walked over 11 miles that day and my legs were FINE! My husband kept asking me if I was okay and if I needed a calf massage and I kept telling him I was fine. My restless leg issues went away almost immediately after taking the product. I will NEVER be without this product. Truly Amazing, thank you Andrew!!!	5	4/12/2015 3:47:19 AM
Can't live without them	Purchased these for my mom. She cannot live without them. She had a pain in her legs, the doctors could never figure out what was wrong with her. When she started taking these, the pain went away.	5	4/11/2015 9:59:51 AM
Regarding the Circulation & Vein Support	I have Type II Diabetes and was experiencing slight nerve pain in my toes. When I take this product morning and night, the pain is significantly less. After being on it for two+ months, I did try taking only one pill a day, and the pain came back a little stronger; so I am back to taking the recommended two pills a day. I am very happy with my results!	5	4/9/2015 1:42:34 AM
"How Do I Love Thee? Let me count the ways!" :)	First and foremost -- I must apologize to you, Dr. Lessman. I saw you on HSN for a long time and would think to myself, - "oh it's the vitamin guy" and I'd switch the channel. How wrong I was! I know now that God was leading me to your company, but I was too blind at the time to see that! I had been praying for years to find the right products for my health, but nothing really seemed to work for me in the past with any significance. I have tried every kind of supplement, vitamins and minerals, whole food products, powders, drinks, etc. -- both online and from health food stores. I spent more money that I care to know, and for what? I am younger than you and have had several serious illnesses, and a whole host of various health ailments of various degrees for most of my adult life. I am taking several of your supplements now, but the Circulation & Vein Support was the one that I first started with. I have neuromas in my feet, and my right foot has been numb for at least a decade o	5	4/8/2015 6:07:07 PM
Great	I have had my veins stripped and my legs still hurt, when I take these pills regularly I notice a big difference.Thanks, for the help.	5	4/8/2015 3:00:14 PM
Mimi	I bought this product because I knew I had bad circulation in my legs and feet. No pain, legs just get numb periodically because of buldging discs in my back. BUT...the great thing about this product for me is my feet and toes have been turning blue for years. WELL...they are not longer blue, just nice and flesh colored like they are supposed to be. That started after about 3 weeks on the product. Have already reordered and will always be on this product! I am HAPPY!!	5	4/4/2015 2:11:34 PM
wonderful	I never want to run out of these again. it makes such a difference in how my legs look & feel. Denise	5	3/30/2015 6:26:45 PM

cannot be without!	This is one of the best supplements from Andrew. I cannot be without it. I have noticed the difference in my legs. NO MORE PAIN after workouts. I take one pill three times a day.	5	3/30/2015 5:26:50 PM

Miracle in a bottle!!	Since I was a kid, I've suffered of leg cramps. No matter what I did, I would always suffer of a painful cramp once in a while. Not to mention every time I fly (which is often). SO I decided to give this product a try.....and after 1 month, the cramps are minimal!! I will be a customer forever since this really changed my quality of life. Thank you, David!!	5	3/27/2015 10:27:48 PM
Helps with foot swelling, also!	Very pleased with this product. It helps not only helps with leg swelling but also swelling of the foot.	5	3/27/2015 4:24:43 PM
relief	Frequently at night I have severe legs pains. Since I have been taking the Circulation and Vein support, I have not noticed the pain.	5	3/25/2015 2:02:11 PM
NO More Varicose Veins!	I sent this to an elderly friend, who had already had surgery on his legs, & his doctor said there was nothing more he could do for him!? His legs hurt so badly, it was beginning to hurt to walk. He took the bottle to his doctor, who looked at it & said it was ok, if he wanted to "try it, it can't hurt". In other words, he didn't think they would do anything.After just a few wks, his wife said his legs no longer hurt him to walk, & the "ropes" were going down! Wooohoo! Go Andrew Lessman! He was only taking 2/day, just as directed on the bottle. He takes one in the morning, & one at bedtime. They don't have cable, so the had never heard of Andrew & his wonderful healing products.After several months, his wife reports that his legs are now smooth, like they were when she 1st met him, when he was in his twenties! They are both very delighted & amazed! This is why I bought him the largest bottle.They don't EVER want to run out of the Circulation & Vein Support. They have told the	5	3/24/2015 6:20:50 PM
New supplement	I got this product for myself and for my Sister. As with all of Andrew's supplements, I believe in his products completely. Just started with theSe but am confident they will improve our well being.	5	3/24/2015 11:26:28 AM
Will not be without these!	These Vitamins are unbelievable, hubby had really bad swollen ankles, for years, no matter what he did, sit with feet up, wear heavy socks, nothing worked, with in days of taking these, all the swelling was gone!! And his ankles looked "normal" for the first time in years! Would not be without these! We don't understand how they work, we just know they do!!!!!!!	5	3/23/2015 1:45:34 PM
A GREAT SURPRISE	I have diabetic nerve pain, and there are prescription drugs that can help, but reading the side effects from these drugs makes you wonder why you would take them. Andrew's product doesn't have any side effects, and when I first bought it over a year ago I couldn't believe how much it helped. I have several friends who have the same problem, and have given them a week's supply to try. They all became HSN customers when they had the same positive results.Vein Support is now a daily vitamin for me, and I have found taking a couple in the morning and before bed work the best in my case. All my pain isn't gone, but the improvement is wonderful and a great relief especially since less pain allows for more peaceful sleep.	5	3/19/2015 6:25:02 PM

Love this stuff!!!	I have suffered severe toe, foot and leg cramps for as long as I can remember and saw Andrew on HSN talking about this product. I read the reviews and what I heard was a LOT of people talking about how they didn't have leg cramps from the very first pill. So I bought it because of the reviews and I'm here to tell you....they didn't lie! This stuff works, from the VERY FIRST PILL. I haven't had a toe cramp, foot cramp for leg cramp for months now. I take one every other day and my life is so much better! Thank you Andrew, you have made this woman's quality of life and sleep through the night fabulous and I am enjoying life again. THANK YOU!!!	5	3/18/2015 3:25:47 PM
This works!	This is amazingly effective! I am impressed.	5	3/12/2015 6:04:36 PM
Circulation and Vein Support for Healthy Legs	I have poor circulation and really need this product. My husband does too, this product helps him do well at work	5	3/11/2015 4:25:45 PM
leg Circulation	This are best capsules yet. I have been taken them for several years now & I also buy them for my mom , she is 79 years old and she love them.	5	3/11/2015 1:47:31 PM
best product ever	I have been using this product of Andrew Lessman's for over 10 years. During those ten years I went without it for a couple months and really felt the difference in my legs - couldn't believe it! As soon as I got back on Circulation and Vein Support for Healthy Legs, I felt the difference. I suffer from horrific fibro and my legs hurt so bad anyway and without these pills, it is even worse (and this is even after taking my pain pills).I highly recommend this great product to everyone. As a sidenote, I am in the middle of an unfortunate separation and I negotiated hard to make sure the ex pays for this for me for life!	5	3/9/2015 2:25:26 PM
omG. wonderful	when I was 41 I had to have triple bypass and at the time my doctor said my leg modeling days would be done. well he was correct. my legs would swell my feet not so much but my ankles would swell also and they swell a lot so I finally took the dive and order this product I can't believe how much it helps control the swelling in my ankles and the bottom parts of my legs. I'm not going to be without this product so for anyone who has had veins taken out of their legs get this product	5	3/9/2015 4:01:19 AM
Great product	As with all Andrew's products, this is a proven winner. His products are the best so I keep happily ordering them.	5	3/8/2015 7:53:02 PM
AWESOME!!!	Will not be without. This is my second order. I have a sit down job and before legs would really hurt standing after sitting for so long and now no problem.	5	3/8/2015 7:34:59 PM
Very effective!	It really does releave the pain I used to get on my legs during the night. Thank you Andrew!	5	3/7/2015 5:00:48 PM
Thank you	I am very happy with this product. Don't want to go into details, but want to say this product works. Thank you, Andrew!	5	3/5/2015 4:06:20 PM
Won't be without it.	I have been taking this for a while and I won't be without it. Don't hesitate in ordering	5	3/1/2015 2:40:45 PM
Got It Straight!!!	I could not straighten my right foot for years. I noticed recently while stretching I could.I have not been taking these vitamins for long.but I feel they helped to straighten my foot. I believe I will see more progress in the future. Thank you Andrew Lessman...	5	2/26/2015 1:55:47 PM

TREMENDOUS LEG RELIEF	IN THE 1980'S I HAD THE LARGE VEINS IN BOTH LEGS TREATED WITH INJECTIONS FOR SPIDER VEINS AND LARGE BROKEN VEINS. AT THAT TIME IT COST \$275.00 PER VISIT (ins. paid). MY LEGS HAVE BEEN BROKEN VEIN FREE FOR YRS. BUT, I NEVER NEW WHAT TO TAKE FOR VEIN SUPPORT. BUT, THESE CAPS TRULY MAKE A HUGE DIFFERENCE IN MY OVERALL LEG SUPPORT. I CAN TRULY FEEL THE DIFFERENCE. I AM HAPPY I AGAIN PURCHASED THE 720 CAPS BECAUSE THEY WORK EXTREMELY WELL FOR ME. WHAT A DIFFERENCE MY LEGS FEEL. THEY ARE MUCH LIGHTER AND THE HEAVINESS I USED TO FEEL IS NO LONGER PRESENT IN THE MORNING. ANDREW, THANK YOU.	5	2/26/2015 12:30:16 AM

really works!	These circulation pills make my legs feel SO MUCH BETTER! I can move around more during the day because I don't have the leg pain bothering me. I take 2 every morning.	5	2/25/2015 4:24:45 PM
Circulation and Vein works	I've been taking this for years for spider veins. My vein dr. said that spider veins are a symptom of underlying varicose veins, so I had mine treated, but once I started taking Circulation and Vein, my spiders decreased! My legs feel better, and I bruise less easily. I believe this does feed the walls of the veins and make them stronger.	5	2/25/2015 2:58:35 PM

Circulation works for this diabetic!	After 20+ years as a Type 2 diabetic, I should have all sorts of circulation and nerve issues. I don't. My podiatrist says I have amazing circulation in my feet. Two of my friends who work on their feet all day also tried this product with similar results. I've taken Circulation and Vein support for several years. Individual results may vary but this individual will continue to take this product and recommend it to her friends.	5	2/22/2015 4:33:40 AM
WHEELCHAIR USERS	I have had multiple sclerosis for 23 years. Seven of those years I have been in a wheelchair. I ordered as the special value of the day, circulation and vein support. I get tremors in my legs nightly. Since I started taking this, the tremors have subsided, circulation in my legs are back and finally I have HEAT IN MY LEGS. My caregiver when removing my socks, Screamed out YOUR FEET ARE NOT BLUE. I have a lot of scarring on my legs due to having had the removal of 25 basil cell carcinomas for the last 2 years with not so much healing. I am hoping this will help the healing process. Mr. Lessman I would appreciate you developing a nerve and muscle supplement to help me.	5	2/21/2015 7:01:36 PM
A Great Help	After taking the circulation-vein support capsules I was amazed at the relief they have provided. Initially, I was sketical about whether or not they would help.So glad I purchased these.	5	2/18/2015 11:44:59 PM
Super suppliment !!!!!	Been taking Circulation and Vein Support for many, many years now and have never run out , so I don't know how I would feel if I didn't use it. However, I do know that my circulation seems to be better now (I'm 68) than it was when I was in my 30's and 40's . My ankles and feet rarely swell and I have very few vein problems. Thank you, Andrew You are wonderful !!!	5	2/17/2015 9:12:28 PM
Great Product!	I am 59 years young and I have 1.5 jobs, and as for my .5 job which is part-time retail, I am standing for 5.5-6 hours which cause the veins around my ankle and above my ankles to be inflamed which makes the ankle looks dark in appearance. Since taking the Circulation and vein support, I've noticed that my ankles are not as dark as before and the veins are not as noticeable as before. Thanks Andrew for making a great product, will continue use of the product to see even greater results. Jennifer J. in Pennsylvania	5	2/17/2015 6:25:47 PM
This product is working for me: SURPRISE!!	I was at my wits end... Every winter, I had to wear fingerless gloves in the house and sleep in them as well. I wear socks year around. Must have!	I credit this product in eliminating the burning sensation within my knee Iinto my thigh. Very painful. I didnt like the idea of medication recommended and its side effects. I could tell the difference when I ran out of smaller order. Had to reorder. Do not want to be without. Quality products, all easy to swallow and no stomach upset. Results are amazing. A Skeptic Is Won Over	Before ordering this product I was very skeptical of its efficacy but having used it for several weeks, it really helps reduce cramping in legs and feet. I' m so glad that I took advantage of the Today's Special which featured this product but wish I had bought a larger size!	5	2/9/2015 6:31:52 PM
pain relief	After years of pain in the lower right leg and taking this supplement the pain is gone in less than a week. Less pain and mobility to do things that I haven't done in years.	5	2/9/2015 5:08:50 AM
Best of ever used	I've tried several different brands and this is the best I've ever used. I will be ordering more. Thanks for a very good product.	5	2/8/2015 5:23:45 PM
Young Legs !	At 75, my legs need a little help. Especially since I'm a diabetic, I truly need to support my circulation in my legs. This works!	5	2/8/2015 3:32:20 AM
Wouldn't be without this	I take this religiously and have for years. I started getting spider veins around my ankles, with the right side much worse than the left, about 4 years ago. My doctor shrugged them off and said my whole lower leg would eventually be BROWN. I am very pale white. No, this was horrifying to me. Not to mention the implications to my health and other body parts! I take one in the am and one in the pm. Today I have no spider veins on my left leg, and very little on my right. This works!	5	2/6/2015 5:54:47 PM

Wouldn't be without	I have used the circulation vein support for several years and would not want to be without it. My ankles don't swell, my bad veins don't ache and I can do a lot more in a day comfortably on my feet. I also like the Resveratrol and think they help in many areas, I am 76 and the Lessman minerals and vitamins keep me in good condition and have for several years now. I don't trust any others.	5	2/6/2015 5:45:57 PM
Reduced leg swelling	I sit all day and work out or walk afterwards to get moving around. With this product I do not have swollen legs by the afternoon. Instead of forcing myself to walk, I am looking forward to it and my shoes still fit at 5PM like they did at 6AM.	5	2/6/2015 3:07:37 AM
Never without them	Have them on auto delivery and take 1 twice daily. My legs don't cramp or ache at night, can't be without them.	5	2/6/2015 12:46:19 AM
Love Andrew	I have spent a small fortune on Andrew Lessman's products. I love them all and I will continue to buy this product when I run out.	5	2/5/2015 4:31:11 PM
Veins	I have very bad problems with my veins for over 20 years. The first day I used it, I had no pain at night. I know it will take time. But just to received no pain the first night, I love it already.	5	2/5/2015 2:31:23 PM
Great for leg circulation!	I used to feel some pain in my leg but after taking this for a week and walking more, my legs feel stronger.	5	2/5/2015 4:56:04 AM

Love this!	This has kept my feet from swelling up. My legs feel so light now. Haven't tried the Resveratrol yet because I mainly bought it for the Circulation and Vein support. I will start taking it tomorrow. Thanks Andrew Lessman and HSN!!!	5	2/3/2015 3:02:43 PM
Would not be without this product!	I retired at age 58 but knew I still had to work and went into Retail but my veins started popping out at some point and thought I would have to quit but soon discovered Circulation and Vein and decided to try it. 15 years later at age 73, I have just retired, thank you Andrew, I love you and my dogs are awaiting their turn to thank you with your new dog products in the near future and we love Lincoln also.	5	2/2/2015 8:55:59 PM
Love Love Love!	I will never be without this again. I can feel my legs all day and hold my arms up over my head again. I am so happy. Way to go!!!	5	2/2/2015 7:11:24 PM
cir & vein blend	Great products!	5	2/2/2015 4:35:58 PM
Love this product.	My legs started feeling better within 2 days of using the product and my feet don't hurt as much.	5	2/1/2015 7:39:38 PM
Works for me	Have used the Circulation and Vein Support for a number of years. It seems to help reduce the purple broken veins, as well as swelling. I usually only take one, but sometimes two. I will keep reordering.	5	2/1/2015 2:59:19 AM
so right	Out of this for a while and boy did I notice how I felt it was not good It took maybe two days after I got new supply when I did notice that all was right in my legs thank you good stuff	5	1/31/2015 7:53:23 PM
Unbelievable improvement	I have had 3 foot surgeries in the past and had just learned to live with the daily swelling of my ankle. After only 2 days on this Andrew Lessman product my ankle has no swelling..... ZERO swelling. I have a desk job and for years have had a golf ball size swelling by the end of the workday. Yesterday I could not believe that after an extra-long day of sitting, my ankle was not swollen at all. I couldn't quit checking it because it seemed impossible that just a few days of this supplement could cause such a crazy good result. I've taken Andrew's CoQ10 for years but one never really knows if the benefit is there or not. Now I will continue to take the CoQ AND will not stop taking the Circulation & Vein Support. I'm so thankful that a friend shared information about this one as I hadn't heard of it or seen it before. I hope the efficacy lasts because the improvement is awesome. Over the years I've tried ankle wraps which make shoes tight and uncomfortable, I've used compressio	5	1/31/2015 7:03:37 PM

A Daily Must	I won't go without this, nor will my Mom. I ran out a few years ago and noticed my legs swelling and feeling tired and heavy at the end of the day. Once I started taking it again, no problems so now I stock up just to make sure I don't run out. My pantry is stocked with many of Andrew's products as I think they are the best!	5	1/31/2015 4:42:39 PM
Fountain of Youth	I am 59 years old and have a job that requires me to sit all day. For over 5 years my legs have been swelling as the day goes on and it has become painful for me to stand up after sitting or even to walk just to go shopping. I can't enjoy outings with my grandchildren without my legs hurting. So I decided enough is enough and finally ordered Andrew's Circulation Vein and Resveratrol supplements. I do not like to take medicine so the selling point for me was that Andrew provides easy to take nutrition that our body needs without drugs so I felt secure there would be no bad side affects or counteraction with my blood pressure medicine. After almost two weeks I feel the difference. My legs don't swell or hurt as much and I seem to have more mobility to stand and walk around. I also feel an overall difference in my body with increased energy . I can't wait to see how good my legs and body feel after a few more weeks. I look forward to living "YOUNG" again and being able to enjoy activiti	5	1/31/2015 2:42:48 PM
Love	My feet and legs use to cramp so bad and it would last for so long. Unreal pain. The Circulation and vein has not taken the cramps totally away but the cramps are only once in a while and not so severe or as long, I take one in the morning and one when I go to bed. I can not imagine living without it. The occasional mild cramp makes me know I never want to live without it. Honestly I take Resveratrol because Andrew says it is good for me. I really can not say that I can tell a big difference. As a senior I take so many of Andrews pills and pray that I will be able to afford them forever!	5	1/31/2015 11:00:40 AM
SEEMS TO BE WORKING	I have been using this for about 5 days. My ankles and feet would be swollen when I came home from work each day. Since I started taking this product that is no longer happening. I trust Andrew and his products!	5	1/31/2015 1:50:58 AM

Healthy Legs	For my exercise routine, I do quite a bit of cardiovascular workout with skipping and jumping in dance routines, use hand weights and bands for muscle strengthening. Excellent product!	I have only had the product for two weeks, butI have not had any night leg cramps which havebothered me for years, since I started this product.	5	1/30/2015 3:29:15 PM

Good Product	I take this supplement in conjunction with the Glucosamine that Andrew makes and sells on HSN. I started with Andrews supplements after I had knee surgery. I found that over a period of a few weeks, I could walk with much less pain and this is progressively getting better. I would definitely recommend this supplement along with Andrew's other products. So far, they have not disappointed me at all.	5	1/30/2015 2:54:51 PM
A Great Help	I have taken this product for many, many years and my 68 year old legs are in great shape. Not many varicosities at all. On occasion, when I fail to take it, I have leg pain at night. When I faithfully take it, GONE! It's one I am never without.	5	1/30/2015 2:45:49 PM
great product have purchased for years!	my legs feel and look better will buy as long as available . I could not walk for 2 years. I have RSD and I believe this product was a good tool to my ambulatory progress. Thank you Andrew I.	5	1/30/2015 12:32:59 PM
Can't live without!	I've been taking 2 of these every night before I go to bed for a couple of years. I no longer have restless legs or leg cramps even though I have a history of poor circulation due to varicose veins. I even had them tested by one of my healthcare practitioners to see if they were compatible with my body and they were perfect!	5	1/30/2015 6:43:49 AM
Couldn't live without it!	I have been taking Circulation and Vein Support for the last 3 years. I can't imagine my life without it. I am always on my feet, and don't have to worry anymore about my legs and ankles getting sore or swelling up. Thank-you Andrew for all you do! The only vitamins I take are Andrew's. Nothing else compares to his quality and ingredients.	5	1/30/2015 3:42:31 AM
Excellent	I gave the circulation & Vein Support to my son and Daughter-in-law she has bad knees so they haven't used either one because my son broke his ankle in 3 places and the doctor said he had to wait till his prescriptions were done before he could use them. I think they will really help them. My sister gave me some of hers, I didn't think my legs were swollen, but it's hard to believe how good my feet & legs feel. I feel like I lost a shoe size. I give it 5 stars Excellent	5	1/30/2015 3:03:26 AM
Feet & Ankles Feeling Better	I bought this on a whim. Thought, it can't hurt. Well to my amazement, I've been taking it now for a week and it appears to be working phenomenally. Swelling in my foot and ankle is better and as a result they feel better. My walking is easier without the pain I was previously experiencing. I will continue to take them hopefully with continued improvement. Thank you Andrew Lessman for this product.	5	1/30/2015 1:33:17 AM
Great product	I am pleasantly surprised with this vitamin. I take about 12 or more of his vitamins daily but had tried this once before and did not have good results. Looking back I believe it was the vitamin I took with the Circulation Vein support that was the problem.	5	1/30/2015 1:11:18 AM
Re-purchase	We buy about \$3,000 a year from HSN of vitamins by Andrew Lessman. This was a re-order because we were low. We will not stop buying his vitamins.	5	1/29/2015 8:00:17 PM
Amazing absolutely Amazing	I will not be without this product. No swelling, no leg cramps, no restless legs. No more suffering for me, what a joy. Thank you Andrew for this amazing product.	5	1/29/2015 7:26:02 PM
I HAVE BEEN LOOKING FOR THIS	I HAVE HAD MAJOR STOMACH SURGERY AND I KNOW THIS IS GOING TO HELP ME A LOT. I HAVE SWOLLEN LEGS ALL THE TIME, I HAVE HAD BOTH KNEES REPLACED AND I THOUGHT IT WOULD HELP THE PROBLEM BUT IT DIDN'T SO I AM COUNTING ON THESE TO DO THE TRICK. ITS AWFUL WHEN YOU CAN'T WEAR SO PANTS BECAUSE THEY FIT FINE EVERYWHERE BUT IN THE CALF AND ANKLE AREA	5	1/29/2015 6:47:53 PM

Would not be with out them	I would not be without them..At first I took them 2 at a time each day. saw improvement after a month..but I read a few reviews,that others spread them out and had better results so I tried one in AM, and one after diner..Noticed a big difference in my swelling in my feet and ankles ..then I thought when I ran out of them it was all in my head did not want to spend the money.. so after a few weeks of not taking them little by little I was noticing my legs, ankles and feet were like before aching swelling so that was when I realized the Circulation-Vein Capsule were really working in more ways then one..Now I will not be without them..I am not 100%, my goodness I am 65 and do notice a difference. so I set my calendar for the big sale on them once a year in January that is on Flex pay..Thank You Andrew..	5	1/29/2015 6:35:00 PM
We are delighted	Wow, we are delighted with this product. Both myself and husband are taking this. We experienced reduced swelling in our legs within 3 days. We will be continuing using thses products.	5	1/29/2015 4:08:44 PM
Great Product	I have used the Circulation & Vein Support for over 10 years now and I truly believe it is a great product. I'm almost 70 and I still wear shorts in the summer. My legs still look and feel good with no varicose veins which is surprising as I am definitely over weight. I just started the Resveratrol so I can't comment on that at this time but I'm sure all of those good ingredients combined together will be good for me. I use 3 other products that Andrew manufacturers and am very happy with all of them. 5 stars all around.	5	1/29/2015 4:47:50 AM
AMAZING !	I stumbled on Andrew Lesserman's , almost 1 hr. presentation of Circulation / Vein Support. I have just recuperated from a torn minicus. (Ouch). It left my legs with a pulling / tightening /twisting feeling. My legs seemed so heavy.....and feeling like they 'didn't belong to me'. I listened to the testimonials that A Lesserman read.....I read testimonials on this site.....AND I needed help.This PRODUCT is AMAZING. Relief was felt within the 1st week. It's my 'new' security blanket.Thank You Andrew for my New Legs and Well Being !	5	1/29/2015 4:45:04 AM
Unbelievable	I had knee surgery and have been struggling to get back to my walking form. My surgeon told me I should not have a limp but I do and it has thrown my entire body off. My legs just hurt from over compensating on one side and limping on the other. This has been going on for two years now and I had to return to work last January. It has been a nightmare. I did not know it would be so hard.Just recently I saw Andrew on HSN explaining the wonders of circulation vein+resveratrol so I decided to try it .Take it from a person who has taken mobic(meloxicam),and other drugs for pain and inflammation this has been a miracle for me. MY legs have not felt this good in years. I can sleep without cramping and aching legs. I'm walking better and better. This is a wonderful product, TRY IT.	5	1/29/2015 3:03:16 AM
Andrew Lessman	Decided to try the Circulation Vein + Resveratrol to see if they will help my legs. They get so cold (due to the circulation problems) that they hurt. Hoping these will help. Always worth trying Andrew's products. Love that his products are all natural. Don't know if these 2 will help but I'm willing to try. Will have to try this 3 months worth then let you know.	5	1/29/2015 2:36:45 AM
These really work!	I have suffered with vascular problems for years, and now at 75 years of age I had given up on finding anything to help me. My feet and legs were always cold, numb, and hurt constantly. That is until I saw Andrew Lessman on HSN. I took a chance and ordered the Circulation Vein, and the Reservatrol. It worked so well I ordered the largest sizes I could buy so I can continue to take them the rest of my life. The difference is amazing. No longer are my feet ice cold, no more dead numbness, and the pain has diminished considerably. The longer I am taking these wonderful capsules, the better I feel. I am just sorry I didn't find them until I was 75, I sure could have used these 20 years ago, however, better late than never. Thank you Mr. Lessman.	5	1/29/2015 1:12:13 AM

Better Circulation & Veins	Circulation & Vein Support is number one on my list of Andrew's products. I've actually seen the difference not just felt it. I've noticed improvement in my legs from less swelling, less visible veins and they don't feel as tired at the end of a long day. The effect was not immediate, it's not a magic pill, but over time I noticed continuous improvement. I definitely noticed when I ran out and the support was not there. Now I stock up at every Today's Special.	5	1/28/2015 5:05:48 PM
Legs Feel Better	I have to say I think I have less pain in my legs since taking these vitamins. I have very bad arthritis and these pills have been making me feel better. I ordered them based on the customer reviews. I like the product a lot.	5	1/28/2015 1:02:46 PM
God Sent	I want to thank you Andrew for this God sent vitamin.I have been to all kinds of doctors for my legs with NO luck.I saw your product and said let try it that was the best move I have ever made.Thank you and God bless....	5	1/28/2015 8:31:20 AM
Great for your legs!	I love this vitamin. I have to have this and never want to run out. Works great no more tired pinching feeling in my legs and it seems to help with the joint pain I was having in my ankles and feet that was caused from being in a car accident.	5	1/28/2015 4:06:23 AM
Amazing supplement!	I sit at a desk 8 hours per day at work and have had circulation problems for years. About 2 years ago I started taking circulation and vein support and noticed a big difference. I recently ran out for about 2 weeks and I started having leg cramps at night in bed, and my legs felt heavy, swollen and painful at work. My order was delivered to work so I opened the package and immediately took 2 capsules. Seriously, within 15-20 minutes I suddenly felt amazing. No more heaviness or swelling in my legs and no pain anywhere in my body. I will not be without these ever again! Thank you Andrew.	5	1/27/2015 7:45:32 PM
IF I HAD ONE WISH...	I have used a myriad of similar products over many years, even the certified Diosnin 95 from Europe. With "Circulation and Vein Support" the results are noticeable and lasting. This is a keeper and like no other.My results are much like all the other GREAT reviews which is why I feel this product can provide the gift to anyone of healthier legs.I love your products so much because they work and have strict ethics behind them. If I had one wish it would be for you to make supplements for our furry, four-legged family members as they too suffer from so many conditions like us. Think about it, PLEASE.	5	1/27/2015 5:37:19 PM
OMG!! UNBELIEVABLE!!! Kudos to Andrew!	I know HSN cannot make any medical info but I have been plagued with swollen ankles for years to the point where I no longer wore skirts, or capris, etc. Well, 3-4 days after starting on this regiment and now well into almost 2 weeks, I have great ankles and will be going back to wearing skirts. Simply amazing! I have thin ankles with just a slight (arthritis) bump on the side! Hooray!	5	1/27/2015 4:35:21 PM
LOYAL USER FOR 5 YEARS	I can't live without these! I suffer from vein insufficiency and my legs feel very heavy and can get swollen from time to time. The pain I feel at times can be so annoying and Circulation and Vein Support helps tremendously. Early on, it got rid of my problems immediately. Once I ordered a similar product from another website and it did nothing - came back to HSN and Circulation and Vein Support and was feeling good again. It's the only thing that helps my legs and helps me function. I can't believe how long I've been using it - the best product!	5	1/27/2015 6:27:47 AM

WORKS FOR ME	I RAN OUT.THERE IS A DIFFERENCE WHEN YOU DON'T USE ANDREWS PRODUCTS. I REORDERED .NEVER RUN OUT AGAIN.	5	1/25/2015 2:12:05 PM
Great product	Can't say enough about Circulation and Vein Support. It works just like Andrew says. I have poor circulation in my legs and my ankles swell. Since using this product the swelling is much less. I use it every day and will continue to order. Thanks Andrew!	5	1/25/2015 12:12:24 AM
Veinsupport15	I am an RN and used to being on my feet 12 hrs a day, and I can truly say that I have fewer spider veins and less leg pain than before I started taking circ/vein support.	5	1/24/2015 6:37:17 PM
Can't live without	I used to have a bad pain, numbness in my legs and can't sleep at night. I ordered Circulation and Vein Support a couple of years ago, I no longer have the pain, numbness in my legs and I sleep like a baby every night. Thank you Andrew!!!!!!	5	1/24/2015 11:35:14 AM
Seems to really work	I don't have a dramatic story, but I have used the Circulation and Vein support for about a year and have noticed my ankles are not as swollen at the end of the day, plus I can stand longer without having to take a break to sit down. I will continue to use this product because it seems to work well.	5	1/23/2015 4:17:58 PM
This helps with leg pains a lot!!	My hubby is an amputee and he has had phantom pains in his stump for over 46 years in the cold weather! They are electric shocks up his leg! Very painful for him! He has been on these circulation support for a few months now and he has not had anymore of those awful shocks! He is sold on these and knows they are helping him from those pains! This Veteran is very happy you make these and he will take them always now! These really work well!!I also take them for my ankles swelling up in the hot weather and they stop that too! Thank youfor making these ones! R&J in Ohio.	5	1/22/2015 9:12:03 PM
Circulation	I love these vitamins helps circulation no cramps no stiff muscles on legs. veins are lighter	5	1/21/2015 9:31:20 AM
Helpful	Notice a positive difference.	5	1/21/2015 9:11:47 AM
Unexpected!	I recently purchased my 92-year-old mother a 15-day supply of this. I purchased the smallest quantity because, according to her, nothing ever works. I was quite surprised when she brought up the subject and said that for the first time in many years she can feel her toes. On to the 30-day supply. She is now having less pain in her feet and legs. On to the 90-day supply! She swears it is helping her back..I wonder what the biggest bottle would do!? LOL! I am so happy to be able to help her in any small way that I can. She could never afford this on her own, but I would pay anything to keep her feeling better.	5	1/20/2015 5:15:23 PM
This is wonderful	Ive used this for a couple of years now. Last Jan. I got problems with my back I doubled my dose because I was having trouble walking and this kept the circulation going in for me. I take vitamin of yours and I now the work. Thanks and keep up the good work.	5	1/20/2015 3:36:58 PM

5 Stars is not enough	My mom has been suffering with severe leg cramps at night. She has not had a decent nights sleep in years & has been on several RX meds that do nothing. IMMEDIATELY after beginning these vitamins and for the past 5 nights, no cramps AT ALL. AMAZING!!!!!!!!!! Thank you Andrew.	5	1/20/2015 10:45:50 AM
Great Product	This is product works great and certainly helps with circulation. Absolutely love this product I cannot be without it	5	1/20/2015 4:56:06 AM
We both sleep better	My hubby has restless legs. They are worse when he's over-tired or has had a long day. He doesn't rest well & neither do I on these nights. This supplement is the ONLY thing that has helped him. For the sake of our sleep, I will not let him run out! I can actually tell when he forgets to take these. Great product that really works! Thanks, Andrew	5	1/19/2015 5:49:07 PM
IT WORKS!	I have been using this product for maybe around one year. Haven't been paying much attention to my legs until recently I noticed - oh my goodness - my ugly veins on my legs are disappearing or look incredibly better! It's like they are reversing back to my younger days! So happy. Thank you Andrew!	5	1/18/2015 4:53:21 PM
The Best Supplement I have Ever Taken!	I have been taking Andrew's supplements for many years. I am a fit, active, and healthy baby boomer, and according to my doctors, I never had a circulation issue. A few years ago I developed excruciating pain in my legs during long drives. One evening I actually had to pull off the road, take off my shoes, get out of the car, and walk it off as I fought back tears. My doctors had no explanation for it, and no suggestions either. I began taking Circulation and Vein Support about two years ago, and NO more pain! I take two capsules in the morning and one in the evening, and I plan to ask my doctor if I can take two in the evening as well. To have gone from horrific pain to no pain at all tells me this is doing something really good for my body, and I want to maximize my results. The only time I remember that I have leg pain is when I forget to take my Circulation and Vein Support. I would give this product 100 stars if I could!	5	1/18/2015 5:48:50 AM
I have my life back	This is going to be long, I started a regime of vitamins a week ago, I was not expecting any great benefits and because of the cost I knew I would not re order. I have Lupus and a multitude of other diseases related to the lupus, I have no energy, the pain is so intense throughout my body that I spend days in bed, no pain meds I have an aversion to them. At times it feels as if someone is ripping my flesh off my legs and arms, after one week on 6 different vitamins, I am crying, I am 92% pain free, that's huge for me, my husband actually took me to Disneyland yesterday and I lasted nine hours. I normally get up in the morning and have to take 4 aspirin just to shower and get ready for the day, which was most likely spent in bed. two days now, no aspirin, and I have energy that I never knew could exist. Not sure what vitamin is responsible, unfortunately I am going to have to find duplicates somewhere because I cant afford \$75,00 a month. I just pray somewhere I can find a reasonab	5	1/17/2015 7:44:41 PM
Great Product	I've been using these for years and I wouldn't be without them!	5	1/17/2015 6:53:42 PM
GREAT for leg cramps	I cannot be without this. I had a nagging leg cramp, had an ultrasound, found nothing. Dr wanted me to try muscle relaxers but I would not. I found this, tried it, and found relief. Thanks Andrew!	5	1/15/2015 5:19:52 PM

Pain and Swelling Miracle in A Bottle	My father complained about aching legs most of his adult life. Then, bingo, guess who got those same aching legs in my 50s? Me! Fortunately, I tried this product several years ago and it worked! I found that I had insufficient valves in my legs and eventually had the veins closed. (ablated?) through surgery. Without support hose or without these pills, my legs ache and my ankles swell. This formula is part of my daily supplement routine, and I wouldn't be without them. Once I take the pills, leg pain is not even a thought. The best news is that whatever this formula does, it doesn't appear to stop being effective. I have used the supplement for many years and the result is still the same. My only regret is that they weren't available to my father when he was alive. He use to pay me twenty-five cents to rub his legs. I know now, that even that made little difference.	5	1/14/2015 9:32:56 PM
legs support	this product is great as is all of andrews products	5	1/14/2015 7:34:28 PM
Vein support	Legs feel better when I use this product. I've been using it for years and I do see a benefit.	5	1/10/2015 4:38:40 PM
Feel the Difference in Your Legs	If you take this product, then stop, that's when you really notice the difference in your legs and ankles. I no longer have swelling of ankles at the end of the day, nor do I have aching legs. I am 68 years young and feel even younger with Circulation and Vein Support. :-)	5	1/10/2015 3:13:53 PM
Works for me	I work at a desk all day so when I ran out of this product I thought I would be okay until Andrew's next visit to HSN. By the end of the work day my feet and hands started to feel swelling to the point I had to take rings off and change to more comfortable shoes. I reordered promptly and now will not be without Circulation & Vein Support. Thanks Andrew, all the products I take deliver great results!	5	1/10/2015 1:06:24 AM
No More Night Leg Cramps	I came across this product kind of by accident and had been experiencing night time leg cramps that would wake me up every night. So I thought what can I loose with HSN, I can always return it. And it worked so beautifully I just placed an order for an even larger supply that saves me more money. I would not be without this. After a few days, just a few I never had leg cramps again. This is a wonderful product and I am so thankful for it.	5	1/9/2015 3:19:35 PM
Stopped restless leg syndrome	I have had restless leg syndrome since in my 20's; I'm now in my 60's. It got progressively worst. Finally I found that flushing niacin would allow me to sleep at night, so I was using that. But then I found Circulation and Vein Support and decided to give it a try. The need for a niacin poll has decreased and I don't believe I need them any more. The medicine for restless leg syndrome has all kind of bad side effects, so I never took it. But this supplement has only beneficial effects, and it has stopped the legs from twitching. Amazing. I would recommend anyone with any type of leg circulation problem at least give it a try. I use it all the time now. Nancy	5	1/8/2015 9:08:22 PM
AMAZING	I have used this product for years and have even had my fiance use this product.I work from home and sit a very long time. I no longer have any leg pain. I no longer have any symptoms of restless leg syndrome when I sleep.. I will also say this product has worked for ED problems as well! This is an amazing product. When money is tight and I cannot get this product, it does take a few days but the pain comes right back. It is worth it's weight in gold.	5	1/7/2015 7:22:54 PM
A MUST HAVE	IF YOU STAND ON YOUR FEET ALL DAY THEN THIS IS A PRODCET FOR YOU,	5	1/4/2015 8:01:19 PM
LOVE THESE VITAMINS	I DO NOTICE A DIFFERENCE IN MY LEGS WHEN I HAVENT TAKEN THEM IN AWHILE. I STAND ON MY FEET ALL IN ON CONCRETE AND BY THE END OF THE DAY MY FEET AND LEGS ACHE SO BAD THAT I CAN;T WAIT TO SIT DOWN BUT WHEN I TAKE THESE VITAMINS THEY DON;T ACHE AS BAD.	5	1/4/2015 7:57:34 PM

What a difference!!!!	I started Circulation Vein Support because I have poor circulation in my legs. I am 75 years old, and I also have numbness in my feet and legs which I guess is not unusual for a person my age. I started taking this wonderful supplement, and what a difference it made in just a few weeks. I will continue to take this wonderful little capsule for the rest of my life because it really works. My legs are so much better, my feet stay warmer, and even the numbness has diminished.	5	1/2/2015 9:27:29 PM
Love this product	This is working as stated, it has really helped us both a lot. Thank you Andrew	5	12/28/2014 4:58:07 PM
Leg support	I love all of Andrew's products. This product has helped me so much. I just retired after 49 years as a hairstylist. I really found a difference with how my legs felt with taking this product. Though retired, I'm still activity and will continue to use it. Thank You Andrew for the care in manufacturing. P.J Mahrle	5	12/17/2014 4:11:05 PM
Some strange magic here	I had chronic leg cramps almost every night in my sleep..terrible..tried this and it instantly stopped completely..I forget to take them a lot too..hard to believe but true story and sure am happy about it.	5	12/13/2014 9:27:17 PM
Terrific	I purchased this supplement after I had some swelling in my ankles. Medical establishment had no answers. I started taking these and low and behold swelling disappeared almost overnight. Thank you Andrew !	5	12/13/2014 8:56:39 PM
It works!	Can't get any simpler than that. It works.	5	12/13/2014 7:56:02 PM
ELIMINATED CRAMPING	I tried these because of the reviews on Andrews's recent presentation which mentioned relief from cramping.My hubby works out a lot and gets serious painful cramps. Nothing normally recommended brings him any relief. I purchased the small bottle to give it a try. He got immediate relief and we went back for more. No further cramping has occurred. Super product.	5	12/11/2014 7:02:20 PM
Great Product	This product really makes my legs feel better.	5	12/11/2014 2:57:20 AM
A Cynic's Review....	I am the quintessential cynic. But I don't know how this stuff works, or why it works, but it works. For decades I've had serious circulation problems in my legs and ankles--severe swelling, pain, etc. I've been to every doctor under the sun. They've done extensive exams along with MRI's and vein studies. They can never find a cause or a remedy. I'm active, not overweight, drink lots of water and eat a healthy diet. Within a few days after taking this formula, all of my symptoms disappeared. This formula has, (literally), been a life-saver.	5	12/10/2014 12:42:36 PM
wonderfull iteam	This product it's a wonder full product really work.After a few days of used I feel better.	5	12/2/2014 10:13:04 PM
Great	Circulation & Vein Support really has stopped the pain in my legs!	5	12/1/2014 10:59:42 PM
Glad to get these again!	After being out for nearly a month I was really ready to get these again. They really help the leg pain when standing on my feet. Some supplements you can't tell a difference but you sure can with these.	5	12/1/2014 9:49:15 PM
The best supplement	This has to be the best supplement that I take. Before discovering this product several years ago I had severe aching in my legs. They felt very heavy at times and I also had fluid in my ankles.Taking this faithfully every day has stopped the aching and the fluid.I am so grateful for a product that works. I recommend this highly. I literally can not be without this product. The few times I ran out the pain and fluid came back.	5	12/1/2014 2:34:52 PM
High expectations	I am still taking taking this product. My expectations are high as I have reviewed the items in the product and am impressed. However, as I realize it takes a while for products of this nature to show change in a person's body, I will have to take it over a period of time.	5	11/28/2014 7:52:45 PM
Nightly Ritual	I am on my feet all day, everyday, and if I don't take this product every night I feel a difference in my legs. This definitely helps in the circulation and my legs don't ache at night,	5	11/27/2014 2:39:59 PM

My legs are happy again.	Had problems with swelling especially in hot Florida weather and I was waking up at night with tingling and pain in calves. Since I have been taking this supplement, my legs swell much less and I can sleep through the night. Can tell the difference when I neglect to take them for a day or two.	5	11/25/2014 4:40:37 PM
Greatest relief	I started to use this product for over a year now and it has helped my tired feet and legs without that achy feeling. I take it once a day and may take another in the afternoon or evening. Thank you Dr.	5	11/24/2014 3:41:58 AM

cured my 'charlie horse' cramps in my feet	for at least a year i had been having really strong cramping in my toes and feet every night at bedtime... very painful and would not stop for at least an hour. i exercise, i stretch, get plenty of water throughout the day, and had never had this problem before. someone suggested Circulation and Vein Support might help, and within just a few days, the cramps stopped. now i get maybe one mild cramp every few weeks, and that is it. such a relief!	5	11/6/2014 10:33:54 PM

REALLY HELPS MY RESTLESS LEG	I HAVE TRIED MANY MEDICINES FOR RESTLESS LEG SYNDROM AND NOTHING WORKED. THESE CAPS DO WORK FOR THAT, CAN'T BE WITHOUT THEM, EVER.	5	10/31/2014 6:55:56 AM
circulation and vein support for healthy legs 30	I have been using this product for about three and a half weeks and i can't believe the difference in my legs. The swelling is going down after years of trying so many different products. This is the best product i have ever tried. I have had swollen legs for years and no matter what i tried nothing worked. I tried water pills and other products that said my legs would get better. And after 90 days there was no difference. But when i tried Circulation and Vein Support i actually saw a difference in just two weeks. OMG I finely found something that works for me and my leg problems. You should try this it works.	5	10/27/2014 12:48:18 PM
Great!	Of course I can't feel these working, but I trust Andrew's products to work.	5	10/25/2014 9:52:50 PM
Great Product!	There is pain in my calves when they get massaged.Circulation and vein support keeps me pain free.Thank you for making it.	5	10/24/2014 11:00:42 PM
No more night leg cramps	Thanks Andrew night cramps would actually turn my foot and toes sideways causing horrible pain. No longer suffering!	5	10/23/2014 4:28:56 PM
Another winner from Pro Caps Lab	As with all vitamins, it's not that you notice a remarkable change when taking them, but you DO notice when you stop taking it, and in my case, the condition did not worsen. I began having varicose vein problems 10 years ago and like my mother, thought I'd have to wear support stockings. However, after finding Circulation and Vein Support supplements, the condition has not worsened, and I can still function normally. A great product.	5	10/23/2014 3:56:53 PM
Really works!	Had leg problems for many years. After taking this product, I started taking short walks 3x a day with no achy feeling or leg cramps. Now I am up to 6 miles a day and I feel great. My legs feel strong and do not get tired.	5	10/22/2014 2:12:50 AM
Better than meds!	For me the perfect alternative to prescription. No more burning sensation within my knee and no more cramping in my calves. Added the Omega fish oil as well. Sleeping much better as well. Thank you!	5	10/21/2014 1:53:10 PM
best for sore calves	Luv this product. Works so well that I am addicted to it. Part of my daily routine. Can't do much without it. If I don't take it within a few days I feel it. Can't recommend product enough. Lessens leftover numbness from chemo for me. Don't know if it would work for others but works for me.	5	10/19/2014 11:45:33 PM
GREST	LOVE THIS ITEM	5	10/19/2014 11:41:48 PM
Back for more!	I used to use this product for years and then I ran out and decided to see what would happen. I work in retail management, so I am running around for long hours on hard floors day after day. My feet started to really hurt and my ankles were getting swollen. I had forgotten that I stopped taking the Circulation and Vein Support. When I saw it on again for Andrew's last visit, I ordered it again and am so glad I did. What a relief it is to get that blood moving again. My feet and ankles thank you, Andrew and HSN.	5	10/18/2014 5:01:25 PM
Great	Great product really works -- I have no leg pain!	5	10/18/2014 4:47:32 PM

I can't thank you enough.....	I had been having a lot of trouble with my legs... Heaviness, pain and it was even getting hard to lift my legs. I saw Andrew talking about the circulation and vein support.... I thought... "I am just getting old... I guess that is what happens when you get to be 65..... But.... what have I got to loose..... I will just try it and see" SoI bought it. Within just a few days I felt a huge change. I feel like my old self again..... No more leg pain and heaviness. And no trouble lifting my legs at all..... Thank you Andrew.....from the bottom of my heart.... Please don't hesitate to give this product a try..... I bet you will be amazed, Just as I have been.	5	10/18/2014 5:24:26 AM

Love them	My husband has been on this vitamin & a few others for over a year. He used to get pains in his legs when he slept & this seems to be helping him. He is not a person to take vitamins but he swears by this & his fish oil & essential vitamins.	5	10/1/2014 9:37:06 PM

My legs love these	I love the Circulation and Vein Support for Healthy Legs and so do my legs. I waited for a while before trying them since I wasn't sure that they would make my legs feel and look better. I should have known better since they are from Andrew as all of the products that I have used from him are wonderful. These helped my legs the first night I took them. My legs were always swelling and aching everyday since I am on my feet all day as a teacher, but not anymore. My legs and feet don't swell as much during the day anymore and I don't wake up with them still swollen in the morning either. I don't seem to have restless, painful, or swollen legs and feet anymore. Thanks for the great product.	5	9/14/2014 7:16:47 PM

I always make sure I never run out of this product. It is truly amazing!!	5	9/9/2014 9:29:00 PM
Really works	Gave a family member a bottle of this as he had really bad circulation and vein problems in his legs due to diabetes. The vein problems were highly visible. The product seems to have helped him. The enlarged veins are much less visible now. Bought some for myself.	5	9/8/2014 10:44:29 PM

LEG PAIN FROM SITTING ALL DAY AT WORK	For months I have had leg pain and some times knee swelling to where I was wearing a knee brace. I saw on HSN Andrew's Circulation-Vein Support and the pain is gone. I have shared with others regarding this amazing product .Ths is a 5 star product for me.	5	8/17/2014 3:22:17 PM

I have been battling with 3 to 4 pluse edema in my left leg for 2 years Or more I use compressor setting is 30/40 to help with swelling with no sign of getting any better I was looking at products on hsn . I have been using circulation capsule for almost two months I went from 3times aday to 2 times using compressor swelling is gone down to less then 1+ edema . I have picture to show the different I say all this to say thank you so much I feel so blessed if I could give 10 star I would this product work for me	5	8/17/2014 5:27:05 AM
Don't Like To Be Without Them	I've used the Circulation-Vein support capsules for several years now. Don't know what "magic" ingredients are in them, but they WORK. If I let myself run out of them, I start having problems with my legs again, after just a few days.	5	8/16/2014 5:44:10 PM
No more puffy ankles	I had a physical recently and my doctor told me that my slightly puffy ankles was normal for my age (70). After listening to Andrew's presentation of this item, I decided it might be good for me and over time might reduce the puffiness in my ankles. Well to my pleasant surprise, the puffiness disappeared after only 4 days. I am glad I bought the larger size and will be sure to get more before I run out. I am blessed not to be on prescription drugs for any of the common chronic illnesses that usually accompany aging. I think a healthy diet, life style, and Andrew's supplements (and of course first of all our Creator) are responsible for that.	5	8/15/2014 11:00:18 PM
LEGS KEEP ON TRUCKING!!	ANOTHER 70 's SAYING. BUT I HAVE BEEN IN THE BAR BUISNESS SINCE 1975. AND THE FIRST 25 YEARS HAD TO WEAR HEELS. MY CIRCULATION SEEMS TO BE OKAY, BUT COULD ALWAYS BE BETTER. F8R YEARS I HAVE BEEN WANTING TO GET THESE, BUT COULDNT AFFORD IT. SO THIS LAST TIME I GOT THE360 AMOUNT. I DID FEEL A LITTLE DIFFERENT AFTER 2 WEEKS. AND MY HUSBANDS FAMILY HAS A CONSTRUCTION CO. SO HE IS ON HIS FEET SOL DAY. HE HAD BEEN HAVING CHARLEY HORSES WHEN HE WOULD STRETCH DURING THE NIGHT. HE HAD BEEN HAVING MORE PROBLEMS THAN ME. SO ALONG WITH THE HAIR SKIN AND NAILS, ANDREW YOU HAVE US WITH 2 TO TAKE, SO FAR. LOVE, LOVE THEM AND LOVE YOUR EXPLANATIONS, TOO! Thanks, LISA	5	8/15/2014 4:58:58 PM

Fantastic Product	This product does all that Andrew says it will do and more. I was having problems with my legs about 10 years ago...doc said next step was to strip veins. I happened to turn on HSN saw Andrew he was talking about this product...tried it and have been taking it since...it saved me an unnecessary surgery...I tell anyone who will listen about Circulation and Vein Support.Patti	5	8/2/2014 7:52:18 PM

IMPROVES CIRCULATION	I HAVE ARTHRITIS AND AM DIABECTIC 2. HAVE ISSUES WITH NUMBNESS AND PAIN IN VARIOUS PARTS OF THE BODY, I.E. LEGS, HAND. FOR ME, THIS SUPPLEMENT HELPS IN ELIMINATING SOME OF THESE ISSUES. I TAKE 2 AT NIGHT AND GENERALLY HAVE A RESTFUL SLEEP. NOW I AM TAKING 2 IN AM AND IT HELPS THROUGHOUT THE DAY. THANKS ANDREW. I HAVE SHARED WITH MY DOCTOR WHO REMAINS NEUTRAL OF COURSE	5	8/1/2014 4:18:44 PM
Big difference.	I wait until Andrew comes to HSN to buy his products because I want the incredible deals that he has to offer when he visits. So when I ran out of the vein support, i figured that I would be OK, I would wait. NOT! At first I didn't realize that I would kick and move my legs at night when I was trying to sleep. My husband did. Then, my legs would ache. I could really tell the difference without them. Since I restarted them, no more aching and kicking at night. Huge difference. I missed them. I am a devoted Andrew fan, have been, but no one had to convince me but me. His vitamins have truly made a beneficial change in my everyday life and I would recommend them to all. You won't know until you try.	5	7/31/2014 3:50:52 PM
it really works	I had numbness in my legs and couldn't go to the Dr. So I thought I would try these. I take the hair and nails supplement and they are great, so I had high hopes for this. After the first week I could feel a difference, the feeling in my legs had a big improvement. Now it's not uncomfortable to go for a walk. Best purchase ever.....	5	7/31/2014 3:30:16 PM
Can't Do Without	I have used Circulation-Vein Support for years. Went off them one time and immediately felt the difference in my legs, ankles, and feet; they felt heavy and were a bit puffy. I also feel they have helped in preventing more spider veins. In the years that I have taken these, I have the same, if not less, number of spider veins on my legs.	5	7/31/2014 3:43:52 AM
We both need this	I can't be without these supplements. My husband has very "jumpy" legs when he sleeps. (It runs in his family.) His restless legs wake both of us & I can tell if he has/hasn't taken these. We BOTH sleep better when takes them! Thanks for a great product that helps with sleep & relationship harmony! ;-)	5	7/30/2014 4:11:10 PM
doris21	I love these pills and will continue to take them	5	7/29/2014 9:09:19 PM
No more leg pain!	This is my second bottle of these Vein Support gems from Andrew and I swear they have helped my horrible leg pain which was so bad I couldn't stand, walk or even lay without pain that felt like my bones were bending and a horrible itch deep within my muscles or maybe my veins. I sleep so much better without the pain and can walk, stand and live again without pain! My doctor googled the information on the bottle and she too is convinced this has helped me and said for me to continue taking it; which I will! (I did try skipping a few days only to have the pain return.)Thank you Andrew and I gotta say, I love the education you share with us and you are oh so handsome it's my pleasure to watch your shows! :)	5	7/29/2014 5:53:04 AM
Circulation & Vein Suppoort for legs is awesome!	I had ordered this product just before taking a two day trip on the bus and it didn't have time to get here before my trip. My ankles and fee were quite swollen by the time I got to my destination. Then three days later I had to do it again on the bus to get back home. By the time I got home my ankles and feet were literally twice their size. By this time my Circulation & Vein Support had arrived and I took the first two capsules the first night and by the next morning I was nearly back to normal. Andrew's stuff is the best!	5	7/29/2014 5:06:58 AM
Terrific!	I have had such problems with my calves and ankles at night. The second day after taking these, my legs were pain free. I kid you not. I was so surprised that it worked that quick. I will not be without these from now on. I ordered the largest bottle.	5	7/28/2014 12:54:00 PM

My legs are not as tired as before.	My work requires me to be on my feet for a long period of time. And after working for 8 hrs my legs are usually tired but after using circulation-vein support, my legs are not as tired as before. I really felt the difference. Tnx Andrew.	5	7/28/2014 7:34:52 AM
great stuff	started to notice immediately	5	7/28/2014 6:35:02 AM
I AM A BELIEVER	I have purchased these before and let them expire without taking them thinking I did not need them. Lately my legs and feet have been aching to the point where it felt like I had to walk/limp for a few minutes (10--15) to be exact until it felt like the blood was flowing. So about 2 wks ago began taking 2 of these a day and one morning I realized that I was not in pain and did not have to walk with that limp . Thank you Andrew Lessman	5	7/27/2014 11:07:13 PM
love this item for anyone with legs	if you have legs you need this. Aids in appearance but for me it is how I feel.	5	7/27/2014 7:34:12 PM
Making a difference	I have only had a chance to take it for about a week, but along with the compression stockings I wear, my swelling in my ankles and feet are starting to decrease. I had an injury a year ago in the small muscle on the inside of my lower leg and with a busy job have had issues ever since. My doctor told me to use the compression stockings and they have helped. By adding these supplements in just one week, I am seeing more results. I am looking forward to telling my doctor on my next visit in a few weeks.	5	7/26/2014 10:36:36 PM
Easy to Swallow	I have trouble swallowing "pills" and capsules aren't much better. These go down SO easy. I have not been taking them long enough to know any difference. Thank you for a quality product.	5	7/26/2014 11:01:22 AM
Better Health	I used this for leg support very good for circulation problem.Very good so I order more to take.My leg veins are looking healthier and my feet hurt less everyday.Thank you Andrew.Fr: C at new york.	5	7/26/2014 6:03:04 AM
t Give it a 5	I have been taking these for 2 years now and I think they have really help me I would it a 5	5	7/25/2014 8:45:51 PM
Works like a miracle!	This product really helped my feet and toes. In early June, I woke up with terrible pain in my toes. That week I flew to Michigan for my grandson and granddaughter's graduation; my feet began to swell. Ten days later, after the flight home to Tucson, my feet were so swollen my shoes didn't fit. I soaked my feet and kept them elevated. While the swelling went down a bit, the pain continued. I remembered Dr. Lessman's Circulation and Vein Support. I placed my order and after three days, the swelling was gone... more importantly, the pain was gone. I will keep taking this supplement and feel grateful for this wonderful product.	5	7/25/2014 3:19:55 PM
What a blessing!	I decided to try this product. I had problems sleeping because my legs would ache at night. I have had this problem for 30 some years consisting of bad leg cramps, restlessness, and generally alot of pain that would keep me up at night. I've been on this product for less than a week and I can already tell a difference!!! Thank you Andrew Lessman for making such a super product that works in such a speedy way.	5	7/25/2014 11:32:03 AM
Very good product!	I purchased this product because I was experiencing a numbness and tingling in my legs while sleeping. This situation was so annoying because it would wake me up at night and keep me awake with worry about why I had the problem in the first place! I have only been taking this for 7 days, and the tingling problem is soooooo much better! I have a feeling this is going to be one of those products that I am not going to be able to live without! Thanks for such wonderful products!	5	7/23/2014 3:15:04 PM
THIS MAKES ME FEEL SO YOUNG!	I'm in education and stand for a great part of my time at work. My lower legs and particularly my feet used to ache and I couldn't get my shoes off fast enough. No longer. My legs and feet feel good and energetic. This is truly a "feel the difference" product. On the rare times I've neglected to reorder soon enough and have run out, I can tell. And the products available in the market just don't do the job like this does. Thank you for a marvelous product!	5	7/21/2014 8:50:25 PM

Reordered	This is my second re order and it works. Swelling, tired legs no more. Thanks Andrew for all you do to help keep us healthy. We only use and trust your products.	5	7/21/2014 11:23:57 AM
Cleared my husband's diabetic leg marks!	My husband, a diabetic, had a lot of dark marks on his lower legs. His doctor told us it was circulation problems due to his type II diabetes and that there was nothing you could do for it. We tried this supplement and the marks slowly went away. The marks were fairly extensive to start, but after about a year, they were gone. We have recommended this to many other diabetics and my husband will not go without this. I also take this occasionally when my legs are tired.	5	7/21/2014 3:15:27 AM
Skinny Ankles!	LOVE LOVE LOVE These! I was having an issue with swollen feet/ankles after long days at work. Tried these and in ONE day noticed a huge difference!!	5	7/20/2014 3:16:12 PM

feet saver	Cant live without this have feeling in my feet for the first time in years	5	7/13/2014 2:01:05 PM
Leg cramps gone	I know Andrew doesn't like to make medical claims so I will :) I was having leg cramps at night as I got older, even though I exercised regularly. My doctor put me on a medication which worked but I didn't like the side effects. I watched Andrew talk about this product and decided to try it after talking to my doctor about it. I had to give my body time to adjust to not taking the medication and my leg cramps started to return within 3 days. Once I started taking the Circulation & Vein Support my leg cramps disappeared within 2 days. I was amazed. If I tried to get off of it the cramps would come back so I just keep taking it and have no problems. I was even getting leg soreness when I was power walking if I didn't take the Circulation & Vein Support so now I just continue to take it religiously and never have a problem. Thank you Andrew for a wonderful product that is making aging much easier for me and my legs.	5	7/13/2014 5:20:59 AM
Stopped Using for a week - Big Mistake!!!	I want to give a BIG Shout Out to this wonderful product. I wear braces on both of my feet and have knots that work up in my upper legs that my husband has to rub out for me. Well I had been using this product for well over a couple yrs and I ran out a few wks ago and thought Oh well I probably can do without these pills. Within a week of not having this wonderful vein and circulation support, my legs would get the knots and my legs would ache so bad and at night when I went to bed, my leg would jump and hurt so badly. I've never had that before. I knew right then it was because I wasn't taking this product anymore. I went in an ordered a 30 count pill bottle and since Andrew is on tonight, I ordered a bigger bottle as it's free shipping and flex pay. I will not be without this product. It does work, and if you don't think it does, stop using it for a few days and watch what happens... Please keep this product coming.	5	7/13/2014 4:16:35 AM
Works for me	I have to say that I was skeptical that this product would help the swelling and heaviness in my calves and ankles that I have had for many years. I took it faithfully for six months and it dramatically reduced the swelling and discomfort. So....thinking I was "cured" i stopped taking this product. Bad idea. After a couple weeks of not taking Circulation & Vein Support, the swelling returned. i learned my lesson, now take this product every day and will never be without it. I appreciate Andrew's integrity and knowledge and now take several other of his products which all perform as described.Thank you	5	7/13/2014 3:42:40 AM
Another success from Andrew	I take a lot of different Andrew Lessman vitamins because I trust that they are pure and have the ingredients he says they do. This is just another one that I trust.	5	7/12/2014 10:25:37 PM
Great Product	Has helped me very much as I am diabetic and have some problems with legs and feet. This product has made a big difference. Love Andrew Lessman	5	7/12/2014 1:02:52 PM

Works for me	I had taken this product about 4 years ago and then stopped using it probably from laziness. Over the winter I got sick and I noticed that my feet were tending to swell so I ordered this and after a week of taking 2 a day the swelling had disappeared . I am going to continue to take this as a preventive measure. Another good product from Lessman's.	5	7/12/2014 2:40:06 AM
OMG it works!	I'm 52 and have been using this product for over 2 years now, and will be a regular customer the rest of my life. I used to have swelling , tightness , cramps, pulled muscles , and aches and pains throughout both legs. I've been taking 2 capsules a day and have none of these problems since ! Thank you Andrew Lessman!!	5	7/11/2014 3:06:46 AM
Fantastic!	Felt the difference immediately! Legs were hurting from over exercise but two of these and I felt great! Thanks Andrew!	5	7/10/2014 7:55:27 PM
love	I have bee using for sometime..	5	7/10/2014 5:35:15 AM
Never run out again!!!	I purchased this product a few months ago just to try them, my angles were swollen from standing 8 to 10 hours a day but I ran out. now my angles are starting to swell up again. This product is fantastic, I never want to run out again. I love Andrews vitamins.	5	7/8/2014 9:22:18 PM
I am amazed and pleased	After years on my feet working as a nurse, now I spend 10 hours a day in a desk chair. Any activity on weekends resulted in leg cramps and swollen feet daily. This product has eliminated my leg cramps, diminished the swelling, and for some reason, my spider veins are going away! Had em for years! Why don't drs prescribe this ???	5	7/8/2014 11:23:31 AM
CIRCULATION AND VEIN SUPPORT	Thanks, Andrew. Since starting this supplement I now don't have nocturnal leg cramps. I'm a 70 year old retired pharmacist. I am a strong believer in the power of medical intervention, including the taking of supplements. I take many of your products to maintain my good health. The nicest part of taking them is knowing that none of them will upset my GI tract. I'm old enough to remember the unpleasant burping after taking Cod Liver Oil and other vitamin/mineral supplements. Never happens with yours. Your products are more expensive than a lot of the supplements, but I've learned that you get what you pay for.	5	7/3/2014 3:19:40 PM
Grateful to have this.	I have battled with leg/vein issues for awhile now and this truly does give me relief. I notice a difference when I "slack off" from using it. i know we are not supposed to make medical claims but i can really say-with conviction-that when i use this product i notice a definite benefit!	5	7/2/2014 7:02:14 PM
This really works!	This stuff really works! Responded well to tired, swollen legs. Love it!	5	7/2/2014 4:28:05 PM
Thank You Andrew!	I work 12 hour shifts and most of that time is spent up on my feet. I was having swelling in my ankles and lower legs and generally feeling tiered all the time. After only a couple of days I started noticing that I felt better after taking this. I will continue to use this as long as it is available.	5	7/2/2014 7:57:37 AM
Bilateral Venous Insufficiency	I'm a retired teacher and my legs have taken its toll over the years. I felt tiredness in my legs and was experimenting leg cramps. I was worried that it may be sometime serious like a blood clot and my doctor sent me to have a Doppler ultrasound exam performed. Thankfully, it wasn't a clot but the blood flow was not sufficiently circulating back up in my legs. I tried on a more frequent basis taking this product and it has help me feel less tired and haven't had a cramp since I did this study in Dec. of 2012. Thanks Andrew! Great product!	5	6/30/2014 5:05:16 AM
Great Product	I don't know what I would do without these. They work. I take 2 a day, morning & night. No cramps at night and they help me to keep moving. Andrew, don't ever stop making these.	5	6/29/2014 12:18:18 PM
love it	fantastic product. extreme assistance with leg, feet and hand swelling. If I run out of this product. I see and feel the difference quickly	5	6/27/2014 5:22:06 PM

This little pill is a miracle for leg pain!	For 4 or 5 years my Doc couldn't figure out why I had such bad calf and leg pain, the feeling like my bones were bending and the pain was so sever I couldn't sleep, walk or stand.So I tried these pills and since the very first week, I have not had one day or long night of that horrible pain! Not once! My Doc now realizes that although she assumed I was too young for circulation problems, I did and do and these little pills have truly done something to help me!I can sleep better at night without that pain, I can walk again; miles daily and I actually ran a short distance! I can stand long enough to cook, shop, play & enjoy life again!I don't know how it works, but honestly; I swear it does! I will not miss one dose ever! Thank you Andrew for such clean, high quality products and for your concern for not only our physical health but for your concerns for our environment! Blessings; Kathy	5	6/25/2014 7:25:58 AM

This Product Delivers Results!	During vacation, my calves and feet became very painfully swollen with what appeared to be a purplish rash, and I discovered I had vasculitis or "golfer's leg" to due to overexertion. When I got home, I immediately ordered Circulation and Vein Support. I was skeptical at first,until three days later, when all of the swelling went down in both legs and the rash was gone as well! I no longer have cramps and have not looked back since that episode. These are supplements I cannot be without!	5	6/10/2014 2:19:38 AM
viewers are right	I'm on a statin but have had leg pain for years so have taken this supplement for years. And yes have talked with my MD about it and have taken several different statins because of side-affects. I read other viewers reviews and they said taking 2 a day made a difference and it really did! Thanks.	5	6/8/2014 3:47:07 PM
CVS is a Must Have	Running out of CVS is not an option for me. Without it my legs and feet swell, ache, and the muscles stiffen up. Using CVS my legs and feet feel normal without ALL of the aches and pains. I haven't had a cortisone shot in about 3 or 4 years. I am Healing and AL's vitamins are an all natural, healthy way for me, without the use of prescription drugs and their side effects. You get what you pay for using Andrew's vitamins, without the side effects.	5	6/8/2014 9:24:37 AM

circulation & vein support	I have always had poor circulation in my legs. It runs in the family. My sister suggested these capsules and gave me some to try. I was a little leery to try anything that could affect my legs and feet. Wow. I could see a difference in just one day. The swelling in my lower legs went down quite a bit. I immediately placed an order for a bottle and have just re-ordered again. I even recommended them to my brother a few days ago. I have never done anything like that before! Give them a try. I know you will be glad you did.	5	6/4/2014 10:42:10 PM

I can sleep again!	I was cautiously optimistic when I bought these. I have been having dreadful pain and tingling in lower legs and front of ankles, to the extent it was disturbing my sleep a lot. The vacsular doctor found no major problems with my leg/foot circulation but there is referred pain from knee and hip arthritis starting to set in. Happy to report that within 3-4 days of starting 2 caps daily I am having almost no pain and tingling at night! Can it be true there is finally something that ends this problem? LOVE it!!	5	5/15/2014 10:37:52 PM
No more leg cramps	I am a 56 yr old female and have suffered with awful leg cramps at night . Tried magnesium , extra fluids, etc. nothing worked consistently until these supplements. Unbelievable! I bought the largest bottle and did not reorder until the leg cramps returned within about one month from when I ran out. I am back on them and no more cramps. I will never stop taking them, I can now sleep all night without having to take hot baths at 3am for relief . It was torture ! GREAT PRODUCT ! Thank you , Susan	5	5/15/2014 8:44:41 PM

No more pain	About a week after I started taking this supplement the pain in my legs went away. I used to get pain in my legs down to my feet, no more! I noticed that if I don't take my supplement for a few days the pain does come back. I use other supplements from Andrew Lessen, always come back for more!	5	4/28/2014 12:07:53 PM

I began using it and my ankles went down immediately. I have now used this product for years and would not be without it. Thank you, Andrew.	5	4/26/2014 9:25:41 PM
Relief	These are so good. You can feel the difference. If I don't take them I feel pain and swelling on my shin. The doctor said it was circulation and the swelling was a vein, I started taking these pills and the pain and swelling went away and has not come back. My legs don't get the creepy crawlies at night, they are very relaxed. My husband now also takes them since he had the same problem with RLS. They do work.	5	4/26/2014 3:46:03 PM
leg & veing support/ rules as #1	Best leg & veign product me & wife have ever used!!! Ans now refuse to try any others!!! This is it, hands down #1!!!! On a scale of 1-10 it rates an easy 15-20 peroid.	5	4/26/2014 1:21:17 AM

I Am Sold!	I was suffering with swelling in my legs and ankles due to several health issues, including arthritis. I am on my feet most of the day as I am a teacher. By the end of the day, my ankles would be severely swollen and my ankles hurt so badly that I couldn't stand it. I often suffered from restless leg syndrome and found it difficult to sleep at night because of it. I started using Andrew's Circulation and Vein Support about two weeks ago, and I've already noticed a difference. I am experiencing much less swelling and pain. I don't have that twitchy feeling in my legs at night, and don't experience that intense pain I used to. It is soon in the process from what Andrew said (it usually takes a month to see full benefits), but if I am already seeing this much improvement, I am sold!	5	4/19/2014 9:51:35 AM
I will never be without these capsules!	I have circulation problems due to medication that I take. After taking these capsules, I no longer have problem..Also recommended to my neighbor, who is in her seventies, and has had problem for a long time. She took 2 pills and swears she will never be without them. Thank you, thank you Andrew!	5	4/19/2014 5:11:57 AM
HAPPY LEGS	I did not think that I would ever have relief from the pain in my legs. I truly was very skeptical in regards to these supplements. I take medication that makes my legs feel extra heavy and I am also overweight and the pain in my legs especially behind the knee area was so bad that I could hardly walk up a flight of steps. However after only 2 days and 4 pills the pain in my legs was nearly gone. After a week the pain was totally gone. Thank you so much Andrew you are the best. DON'T EVER STOP MAKING THESE.....	5	4/18/2014 2:01:29 PM
It Works!	I have used this product on and off for years and I can sure tell the difference when I haven't used it a while. It really helps my legs feel better. This time I bought the bigger bottle so I will not be without.	5	4/18/2014 1:57:22 PM

very grateful !	After two knee replacements a year ago, I was left with great knees , but terrible pain in my lower legs. Nothing helped, and i was faced with the fact that i would be in pain the rest of my life. Then i saw this product , and decided to try it, as a last resort. After one day , I can honestly say it worked! The swelling in my legs went down, the burning pain went away and i could walk my dogs without every step being in pain. I was shocked! So i began taking this , and every day i saw a little improvement over the day before. I can now walk 2 miles a day and I am so happy I tried it. It saved my life physically and mentally!	5	4/18/2014 3:42:40 AM
Finally Something That Works	Early results are good. I have seen a difference in just a week. I have a diabetes and I have been able to sleep without my legs burning. I am getting a good nights sleep for the first time in quite a while.Thank you Andrew	5	4/17/2014 10:19:22 PM
Can't do without this product!	Have been in retail for 24 years, including many years in management. Have been on my feet on cement floors for sometimes 16 hours at a time. Used to wake up during the night with unbelievably painful and prolonged leg cramps. Then I discovered Circulation and Vein Support. I have probably been using this product for at least twelve years. Tried doing without it once, and the repetitive cramping returned almost immediately. I will never allow myself to run out of this product again. Circulation and Vein Support and Urgent Energy are the two products that have helped me to run rings around people that I supervised who were young enough to be my children. Thank you Andrew for these wonderful products.	5	4/17/2014 3:39:52 PM
Big Help with Leg Cramps	This product has been very helpful with my occasional leg cramps - wouldn't be without it!	5	4/16/2014 1:11:28 PM
A Good Value	I will purchase these again. It's nice to have a pill that slides down easily as these capsules do.	5	4/16/2014 10:47:44 AM
This Works!	I placed one capsule each day in my Mom's pill minder box. She did not know she was taking Circulation-Vein Support. She took them for 2 months and then ran out. Within 2 days she mentioned her vein leg was really hurting. That's proof it works. I reordered the big bottle!	5	4/14/2014 2:43:52 AM
great	it works get it	5	4/13/2014 3:27:13 PM
Works	Keep it in my arsenal at all times, it just works really well and I notice the difference when I run out.	5	4/10/2014 4:27:03 PM
The best!!!!	Can't say enough about how great...and how effective this product is. Have suffered from varicose veins and the feeling of "heavy leg" syndrome since I gave birth-almost 50 years ago. The discomfort all disappeared since I started taking it about ten years ago. Can't imagine a day without the capsules. Thanks for this amazing product, Andrew!	5	4/8/2014 6:37:38 PM
Happy feet	To my surprise after about 3 weeks the pain I would feel in my feet has gone and my legs look better. Thank you Andrew	5	4/5/2014 2:22:29 PM
Best ever	I've purchased this product twice for my sister who works in a nursing home. She loves this product and can really tell the difference in her legs if she's been without it. Great product! Would recommend to everyone.	5	4/3/2014 6:08:37 PM
works great	I have a few foot and leg issues. And these capsules have helped me a lot. I always have them with me now.	5	4/1/2014 2:07:50 PM
Works for me	I use so many of Andrew's products but this is a favorite. I have had trouble with swollen feet and ankles for years following a surgery on my legs.Started using this product on a regular basis and am pleased to say the swelling is much less and I am more comfortable after a long day on my feet. Thanks Andrew!	5	3/31/2014 2:22:35 PM
Works as Advertised	Works as advertised. I have reordered it several times and I will continue to reorder.	5	3/31/2014 5:06:40 AM
Excellent Product!!	I was having major swelling and pain in my legs and feet, for more than 3 months, that medication was not helping. I decided to try Andrew's Circulation-Vein Support and my problem was resolved. I am no longer on medication and I will continue to take this product to make sure I never have that problem again. Thank you Andrew for this wonderful miraculous product!	5	3/26/2014 6:43:31 PM

Never stop using!	I used this product then stopped for about a year. Mistake. I had forgotten how good it is for swelling in my left ankle. I bought my mother some and told another friend about it. They both ordered large quantities before their first bottle ran out. Go Andrew!	5	3/25/2014 12:02:32 PM
Works great	I bought this for my mother because she was having so much pain in her feet that she could not sleep. She went to the doctor and he told her to wear wider shoes and soak her feet in epsom salt. She did, but to no avail. I called one morning and she was crying. I saw Andrew Lessmen's circulation and vein support vitamins, I figured why not. If it didn't work I could send it back or not order it again. My mother called raving that for the first time in months she had no pain. She continues to have no pain, one month later. She calls it a miracle. Her friend wants me to order for her. Did I mention my mother is 89 and her friend is 93. They are both in perfect health. I am not making medical claims I just wanted to share her story.	5	3/23/2014 3:20:48 PM
Wonderful - miracle	I have severe idiopathic edema & no one has been able to determine what the cause is. The edema becomes so pronounced that I cannot bend any of my joints (elbows, wrists, knee, ankles, etc.) making me a prisoner in my home. I thought I would give these a try as the high powered diuretics I had been given were starting to take a toll on my kidneys. The pills are a miracle. I only have to take 1/2 the amount of diuretics I have in the past. Many days I have no swelling whatsoever. My doctor has encouraged me to continue taking them, & I will. I certainly urge anyone in my condition to at least give them a try. I saw amazing result in just 10 days.	5	3/17/2014 8:29:03 PM
God sent for neuropathy in your legs	This is the second container. I am a diabetic with neuropathy in my legs and feet, they hurt so bad mostly at night and when I walk. The circulation vein support reduces the swelling, stops the throbbing pain and makes it easier for me to walk and do daily chores. I also take other vitamins, but this Circulation Vein Support is worth every penny you invest in this vitamin. Make sure you have enough on hand, because if you run out you will get the pain and discomfort back fast. This is much better than medications because this has no side effects and works like a miracle.	5	3/16/2014 9:23:46 PM

Using on and off.	When I start feeling my legs ache and it continues for a few days, especially in the middle of the night....I reach for the Circulation and Vein Support. There are times I look down and realize my ankles are swollen and this really helps, I would like to use it daily but at this age, you have to watch \$\$\$\$. I try to get the AL vitamins I like when they are on sale with free shipping..	5	3/1/2014 9:43:55 PM
A Miracle!	I have suffered with leg cramps my entire adult life. When I first tried CVSupport I thought it was a coincidence that my almost nightly cramps were relieved - then I ran out of the product and bingo the cramps were back. I will never be without again. The only negative is that they are expensive but I wait for Andrew to appear and take ad vantage of the sales and free shipping.	5	2/26/2014 8:39:24 PM
KEEPERS -- From a skeptics point of view	I used the Circulation Vein Support doubting it would work -- my legs and feet stay swollen to the point my feet swell in mounds over my shoes and my legs feel weak. Ultrasounds show there is little circulation. I continued with my normal regime of pain meds and anti-inflammatories and thought nothing of it until 5 days later when I realized I was walking normally up and down stairs. For years I have put my back against the wall and gone sideways down the stairs because of fear of falling and pain from pressure when I walk up and down stairs. I even went up and down the stairs a second time just to prove to myself it worked. Then I thought .. maybe it's just a good day. I continued the same for the next 2 days. I then forgot to take the supplements ... day 1 and 2 did not even realize I had forgotten them, then on day 3, I realized I was sliding with my back to the wall again just out of instinct in reaction to the pain and weakness ... THESE ARE KEEPERS! I'm back on them and b	5	2/23/2014 3:51:05 PM

My legs love this	My job requires standing for long periods. My legs used to hurt alot. My legs don't usually hurt now that I take circulation and vein support. I have been taking this supplement for several years now and do not want to ever be without it.	5	2/6/2014 8:13:43 PM
Surprised	I was skeptical and unsure about what results I was going to get with these. But everything else I was buying and trying wasn't helping my achy calves and swollen feet and ankles. These symptoms I experienced every long work day or even out grocery shopping. I couldn't get home quick enough to put my feet up. I take 2 capsules a day and all my pain and swelling has not returned! Unbelievable! I suffered for literally years. I can hardly believe these work. I'm amazed. Thank you Andrew!	5	2/6/2014 6:36:59 PM

Excellent results...	Being a Cancer survivor. I have Neuropathy in my hands and feet. One week on these capsules and the pins and needles are gone by more than half, the sticking and real jabbing pain is gone as well. My G-D, I can't believe something worked that isn't a Narcotic. My father-in-law sent them to me because he is a non believer and I bought them for him and sent them back to him to try out now. I hope they work for him, as they worker for me. Thank - you Andrew Lessman.	5	2/6/2014 3:15:59 PM
Another Great Product	I have circulation problems. Knee and leg swells daily. They are always swollen and they always hurt. It hurt to walk, especially up stairs. The Circulation-Vein support will be something I will take the rest of my life, or should I say as long as they work, and they have been working great. This is better than any prescription a doctor has every ordered. I've been suffering for decades, and this is the only thing that i have ever taken that actually works. There is no side effect - nothing but walking with a "PEP IN MY STEP" Thanks to Andrew's Circulation-Vein Support	5	2/6/2014 2:49:03 PM
Great!	This is a great product that really works for me. I have arthritis in my knees and, amazingly, this helps to alleviate the symptoms. I REALLY feel the difference when I run out.	5	2/6/2014 2:04:23 AM

The most important thing I take everyday	Since I have been on Circulation & Vein Support, my feet do not swell up and my shoe size has gone from an 8 1/2 W to a 7 1/2 W. I no longer suffer from the discomfort of swollen feet ever, even in the summer. This is a product I will use for the rest of my life.	5	2/5/2014 10:15:57 PM
Wouldn't be without C&V	Love Circulation and Vein Support. I have been taking this supplement for years and it truly helps if you are on your feet a lot. So worth the money especially when it is a TSV. Thank you	5	2/5/2014 2:16:53 PM

LESSON LEARNED THE HARD WAY...	Andrew, I've been taking several of your supplements for many years including the Circulation & Vein Support. I emptied a bottle of this maybe 3 months ago. Even though I had a full bottle, I forgot to add it to my daily supply. I started getting muscle cramps in both legs almost everyday and especially at night...Still didn't catch on that I wasn't taking them. Thank goodness for your TS email reminder! I checked my supply and realized the HUGE MISTAKE I had made and immediately began taking them again! I can't tell you how amazing this supplement is. No more muscle cramps and pain in my legs since I started taking them again!!! THANK YOU ANDREW FOR PRODUCTS THAT WORK... WHEN YOU TAKE THEM!	5	1/31/2014 3:10:37 PM
Diabetic leg issues	Wunderbar.as-a diabetic this keeps me moving before it was impossible to get through the day heard about this product in Germany. There it is under a prescription and highly used. good job Andrew.	5	1/31/2014 12:37:19 PM
Great Product	I bought this product because of the swelling in my legs from sitting at work and from being somewhat overweight. After a few weeks the circulation in my legs was improved and I have a lot less swelling. I would not do without this product.	5	1/31/2014 12:04:59 PM
These really work!	I used to wake up almost every night with leg cramps. That has stopped since taking two capsules a day. I can tell you they really DO work.	5	1/31/2014 11:32:37 AM
Another winner!	I totally trust Andrew and feel he has the best vitamins on earth! This is another that I take daily, due to having blood clot issues in my leg in the past. I haven't had any problems while on these vitamins...Thanks Andrew...Keep up the great work you do!	5	1/31/2014 11:03:14 AM
lables	None of your products have lables that can easily carried to a doctors office for them to look at the ingredients and amounts of each. Who wants to carried the large container.	5	1/31/2014 11:00:48 AM
Will NEVER be without	I have been using this product for 8 years. I am diabetic and I was losing blood flow and sensation in my lower legs and feet. I saw Andrew presenting this product and thought what do I have to lose? Within several months of use I could again feel cold and hot on my feet. I had lost sensation 5 years earlier and these wonderful capsules brought it back. The hair had also stopped growing half way down my lower leg due to poor circulation. After about 3-4 months of use I had to start shaving again. Thank you so much Andrew. This supplement works and I am living proof of that fact.	5	1/31/2014 10:59:31 AM
Unbelievable!	I must admit I was hesitant. I have not even taken this yet for a full week and have noticed a big difference. I have a bad vein in my leg that makes my leg red, it is diminishing. The swelling is almost non existent. Legs no longer ache. I do nails so I sit all day. This has made me smile in a very short time. I will re order!	5	1/31/2014 1:13:50 AM
Excellent Product	I have been taking this product for several years and as with all other AL products I take, feel my health is better for having them. I do take three capsules a day and with TS pricing was able to purchase enough to last a year which equates to a substantial savings.	5	1/30/2014 9:05:56 PM
These are the best!	I take these every day and can notice when I don't take or run out. Big fan of Andrew's!	5	1/30/2014 5:14:43 PM
What a relief	I was getting a heavy pressure feeling on my shins when laying in bed. This is gone! I was so worried. I'm also getting spider veins around my ankles. I used a cream on them that never helped but claimed it would. All my doctor said was "it will get worse and worse until your legs are brown"!!!!!! Well, this is already helping! They're lightening up. Thank you Andrew!	5	1/30/2014 3:56:44 PM
Necessity!!	Been using for over 10 years, and I wouldn't go a day without it.	5	1/30/2014 3:51:00 PM

Absolutely Amazing	For almost 3 years I have suffered with extremely painful charley horse cramps in my calves. I rarely had a full nights sleep. The doctor put me on a regime of Calcium, Magnesium and Potassium daily. That gets quite expensive but it was mostly working. The charley horse cramping in my legs got better but not gone. Now using Circulation & Vein Support, I am so happy to finally say, CHARLEY HORSES ARE GONE! I can now stop taking the 3 pill combo and take just this pill. It works so great I gave some to my co-worker to try for her tired legs. Another added benefit is I also had slightly swollen ankles from the potassium, but now I have ankles again. Amazing!	5	1/30/2014 12:05:14 PM
So far this seems to help	I ordered this to try as I use all of Andrews vitamins. So far this seems to be helping my legs. so , so far very good.	5	1/30/2014 11:07:36 AM

What a Difference	I didn't know how much a difference these made until I went a few days without them. My feet swelled and my legs felt heavy. Starting taking again and within days all that was gone. I won't be without these again which is why I bought 2 while they were the TS.	5	1/27/2014 1:39:50 PM
Swollen ankles & sore legs	I am on my feet on a dailey bases for 6-8 + hours a day and for years suffered from achy legs and swollen ankles. It was so bad regular shoes and dresses were not an options, I found myself using everything to help but could only cover up the problem. With the vein & leg support it has truly helped with not only the ache in my legs but the swelling is down and I really see a difference in a couple of weeks. I'm 67 and I Now know I don't ever want to be without this product again. !!!	5	1/27/2014 3:18:59 AM

Helps legs that feel thick and swollen	I walk 3 miles per day and sometimes my legs feel heavy in the afternoon. I purchased these and have noticed a difference. My mother also takes these. She was experiencing spasms in her feet and legs and she swears this helps. Give them a try. They can't hurt and will possibly give the results you need. They are simple to use. I empty the capsules in my shake each morning and there is no taste. Try this one!	5	1/24/2014 11:30:37 PM

This product works.	Great product, it takes just the slightest bit of edema from my ankles that would accumulate by the end of the day with out it. At 64 years old I believe it is important to feel good, stay in shape. This product works.	5	1/24/2014 3:31:27 PM
It truly works	We love this product simply because it works. We have used it for 8 years and that speaks volumes for a product. We will contine to use it and encourage others to do so. Give it a try and you won't try that other stuff on the market becaue you will have found just what you needed for those leg pains and aches.Thank you Andrew	5	1/24/2014 1:47:45 PM

good product	I walk the treadmill every day and my legs don't feel tired since I have been taking this product and they are not as swollen as they were befor I started this product	5	1/24/2014 3:37:08 AM

READ THIS IF YOU HAVE EDEMA	I have been taking this for 8 months or so not knowing if it really has been doing me any good but now I am a believer. Before taking this product I was diagnosed with edema and my feet would swell up to the point that they would barely bend them at ankle at the end of the day. I was told to wear compression socks all day but they are very uncomfortable and I can only take them for a couple of hours a night and only wear them when I am really bad which is (now) one night every week or two. I stopped taking the C & V for the last week and boy do I now know how much it helps me. My feet once again swelled up to the size of oranges. I am so glad I ordered more at the today's special. I will not stop taking it ever again. What was I thinking. OF COURSE IT HAS BEEN THE CIRCULATION AND VEIN SUPPORT KEEPING MY FEET FROM SWEELING. If you have been diagnosed with edema try this product. It helped me and it might help you too. the compression socks are great if you can wear them, but this produ	5	1/23/2014 7:05:29 PM
Wonderful vitamin!	I have taken this vitamin for more than 10 years and already submitted my story that while having my legs checked at the cardiology center, the technician remarked that I had very good leg circulation for my age (will be 80 soon). I told her I have taken this vitamn for more than 10 years and she said not to stop and she would mention the product to the doctor. I have recommended this to many peple over the years. Thanks, Andrew!	5	1/20/2014 2:38:50 PM
No more pain!	I suffer from neuropathy and have taken pharmaceuticals for some time. I remember way back when I first tried these and the swelling and pain where gone. I have gotten back on these and my feet and ankles no longer swell nor do i suffer painful nights trying to sleep.I am amazed! I HIGHLY recommend Circulation and Vein Support.	5	1/19/2014 6:35:05 PM
No More Cramps in my legs	I use to wake up in lots of pain from my cramps in my legs. I have tried quinine pills, but this product Circulation Vein Support really helps me. I bought the chondroitin to try that out for my knees and back. Glad to see this as a special. Good Product.Happy at 63,	5	1/19/2014 6:03:40 PM
Amazing product	I have 3 shots in my knee every 6 months,but they don't have a great success rate.Due to not having any cartilage in the knee it is very painful.So after reading the rave reviews I went for it.And I absolutely love it.I haven't had any discomfort in my knee since taking this product .I just ordered more so I don't run out.I even also ordered several other Andrew Lesserman products and I feel amazing .He is a God sent.	5	1/19/2014 5:33:37 AM
Better then anything prescribed by my doctor!	I'll have to take this product for the rest of my life. I have spine damage that causes leg spasms and cramps constantly. Since I went back on these about 2 months ago I have not had a single cramp! I had them everyday, mostly at night, and a constant knot in the back of my left calf that would not go away. The first week I could feel tingling in my calf and by the 5-6 day the knot left along with the nightly excruciating pain that came along with the spasms/cramps. I could not sleep because as soon as I bent my legs they would lock in cramps. This product has done more than any medication are prescribed supplement I have ever taken. Thank You Andrew for bringing your products to HSN and for the relief I have now when nothing else worked! For anyone that has never taken this product I am sure your doubting my comments. I did when I first read the other comments. I tried them and it was the best decision I have made for my health in a very long time.	5	1/19/2014 3:53:12 AM
OH WHAT A RELIEF IT IS !!!	Have used this product , intermittently, for several years. Just received the largest size available of the Circulation & Vein Support and after just a few days of being back on it...Oh my.. what a remarkable difference. All good ! If you would like to have less discomfort in your legs, and maybe even NO discomfort in your legs , then you need to try this. I will never be without this fabulous product again !!!	5	1/18/2014 3:41:53 PM

Relief of Numbness in Feet	Your product line is simply of incredible quality. I have ordered this product because of edema and numbness in my wife's ankles and feet. She no longer has numbness in her feet. When she stopped the product for a few days the numbness reoccurred. Thank you so much for the quality and integrity you bring to your products.	5	1/18/2014 2:51:49 AM
Will not be with out these...EVER!	First of all let me say I am a fan of all of Andrews supplements but when I discovered this product through one of his all day visits on HSN I did not hesitate to buy. I have suffered from swollen feet and ankles for years. Sometimes it is from the shoes I wear and being on my feet for an extended time and other times it's from salt intake and/or high blood pressure. I noticed a difference with this product within days of taking it. I was blown away with the results and am so happy! The big test for me was traveling. In the last 2 months I have been on a plane twice and experienced no swelling in my legs feet or ankles. I also wore a light compression trouser sock for the 1st time. I'm am convinced these supplements are the cure for my issues. I'm pleased to say that my ski boots fit so much better this year which is saying a lot! I'm sold on this product for life! I cannot wait to see the success I have when traveling overseas this year and being on a plane for 10 hours.	5	1/13/2014 6:42:20 PM
really works!	I work in a big box store so I am on my feet for 8 hours a day. My legs swell as a result. This is the second time I have purchased this product. It works! I was very skeptical but I thought I'd take a chance. It really helps. Thank you Andrew and HSN.	5	1/12/2014 12:28:46 PM
satisfied	I was waiting for this kind of miracle and thanks to you HSN I had the opportunity to solve my circulation and vein problem	5	1/10/2014 6:24:53 PM
Just BUY these!	I have lots of vein issues and heavy legs. I have been using these for 6 months. Within two months the heaviness in my legs, i.e. fluid retention, was so much better. Six months into it the circulation in my legs is so much better. The broken veins remain, but are not as prominent. I would not want to be without these. I'm 46 yrs. old, although I am not overweight now, I was heavy much of my life leading to the broken veins.	5	1/9/2014 5:21:49 PM
Help with leg cramps!!	I take these every single day. If I don't take I get leg cramps at night while sleeping. With many vitamins we don't really know if they are helping, with these I know right away!	5	1/8/2014 10:41:03 PM
Keeps legs & ankles from swelling	I received a small 60 capsule trial bottle in the sampler package at the end of last year. I just reordered in the largest 360 capsule size. I have problems with my ankles swelling, and I use these when I know that I will have to be on my feet for an extended period of time. When I take these, I can really tell a difference and my ankles do not swell. This product delivers what it promises and is well worth the cost. Thank you, Andrew.	5	1/2/2014 3:11:10 PM
Vain support	I received them on time I assume it's working for me. I'll just continue using them and see how the results are in the future. I haven't been using them long enough to tell a difference yet. I have uses end his other products and have been very happy with all of them.	5	1/1/2014 5:39:52 PM

2nd order... I love these.	Having Fibromyalgia, and haven fallen in 2008 damaging ankle and knee's I bought these a while back in a smaller order to try out. These really helped keep the swelling down in my leg. Course I've changed my diet quite a bit as well over the years but I do believe these have made a significant contribution to my well being. This time when they went on sale I bought the year supply on flex pay. Thank you for helping us with sales and flex pay options. Thank you Andrew for being such a caring person who goes beyond to make a quality product to help many of us who want to improve our quality of life. And be gluten, soy, wheat free... since recently incorporating that diet myself means a lot to me. Because of these changes, I've managed to go off pain meds and give my body some healing space. Thank you again.	5	12/10/2013 11:18:02 AM
Amazing	My a symptomatic neuropathy has been affecting me for almost three years. After just a few days taking the capsules, I now have the ability to bend my toes and feel them. I feel normal again! I have never written an endorsement but I had to after such wonderful results. Thank you so much for this product.	5	12/7/2013 7:16:45 AM
Great Supplement!	I have been using the Circulation and Vein Support for probably 5 years now, and I quit taking them for a few months and I could really tell that something was different, so I reordered them and hopefully will continue from now on to take them. It is a really good product, and I trust Andrew immensely with the quality of his supplements.	5	12/5/2013 10:43:53 PM

My superficial spider-veins are disappearing!	Andrew you are a genius! I really believe in you and your company, thank you. This supplement has done wonders for my legs. I am a nurse, on my feet all the time. I have varicose veins and multiple severe spider veins and they are fading, seriously, no lie! I've been taking this supplement for about 1.5 months now and it is a winner! Ladies if you have issues like me, get this product. You need it! Thanks Andrew!	5	11/6/2013 12:09:56 PM
It works!	I am 63 yrs old and have had jumpy tingly legs for at least 15 yrs. Was bothersome in evening reading or watching tv and when I went to bed. Since taking circulation-vein support my legs feel great! No more discomfort. I can even cross my legs again in the evening with no jumpy feeling. Funny how these symptoms only were an issue at night. Doctor wanted to give me a prescription. No thanks! Anyway give it a try if you feel like I did. Thanks Andrew!	5	11/2/2013 4:11:02 PM
Circulation and Vein!	What can I say my second order for husband!Tried other brands,like Andrews best!Well a trusted brand!	5	10/31/2013 5:25:33 PM
This Works	I was looking for something to provide vein support, so when I saw this on QVC and read all the reviews, I decided to give it a try. Just like other reviewers stated, I noticed results very quickly. After a few days, my legs felt more energized instead of painful and heavy. At night my legs used to be achy, and it was hard to fall asleep. Not any more. Now after two months, my veins are less noticeable as well. I will be ordering more.	5	10/31/2013 2:37:48 AM
NO LEG PAIN	I have to stand up in one spot for 8 and sometimes 12 hrs~so my legs feel much better since taking these & do not want to run out. So I take 2 daily and feel it when I do not take them. Thanks Andrew Your a Leg saver.	5	10/30/2013 6:08:57 PM
Recommended	has helped to decrease swelling in ankles & muscle cramps in legs - definitely recommend this product.	5	10/30/2013 3:19:05 PM
Wonderful	I purchased this for me in the beginning. Within 24 hours, all night leg cramps had disappeared. My mother began complaining of getting several cramps a night...sometimes in both legs. Gave her some of my pills to try and worked immediately. She will NOT be without these pills. On our second large bottle.	5	10/28/2013 4:19:42 AM

Won't be without it !!	Before I discovered Andrew and his wonderful line of "100% pure" supplements and in particular, Circulation & Vein, my legs were suffering. Veins were popped out and my legs were extremely restless and heavy feeling especially when I tried to fall asleep at night. In fact, It was a matter of a few days trying Circulation & Vein that I noticed an enormous, astounding difference, it was like a miracle taking place. So, no more veins showing and very relaxed legs allowing me peaceful nights of sleep, thanks to Andrews genius formulation. For this, there should be a 10 star selection. :o)	5	10/26/2013 11:24:36 PM
I have been taking this about 3 years	I love this vitamin formula. I have taken this for some time now and it works for many things but i have just recently noticed my hair getting a bit thicker and new hair growth where my hair had thinned quite a bit due to Thyroid condition and stress. I will always order this now from HSN. Had problems with ProCaps people being rude and overcharging so HSN is the place to order.	5	10/26/2013 1:03:35 PM
More Kick In My Steps,LOL!!!!	I have use this product for two years,I love it!!!!	5	10/25/2013 4:10:48 PM
Can't Live Pain Free, If Livin' is Without Diosmin	I don't know how or why this works so well, but Andrew does and he's right. When I run out, my legs get tired faster. When I take it, my energy seems boundless. I've had three Venus ablation procedures in both legs and I'm taking this now to keep my veins toned. I'm pain free in my legs and exercising again! Please don't ever stop making this product available to us! I'm so grateful.	5	10/24/2013 5:05:06 PM
Best vitamins	I have used these vitamins for several years and they work. Had to stop taking them for before my surgery and could not believe how sore my legs esp. ankles were. Thank you Andrew!	5	10/17/2013 1:25:00 PM
More than promised!!	Othis stuff has changed my life. I had started using a cane because of a lack of balance when walking. The recommended dosage did nothing, but when I doubled it and started taking four (4) capsules a day my balance problem seemed to be solved! I have recommended this product to everyone in my age group. Some have even tried it. I rate this product 10 stars; five start is not enough!	5	10/17/2013 12:12:04 PM

Circulation Vein Support	I thought I had purchased something that did not work. However after taking it about 3 weeks, it worked! My legs use to feel heavy and kind of hurt at times and also I noticed my veins being more noticeable. That has all gone away now and I can say that it works. I can hardly believe it myself. WONDERFUL PRODUCT	After my Spinal Fusion surgery, I was left with Neuropathy and little feeling in my feet. My legs and ankles looked deformed they were so swollen. My lower legs looked like a balloon that You had tied in three places. After taking the Circulation Vein Support for three to four weeks, my legs and ankles are no longer swollen and my Neuropathy is so much better and I have more feeling in my feet. Thank You so much Andrew. I will never be without this product.	5	10/7/2013 12:14:43 AM

Worked great	Worked great and helped dramatically with my leg pain. Stocking up as we speak! It does take a week or so to kick in and continues to help even more as time goes on. I noticed continued improvement over 2 months. Very satisifid as nothing else provided by my Doctor has helped. Go Andrew!	5	10/5/2013 6:05:12 PM

These are great	I've never tried Andrew's vitamins but as I watched his program and saw these I wondered if they might help my problem. I did order them and to my surprise the circulation in my lower legs, especially the right leg has started to feel much better. I will reorder these and hope they continue to provide what I am looking for. Apparently, from the reviews of all his products, he has great success and great products. Thank you for caring so much for people's needs.	5	9/30/2013 11:44:06 AM

Excellent	Love this along with all of Andrews products.	5	9/13/2013 9:19:51 PM
Really works	My husband an I both have night leg cramps and poor circulation, we have been taking two of these a day for several months and they are helping. Of course we are not doctors so you might want to check with your doctor first to make sure there is nothing serious wrong with you. THUMBS UP	5	9/12/2013 8:01:42 PM
Delivers as promised	I had not realized just how effective this product was in reducing swelling in my ankles & legs - until I ran out of it. After being without it for a few weeks, my feet, ankles & legs began swelling & my varicose veins looked very prominent. When I saw my doctor, he recommended trying support hose. Oh my, so uncomfortable & unsightly & not very effective! I re-ordered the Circulation & Vein Support & within a week, the swelling was noticeably improved. Even my shoes felt more comfortable! Within 3 weeks, my varicose veins were smaller & far less noticeable. I plan to never be without this product again.	5	9/12/2013 1:24:31 PM
Great	I bought just to see if they worked I also gave then to my husband he swears by them. We will continue to use them	5	9/10/2013 1:50:09 AM
Great product	Would not be without them. I buy the largest bottle for the best value.	5	9/9/2013 12:01:40 AM
Great Product	I had leg pain for the last few years. I started using this and it helped right away. While it didn't stop it completely using it means I will sleep without the pain waking me up! This is my third re-order. Great product Andrew.	5	9/5/2013 3:09:22 PM
Helping with foot pain	When I first started taking the vitamins I think I noticed the benefits. After a few days I know I was feeling the results. I have been almost pain free now for several weeks. At least try it and give it a chance. At the least you will still have some pain...and best the paid will go away like mine has. It is well worth the try.	5	9/4/2013 6:17:11 PM
Best Product Ever	I have been using this product for years now and never want to be without it. My legs and ankles used to ache terribly, to the point that I couldn't get a good nights sleep. I thought I would give this product a try and I have no pain anymore and I now get a good nights sleep. Thank you Andrew Lessman for your dedication and keeping people informed.	5	9/4/2013 2:46:14 PM
Excellent Product	My husband and I take these. There is a reason why one of the Host said she was wearing shorts again after taking this product - it really improves the look of the legs. Those itchy veins either go away or improved drastically enough for you to notice and feel the difference. We take it for health reasons - because it improves the blood circulation in the legs - and it shows and you feel it too. I used to have Heavy Leg Syndrome - my legs weren't heavy - they just felt heavy and heavier. This product took care of that too. We both sit a lot in our office jobs - and we know this product helps us maintain good healthy legs. Try it - you'll see and feel the difference. Recommend this for everyone. Easy to swallow capsules - no side effects.	5	9/1/2013 7:48:07 PM

Cannot function without this supplement!	Legs or arms falling asleep? Not anymore after finding this remedy! Feel SO much better! Thank you Andrew for affordable high quality products!	5	8/31/2013 6:34:53 PM
Great!	Finally I found a product that does what it is supposed to do! Just turned 69 years of age and have been noticing as I age my ankles aren't as trim as they once were. After one week of taking this Circulation and vein support pill I happened to glance down at my ankles and they looked like they did when I was in my twenties. All of the swelling I had been experiencing was gone. What a wonderful surprise! I have ordered my second bottle and will continue to use this product. Maybe it will help eliminate or slow the occurrence of spider veins. Thanks, Janet from Missouri.	5	8/30/2013 12:20:56 PM
Fantastic	I use this and my ankles don't swell at the end of the day! Wonderful product.	5	8/29/2013 11:35:25 PM
AMAZING!!!	I was hesitant to purchase because I have tried so many things. I started having issues in my late 20's. As I was diagnosed with Chronic Lyme Disease after 13yrs of being mis diagnosed. So I have lots of ongoing issues. My legs and knees hurt after standing or sitting for even a few hours. I was given support hose but don't like to wear in public :(Unless I am in jeans. I noticed a difference the very next day! OMG! The amazing thing is I had to have shoulder surgery last Oct and had re injured it 2 months later. Lots of complications. I noticed the pain in my shoulder is less as well. Not sure why but I am not complaining! I will be reordering! Will recommend to others as well. LOVE this product!	5	8/28/2013 4:33:59 PM
Life Saver	Been using these for about a year now and my legs feel great. Started it because I was having some swelling in my feet and ankles...solved the problem. My husband now uses them for leg cramps and helps hm but he still does get some cramps...a little help is better than nothing. Love all of Andrews products.	5	8/27/2013 7:43:02 PM
love love love	took about 2 weeks to feel the difference, but do they work. Had terrible pains for several years. My doctor said it was restless leg Gave me medication which didn't work. Two of these capsules in the morning and no pain or discomfort.	5	8/26/2013 11:29:55 PM
These Work	those funny feelings in my feet are gone now,blood is finally running again,been in several motorcycle crashes over the years by people in cages that don't see u even in the daylight,nerves in feet an legs were damaged,this product is a blessing thanks Andrew,wished i knew about these a long time ago,wouldn't had to suffer so. i will be reordering when the time comes.	5	8/25/2013 1:33:27 AM
So glad I found this!	This is a great product! I used to get swollen ankles all of the time. I would get them especially when riding in a car for long distances no matter what I did. I got these in the mail a day before a 6 hour car trip and I was amazed that my ankles did not swell on the way or the way back! I have been taking them ever since! Great product!!!!	5	8/24/2013 9:36:34 PM
legs	notice a difference when i do not use them	5	8/24/2013 6:01:14 PM
Awesome Product!	I have been buying these for years. I initially bought them thinking they could help with my tired legs but they did something totally unexpected! I was prone to night time leg cramps (Charlie horses) and I mean so painful I would cry. After taking these for just a month I stopped getting them completely! A while back I keep forgetting to reorder and was out for about 5 days. The night before they came I woke up with a major cramp in not one but in both legs and was up most of the night. I will NEVER be without these again...great product Andrew!	5	8/23/2013 10:00:29 PM

Circulation and Vein Support Really Work!	My husbands legs and feet had been swollen, after being sick for almost 11 months, with heart failure and high blood pressure. The doctor's prescriptions were not taking the swelling down. He stopped taking the prescription and I ordered these. After around a week we are seeing his feet finally returning to normal. I am finishing this review and ordering some more. I hope they work as well for everyone as they do for my husband!	5	8/23/2013 4:27:01 PM
If your legs hurt.....	I cannot do without this vitamin and I have tried. It stops my legs from feeling so heavy and helps with swelling in my legs and feet. I not only feel it in my legs but all over as good circulation is very important in the body. I highly recommend this vitamin for anyone with leg problems.	5	8/23/2013 2:51:42 PM
CIRCULATION	GREAT USE IT EVERY DAY	5	8/22/2013 11:12:47 PM
Hi Andrew	I have been using your Vein & Leg Support for several year's now, and it has helped my circulation a lot. Thank's for a good product. Shirley	5	8/22/2013 1:52:40 PM
Definitely helps me	I have had multiple injuries to my left leg and foot. Now, years after the last one, I still get swelling in my ankle that no doctor seems to be able to explain, let alone do anything about. I have no symptoms on the right, which rules out most health reasons for swollen ankles. This product has helped the problem. The swelling still occurs occasionally, but to much less of a degree. I also have some nerve damage in that leg that hurts off and on and it doesn't bother me at all when I am taking the supplement. When I have stopped taking it, both problems return. Thanks, Andrew!	5	8/20/2013 8:10:52 PM
Able to wear shorts again without embarassment!!!!	I've been taking this product for nearly a month now. I bruise easily & all I have to do is bump lightly against something & I know I'll have a bruise. I've had some doozies & I have no idea how I got them. Since I've been taking this product, the bruises fade faster & I don't seem to be getting them as often. I also have the bane of many a woman: cellulite on my upper front & back thighs. I've been exercising regularly on my Gazelle since February but the cellulite wasn't budging. Since I've been taking this product, there is a definite reduction in cellulite on both front & back of my thighs. For the first time in years, I am able to wear shorts or a short skirt without embarassment. Thank you for a great product, Andrew. If I've seen these type of results in a month, I can't wait to see the results after a longer period of time.	5	8/18/2013 6:20:00 PM
This really works!	I only use this product when I seem to get restless leg syndrome while lying in bed at night trying to go to sleep. As soon as I take 2 of these babies, my legs settle right down where I'm able to relax and go to sleep. Thank you again Andrew Lessman for another great healthy and effective product! We use many of your products and have never had a complaint yet. God bless you for all you do to help others!	5	8/13/2013 7:47:16 PM
so far so good	I have not used this product long enough to tell any difference yet, but am happy with all the other Lessman products I use so I do expect good results. I can say they do not upset my stomach at all.	5	8/13/2013 12:38:38 AM
Circulation and Vein support	I could tell a difference after the third day of using this product. I was half way through the bottle and got worried I would run out so I ordered another bottle. I love it! I am a 62 years old nurse working in the OR, which requires many hours of standing in the same place. Before i started this product, I noticed a little swelling in my ankles and a tired feeling in my legs. I wear support hose, but it isn't enough due to my age and the long periods of standing. I am very pleased to say I no longer have that tired feeling in my legs at the end of the day. Additionally, my veins don't look as bad as they did and the swelling is gone. I am very thankful for this product. I will continue to use it daily.	5	8/12/2013 11:58:19 PM
Vein & Circulation	Wow! What a difference. No more cramping. Lost 1 inch in calf size. Puffy ankles gone. Thanks for such a great product. Bought a bottle for a friend to try.	5	8/12/2013 1:21:48 PM

WOULD NOT BE WITHOUT!	I have reordered this product several times. I sometimes have swelling around my ankles in the evenings. I can tell a difference if I do not take this product. I purchased the smallest bottle to take with me when I travel and then I bought the big bottle to keep at home.	5	8/11/2013 8:39:07 PM
All better now	I want to share with all the readers and viewers , This product is amoung one of the great Vitamins i take made by Andrew Lessman and very pleased to pass the word on...I do have to say though you need to continue taking them for once you run out or what ever, you will notice the difference not sure the significants of it all but just try it, If you work on your feet and legs alot you will benifit from it.	5	8/11/2013 8:06:45 PM
Vitamins for vein support	When I opened the bottle I was surprised at how fresh the capsules smelled,I haven't had them or been able to use them long enough yet to see if they help but I have lots of circulation and vein issues,time will tell,if the products work as well as the freshness suggests they do I will be a repeat customer.	5	8/11/2013 2:54:12 PM
Works !	I have had restless leg syndrome for years . After taking this it stopped ! Amazed something worked so fast !	5	8/11/2013 2:36:33 PM
Wonderful!	I have a problem with pain & swelling in my feet and ankles and take two of these in the morning. I can tell the difference if I miss even one day. This has been a life changer for me. Thanks, Andrew.	5	8/11/2013 1:21:02 PM
GOOD RESULTS	THIS IS MY SECOND ORDER I LIKE THE RESULTS. CAROLYN	5	8/11/2013 11:34:48 AM
So far, so good.	This is a new product for me. I decided to give it a try at the end of this past school year because my legs were really tired and sore after long days on my feet. No more leg aches this summer and I am confident that my legs will also feel better when I start school again in a few weeks.	5	8/10/2013 7:46:10 PM
Doctor approved	Had check up and needed injection for shoulder. I bleed quickly and doctor wanted to know if I was taking blood thinners. I do not but I am taking vitamin that helps with veins in my legs to help keep clear from clogging. My doctor said to keep taking them as that was also working to help my blood flow for heart and all organs.	5	8/9/2013 6:38:38 PM
love my hair	the pills seem to help my hair, and seemed to have slowed down the hair loss I was having.	5	8/8/2013 10:32:39 PM
USE IT or lose it they say	You won't lose it with this wonderful combination of vitamins from Andrew Lessman! VEIN & LEG CIRCULATION is my lifesaver. I have used this over 15 years! Undiagnosed with Epstein Barr and barely able to attend work and nothing else for two years, they finally tested and showed acute stages. But I was already coming out of the acute stage. They didn't treat me so how? ANDREW LESSMANS VEIN & LEG CIRCULATION, and URGENT ENERGY! Won't go without them. I watch every chance I get when Andrews on, his knowledge of vitamins are beneficial and I learn something each time I listen in! Thanks Andrew!	5	8/8/2013 7:28:31 PM
Life changing!	I was skeptical about these, but I love Andrew's other products, so I decided to give them a try. I had constant aching and pain in my legs and feet after about an hour of normal daily activities (shopping, walking, cleaning, etc). These have helped tremendously! I may still occasionally get aches and pain in my legs, but it will be after a full day of activity and not just an hour or so! Thank you!	5	8/8/2013 7:26:55 PM
Great product	These have helped me so much as being a registered nurse for 31 years has taken it's toll. I won't be without them. Great product Andrew!	5	8/8/2013 5:27:47 PM
Makes my life easier!	I'm a hairdresser and my legs generally throb a bit when I sit down for any length of time. I just traveled and was sitting for 3 days with absolutely no throbbing. Thank you Andrew! I hope this will improve my chances of ever getting a blood clot, but in the meantime I'll feel better:)	5	8/7/2013 9:07:38 PM

NO MORE CANKLES!!!!	This product is fantastic. I have been taking a RX water for a while now to cut down on the swelling. They used to work, but recently, in the last few months, the swelling and pain has been unbearable. I saw Andrew on HSN and heard the reviews and thought, "what the heck!" I will try anything once. I just knew this wouldn't work. Boy was I wrong. In less than a week I have my ankle back! I can go back to wearing my shorts and carpis! Thanks Andrew! I knew I should have done auto ship! Arrgh!	5	8/5/2013 5:42:34 AM
Great	This product is fantastick. You feel the results right away. For the first time in many years I wake up and my legs are not swollen. Thank you.	5	8/2/2013 9:37:23 PM
manegirl	I wouldn't be without this product. It really helps with vericous vein pain. Without this product my legs feel heavy,tired and sore. Thank you Andrew.	5	8/2/2013 1:59:27 PM
amazing	I have had bad edema in my ankles for years. The docter has had me on lasik for a few years but it has barely helped. I started taking this pills and looked down at my ankles about a week later and I couldn't believe how skinny they looked!!!! Thanks Andrew	5	8/1/2013 9:52:12 PM
Magical Product	This product is unbelievable. I had run out and found that my legs had gotten to feel very sluggish, tired and made things very difficult to do. Now that I have been taking them again, and started actually taking 2 in the AM and 2 in the PM have found a BIG difference. Legs do not feel as sluggish and tired. I now know I cannot be without this product ever again. Thank you Andrew for making this great product and for being honest about the products. Very refreshing.	5	8/1/2013 9:35:29 PM
the Best	I HAVE BEEN TAKING THIS PRODUCT FOR MANY YEARS,BECAUSE IT'S THE BEST THERE IS.NO MORE LEG PAIN! TRY IT!	5	8/1/2013 2:00:33 PM
Works	My husband experiences cold feet and I thought that maybe this product would help him. He says it has. When he ran out of product, he noted the difference.	5	8/1/2013 9:25:45 AM
A Life Saver!	This product was ordered because my feet and ankles started to swell. Had not had this problem, except if I had to stand for long periods of time. I was blown away at how this actually solved this problem. My husband was having cramps and restless legs, and this has really him as well. We take a great deal of his other vitamins and love them. Listening to him, when on air....I love it. I'm a nurse, retired, and I still have learned a ton from this totally dedicated man. Thanks so much Andrew.	5	7/31/2013 11:13:17 PM
This product works so well -	I have actually attempted to write several reviews of just this one great product- but they all were too many characters beyond the 50 limit. This product works so well and so effectively and fast, I never would have believed it in my circumstances complicated by extensive Osteoarthritis. I believe I can still walk today because of how quickly it reduced a swelling I was starting to experience, reduced pain, and allowed rotation to return to my ankles. I doubt any supplement can make medical claims, but my personal experience really amazed and surpassed any expectations I imagined when I first ordered it hoping it might help with the recent major swelling I experienced.	5	7/30/2013 10:57:36 PM
Helps so much!!!	I will never be without these. 2 per day take away the ache & some mild swelling. I take several of Andrew's products & appreciate all he has created for us. Andrew has proven that 1 person can make a difference in the lives of many. Thanks for all the great products Andrew!!!	5	7/30/2013 7:40:54 PM

Leg 'tinglies' Be Gone!	As a 50 yof who works on her feet most of my 10-12 hr days, I wouldn't be without this product. I have to admit that I am rather terrible about taking supplements regularly, though; so I've now began storing mine in the bathroom so that I won't forget to take them as part of my morning routine. I now have a little supply of my most 'wouldn't live without' ProCaps supplements! CoQ, Omegas, Hair, Skin & Nails, Fibermucil, BreathAssure, and these Circulation & Vein Support for Healthy Legs... What a difference they have made in my life! Thank you, Andrew!	5	7/29/2013 2:16:05 PM
Awesome	I use almost every product Andrew sells and have experienced great results with everything. He provides quality products and the benefits are assured. Thank you Andrew	5	7/29/2013 11:52:51 AM
Reduces leg tiredness	I'm a female who trying excerise more and work as a high school teacher. At the end of the day my legs are tired, heavy and swollen. This product helps to eliminate these symptoms. It's one less excuse to skip excerise. I use several other products: women's complete, healthy hair skin and nails, and Andrew's favorites. If possible, please make women's health without soy. I'm allergic to soy and nuts.	5	7/28/2013 4:11:38 AM
No pain in my ankles	I had run out of this product and my ankles had started swelling up every time I stayed on my feet. It wasn't till the variety show that I realized that I didn't have that problem with the product. I am now more consistent with its use and I am finding I can be so much more active. I love Andrew's products. I am so much more informed and able to take care of my body and improve my life. Thanks so much for giving me a more active life.	5	7/27/2013 5:04:06 AM
No More Pain At Night	Thank you! My legs no longer hurt at night. My doctor wanted to prescribe meds for restless leg syndrome but I didn't think that was the problem so I decided to try something natural and it worked.	5	7/25/2013 7:26:21 PM
Great stuff!!	My legs were feeling tired and I had some of these capsules in my cupboard. I had forgotten about them and I suffered the consequences. I started taking them again and maybe it's my imagination (but I don't think so), on the first day I noticed a difference. My legs feel so much better now, I will not forget to take these anymore!! Thanks Andrew for this great product.	5	7/25/2013 4:34:06 PM
RELIEF!!	These vitamins are the best. I work in a very busy restaurant in Palm Desert. I have the heat and long hours on my feet against me. I use to get leg cramps in the middle of the night, not anymore. These vitamins have saved my legs! Andrew has saved me! I recommend these to anyone who works long hours on their feet.	5	7/25/2013 2:42:46 PM
Stop It and You Will be a Believer	I have been taking Andrew's vitamins ever since he came to HSN. Since my husband and I take almost everything he offers, it gets rather expensive on a retired budget. A few years ago, we decided that we would discontinue this product to bolster the budget. It only took a couple of weeks with the return of swollen ankles with heavy and achy legs to convince us that we NEEDED this one. Paula	5	7/24/2013 2:40:30 PM
Working for Me!	My ankles were swelling after work. I tried this before but never followed through with taking them consistently. I was getting more swelling recently especially in my left ankle. I'm 41 & could lose some weight also. I started taking 2 a Day for the past 2 weeks & notice I have very little swelling when I get home from work & take my shoes off. I absolutely LOVE Andrew's products! I use many of them with AMAZING results! I won't buy any other brand!!!!	5	7/24/2013 1:22:31 PM

Much better than expected!	When I first ordered this product, I was just expecting some relief from the awful pain in my legs. However, now all of the pain in my legs is gone along with all of my back pain.I feel 10 years younger. What a relief!	5	7/24/2013 1:04:12 PM
Wow	Never knew a vitamin could do so much good until I got the circulation and vein vitamin. It really helps the cramps in the legs and tinkling in my feet.. I just reordered and don't plan to ever be without this great vitamin. Thanks Andrew for caring .	5	7/24/2013 12:57:37 PM
Good Product	This is a wonderful product for leg vein support. Have been taking it for a few months and have noticed a good change,with how my legs have felt. I have varicose veins and I will continue to use this product. Also,Andrew Lessman's products are the best.	5	7/23/2013 3:25:32 AM
Finally relief!!!	I have week veins..swelling in my left leg..i was told to live with it, keep my feel up, compression socks etc..for a 34 mom it's not possible. I found this and it has changed my life. It takes about 80% of the swelling away and almost all the pain/discomfort. I noticed a difference the very first day!!!! I was shocked too. I love that this is all natural. I've told tons of people, even bought some for my mom, thank you!!!!	5	7/22/2013 3:01:54 PM
Fantastic	Just re-ordered! I broke some capillaries sitting on the floor for hours working on a hobby. This product cleated it up in 30 days, I also looked it up on the web and Diosmin may also treat hemorrhoids, cancer, colitis, diabetes.	5	7/22/2013 2:35:56 AM
Really it works!!	My legs, ankles, every bone in my feet, even my toes hurt so bad every evening. I've been having to double up on my pain pills and they didn't really help. I took a chance after seeing all the great reviews and I am in shock how much better I feel in just a few days. I've slept the last several night with NO Pain. I just feel like a new person. Seriously Healthy Legs worked a miracle on me. I'm going to invest in the large bottle today.	5	7/20/2013 6:04:10 PM
just fabulous!	A friend recommended these supplements to me as I was having tremendous pains in my legs and difficulty walking. I have been taking these for about one month now and I am amazed to see and feel the difference in my legs. I had started the beginning of diabetic neuropathy and even that has gotten better. I have started my husband on these as well.. and my sister.. because I am so impressed with the quality of these. I told my sister that these are now my "gold" and I will not go without them.. All I can say is WOW. Thank you so much for making such a wonderful product!	5	7/17/2013 11:55:29 AM
My desert island product !!	I have been using this product for about 4 years now. I started with restless leg syndrome at night and thought this might be a more natural way than to take medicine. To my surprise, within 2 weeks the symptoms reduced DRAMATICALLY !! I know you never made medical claims, but for me this works !!!	5	7/15/2013 2:10:13 AM
This works - it's life-changing!	Another Andrew Lessman product I won't be without! Just ordered another large size. This helps tremendously - I'm getting far less swelling, heaviness & ache in my lower legs. No competitors' similar products work nearly as well. I'm sure this must be good for overall circulatory health too. I definitely feel better & more energetic without the swelling & ache in my legs. This is truly life-changing!	5	7/14/2013 5:22:30 AM
IT works!	I have been using this product for over a year. I cannot live with out it. It truly was an instant miracle for me. I am over weight and stand on cement floor for about 9 hr a day. I am also starting to develop Veracious veins. Before taking this product my legs would be swollen heavy and my veins would burn and throb. After the first week taking this all problems got better! My vericious veins have shrunk and no longer stick out or hurt (I now have spider veins where the veracious vein use to be) . I really can tell when the difference when i am not taking them. I can really feel the difference in my circulation. A+ product.	5	7/13/2013 4:10:14 AM

Awesome! My favorite product!	I broke my ankle 10 years ago and have always had swelling. I'm 50 now and always on my feet during work, I have been taking these for a year now and what a difference. I notice my friends my age have swollen legs and Ankles, but not me ?? mine look like 20 year olds ??	5	7/12/2013 9:18:29 PM
Miracle	I suffered from varicose veins and I'm only 35. At times I could not sleep due to leg pains and swelling. Since starting this product almost a year ago it has become my miracle pill. I now sleep better and don't need to elevate my legs all the time in pillows to get relief. I can honestly say this product is worth every penny.	5	7/8/2013 4:32:06 AM
Sedentary Job....Take 2 a day	If you are like me and have a sedentary job, you need these vitamins. Since taking them, my legs feel a lot better and I even sleep better too. I take 2 of them and what a difference. It is a must have vitamin!!	5	6/30/2013 1:36:12 AM
Better Than Anything Else	I have been taking this for years now and saw a product recently advertised with almost the same ingredients made by another company. It was cheaper and I gave it a try. After a few weeks, the heaviness returned to my legs, they got swollen faster, and the aches and pains came back. I came back to HSN after trying that and ordered this again as soon as I could and within days my legs felt better again. I can't believe the difference, they were almost identical ingredients, but this is so far superior and gives better results that I could feel. Never gonna try another brand again, I'll stick with Andrew Lessman!	5	6/28/2013 7:46:13 PM
See Results	Why did I wait so long to try. Will be back for more when on sale.	5	6/27/2013 1:48:59 AM
Excellent	I am a woman close to 50 I have bad circulation in my legs I have medical stocking and I also do jazzercise, and after doing 2 classes my legs will start hurting and even without working out my legs would ache. I decide to try this vitamin after reading some of the review after I started taking these vitamins I feel a different my legs do not hurt as much of course when I take the vitamin regular. I truly believe these vitamins make different.	5	6/17/2013 5:53:44 PM
GREAT PRODUCT	Great product. Worth the investment.	5	6/17/2013 3:16:44 PM
Helps my RLS	This product helps my restless leg syndrome. It doesn't make it completely go away but it works well enough that I don't have to take an Rx and I can get to sleep with relatively little discomfort. I realize this product was not developed for RLS but it's certainly helping me and I will be taking it the rest of my life.	5	6/15/2013 6:47:55 PM
Can't do without!	Do not quit making these!! I had a sonogram on my legs done awhile back and the person doing it stated my deep veins looked really good. I have been taking these pills for at least three years because I have had circulation issues and severe varicose veins. These pills help me a lot!	5	6/8/2013 3:14:11 AM
Wow, why did I wait so long to try these!?	After I received my order, I let the bottle languish unused in my cupboard for weeks. Then a wicked pain in the back of my leg kept bothering me and caused me to search out the pills. After only a week that nagging pain has disappeared. I'm hoping that continued use will help with the constant edema (familial) around my ankles. Keeping my fingers crossed! . . . Like all of Andrew's products, delivers as promised!	5	6/7/2013 4:08:12 PM
Heaviness gone	When I first bought these supplements a few years ago I was experiencing heaviness and pain in my legs. Within a week of taking these capsules the heaviness and pain was gone. As long as I take these my legs feel great. If I forget to order the pain comes back in a couple of weeks. I will never be without again.	5	6/5/2013 8:48:42 PM

Wonderful Product	At one time I didnt think this product worked. I didn't notice a difference, and I quit taking them for a while. I watched HSN and Andrew and other customers talking about how great the product was, and decided to start taking what I had left. I didn't mention that I was borderline diabetic and at night my feet would get very cold and I had to sleep with socks on. In time, I noticed that my feet were feeling warmer, but did not make any connection. Then,when doing my weekly medications in the pill box, I looked at the Circulation pills, and made the connection. My feet were warmer because of the pills I was taking! Now, I take them every day and have ordered more. My feet sometimes get cold, but not anything like what they were before. And sometimes, they are not cold at all. I have a hard time believing that any product is a cure-all. But I do believe that this product will help with your circulation.	5	6/2/2013 12:07:29 PM
Excellent Product	Circulation and Vein Support for Legs helps me sleep well at night!. It keeps my feet and toes from cramping in the middle of the night, and I have to get up and walk it off! I am so thankful for Andrew Lessman's product and a good night's sleep!	5	5/29/2013 9:00:30 PM
I must be dreaming!	I cannot believe the immediate results I've gotten from this supplement. I'm on my 4th day and I actually felt the difference on day 1! Poor leg circulation runs in my family on Mom's side - so often at the end of the day or on hot days my legs would tend to feel slightly heavy or like elephant trunks (even though they don't look it :) a tired feeling--- Since I've started taking these, all that have disappeared!!!! My legs feel normal all day long. Energetic and not a puffy or jelly feeling. No swelling! I can't believe it!!! I will move to the jumbo and have this as part of my daily routine for the rest of my life. Can't wait to share with family! Thank you, Andrew Lessman!!!!	5	5/28/2013 6:23:45 PM
Never without!	Thank you for providing a product that improves my quality of life! No more aching from circulatory problems.	5	5/27/2013 5:21:25 PM
Would not ever be without	I am 60 years old and have been using this for many years and would not be without it. I have poor circulation in my ankles due to an accident. I bought this long ago figuring 'what have I got to lose'. To my surprise it immediately reduced the swelling and has controlled it ever since. And as another pleasant surprise I do feel it has helped me not develop any varicose veins, which run in the family.	5	5/27/2013 4:32:30 PM
The best vitamins for the last 30 years	I have been taking andrew Lessman vitamins ever since he started on HSN. Refuse to take any other kind. I like what he does.	5	5/24/2013 5:20:27 PM
Great product!	I had "restless leg syndrome" until I started taking these vitamins. It's been about two weeks and the restless feeling is gone. Thank goodness!	5	5/21/2013 6:54:17 AM
Can feel the improvement!	Typically when taking a supplement you don't feel improvement for quite some time, or just an overall healthier feeling. With these I notice improvement almost immediately in the legs achyness and less of the slight swelling when on my feet for lengthy periods. I can definitely notice a difference so this time I ordered the jumbo size so I won't run out.	5	5/20/2013 9:22:30 PM
Excellent product!!	After being on my feet all day I'm really tired when I get home.. Then I take two of the circulation n vein support and within hours my legs feel strong again!! Thank you for making this product!! Annie	5	5/20/2013 6:38:13 PM
Don't want to be without these	I had a vein on the back of my leg that had been getting darker and swollen and painful over several month period .I was about to go to a vein specialist for surgery when I saw these on tv.I was already taking other Andrew Lessman vitamins so I gave these a try...one week later ..vein and pain are gone!! I am on my feet all day and at 50 it really bothers my feet ..with these I hardly notice any pain anymore.	5	5/20/2013 2:56:54 PM

Try these!	The first couple of weeks my legs felt weird, so I knew something was working. It's been a month now and my legs don't get so fatigued from sitting in front of the computer all day. Great purchase for me! My sister has MS and legs are always heavy feeling. Waiting to hear her experience.	5	5/19/2013 5:31:07 AM
Wonderful Product	It really works and helps stop my ankles from swelling.	5	5/17/2013 4:51:06 PM
Definitely Recommend...	Use many Andrew Lessman products and am highly satisfied with each and every purchase.	5	5/15/2013 5:39:51 PM
Vein and leg is a wonderful product	I was amazed at how much this product helped me. My legs feel so much better and after the first week I ordered my second larger bottle. I won't be running out of this product. Thanks Andrew it sure does what you say. I also ordered your essential 1 when it was the TS since the vein and leg works so well. Thanks again????	5	5/15/2013 11:39:35 AM
So Happy I Ordered This Product!!	Peripheral vascular disease runs in my family and my mother lost a leg to this disease. I have been developing circulation problems in my legs and have had extreme pain in my legs at night and not sleeping because of it. I also have had swelling in my legs, feet and ankles along with numbness in my feet. After reading the wonderful reviews for these tablets I decided to try them. I have been taking them for 3 weeks now and the swelling has subsided and I am not having any pain in legs or numbness in my feet. I would recommend this product to anyone with circulation or vascular problems and I will NEVER quit taking these wonderful pills!! Thank you for this wonderful product and for improving my quality of life!!	5	5/14/2013 3:01:57 PM
excellent product	My hubby and I use Andrew's products and they work.	5	5/12/2013 11:28:29 AM

miracle capsules	<p>I've been an HSN customer since the late 80's. I've never ordered any vitamins from Andrew Lessman before, so in his last visit I decided that the circulation & vein support for healthy legs would be a good start.</p> <p>Oh my GOD! I felt the difference in my legs just after 3days of taking this supplement. Also the veins in my legs are smaller that they used to be, still you can see them but they are fading away.</p> <p>I am sorry I didn't order the biggest bottle that day. From now on these capsules will be part of my life.</p> <p>Thank you Andrew, I'll be waiting for your next visit.</p>	5	4/26/2013 8:57:10 PM
won't be without it.	<p>I've had poor circulation in my legs forever. Since I started taking this along with glucosamine my legs and knees are happy, happy. I won't be without it. Thank you Andrew for all the wonderful information on all your product. I learn something new everytime your on HSN. Linda W.</p>	5	4/26/2013 2:06:18 PM
Fabulous leg savers	<p>Between driving & standing as an on the road sales rep my legs are screaming. Andrew keeps me moving & can I just say I only use his products & have turned my friends on to them too. You won't regret it. Keep your gams healthy & strong.</p>	5	4/26/2013 12:34:13 PM
Andrew sure knows his stuff	<p>I was having trouble with my leg veins. The not only hurt but they were popping out and looked terrible. I knew I had to do something so I saw these on HSN and in less than a week they were at the door. After several days I reaised the pain was gone and the veins had gone down. Didn't want to take prescription chemicals so I am so relieved that Andrew knows the human body needs.</p> <p>Thanks again Andrew, Cheryl</p>	5	4/25/2013 3:05:31 AM
works for me	<p>I'm in sales, I stand all day this helps my legs feel less tired. Also good for driving long trips, over an hour. Bought the 360 amount & got to purchase the special with free shipping again. thanks.</p>	5	4/24/2013 3:23:04 PM
Legs feel better	<p>I can feel the difference when I don't take this early in the morning and later at night. I take two in the morning and two before I go to bed great product. I don't ever run out. Thanks for providing this product. Marilyn- las vegas</p>	5	4/24/2013 3:19:05 PM
Great Product, Must take it Everyday!	<p>I was skeptical about paying more for my vitamins, but Im a believer now. I experience heaviness and tiredness in my legs due to my high blood pressure. Side effect of high blood pressure is the heaviness in legs and feet, also water retention in them. Taking this makes it easier to walk and workout. However if I don't take it I notice it immediatly. I love this product. I got the 360 supply since I take only 1 pill a day and notice tremendous difference in taking it. Try it out. You want regret it.</p>	5	4/21/2013 3:11:50 PM
Excellent	<p>I love these ! I work retail and I am on my feet a lot. I can notice a great difference when I am taking these vitamins. My legs do not feel as tired or as heavy. I always try to never run out of them. Thank you so much for the excellent quality of your products. God bless you.</p>	5	4/15/2013 2:24:42 AM
Diabetic Neuropathy Symptom Relief	<p>I bought the 60 tablet bottle to start with and after about three weeks I noticed a difference in my legs. They don't get as tired during the day and my neuropathy is lessened..not completely gone, but definitely lessened. Nothing else has helped like this, so I have reordered another 90 days worth to see where it goes from here. Also, varicose vein symptoms have lessened and leg vein swelling as gone down substantially. So far I am very happy.</p>	5	4/14/2013 4:58:00 AM

A miracle pill!	This product is wonderful! I have always had a problem with swollen ankles and legs, but since I have gotten older, I have really suffered with the pain in my legs. However, after ordering this product, it worked within 24 hours. I take two tablets religiously every morning. I can finally wear my flats and sandals again. It has kept down the swelling and taken away the pain. I think it is well worth the money and will continue to purchase this product. Kudos, Andrew Lessman!	5	4/5/2013 4:08:55 PM

Another product that works	Over the holidays had a job with long hours and a lot of standing, carrying heavy boxes - would come home with feet and legs so sore and swollen, had to elevate them for hours. Within 5 days of taking this product - that issue ended. No more swelling or pain - no matter how many hours or how much lifting and carrying I did. If I don't take the product definitely notice the difference. Thank heavens for a product that really does what it says. I take the recommended dosage, do not seem to have any stomach issues, no headaches, and it does not seem to react with other medications am taking - which is a real plus. This product really, really made a difference.	5	3/20/2013 11:52:45 AM

Couldn't believe it!	My left lower leg and ankle has always been puffy at the end of the day; and I had trouble feeling the pedal pulse on that left foot. The Circulation and Vein Support has changed that, in just a few weeks of use. I will never be without this product again. It WORKS! Wonderful stuff!	5	2/18/2013 3:35:41 PM
Good product	I am 61 and on my feet 9 hours a day, for over 30 years. This product makes my legs/feet feel better.	5	2/12/2013 3:10:13 PM
I wish I had found this years ago!	I have been bothered by a shooting, painful sensation that emanates out of my toes and feet, as well as burning and restlessness in my legs. This made it very difficult for me to sleep at night. I ordered this circulation and vein support for healthy legs and started taking it a couple of weeks ago. In the first week, I noticed the sharp pains had stopped. The burning and restlessness in my legs had also stopped. I wondered if this had been a placebo effect until I noticed the skin on the soles of my feet (which had been thickening over the years) began to become soft and pliable again. My husband noticed this difference in the skin of my feet too, so I know it's not just in my head. This product is amazing, and I intend to keep taking it for the rest of my life.	5	2/10/2013 4:49:15 PM

Being consistant has its rewards	I have been using this product for almost a year now. It has addressed a couple of issues that I had. My feet and legs began to swell a little when traveling - that is now history. I had another issue that is now almost gone. Being consistant is the key to ongoing good results. I highly recommend this product.	5	2/9/2013 9:13:58 PM
This is a must have!	I have used this product and notice a big difference in how my legs feel. I have had previous leg/vein issues and although this is not a "cure" this has helped me tremendously. I am on my feet alot and as far as I'm concerned this is an essential in my cabinet.	5	2/8/2013 4:58:14 PM
My favorite Andrew product	I have been using this product for years. My left ankle is shot -I have sprained it too many times to count. This actually reduces the swelling that is always there. Will not be without this.	5	2/4/2013 7:19:39 PM
MY LEGS LOVE THIS PRODUCT!!!!	GREAT IS ALL I CAN SAY !!!!!	5	2/3/2013 4:29:10 PM
New Legs	You will feel a difference within a few days. Your legs will feel stronger. I have veins on the shin of my left leg that get painful and I have to put ice on them, but when I take these vitamins, my leg doesn't hurt and there is no bump there. Yes, I've tried going without because of the expense, but after a while I break down and order them. I take 3 a day for about a week and then go to 2 a day. I know it is difficult when you are on a fixed income, but I do without something else so I can order these.	5	2/2/2013 7:59:16 PM
Excellent product	I have been taking the Circulation and Vein Support for years now, and I love it. It works very well for me; I can really tell the difference when I run out and have to wait for more to arrive. Curiously, what it seems to help the most is my bad knees! On days when they're really acting up, I take 3 or 4 instead of 2, and problem solved.	5	2/1/2013 1:40:13 PM
swollen ankles	the swollen ankles have went down dramatically. time will tell if i reorder them. i like what i have seen so far	5	1/25/2013 5:28:48 PM
AWESOME Product	I have fibromyalgia and have had restless legs for years and I have been taking a prescription medication for it. I also have a lot of swelling in my legs and ankles. When I started taking this product I stopped taking the prescription medication and about the 4th day they were not as bad, then about the 6th day no swelling. I am here today to order more because since I ran out my ankles, feet and legs are swollen and they hurt all the time. This supplement really works.	5	1/17/2013 10:13:33 PM

In 2007 I took a fall due to complications from polio, that has left me unable to stand or walk.After 6 mos,my feet started turning blue, within 2 weeks of taking this, the blue started fading, within a month it was gone! In 2010 I went off of it for 2mos due to antibiotics requiring no other meds, the blue came back, I went back on them and have not had a problem since! Will not be without these, they really do help.	5	11/27/2012 4:27:15 PM

Best in category!!!	I was in dire straights with leg pain several years ago. I was watching Andrew on HSN when I saw this come up. I listened for a while and then ordered with the thought I could return it if it doesn't do anything like many other products I had tried. Well, in no time at all, the pain was lessening and I was able to be comfortable sitting or standing. It lessened cramps and spider veins and I just felt better overall! thanks, Andrew! - another product that does what you say it's going to do.	5	11/5/2012 7:15:36 PM

This product has miraculously taken that swelling down so that I am able to wear my shoes comfortably again. This is an excellent product that I wish I would have known about years ago. More Uses For This Product	These capsules are fabulous! I have found that they help the circulation in your entire body, not just your legs. They have even helped to ward off headaches. The instructions say to take 2 capsules, but I usually double it, and have never suffered any ill effects.	5	10/25/2012 3:04:17 AM
Could not believe the results.	I started this about six months ago. I am a nurse and on my feet a lot. I have a varicose I have had since I was a teenager. If someone would have given me two of these capsules and told me by taking them my vein would feel and look better, I would have laughed at them. I thought "well I have 30 days to return them." Not only did they not go back, I will NEVER be without these caps. Thank you for making it possible for me to work without the pain and itching in my leg. Shelly	5	10/25/2012 2:11:59 AM

Awesome! Legs like new.	No more periodic limb movements! Have been taking for about 4 months, but noticed the change within a week. AD would be nice for Hair, skin and Nails also, which I also take 3 of every day. These work, period	This is not like a pain killer or anything but this natural product works. I am a restaurant manager who works 8 to 12 hours on my feet the entire time. My father works in a factory and is on his feet for the same lengths of time, he was coming into my room and stealing mine because he noticed such a difference. Buy vitamins from Andrew- the pure quality of the vitamins is highly noticable compared to store brands, NO question.	5	8/6/2012 4:23:34 PM

A supplement I'll never be without..	As I've aged, the circulation in my legs has been a problem so one day when listening to Andrew review the product, I decided to give it a try. After a month, I could really tell a difference. At times, I've thought that I might not need it any longer but when I stop using it, the old aching and swelling return.	5	8/3/2012 2:12:11 PM

Amazing	My husband has poor leg circulation due to his diabetes and the fact that he stands on his feet 10 hours a day. After the first day of taking the supplement he noticed that his legs were not as achy. Now it's been five days and even the discoloration in his legs is going away. Thank you Andrew.	5	8/2/2012 1:27:15 PM

Vein Support	my 52 year old legs feel better than they have in a long time. I work 12 hour shifts and 99% of the time I am on my feet. I would go home with aching legs and feet. Now they still ache a little but so much less than before. Thank you Andrew!	5	8/1/2012 8:52:21 PM
Will not go without it again!	Had to stop these vitamins for awhile due to other health issues and my legs became painful, red, and swollen. Now under the treatment of my doctor, with antibiotics and antibiotic ivs. Can't say for sure that this would not have happened otherwise, but can say for sure that this never happened while taking the leg vitamins. I will not go without the vitamins again. I am a teacher, on my feet all day and in my sixties. I will not have another painful summer like this again. Great vitamins.	5	8/1/2012 10:37:54 AM
What a difference!	I've been taking Circulation and Vein Support for just a couple of weeks, and I already notice a difference. I stand on concrete floors all day at work, and my feet and ankles swell especially in the warm weather. There is already an improvement with that problem. I also get leg cramps and pain when I'm trying to sleep, and I've noticed a big improvement already! Thanks to Andrew for another winner!	5	7/31/2012 11:58:10 PM

Feeling great	I heard Andrew speak and said those systems sounds familiar. I tried it, and noticed, that my feet at the end of the day were not hot and heavy. My legs felt normal, not heavy. I bought the small supply, next order will be the large bottle. Love It Thanks	5	7/28/2012 9:48:12 PM

Useful For More Than Stated	Thses are famtastic and actually aid circulation in all body areas, not just the legs. Have even found them helpful in warding off migraine headaches, something that I'd never seen mentioned before. I always order more even when I don't need them as I don't want to run out of them--ever!	5	7/28/2012 6:47:10 PM
Always found excellent quality	It is too soon to tell for me on these supplements but my ankles have only recently began to swell. And then not retreat! So I am trying something from Andrew before I do really suffer from circulation problems. I have used both the multivitamins and the Calcium supplements, bought on special over a year ago, refilled and found them to be tremendous values. I thought I would find the same quality in another product and have no doubt it will help.	5	7/28/2012 11:21:49 AM
Leg Cramps have lessened	My husband would get leg cramps sometimes severe. They have subsided substantially after taking this product. when we run out he can tell. Wonderful products	5	7/27/2012 10:27:53 PM

Healthy legs	I've been having trouble with my v. veins in my legs. I had trouble sleeping because my veins felt like they were tied in knots. Andrew Leeman supplements really helped the pressure in my legs.	5	7/26/2012 3:35:31 PM
I love Andrew's products	I take approximately 12 of Andrew's supplements. I ran out of the C&VS and took as soon as the order arrived. I take 2 per day and noticed immediately that I don't feel that tightness in my legs, especially when sleeping. I don't know how to explain it, but I do know I will not be without this supplement. Thank you Andrew for producing products that work and help people live productively day to day.	5	7/26/2012 5:27:08 AM
Feeling better than ever for a long time!	Started taking these over several months ago and after years of pain I am able to walk more and enjoy life. I plan on buying other vitamins to help in living a long life with being able to walk better. Thanks Andrew!	5	7/25/2012 6:36:48 PM
Really helpful for these tired old legs	I have been taking these for about two years and they make a big difference at the end of long days of walking on cement floors. NICE!!! Jim	5	7/25/2012 12:26:18 PM
THIS NURSE'S DREAM COME TRUE	Since I started taking these supplements, Ive noticed I can still see my veins in my feet and lower legs at the end of day! Im amazed. I am a runner and still suffered from occasional lower leg edema due to my long work hours, however, these supplements have made a TREMENDOUS difference. I appreciate the quality of AL products and the education provided! thank you AL and HSN! :	5	7/23/2012 1:47:02 AM
Forgot I took the Night before...No Pain In Morn	I am amazed by this product. Every morning I wake up and I have to rub my legs to get them going, because they hurt. Well, I got this product and took it the first night, went about my evening. Next morning I woke up and my legs didn't hurt. I couldn't figure out what I did different, but then I remembered I took the pills. I have taken them every night at the same time since, and I have not had any pain waking up in the mornings and they feel great. Like I can actually run for the first time!	5	7/22/2012 5:39:31 PM

Truly works, The Best for leg circulation problems	Really helps legs and I did not realize how very much till I had to stop it for several months due to other medical problems. My legs and feet are once again red, swollen and painful. Started taking them this morning and just ordered another bottle. I will NEVER stop taking them again. So be patient while you are on them, because they are working, you just don't realize how very much until you stop them. Thank you Andrew. This is a very effective product.	5	7/20/2012 10:34:42 AM
ANOTHER LESSMAN HIT - IT WORKS!	It works. I love it. I use it regularly. I definitely notice the difference on swollen ankles from sitting all day at work. While ordering many other Lessman products this weekend, I found myself "selling" this product to the customer service rep!	5	7/17/2012 3:17:04 PM
michigan here	This replaced andy need for Ansaid's or pain Rx. My aching legs and knee is gone since I started taking this. It has helped me and I am in awe. Thanks	5	7/17/2012 3:04:18 AM
Changed my legs	It really works and have been using for over 19 months. It may take a bottle of 180 or 2 but keeeeeep going!!! Even my UCSF doc is using at these for her legs!!!	5	7/16/2012 5:28:39 AM
Would NEVER be without these!	Andrew's Healthy Legs vitamins are a life saver for me. I used to get horrible leg cramps, and since starting to take these over 5 years ago, I have had almost no cramps. In addition, I notice that the veins on my legs, which didn't always look great, are so much less noticeable than they used to be. A few of my friends have even commented on how much better my legs look. I am a loyal user and have bought bottles of these for other family members and friends because I think they are so good.	5	7/15/2012 11:23:20 AM
Not my imagination	With 6 year old Bi-Lateral knee replacements that make the nerves and muscles pinch and the nerves squirm that wake me up in the night and are sometimes annoying during the day I was willing to try anything. I am on my 3rd lg bottle now and tried at least a month in between without it. Never again. All is quiet and peaceful with my legs when I have the circulation and vein support capsules. I am the ultimate skeptic. This product made me a believer. Thanks Andrew.	5	7/11/2012 1:43:12 PM
great checkup	after being on these pills, my husband's checkup with his vascular surgeon went great. The ultra sound showed improvement in circulation. This is the only change he made between appointments.	5	7/11/2012 1:34:49 PM
Great product	I truly believe this product works very well. I didn't take it for about a week and got a tight crampy feeling in my legs, went back to taking it and that feeling went away. I will take it from now on.	5	7/1/2012 1:54:54 PM
Love These	I have used these circulation and vein support pills for several months now. Before using these, when I would go to bed my legs would ache so bad. Nothing seemed to help until I tried these....I won't be without these again. Kathy	5	6/27/2012 9:44:42 PM

Nothing like it--Circulation & Vein Support	I have been taking the Andrew Lessman Circulation and Vein Support for Healthy Legs for a few years now. All I can say is that there is no product in the market now like this product. It really works. If you have any concerns as a first-time buyer, have no worries. Try this product and your body will tell you it's a great choice.	5	6/22/2012 8:21:08 PM
Feeling better.....maggie, NE	Ordering again. My legs are feeling better. No aches or tired feeling.	5	6/21/2012 3:39:32 AM

best vein support ever	the doctor said the circulation in my husbands legs is great. he told the doctor what he was taking the doctor told him to continue.	5	6/16/2012 6:30:41 PM
Won't be without it ever again!	I didn't realize how well this product worked until I ran out of it and my legs started feeling tired and achy. I sit at a computer all day, so circulation is an issue, and I feel this product helps in that regard, as well as helping with the aches of a sedentary job.	5	6/14/2012 12:49:51 PM
excellent	I no longer suffer from leg cramps during the night. Thank you so much, Andrew.	5	6/7/2012 4:11:52 PM
This leg support supplement is good	but it took longer to work than the others. Now that it is working, I can't be without it. Patience is a virtue & I am glad that my bible reminded me of that because had I been impatient like I can be at times, I would not have experienced this great benefit that takes that awful heaviness out of my legs, knees & feet.	5	6/4/2012 11:28:22 PM
A Necessity	These help me so much with my legs. I have painful varicose veins, swelling & itching. When I don't have any, there is a definite difference. I have been taking them for almost 2 years and they are great.	5	6/4/2012 3:24:52 PM

New Legs	My wife had problems with pains in her legs and after one week of taking these remedies she is a new woman.	5	5/30/2012 3:02:57 AM
Life Changing	I bought this product not for my legs but for the fact that any product that improves circulation is going to do that throughout the body. I researched and found that ingredients were also used to stop progressions of brain diseases like dementia. I have felt my thinking getting slow. I don't eat meat and don't cook so I knew I needed to round out my intake of vitamins. I see a huge difference! I use several supplements so I can't say which is responsible but I am much sharper mentally.	5	5/29/2012 5:55:20 AM
The heavy feeling hasnt been back yet DAY 14	Had a spell of really awful leg weight, just felt like lead. Not a feeling I have often, but decided I would give my legs more attention earlier rather than later. Started these and they appear to be helping, they feel better, I am going to stay on, I have a good feeling about his products...and I started the Essential One too.	5	5/27/2012 5:27:23 AM
Andrew Lessman's Circ&Vein Support 4 Healty Legs	I am so so glad I ordered! My leg/knee are Normal size again Also, I have noticed the Pain is subsiding everyday! I can walk a lot easier too! Thank You so Very much, Andrew Lessman for my Miracle!	5	5/26/2012 6:41:08 PM

what a great product	Have been using many of Andrews products for a long time. As most of them are, this one is also a great product. The only thing is with the free shipping it has been longer and longer to receive my products, this one shipped on 5/18, and it is now the 25th and I have not yet received it. If it was the first time I ordered it I could not yet write a review. Sometimes I feel harassed about writing a review as I don't always use what I order as soon as I receive it.	5	5/25/2012 11:07:21 PM
LUV It!	I love all of Andrew's products. This man truly cares about the products and being on top of the game for formulations so each product gives us the best of the best. Keep it up Andrew!	5	5/25/2012 1:59:45 PM
Best product out there!	I have relied on this product for many years to quell the discomfort & swelling in my feet & legs. The swelling was so bad, my Dr. thought I had gout turned out I didn't, but the swelling remains unexplained. If I run out of this product, I'm miserable unable at times to even get shoes on my feet! Forever grateful to Andrew, for developing such an awesome product that helps so many people.	5	5/20/2012 10:31:14 PM
These vitamins work	I started taking these vitamins a few years ago when I heard say on air that they are good for spider veins, that come from heat. I was getting spider veins from the ankles up, but from taking these vitamins, the veins have stopped, They make your legs and feet feel light, no swelling, and I can really tell the difference when I don't have them I recommend them highly to everyone.	5	5/19/2012 11:14:12 PM
Great product!	I love this Circulation & Vein Support. I notice legs are not as heavy and the color in my legs is much better.	5	5/18/2012 11:54:46 PM
thank you thank you	the leg and vein capsules has given my husband's achy legs new life. Ever since i have known him 33yrs he has had dark discoloration in his lower legs. I am 61, and for 31 years I have had a job where I am on my feet 8 to 10 hours a day. Thank you for this product Andrew. I will be back for more soon.	5	5/10/2012 4:33:46 PM

Very Impressed	I'm an RN with severe leg swelling after double knee replacement last year. I started Circulation and Vein Support a month ago and have a significant decrease in heaviness and swelling in my legs. I am very cautious about taking any supplements. Safety, purity, efficacy, and standardization are all very important. I trust Andrew Lessman to provide quality education and products. Thank you Andrew Lessman for being environmentally and socially conscientious.	5	5/7/2012 1:06:41 AM
So glad I rediscovered this product!! Y Berry NC	I suffered with swelling in my left foot and ankle. This is a great product, wish I could invest in it...	5	5/6/2012 6:40:20 PM
Best thing in life	I am a 38 year old male, and I have had a blood clot in my right leg for many years and I am on coumadin since discovering it. I am supposed to wear compression stockings to help my circulation. I never liked them and now I can work longer do things with my children and I don't have to wear my stockings. The best thing anybody could make naturally. Thank you Andrew	5	5/6/2012 2:40:30 PM

BEST EVER - BUY IY NOW!!	I LOVE this product! Do you have aching legs and feet?? Or feel "pressure" in your feet or legs?? Well I did and the doctor did not detect anything wrong and tried to tell me about the "aging process" and I am NOT buying that I am not 20 anymore but no near retirement either!. Since I have been taking circulation and vein support my leg is improved greatly. My job requires me to stand in one spot and this is a welcome to a pain free work day. I give it higher than five stars. Thank you Stephanie, Minnesota	5	4/28/2012 1:38:14 PM
Hoping....	I received this for my husband who has had leg issues. Since it is too early to tell if there is any change, I will hopefully update at a later time. Normally I feel giving any product a few weeks is what determines if any product is going to be helpful. However, all Andrews products have been a success at our house. That's why I chose this product over others.	5	4/26/2012 8:53:05 PM
Good results for pains in legs	I have had pains in my legs & feet for a couple of medical reasons but since I have been taking this product I have noticed a big improvement. I've taken Andrew Lessman's products for many years and never been disappointed in the results I got.	5	4/26/2012 12:26:34 PM

These work!!!	Love these. Got such relief!! My legs were hurting to the point it was hard to get up from a seated position. I'm only 47 and average weight, I'm too young to be having pain and swelling. I cannot believe how much better I feel. Try it- what have you got to loose. I would not be without and can sure tell the difference when I did run out. I also take the glucosimine and the chondrotin. But felt the biggest difference when I started taking these. Wished his products were more affordable though.	5	4/10/2012 6:40:38 AM
These pills work ... they do	Wish to give 10 stars. Purchased these capsules for my mom, my husband and myself. Very pleased. NO MORE cramps on my legs at night. We feel our legs lighter, NO MORE swelling on the legs and ankles. Waiting for Andrew's appearance on air this coming 4/14-15 & 4/21-22. I want to buy more Circulation and Vein Support capsules. NEVER want to be without them.	5	4/9/2012 9:28:58 PM
Works for RLS	I have moderate RLS and although my doctor wanted to put me on medication for it, I really didn't want another prescription. I tried Andrew Lessman's product and after 2 weeks I noticed a big difference. While I still had an occasional "twinge" with my RLS, I NEVER had to get up at night and walk around because I couldn't keep my legs still! My husband is very thankful I have found this product!!!!	5	3/31/2012 5:32:54 PM
Excellent results	I had been taking this for a while without thinking much about what it might be doing. I went on a five-day vacation and forgot to pack it. When I got home my legs and feet were swollen. After two days back on the supplements and I was nearly normal again. Rarely does a product of this type deliver so well and so evidently.	5	3/26/2012 6:01:43 AM
Circulation & Vein Support	OMG!! OMG!! This was truly one of the most satisfying products from any shopping network I have ever ordered/used. Within 4-6 days ALL my swelling in my legs & hands/fingers was gone. I can now wear my rings again. I went to "health" store to look for the same type product & though they did have a circulatory type supplement it did not have the 600MG diosmin in it as does the one from Andrew Lessman. This being the main ingredient I immediately went home & ordered from HSN. So So pleased.	5	3/25/2012 11:01:47 PM
migraine girl	When I tried this product, I want to take it because I am always on my feet a lot at work. But after days of taking it, I noticed that I haven't been getting headaches and back pain at the same time. When I ran out though, I waited until I ordered my refill bottle. And what a big mistake, I started getting headaches again! So I was really excited when I got my next order. Not sure what the connection is exactly with the whole circulatory system but I am trilled my headache is lessened.	5	3/25/2012 5:01:38 AM

Amazing!	I purchased these simply because varicose and spider veins run in our family so wanted to do whatever I could to minimize these. However, I found something else after I had been taking these for awhile. I would wake up several times a month during the night with severe charlie horses in my calves...so severe I would end up in tears before they finally subsided. I've been taking these supplements for 8 months and have not had even one charlie horse in the past 7 months!! They are just amazing!	5	3/23/2012 6:43:16 PM
Working Great	This product has made a noticeable difference for me with feet that tend to swell, when I eat some foods or water retention so I recommended it to my husband, when his feet started to get cold, due to poor circulation as a problem with his type 2 Diabetes. So he has tried it, and can definitely tell when he forgets! So now, we both use this product, and couldn't be happier!	5	3/17/2012 3:47:04 AM
GOODBYE SWELLING IN FEET.	I had serious trouble with swelling in my feet. While I could temporarily relieve the problem by elevating my legs, wiggling my toes, etc., there seemed to be no permanent fix. The next day, despite some brief relief, the issue would be back. These vitamins are an absolute God-send. I'm a pretty cranky consumer, demanding high standards and high performance. And I am telling you, I wish I could give these vitamins 200 stars ... that's how absolutely incredible they are. HIGHLY RECOMMENDED	5	3/15/2012 8:36:28 PM
A. Lessman Circulation and Vein for Healthy Legs	I tried it the first time and noticed a difference the way my legs looked. But I thought it was just my imagination. So I let my bottle run out just to see. And yes it does work for me and I promise myself never to let this wonderful product run out. Thank you Mr. Lessman for coming up with this kind of products and my legs thanks you too. Thank you again HSN for making everything you sell so affordable for all of us.	5	3/10/2012 5:31:15 PM
Best product!	I stand and walk a lot at work so my ankles would swell plus I eat salt...I won't lie, but this product helps me keep skinny ankles and I swear it has helped the veins in my calves to become less inflamed and noticeable.	5	3/6/2012 8:33:52 PM
Really Works	my husband has had aches, tiredness and swelling of his legs. He has been on this product for a month and has seen a great difference. He now can do the stairs without difficulty .Thanks, Andrew	5	3/3/2012 4:39:57 PM
No More Cankles	I started taking this regularly once one of my ankles started to swell at the end of the day. I work in a physician's office, sitting most of the day unfortunately, and at day's end my left ankle would swell. I had taken this product before but not religiously and stopped. Once I saw this with my ankle I started again and after just a couple of days noticed such a huge difference. Needless to say I will continue taking every day along with all my other Andrew Lessman supplements. Thanks so much	5	3/3/2012 3:42:05 PM

Do those leggs go all the way up	Being 5.9 and always the tallest of my lady friends in my 30's I had surgery then and again in my 40's for varicose veins, Andrew Lessman pills help me a whole lot in the heavyness and archin pain that sometime happens. Its not a cure but a great product to assist me.	5	2/11/2012 1:39:47 AM

I'm a fluid retainer and these really help!	I just discovered these a couple of years ago and could not do without them. I take one every morning and one in the evening and they really help with the fluid retention in my legs. After years, more than 30, of mostly doing computer work, you would be surprised how the legs puff up even though you're sitting most of the day. Great and you won't go wrong with these!	5	2/4/2012 4:10:01 AM
leg pain gone	these are great when I need to walk more than usual.I forgot to take with me on vacation.My legs were aching terribly, I couldn't wait to get back home to take these again.Next time I travel these will be in my purse!!!	5	2/3/2012 4:53:04 PM

GOOD PRODUCT!!	I can't do without. My legs feel heavy, hurt and cramp when I don't take them for a while.	5	2/2/2012 6:09:32 PM
Happy	The winter of 2007 I had terrible leg cramps in both legs. I set up an appointment with my doctor, but I also did some extensive research that morning. I gave up white sugar, bread and meat for three months. I remember seeing Andrew Lessman on HSN discussing Maximum Joint capsules, when I placed the order the Circulation and Vein Support capsules popped up. I ordered and took the capsules faithfully. My pain lessened and walking became easier	5	1/30/2012 10:40:07 PM
Jumping for Joy	Another winner Andrew. I was very hesitant to try this product but so glad I did. As with other products in your line, I can tell the differrence when I run out. Thank you.	5	1/29/2012 4:09:29 AM
Poor circulation?Fear no more a product that works	Our family suffers from poor circulation. My mother is elderly and has had poor circulation with constant leg pain. Within the first week of using Andrew Lessman's Circulation & Vein Support my mother has shown a huge improvement. She is now able to move around more & enjoy quality time with the family without discomfort. There are a few people in our family that will be purchasing this product to use themselves. Andrew thank you for caring so much and sharing with the world!	5	1/29/2012 12:45:52 AM
Can't Live Without	This is the only product I have ever used that has worked for the swelling in my legs and ankles. This has been a problem for me since my teens, especially in hot weather, and I have tried EVERYTHING. I had pain in my left leg due to varicose veins for years. I am now pain free. My legs and feet no longer swell, even when sitting at my desk for long hours. My shoes fit better and my legs feel lighter and MUCH less fatigued. THANK YOU Andrew for improving the quality of my life!	5	1/28/2012 12:10:36 AM

Wonderful, Wonderful Relief!!!	I've been using Andrew Lessman Circulation and Vein Support For Healthy Legs since mid Oct. 2011. I had a lot of fluid retention was wearing prescribed compression garments and overwhelming tingling like dozens of needles on the bottom of my feet and the palms of my hands, I was miserable and desperate for relief. I began noticing the tingling subsiding on the second day after five days the tingling was totally gone and my legs were getting normal again. Thank you Les.	5	1/26/2012 12:30:46 PM
Cannot be without it	I am quite a thin person and I still get swelling in my lower legs. Even if they don't swell, all socks leave that deep ring around my calves unless I take this product. I don't know how it does it but I just love the effects! I can tell such a huge difference in the quality of my day if I forget taking my vitamins or take them later in the day. Andrew....we need Potassium!	5	1/26/2012 11:52:52 AM

I started taking it after a break - probably a year - and I can feel the difference in my legs when walking as well as when I am on my feet teaching! I highly suggest that anyone who is on their feet for long periods of time, try this! ANOTHER 5 star product! I wouldn't get my supplements from anyone else but you!!! THanks! Peggy from OHIO	5	1/21/2012 8:26:05 PM
Takes a couple months but then is amazing	I bought this for my mom because her legs were always hurting and burning. She took it and for the first 2 months she saw no difference but she kept taking it because I told her some reviews said it could take time. She wasn't buying it until just after the 2 month mark her legs started feeling so much better. She ran out and w/in a week the pain was horrible. She re-ordered and won't be w/out. I bought her the largest size for Christmas. She is a believer now.	5	1/21/2012 2:48:00 PM
No skeptical anymore!	I watched Andrew talk about this product for a long time. I finally bought it when it was a TS. Long story short, I now have 2 bottles on hand so I will never run out. I'm very happy with this product.	5	1/21/2012 1:48:05 PM

Great for leg pain	I have worked for years and stand on my legs for 8 or more hours a day. My legs always would be in pain. I have varicose veins and my feet use to feel cold. My feet also seem to have better circulation.	5	1/19/2012 10:58:48 PM
Cures Leg Swelling	My legs would puff up with edema a few times a month lasting up to 3-4 days to a point that I couldn't even get my shoes on. Not now. No more Leg Cramps...	I started these awhile ago when I started working a job the requires me to be standing 6-8 hours a night and walking any where from 5-8 miles a night in a very fast paced setting. My legs are no longer throbbing at night when I come home, and the leg cramps that would start up high and shoot down my legs are gone! I've used so many of Andrews products and have turned several of my friends onto them...no after taste when you take them and they all work in harmony with one another. Love them all!	5	12/21/2011 5:57:47 PM
Great Product.	I didn't buy this for the varicose vein issue. I bought it cause i sit so much and my legs tend to fall asleep fast. This has helped. Only thing is i have to take a lot for it to help as one or 2 pills wont do it for me.	5	12/8/2011 2:44:26 PM

Can't Live Without these Miracle Vitamins	<p>Dear Andrew,</p> <p>Bought these as a birthday surprise for my husband, several years ago. He was very doubtful that they's help?? But after taking them and seeing a BIG difference in his legs...he now says,"Andrew better keep on making these". The valves in his legs keep the blood in the bottom of his legs which than gets stagnant. Doctors thought the worst that could happen is amputation. These miacle pills has completely slowed down the progress. Thank You So Much!!</p> <p>Linda R. PA 19518</p>	5	11/14/2011 6:36:15 AM
Who Knew?	<p>I am 65 years old and have had red swollen ankles for years after several hip surgeries. Nothing I tried worked until your pills. I exercise of course but when I added a pill in the morning and a pill at night, I began to see a gradual improvement. The heat of the legs is gone, the color is improving, the pain is lessened.</p> <p>Desperation made me try your product, now I am on auto ship and recommend you to all my friends.</p>	5	11/14/2011 3:18:07 AM

10 Stars	I have been taking this product for many years - when I discovered Andrew was on HSN and that he was so knowledgeable. Because I am a Wellness Coach, I check and double check everything before I take anything. Andrew does also. I am on my feet all day long up and down many stairs. I have no heavy leg problem. I have also recommended this product to many women and men who had that problem but no longer do. You will not be disappointed, but do you own homework about diosmin.	5	10/2/2011 2:10:54 PM

THE BEST PRODUCT EVER !!!	This product is amazing! I work in a hospital and I'm on my feet for duration of my shift. My feet were swelling every day, also my lower back would be aching alot. Since I discovered circulation and vein support, I'm a new person. I no longer have swollen feet or lower back aches, they've all vanished. I get really nervous when I'm running low because I can't live without this product. Thank you! Andrew, please don't stop bringing these miraculous capsules to us. Love! love! love!	5	8/28/2011 5:20:56 PM
It Really Made a Difference!	If I hadn't trusted Andrew Lessman's products so much, I wouldn't have even tried the vein support. But it really has made a difference in the swelling of my ankles - I'm amazed at how little they swell now compared to before. And the difference happened in a matter of weeks. I'm in my sixties and thought that swollen ankles were just something I had to live with - well, not anymore! I even bought some cropped jeans since I can now show my ankles, not hide them. Thank you Andrew!	5	8/28/2011 3:08:16 PM
Really felt a difference!	I won't be without the Curculation and Vein Support for Healthy Legs. The first time I ordered it, of course, I was skeptical, but after about a couple of weeks, my legs definitely felt lighter and not that tired feeling. This is a reorder item for me.	5	8/28/2011 11:46:22 AM
Wow	I am very impressed, after just a couple of weeks, I see the difference and feel the difference--my dark clusters of spider veins are fading. Thank you Andrew.	5	8/27/2011 11:57:30 AM
great stuff	Almost every day, my feet would be swollen by the end of the day. I started taking the Healthy Legs capsules and noticed a difference after only two days! My feet still swell up sometimes, but, even then, it's not as bad. I will definitely order more!	5	8/26/2011 3:44:56 PM
A Must Have for Tired Legs!!	I've always had tired, crampy calves and have tried many creams and rubs, massagers, and hot baths for relief. After taking your Circulation and Vein Support for about 1 month, I noticed something wonderful...my legs didn't ache anymore!! I LOVE this product! Please don't ever stop making it...there's nothing out there on the market even close to replace it! Thank you so much Andrew!	5	8/26/2011 4:03:21 AM

WOULDN'T BE WITHOUT IT!	I have ordered this product for the last three years and I would not be without it. Dr. Lessman knows what to put in his products that makes them work so well. I never run out. My feet would swell because I am a transcriber and sitting all the time would cause the swelling, and I saw him on a show on HSN and tried it and now I have friends ordering it that does the same type of job I do.	5	8/22/2011 3:12:16 PM
wouldn't be without it	I have been taking this supplement for a few years now and cannot imagine being without it. I have poor circulation in my legs and this helps tremendously with aching. If I do not take this supplement, after two days I can feel the heaviness and aching returning. Thank you Andrew for another great product.	5	8/22/2011 2:56:15 PM

Miracle for your legs and feet	For 33 years I have stood up at work. A year ago my right foot was in agony, and my doctor recommended Shape Up footwear of which helped immediately. For the last four months my right foot and ankle have been in agony again. I ordered the Circulation & Vein Support, and they arrived a week before my doctors appointment. With taking two tablets daily for one week, by the time I got to my doctor the pain had gone. I only get a twinge under my foot now if I do more than 8 hours daily.	5	8/20/2011 11:32:02 PM
gatorone	The capsules are so easy to swallow which encourages me to take the vitamins/herbs. I love his products.	5	8/20/2011 5:38:42 PM

Great Supplement	Can't do without the Vein Support. Don't take it everyday but when I need it it certainly does the trick in stopping my legs from hurting.	5	8/19/2011 4:11:56 PM
Healthy Legs	Tried the Vein Support & couldn't believe the results. Broke my ankle a few years ago & still having problems with swelling. Standing for long periods of time caused leg pain. Started taking the Vein Support & within 1 week realized I had no more pain & the swelling was diminished substantially. I won't be without this product ever again. I use a few of your vitamins & telling anyone that will listen about them. I know this is a business for you but I think you help alot of people. Tks	5	8/18/2011 4:26:32 PM
Surprise!! They work.	I was having a lot of swelling in both legs. I also have rheumatoid arthritis in my knee, which also swells. Didn't know if this would help. Decided to give them a try, and to my delight, they really have helped, and I am more comfortable.	5	8/17/2011 12:03:33 AM
Excellent Product	In the past I had pain in my legs. I also have varicose veins. I started taking the capsules on July 29. At first I took 2 a day but then I changed to 1 a day. I have noticed that my legs are much better. Don't hurt at all. Only my knees from time to time. I think this product is wonderful. Even my daughter who is 22 is taking the capsule every day. She works standing most of the day. She had no complain about her legs so far.	5	8/16/2011 5:12:04 PM
Won't Be Without It	I think so highly of this product that I bought it as a gift for my sister-in-law who has been having leg troubles. Can't wait to hear what she thinks. I won't be without it.	5	8/16/2011 3:32:13 AM
healty	I have recently started taking these pills and have noticed a difference in how my legs feel. My daughter got me started with Andrew and I am very happy I listened to her.	5	8/15/2011 12:46:48 PM
Super Support	I got Guillan Barre last December and no longer walk unassisted. I sit for the vast majority of my day. My feet and lower legs were very swollen and achey. I took a chance and ordered the small bottle when I saw Andrew present this. I now have very little swelling and the ache is greatly reduced. I just ordered this largest size, as I can not imagine ever being without this supplement again!!! Thank you Andrew for bringing relief into my life.	5	8/14/2011 10:00:44 PM
love it help with rls	i know u can't make medical claims put helps with restless leg syndrom	5	8/14/2011 2:23:07 AM

This product works...	I have had problems with my legs for years. I bought the small bottle of this to just try, and I have to say this works. I have gone from having to wear support hose and being so tired in my legs from just being up a few hours to no support hose and being able to go all day long without that heavy, tired feeling in my legs. I have ordered the larger bottle now, and as long as this product is made I will purchase it. I just wish I had started using this earlier. It works.	5	8/12/2011 5:01:14 PM
REALLY, REALLY WORKS	I have used this product for a few years and I can tell when I skip it for a few days. It actually works does what it claims. I have sprained my left ankle too many times to count, and this really does help the swelling that is always present. This is a product that I will continue to order.	5	8/12/2011 2:21:30 PM
Excellent	wouldn't be without this product. I wasn't sure it was doing anything until I stopped taking it and my achy legs caused me to go back and start using again and now wouldn't be without. Highly recommend for anyone w achy or uncomfortable legs.	5	8/12/2011 10:32:53 AM
AWESOME Circulation & Vein Support	WOW WOW WOW! I don't usually write reviews but I just had to for this product. My ankles would be a normal size in the mornings but by the end of the day, my ankles were so bloated that I had "cankles." I was also developing a few slightly bulging veins in the back of my thigh and I'm only 44. After taking 2 capsules daily for a week, I can see my ankles at the end of the day and my bulging veins are gone! I will never be without this product--Thank You, Andrew, for ANOTHER stellar product!	5	8/8/2011 10:17:28 PM
EFFECTIVE without taking PRESCRIPTION DRUGS.	I had taken a chance in trying Andrew's Circulation and Vein Support several years ago, when I no longer could tolerate any type of Rx or OTC medications for restless legs or for the achy heavy feeling deep within my legs. I could absolutely tell a GREAT difference when I first ran out. THE PAIN WAS SO overwhelming! I feel that I am doing my body a healthy service in not overloading with harmful drugs. My liver THANKS you, also.Bonnie. Ohio.	5	8/6/2011 4:31:46 PM
Great Item	I sit keyboarding for seven hours a day and I would have leg cramps at night..they got severe at times. I have only been using this for a little while and it is working great. I have not had any cramping in several days. Thank you Andrew!	5	8/2/2011 11:15:09 PM
WOW!!!	This product is FANTASTIC! I have very bad varicose veins which cause a lot of pain. This product seems to help me. I haven't notice the swelling going down, but the pain is a lot less. I've used it about 2 months. Maybe in a few more months the swelling will go down some.	5	8/2/2011 1:58:58 AM
No more tired legs	I am a 67 year grandmother with 3 grandchildren to care for, and I am sure most of you know how hard that is. But I also am the responsible for my 95 year mother. Between her home and mine, I am very, very busy. Lots of hours on my feet cooking, cleaning and washing. I only know that without this product, my legs get very heavy, tired, and they hurt a whole lot, Thank your Mr Lessman for such a very exceptional product. I can not live with it.	5	8/1/2011 3:21:17 PM
Works	I was originally hesitant to try these because they are expensive, but they work! I'm on my 2nd order.	5	7/30/2011 1:53:57 AM
Great for nurses	I'm an ICU RN and work 12 hour shifts. Our unit is busy with very sick patients and I am on my feet for the majority of my shift. This formula is a godsend for me. No more aching legs and feet. It is really amazing. Most nurses my age have left bedside nursing due to the strain and demand put on their bodies but with Circulation and Vein Support I have no problems anymore. Very pleased with this product and thrilled I stumbled across it. Thanks Andrew, you make my life easier.	5	7/28/2011 4:51:15 AM
Lifesaver	Without the Andrew Lessman circulation and vein capsules, my legs swell to the extreme and become very painful. But with the capsules, no matter how long I sit at my computer the legs and ankles stay the normal size and I have no pain whatsoever. I love this product and will continue buying it for as long as it is available.	5	7/27/2011 1:22:07 PM

Circulation and Vein Support	This has helped get rid of the swelling in my legs. I take 1 capsule three times a day with a nerve support formula and together they help with my neuropathy. Wonderful relief.	5	7/26/2011 9:58:17 PM
Noticable difference	I was beginning to feel a creepy crawly, achy feeling when I ran out - now that my supply has been replenished my legs are feeling the way they were meant to feel...great! Another winner Andrew, THANK YOU.	5	7/25/2011 8:54:10 PM
Fantastic Product	There is a definite difference with this product. After using for awhile, I ran out and did not reorder for awhile. Thank you Andrew!	5	7/24/2011 8:25:12 PM
The Miracle Drug	This product started working IMMEDIATELY. The very next day, not only weren't my ankles swollen anymore, but also my hands. I'm on my feet, out in the sun for hours at a time. I am ever indebted to Andrew for all the products of his that I use, and stand behind him 100%.	5	7/24/2011 4:03:09 PM
Already notice an improvement!	I just started taking Circulation and Vein Support a few days ago, and can feel a difference already! I stand all day at my job, and have been having extreme aching in my calves and feet since the temperatures have risen. I've been taking two capsules a day, and the aching has stopped. I wish I had tried this product years ago! I use several of Andrew's products, and I'm very pleased with all of them. I will continue to order this!	5	7/23/2011 11:50:17 PM

These Pills are the BOMB	I tried these pills back in Feb and have noticed a huge improvement in my leg muscles. I have to wear braces on both of my feet and get knots in my legs, this product helps so much. My brother also has leg problems, so I sent a month supply to him. I'm sure he will be a believer also. Can't wait for him to also experience the relief these capsules will bring to his sore, hurting feet and legs. Thanks Andrew. I will not be without these capsules.	5	7/21/2011 12:00:49 AM
Miraculous!	I have type 2 Diabetes & a bad ankle & when the temperatures & humidity rise, I would always get swelling. My legs would feel fatigued & achy before the end of a day on my feet. As soon as I started Andrew Lessman's Circulation & Vein Support I noticed improvement immediately & too good to be coincidental. I haven't had any swelling & here it is July! I have reordered & hope this product NEVER is discontinued.	5	7/17/2011 6:46:37 PM
Awesome! My Favorite Supplement!!!!	I tried a small bottle and after I ran out I could tell such a difference that now I am reordering the largest bottle! These pills have given me such relief! I am 33 and sit all day at a desk job. My feet would swell and be comfortable if I would then be on my feet any length of time. Not anymore! I also gave these to my mom to try since she was having issues with her feet and she is now hooked. These pills REALLY work! They are a godsend!!!!	5	7/17/2011 4:51:31 PM
Won't go without it!	As a type 2 diabetic, I began experiencing signs of diabetic neuropathy. Terrified that I may face amputations in my future, I decided to order Circulation & Vein Support. Within about 3 weeks, all my symptoms were gone. I will never go without it! My feet & I thank you, Andrew!	5	7/16/2011 2:28:10 AM
I'm so happy this works for me!	I took this for a month - stopped, not having ordered more. I couldn't really tell if it had done anything. I have a foot injury from an 8th grade softball incident making it swell often when I sit and especially in the hot Florida summer! I decided to order more and try again because my foot/ankle was swelling too much. A couple of days later after having sat at my computer for several hours where normally 100% of the time my foot would look like a potato by then, it was normal! I'm convinced!	5	7/14/2011 6:28:43 AM
Great! Great! Great!	I have been taking these vitamins for at least 3 years. I have varicose veins and spider veins. I work retail and I am on my feet for 9 hours a day. Takes the tired achey feeling away. I highly recommend this to anyone who is on their feet all day.	5	7/14/2011 2:53:53 AM

Great alternative for seing your doctor!	These pills are a must have for us who walk too much, too many years because we don't have a car, not exccercising. Three days after taking two pills each day I could once again walk down the steps without the pain in both ankles, telling me my legs are about to give out. The enormous swellings at my ankles are gone! No more pain in my feet walking 10 blocks to the store, and I'll be able to hop on my bike again! I'll definately buy some more. Thank you Andrew!!!	5	7/12/2011 4:42:55 AM

My sisters has progressive MS...	She currently takes daily copaxin injections to cope but it's not a cure. For years her mobility in her left leg has worsened & now she uses a walker. Last year her veins in her legs were starting to swell. I decided to buy Dr. Lessman's vein & circulation supplements for her to see if it would help. Not only did it help her veins but she is able to walk with less challenge because the mobility in her left leg has increased. We both believe taking the pills is the reason. Thank you Dr. Lessman.	5	6/24/2011 3:49:54 PM

Less leg spasms	Once I learned to take this just before bedtime, it does its job much better. Heretofore, I had taken it during the morning hours with other vitamins I take daily, and by the time I got to bed my legs were having horrible spasms. Now that I take it an hour before bedtime, I'm OK.	5	6/18/2011 3:59:48 AM
circulation and vein support	I have been using this for a number of years. I would like to know why you don't include horse chestnut in the mix you are so on top of things like that could you explain it on one of your shows. I like the product as is but wonder if I should include adding horse chestnut on my own. I have vericose veins and need all the help I can get. Maureen	5	6/17/2011 2:50:10 PM
Felt relief within a week!	We are loyal customers of Andrew Lessman's supplements. Although not inexpensive, the quality of his products are terrific. I've compared his line to many others and they have come out on top in every case. My husband is now taking this product and we both feel a difference. Thank You! One Suggestion: Offer more incentives and discounts more often. We'd really appreciate it as it is costly.	5	6/15/2011 7:17:02 AM

I've been watching Andrew for years and finally decided to try something. I figured Circulation Vein Support would be a good place to start. I'm not joking, within 3 days, the dark blue and the swelling had gone down. My roommate even said "You're legs look great!" If you have varicose veins, you HAVE to give this a try!	5	5/27/2011 1:15:44 AM

And how quickly...within five days of taking HALF the DOSE I saw a marked improvement! So I ordered a bigger bottle right away. Now I've been taking the correct dose for about four days, and I see an even bigger change for the better- less swelling of the veins, better color & circulation, and just overall more normal. Wonderful	This product does everything Andrew says it does and more. I think if there is any doubt in your mind you should try it for 30 days.I use many of Andrew's products. I am well pleased!	5	5/1/2011 1:41:24 PM
started working the day I took it	Started helping swelling go down in my ankles at the onset of taking it. It amazingly is working.	5	4/30/2011 9:48:18 PM
Helps me work out	I was so out of shape. I started working out and then I got a personal trainer. I was so sore I couldn't walk. After two months of this I was ready to give up. I read the reviews and tried this. My work outs still hurt, but my recovery time has improved dramatically. Really, it's like a miracle.	5	4/30/2011 3:22:59 AM
Thank You !!	This product really works for me. I've dealt with swollen feet/ankles/legs for over 20 years. I started using this product about a year ago, I noticed a difference the first day of use. It has made a huge difference - my swelling is a lot less, leg/foot cramps went from an every day occurrence to once a month, the heaviness has decreased a lot. I still have swelling & discomfort but it's at about an 80% decrease from what it was before. I'm thankful for the 4 monthly payment option.	5	4/29/2011 3:59:58 PM
Really Works	I had been having problems with the knee area of my leg during the day and especially when in bed. Dull aches that woke me up. Decided to try this product as I use several of Andrew's product all with great outcomes. After taking this product for a couple of weeks, the aches disappeared and have not returned - over a year now.	5	4/28/2011 2:20:57 PM
OMG!	If you want to see if this product works, take for a couple of days, then stop taking. Within one day you will crawl to the bottle! Clothes fit better as well?	5	4/27/2011 5:48:17 PM
Love this product	I started taking this product on 4/21 it has only been five days and I feel wonderful my knees are not hurting, my feet are not swollen please do not change the ingredients in this product I feel like a new person. Thank you Andrew.	5	4/25/2011 5:41:55 PM
gear	the best thing i have used for poor legs	5	4/25/2011 3:47:46 AM
Healthy legs need vein support	I am back to use Andrew 's vein and leg support. I have only used it two days and I see my ankles again. I used it once before but quit when they got better. Our bodies need help when we are older. They give your veins strength to allow the blood to flow through the veins without them protruding. Exercising helps also but with these I feel more support.	5	4/23/2011 11:16:54 PM
vein & leg support	this product is amazing... since i start using it my leg dont hurt or burn anymore, the swollen veins have vanish, i am so greatfull god created you to made this wonderful product...ANDREW keep doing what your doing...you a AMAZING...THANKS A MILLION...	5	4/23/2011 1:36:41 AM
Great Product	I like this product very much even though I am not really sure how it is working. I do not see any physical difference in any of the spider veins that I already have but my legs feel different in a good way, like I have more get and up go. I can tell when I stop taking it and therefore won't do it again by letting myself run out.	5	4/18/2011 5:29:54 PM
sam.t This product ia gift from above.	Ihad swelling in my legs for years,the doctors could not give me any good answers,so i ordered a bottle of the vein support.after2 or 3 days the swelling went down.This product is the answer to my prayer.Thank you Mr Lessman. Love, Love, Love this product....	And honestly do not plan to ever be without it again! Just reordered at the event price and am stocked up for the next 6 months. My legs can tell the difference when I am without. You will totally feel the difference when taking these. They are a MUST HAVE!	5	4/17/2011 4:00:27 AM
Awesome	Can't live without these	5	4/4/2011 9:21:51 PM

GREAT PRODUCT	LOVE THESE SUPPLEMENTS!! I HAD A TENDENCY TO HAVE EDEMA OF THE ANKLES AND I JUST HAD A TOTAL KNEE REPLACEMENT AND WHEN I TAKE THESE DAILY, I NOTICED THE EDEMA IS MUCH BETTER AND THEY ALSO HELPED WITH THE SWELLING OF THE KNEE. WAY TO GO ANDREW!!	5	3/31/2011 1:47:17 PM
NEED SOMETHING THAT WORKS!	I have turned my friends onto this product. Anybody that has to sit to work needs to do themselves a favor and get this product. I never run out. It is amazing for your circulation. My feet used to swell when I would sit for hours doing my transcription work and I want to tell you, I tried these about two years ago and would not be without them.	5	3/29/2011 5:21:38 AM
works!	I bought the smaller amount just to see if what Andrew said was true - It has helped me - which is night time leg pain. give it a try, it worked for me.	5	3/26/2011 1:03:50 AM
Simply Self Medicinal for My Legs!!	I refuse to run out of this product.I wish I could afford to pay for the large size.It help me daily and I love it. I can tell when I skip a few days. THIS IS ONE OF THE GREAT PRODUCTS I KEEP COMING BACK TO FROM ANDREW AND CO.	5	3/17/2011 5:14:12 PM
They work	I had real issues with my legs cramping at night and aching. I started taking these as an experiment and all of the discomfort disappeared. Maybe it is in my mind but as long as I take them I don't have the cramps or aching! I would recommend them if you don't want to take drugs which the doctor will prescribe to you. Frankly I prefer more natural means to treat issues and for me, this fits the bill.	5	3/15/2011 1:14:27 PM
GREAT PRODUCT	This herb takes down any swelling in your ankles and improves circulation really well, I have noticed a big difference when I run out, so I ordered the large bottle this time so that won't happen again.	5	3/11/2011 5:08:10 PM
LOVE, LOVE, LOVE	I walk everyday now. Before I purchased the Vein Support it hurt my legs to walk around the track at the senior center. I had to stop and rest for awhile. Now I can walk my three miles without being in so much pain. Thank you Andrew.	5	3/10/2011 3:25:06 PM
LET THERE BE LEGS	Thank you for addressing the VERY important issue of legs... with Circulation and Vein Support for Healthy Legs.	5	3/9/2011 9:15:24 PM
A Perfect product	Been taking since the 1st yr it was introduced which is so long ago I can't remember! As soon as the weather starts warming up my hands and ankles would swell up so much the skin hurt. As soon as the spring arrives I'll start taking 2 a day. I am looking forward to another happy summer here in sunny California, with shoes an sandals that fit and rings I can wear with ease. I thank HSN and AL every day.	5	3/9/2011 8:38:24 AM
my new favorite vitamin	I am 66 yr. old and I sing and dance for a living. Over the last few year, I have been having a problem with severe leg and feet cramps after doing one of my shows. I do anywhere from 2 to 6 shows a week, so almost nightly I suffered greatly. I have tried so many different things, cause I will NOT stop dancing. Things I have tried have helped a little, but until I started taking Andrew's leg and vein support, nothing completely eliminated the cramps. But now, on his product, NO MORE CRAMPS.	5	3/5/2011 6:35:55 PM
Sorry, no help with my leg pain	I was hopeful that this formula would work for my aching legs. But it was no help. Sorry Andrew and I took almost the whole bottle as reccommended with no results. I have fibromyalgia and maybe it just will not help in this area. Send back for a refund.	5	3/4/2011 6:35:50 AM
Great product	An all day shopping trip with NO leg fatigue was the "Aha" moment for me with this product.	5	3/4/2011 5:01:44 AM

Fantastic	I've used vein support herbs like horsechestnut before but AL vein support ACTUALLY worked immediately on me. My main veins Sappanheous were ligated at age 18 DT an auto accident. I have had bad circulation since my late 30's. now I am good as long as I get some exercise AND take the VS for legs. I had an ultrasound done on my leg circulation and at age 60 I have great action now thank you for a great product.	5	2/26/2011 8:18:01 PM
Leg vacation	I've noticed my legs feeling so much better after taking Vein Support. After working and running all day, then again when I get home my legs needed a lift. My sister is now taking them as well.	5	2/23/2011 7:14:43 PM
Sorry	I really like this product because it does seem to help my legs which hurt all the time. But I take so many that I must give up something due to the cost. I am really sorry I will have to do without this.	5	2/22/2011 2:36:34 PM
Seems to be working	I had cramps in my calves from sitting so much at the office. I ran out of these capsules and didn't take them for awhile. I have a seasonal business. After the season was over, I suffered a stroke. I ordered these right away and began taking them again and have MUCH less cramping. So far, so good.	5	2/20/2011 6:12:08 PM
Circulation & Vein Support	I have taken for one week. I have no complaints. Will give and update in two weeks.	5	2/19/2011 5:02:10 PM
HELPS WITH THE SWELLING	THIS IS THE SECOND BOTTLE THAT I HAVE PURCHASED AND I HAVE TO BELIEVE THAT IT HELPS WITH THE CIRCULATION IN MY LEGS.	5	2/17/2011 8:28:22 PM
So far - wonderful!	My legs and feet feel so much better! I am ordering the largest bottle of these as they have given my legs more energy which means I can walk more and maybe begin to exercise again!	5	2/13/2011 9:34:14 PM

Question	I am anxious to try these as I just received them today. 5 stars for Women's Wellness as I've taken those for years and love them! Does anyone know if they should be taken with food or water? How should they be stored? Room temp.? Frig? I have sent these to my parents as well as I am hoping it will help with their leg circulation issues. Thanks Andrew!	5	2/2/2011 1:03:14 AM
Excellent Product	I highly recommend these vitamins, they have helped me a great deal, I have been on joint medication for at least 5 years, I recently started taking these vitamins & to my surprise my pain has gone away, you have nothing to lose but the pain.	5	1/31/2011 11:18:58 PM

Happy Legs in Georgia	I am so pleased with this product. I am an RN and work at night and recently noticed that my legs and ankles were swelling. I ordered the product and within two days of use the swelling had resolved. I just placed another order for this product I cannot live without it. My legs feel and look great!!! Happy legs	I have had trouble with swollen legs most of my life and heaviness in them along with being very weak. I really believe this is going to work for me because I already am seeing good results. I often laugh about how easy it is to fall but getting up is another story, however the other day I so easily was able to get off the floor and that was a very nice surprise! Thank You for this product!!!	5	1/29/2011 9:54:52 PM
Great Improvement in Legs and Feet	I ordered the CVSHL after my legs began to feel like dead weight. I am a Type 2 Diabetic and my legs were wearing me out. After only a week and a half, my legs AND feet felt much better. It has been three days since I stayed at home most of the day with my feet elevated. Thank you Andrew, you've done it again!	5	1/28/2011 12:24:52 AM
helps leg discomfort	I've had bypass surgery and therefore my veins have been altered. I find that this product helps tremendously with the discomfort I have in my legs. When I noticed the difference was when I ran out of it and the discomfort returned. I consider this product to be an essential part of my daily supplements routine and would recommend it to anyone who experiences leg discomfort and are looking for relief.	5	1/25/2011 3:21:03 AM

The Best	I use alot of Andrew's supplements but I would be lost without this one. Keeps my feet from swelling and my legs from hurting. I have been taking the circulation vein product since Andrew first offered it. Thanks Andrew for all of the great products.....	5	1/23/2011 1:39:05 PM

Excellent!	Excellent supplement! I feel such a relief in my legs. I feel like I am WALKING ON AIR now. For w while I used to take Horse Chestnut during the Summer months, which I purchased in a local supplement store. This is much less expensive considering that it came in 500 caps count and based on how I feel now, more effective too.	5	1/22/2011 5:47:36 PM
This is Great!	Now, here we go. I really do feel the benefits of this. I used to be on my feet a lot. I think I was getting "heavy leg syndrome". I started taking this and I really felt so much relief. I'll always take this! :-)	5	1/22/2011 6:39:37 AM
WOW-WOW- And DOUBLE WOW	I'm not only shocked that this helped my legs feel better, I'm delighted. I wear Arizona braces on both of my feet. I get painful knots in my leg muscles that my husband has to massage out, but I've been taking the leg circulation and vein support for two wks now and I've noticed a huge difference in the pain in my legs. They do not hurt like they did before. I've ordered a second. Thanks Andrew... you Rock!!!!	5	1/22/2011 3:41:04 AM

Love this supplement	I've had small spider veins in my legs for years. Within about a month of taking this supplement, the veins were much less noticeable. I also was seeing what I think was the beginning of a varicose vein on my shin... It's now gone! I'm on my 3rd order, and plan to keep taking this product.	5	1/22/2011 2:29:03 AM
Great ,great..	Taken these for at least five years. Had edema so bad that it was difficult to walk from my car to do shopping. After taking these, I have no swelling in my feet or legs. Wouldn't be without them..	5	1/21/2011 10:28:26 PM
CAN'T BELIEVE IT !!!	I've used for 3 wks 2x a day and what a difference. Had open heart veins removed from both legs, staples taken out to soon, took a long time to heal. The redness, swelling, tenderness and over all look has greatly improved. I love this product it has helped my legs more then anything I've tried and I've tried alot.	5	1/21/2011 8:25:38 PM
This stuff works!	I've had some very nasty looking veins pop up in my legs the last couple of years. I've only been taking this product a little over a week, but I swear the veins in my legs are shrinking! They don't bulge out nearly as bad, and my right ankle has stopped swelling at night. I am very, very impressed. I purchased the bottle with 500 pills. Hopefully by summer my legs will be back to normal!	5	1/21/2011 5:22:28 AM
So far so good	Feel better after just a few days. I always like Andrew's products - very gentle but substantial and everything I have ordered from him does really seem to make a real difference.	5	1/21/2011 3:54:07 AM
Quality Ingredients	This supplement is made of easily dissolved capsules and contains quality ingredients which should help improve circulation and vein health. Does not upset my stomach and after I finish this bottle I should see an improvement in my legs.	5	1/20/2011 11:37:25 PM
Feel the difference	This like most of Andrews product are feel the difference. I can definitely tell when I've missed a few day. I have poor leg circulation so this really helps. Thanks Andrew.	5	1/20/2011 8:39:55 PM
I am taking now	Don't know how this really works only been taking for a week or so, I hope it works. Wish a bit less expensive, but for your health cost shouldn't matter	5	1/20/2011 4:55:48 PM

Love it	I am a diabetic - also have PAD. My legs used to hurt from morning to nite. Walking was painful. Don't get me wrong - there is no miracle, but, I can walk again with minor discomfort -- not much swelling anymore- nurapathy from diabetis in evening now and tolerable. Yes, I will always take these vitamins, somehow they worked when prescription drugs didn't. They just made me sleepy.	5	12/19/2010 12:27:09 AM
Circulation and vein support WORKS!	We love this product! It has stopped the muscle cramps in our legs and feet. If we run out they are back within a day or two. For us it is a MUST HAVE! We always buy the biggest bottle, and love the flex pay options, make for better budgeting. Keep up the great products Andrew and THANK YOU FOR YOUR GREAT RESEARCH, PRODUCTS, AND LESSONS!	5	12/18/2010 1:50:11 PM

Goodby to spider veins!	I have been taking the Circulation and Vein Support capsules for over two years. My legs were full of spider veins and a couple of very protruding ones. Within less than three months, the spider veins begun to disappear and the two protruding ones became less visible. I no longer have spider or protruding veins. My legs feel and look wonderful. The difference has been outstanding! Thank you Mr. Lessman for such an excellent product. You have a customer for life. M. Flor, Florida	5	12/17/2010 1:09:20 PM
Effective	I had only one ankle that would swell up, my doctor assured me that is was an issue that was due to my under active thyroid not P.A.D. and it would go away when I began thyroid medicine ... after 2 years I wanted a faster result. I'm only in my 30's, I didn't want to have my legs look like old lady legs. I saw this and what did I have to lose? I saw a small, but noticeable, result in the first few weeks. But with continued use for 3 months, I can barely remember how big my ankle swelled. Thank you Andrew so much.	5	12/16/2010 11:53:51 AM
Surprise !	I have always been bothered with swelling in my legs. Especially if sitting or standing too much, my legs swell. This product works well for me. I am very happy to feel better, and look better. Thank you Andrew and HSN.	5	12/10/2010 12:59:51 AM
Great product!	Even my knees feel better when I take this!	5	12/9/2010 5:37:41 PM
Best Vitamin we've ever taken	My husband & I had swollen ankles and lower legs but as long as we take these vitamins that is no longer a problem and is such a relief. We will never be without them.	5	12/9/2010 7:09:08 AM
works	It really does work, took down the swelling n my feet. Going to buy the bigger bottle now!	5	12/7/2010 6:22:54 PM
Worth a try	My legs were bothering me a little so thought this might be worth a try. I haven't been as uncomfortable so whether the product or time has resolved the issue, can't say. I figured that it couldn't hurt.	5	12/5/2010 5:19:01 PM
Will add to my must have list....	So far, I can feel my legs feeling much less heavy and tired. This is something I will definitely stick with.	5	12/4/2010 6:54:40 PM
No more overnight leg/foot cramps	Was sceptical, but my husband would wake up with horriffic leg cramps. He's on his first bottle and doesn't want to run out. I think they're a little pricey-and that some of this stuff should be in the multiple vitamins he takes already. But for now, we'll keep buying them. The cost is better than the leg-cramps.	5	11/27/2010 12:01:13 PM
Never want to be without	I have been taking these for about five years, did not think about them much until I forgot to take them with me on a two week vacation. I suffered by te second week. Will never leave home without them again	5	11/24/2010 11:36:15 PM

Awesome	I suffer from what is commonly called restless leg syndrome. When I lay down to sleep at night there is an uncontrollable urge to move my leg(s). A few years ago I saw a presentation by Andrew on HSN about this product. Since HSN has a 30 day money back guarantee I had nothing to loose by trying this product, so I ordered a 30 day supply. I honestly didn't believe it would work. I was wrong!! Andrew.. your products are unbelievable!! It initaly took a couple weeks for me to see the difference but it absolutely works. And so I tried the women's wellness for hot flashes and guess what.. flashes and night sweats disappeared. I also took both products to my doctor and got a thumbs up. Love it.	5	11/14/2010 7:06:36 PM
Really Works!	Can't live without this product. My ankles and feet use to swell up so bad and since been taking this product for years - no need to go through that uncomfortable swelling. Thank you Andrew for another great product - won't live without it.	5	11/9/2010 11:34:52 PM

No More Swollen Legs and Feet!	I will never be without this product. I am a college teacher and spend long hours at a time standing. Three days per week, I am on my feet from 8:30 am until 3:30 pm with only a 45 minute break. My legs and feet do not ache and hurt the way they did before I started taking this product. A few weeks ago I forgot to take it and my feet swelled at the end of the day. I always order the largest bottles and take 2 capsules per day. If I know I will be on my feet more than usual, I take 3 capsules. Don't hesitate to order this product.	5	11/7/2010 3:04:39 PM

SEEING IS BELIEVING !!!	RECENTLY, I WAS DIAGNOSED WITH SEVERE EDEMA. REST, ELEVATE, APPLY ICE, TAKE ADVIL, AND WEAR 15 TO 20 COMPRESSION STOCKINGS; WHICH HURT BY THE AFTERNOON. I DID NOT WANT TO TAKE FLUID EXTRACT PILLS; SO I DID MY OWN RESEARCH AND READ THE REVIEWS. I INCREASED FROM 2 A DAY TO 6 A DAY AND WHAT A HUGE DIFFERENCE IN MY LEGS. NO MORE RED BLOOD CELLS POPPING OUT AND NO MORE SWELLING IN MY ANKLES. I DOWNGRADED TO 8 TO 15 COMPRESSION STOCKINGS AND CAN STAND ON MY FEET LONGER WITHOUT SO MUCH PAIN. I GOT MY LIFE BACK. THANK YOU, ANDREW, FOR "MY MIRACLE" IN A BOTTLE. GOD BLESS YOU.	5	10/24/2010 4:13:30 PM
Wonderful product!	I feel the circulation in my legs has greatly improved since I taking this product. I have looked into many diosmin products, but this one seems to be the best..it has other things added that work synergistically for improved circulation. I have just started my second large bottle of caps and would not be without it. Thank you Andrew for the quality of products you bring to HSN, I have been using supplements for over thirty years, and Andrew seems to be on top of all the new information.	5	10/24/2010 2:44:36 AM
Better than 5 stars	I have developed a leg problem called invenus insufficiency - a darkening of the skin in which blood seeps into the muscle and skin from the veins in the legs it was dark black and blue. I took the vitamins for 1 week and it make a difference in the coloring of my leg -I take 3 a day and the discoloration is almost completely gone and my legs and body feels great. I told my doctor I was taking it and he said to continue.... thank you Andrew Lessman for being brilliant and helpful	5	10/22/2010 10:46:21 PM
Wouldn't be without them.	I started taking these for my legs and some swelling in a ankle injury I got 4 years ago. My doctor said it will probably swell a little from time to time, and it does. With these Capsules the swelling is hardly ever visible and I have such a better feeling in my legs. Now my husband and mother take them too. My husband is 67 and my mother is 87. They noticed a definite change in how their legs feel. Thanks Andrew!	5	10/22/2010 5:13:44 PM
SO GOOD	Andrew, this circulation/vein support is so good that I sent it to my sister. She loves it.	5	10/22/2010 5:57:13 AM
Great product really helped	For some reason my ankles started swelling. I saw this product on Andrew Lessman's page and thought I'd give it a try. Sure glad I did - swelling went down within days. I showed the bottle to my doctor and explained that it was working. He said great..keep taking it. Thanks again, Andrew, for a product that does what it is designed to do.	5	10/22/2010 5:00:06 AM
Can't go without these	I have been taking this supplement for years. I always had problems with water retention and puffiness in my legs by the end of the day. When I started taking this Andrew Lessman product, I immediately noticed a big difference. Now, if I go a day without them, I can tell immediately. I also had started to develop spider and vericose veins, and this product has stopped that progression.	5	10/22/2010 12:04:42 AM
Wondt waerful	I rode the bus to and from work for 19 yrs. About 5 yrs ago, I started occasionally having to shift in my seat from a seemingly electrical discomfort in my legs. I found out that this was RLS. I had been following Andrew Lessman and hearing the Testimonials and tried this--IT WORKED! No problems since then!!	5	10/21/2010 11:37:30 PM
Love Andrew Lessman products	I love these capsules!	5	10/21/2010 9:15:36 PM

Relief at last	I have suffered for years with swollen and red legs, thought I would try the Cir/Vein Support. after a few months I noticed a big change in my legs. Redness was gone and my legs were not as swollen. Wish Andrew had a bigger bottle !!!!	5	10/20/2010 11:48:21 AM

COULD NOT BELIEVE IT!	I have a computer job which requires me to sit for hours a day, rather like a long plane flight. Recently I noticed my legs and feet were swelling and painful. The foot pain, which was very painful bursitis on the bottom of my foot, actually had been going on for months and was not getting better even under a doctor's care. I took two of these capsules and had immediate results. All swelling gone. Foot pain gone. I made no other changes. I too will not be without these. Thanks Andrew.	5	10/17/2010 12:37:59 PM
Another great supplement	Another great supplement, works wonders, I would not be without it, I have tried and notice the difference in my leg pain immediately. Don't hesitate to try this, IT WORKS	5	10/15/2010 10:50:49 PM
Buy this one if your legs are swollen.	My husband's ankles were really swollen even in the mornings and my legs were swollen at night. Works like magic. Swelling and associated pain goes away. These reviews seem inadequate for the tremendous good Andrew Lessman's products do.	5	10/15/2010 2:31:15 AM
Another Great product!	I am on my second bottle of Circulation and Vein Support. I take two capsules at night and am able to sleep all night. Prior to taking this product I had leg and hip pain. I have started taking other Andrew Lessman products and tell everyone I know about them. I just order Women's Wellness and am looking forward to getting started taking them. Thanks again Andrew Lessman for great products!	5	10/12/2010 1:17:40 PM
Very Pleased	I have fibromyalgia for over 15 years, and circulation in my legs were a big problem. I could not walk up or down stairs without being in pain. After taking the Andrew Lessman Circulation and Vein Support For Healthy Legs, I'm able to walk up and down stairs with great ease. The majority of the pain is gone. After ordering a smaller amount, I went back to order 360 capsules. You will be pleased. Nothing else seemed to work, but this does. Thank Andrew and thanks HSN for such a fine product.	5	10/11/2010 3:34:43 PM

wonderful product to address leg issues	i've had bypass surgery and the usual issues with leg aches and circulation problems because the veins were spliced. I noticed my legs aching terribly and when I tried this product I noticed an improvement in my discomfort level. I didnt realize, however, just how much help these capsules gave me until I ran out and my leg discomfort returned with a vengeance.I decided right then and there that I would never be without them again if at all possible.	5	10/9/2010 1:07:15 AM

Allergic to the Pine Bark!	<p>This product works wonderfully with the pine bark; however, for those of us that are allergic to the pine bark it is totally useless to us.</p> <p>I noticed that my legs & feet felt much warmer when I took this product, but had an allergic reaction and it took me two days for the bumps in my mouth and the swelling of my tongue to go down.</p> <p>Andrew....PLEASE bring back this product with the other formula WITHOUT the pine bark. I took that product for quite a while and noticed such a tremendous difference in my legs. My varicose veins were noticeably smaller and the pain in my legs decreased. I did not feel the "moving" in my feet/legs while sitting still.</p> <p>Again, please bring back the formula without the pine bark for those of us that have an allergy to it. It sure would be greatly appreciated!!!</p>	5	10/8/2010 10:16:16 PM
THANKFUL FOR THIS PRODUCT!	<p>I truly wish I could tell Mr. Lessman in person how much these vitamins mean to me. I know vitamins work differently for everyone but for me these are truly a blessing. While sitting in my family room one day many years ago and gazing into my back yard, I was experiencing horrible throbbing in my legs only. I remarked to God that I wasn't sure how much longer I could take the pain. I then turned on the T.V. and there was Mr. Lessman offering this product. I thought, "well, what do I have to lose but this throbbing." I ordered it and have been pain free ever since. I can't exist without it! My Mother and Grandmother both had "RLS" but I do not have this. Doctors didn't know what to make of it. Whatever I had, this was the answer from above. Thank you Andrew!</p>	5	10/8/2010 6:54:26 PM
A WOW Product	<p>I have Multiple Sclerosis and this seems to help my legs! Also, my husband is not having leg cramps at night anymore! Yeah! Try it!</p>	5	10/5/2010 4:15:10 PM
great for the veins	<p>I fell a couple of years ago, and now have horrible dark veins in my lower leg and top of my foot. I went to a vein specialist and have to wait to get them fixed for now. While waiting I increased my dosage every day, and have noticed that the color is much lighter. My husband has noticed it also. Until I can get them fixed, and after, I will take this product. It is amazing.</p>	5	10/3/2010 11:17:15 PM
Love Andrews Products	Love Andrews Products	5	9/30/2010 5:49:21 PM
Andrews Vein Support	<p>Very good product, I had a knee replacement and this is just an extra step to protect my knees. Love all of Andrew's products, you can't go wrong with this product.</p>	5	9/29/2010 5:51:52 PM
Love These	<p>My feet had been giving me problems because they felt numb. After taking these capsules for about a week, I noticed that my feet no longer had that awful numb sensation. I will not be without Andrew Lessman's Circulation and Vein Support capsules. Thank you Andrew for a great product.</p>	5	9/29/2010 3:44:18 AM
Circulation	<p>I have been taking these capsules for three or more years. Not a day goes by that I don't take my daily supplement. My doctor knows I take them and, has advised me to continue taking them. Definitely helps w/poor circulation in the legs. Would recommend to anyone that suffers w/poor circulation.</p> <p>Theresa K. Pgh, PA</p>	5	9/28/2010 1:10:57 PM
Helped	<p>Well I finally tried these & only bought a 30 or 60 day supply & it seems I really did notice a difference. I usually end up with swollen legs/ankles at the end of the day from sitting at a desk all day & once I ran out that all started again. So I am patiently waiting for him to come back & hoping for a special value of some kind. Will definately buy again!</p>	5	9/28/2010 10:44:49 AM
Couldn't do without!	<p>These are great, especially in the summer where it's hot here! I couldn't do without them</p>	5	9/21/2010 9:52:22 PM
happy legs!	no more tired legs at night.	5	9/19/2010 5:25:31 AM
Elliani	<p>This is a favorite of mine. I get a wonderful night's sleep - no more aching legs to keep me awake.</p>	5	9/18/2010 2:48:43 PM

EXCELLENT!	It took me many, many, year's to use any of the Lessman product's. I was truly a skeptic. I finally decided that nothing else worked, and if Lessman product's did not, I had a 30 day trial period. This was not my first Lessman product. I tried another of his product's; Hair, Skin, and nail's with absolutely super result's, so I decided to try this. After 2 week's, the annoying ache in my leg's was completely gone. Granted, I did not have severe pain. It was a chronic annoying discomfort, especially after walking or exercise, but the fact that it is no longer there, has made me a believer. I will now move on to try some other product's in the Lessman line.	5	9/17/2010 1:17:32 PM
Works for me	This was my second order. Need I say more.	5	9/16/2010 7:08:59 PM

Gentle Giant	I love Andrew's vitamins -- am on the Women's Complete for several years now -- my nails will grow a mile! Recently ordered this formula. Already notice an improvement. I fight anemia and bruise easily. Bad bruise on my leg last week and it just disappeared so quickly and without usual ugly yellowing. Very gentle on stomach! Do not hesitate to try these -- Great product!!	5	9/8/2010 3:14:52 PM
Love this Line!	If you have not tried Andrew Lessman's Line then you and your health or missing out! They are the best! I didn't need new shoes, all I needed was this Capsules and my leggs stopped hurting.	5	9/6/2010 12:33:59 PM
I Use This EVERY Day!!	I use this product everyday. I have given it as gifts and have recomended it to people that have a problem with their ciruculation. It helps with the swelling in my legs, veins and arms. I was recently without it (due to a mail mixup), and forgot how much my legs hurt. It hurt to walk, and get up from the chair. Not now, I received my order and am back on track. I'm on the way out for my 30 minute walk!!! Thank you Andrew Lessman, and HSN	5	9/3/2010 9:30:21 PM
Amazing!	I bought this to help the circulation in my feet which have had a numb sensation for the last 3 years. I was constantly rubbing my feet trying to make them feel normal. After one week of taking Mr. Lessman's Circulation and Vein Support the numb sensation is gone and it is all due to Andrew's product. I would recommend that you give it a try if you have circulation problems.	5	8/29/2010 8:07:19 PM
AMAZING!!!	I had my doubts and for a year I had been experiencing heavy pain in my legs. I also have osteo-arthritis and anytime it would rain and days before it rained, my entire body would hurt. I've been taking these approximately a month now twice a day and it just dawned on me this week that I no longer have the pain. I don't have the daily leg pain (my job has me sitting for hours, hardly moving), and I no longer get the painful all over pain when it rains. This stuff is amazing! My plan was to start with these first based on the excellent reviews, then if they worked, I'd start going to other Andrew Lessman supplements and vitamins I can use. They definitely work! Not immediately but within 3-4 weeks you feel like you have a new body.	5	8/28/2010 4:59:52 AM
Excellent for my health issues	I find this is very helpful to me . I will keep on using it as does a good job of helping my circulation.	5	8/28/2010 3:00:16 AM
COULD NOT LIVE WITHOUT	My husband and I both have used vein and leg almot since Andrew came out with it. We love it we both taje two capsules a day and we are on auto ship. It helped me	I will purchase this product again, because it eliminated the swollen ankles I have been having for a long time.	5	8/22/2010 1:35:16 PM

Excellent!	I am 53 year old school teacher. At night I use to have pain in my legs. Standing all day and running all over the building. I saw Andrew Lessman on HSN and I had never seen him before. I decided to try these vitamins. Well, after 4 days the pain in my legs stopped. I only wish I had brought the product on the day when there was no shipping charge and when the larger amount was on flex pay. These are the best vitamins you can get. I have tried everything. They are worth the money.	5	8/18/2010 3:16:32 PM
Andrew Lessman circulation	I have had varicose veins for 15 years,I've tried lost of products I even seen doctors about the problem.But,I didn't want surgery or the needles .So,I have been using Andrew Lessman Circulation for about five weeks ,this product is a miracle for me ,my legs are more energized and clear from lumpy bulging veins.I do recommend this product highly.	5	8/18/2010 2:10:48 PM

After two days of taking these pills my circulation improved and my legs look healthy and I CAN SLEEP AT NIGHT WITHOUT HAVING TO WAKE UP AT NIGHT AND RUB MY LEGS! I feel great and I feel more confident wearing skirts and shorts. Thank You God for creating Andrew and for the wisdom and knowledge you have given him. And thank you Andrew for a wonderful product. Its my MIRACLE!!! words could never explain the heatfelt thanks I feel for this. Thank you again Andrew Lessman,you help lengthening my life.	5	8/5/2010 9:32:58 PM
Great for my legs!	I've been using this product for years! It's absolutely wonderful! I'm a technology trainer and I'm standing on my feet for 4 hours straight on most weekdays. I've been doing this for 20 years! This supplement keeps my legs from swelling. It also prevents me from getting varicose veins. My sisters and cousins are starting to get those. I'm 47 and I'm still being complimented on my nice legs!	5	8/5/2010 7:50:00 PM

Necessary for Daily Health	I would encourage anyone with unsightly enlarged veins and capillaries to give this product the acid test. It really works!!!! All my bulging veins shrink to a normal size, after using the CVS supplement--even after a strenuous workout! Spider veins receded, too. Besides the vanity issue, this stuff helps me keep my allergies and digestive problems in check. And I have more endurance, I think, as a result of this wonderful product. Nearly everyone should try Circulation and Vein Support. Great way to save money at the Doctor, too.	5	8/4/2010 10:19:24 PM
amazing	I was diagnosed with venous insufficiency - (leg discoloration associated with veins not getting the blood pumped back to the heart correctly). my leg was a darkened black and blue color around the lower ankle area)- i was waiting for my appointment with my foot doctor - i decided to try this vitamin - well, the results were amazing - it helped with the discoloration by 80% in just five days and continues to assist in my leg discoloration clear up and feeling- I showed the Doctor the vitamin and he said to continue to take it - in conjunction with my treatment of compression stockings and a compression pump for my leg. In essence, this vitamin is assisting in the circulation of blood in my veins and does what it describes.	5	8/4/2010 4:13:51 PM

BOUGHT FOR A FRIEND	GOOD RESULTS	5	7/31/2010 1:41:06 AM
Wonderful Relief	I am a nurse and on my feet a lot. I have venous stasis in my legs, and this product has greatly relieved the discomfort in my legs. My legs do not feel so heavy. At first, I was doubtful, but on recommendation from a friend who uses this product, I stuck with it. I am so glad I did!	5	7/29/2010 4:46:33 PM
Really noticed a difference!	I tried these because I have lymphedema and my legs are always swollen and discolored with blistering. I tried these a few months ago and was pleased with the results, less blistering, smoother skin, less swelling. I ran out and didn't order for a while and really could tell the difference in my legs. I would recommend them to anyone with lower leg swelling and discomfort.	5	7/28/2010 9:55:52 PM
I noticed a huge difference	I won't go without these again. I had run out and wanted to wait for a sale on item or shipping. I noticed my legs cramped more and just didn't feel right without these. I found both sale and free shipping.	5	7/28/2010 4:31:56 AM
Wouldnt' be without!	Absolutely love them! Andrew's products DELIVER!	5	7/27/2010 11:34:50 AM
improvement	I had been having problems with extreme bruising and black and blue marks. To the point if I grabbed a doorhandle too firmly it would break a blood vessel in my hand or fingers. That problem no longer exists for me. I had bruised my arm and I thought it was never going to heal up. but in a week with this supplement it's all cleared up. I am totally amazed. I didn't expect that result from this product at all. And it happened so quickly after I started taking it. Thank you for this product.	5	7/26/2010 9:46:54 PM

circulation and vein	this product seems to reduce the swelling in my wife's legs. the doctor she has does not believe that the product will help. the prescribed medicine has never helped. i got on the internet at 2:am with her problem and they said the swelling of her leg's is caused by poor blood flow. this product shows a good improvement. the legs is reducing in the swelling. thank you joyce and mike kelly	5	7/22/2010 8:59:33 PM

Circulation	A few years ago I used to fly a lot for my job. My legs and ankles would swell even though I would get up and walk around the plane. I tried the vein support and could not believe how it helped. I haven't taken it for quite a while and decided to use it again. I am not disappointed. A great product.	5	7/22/2010 12:24:08 AM

This product changed my husband's life	Several years ago, my husband began taking Andrew Lessman's Circulation and Vein Support because he was having pains in the calves of his legs and it became difficult for him to walk. His doctor told him he had poor circulations in his legs. He decided to try Circulation and Vein Support. What a difference! The calves of his legs do not bother him at all now. This product made a real difference in my husband's quality of life. Thank you Andrew!	5	7/19/2010 4:37:03 PM
I always keep them on hand.	Have been using over a year and feel like they are helping. I'm 65 and have minor leg problems.	5	7/19/2010 12:04:50 AM
Healthy Legs in Miami	I've purchased this time and again and I love this product. I don't experience the pain that I used to. It took approximately 1 week to have some pain relief. Thank you Dr. Lessman!	5	7/18/2010 3:03:44 PM
Most Excellent Product	I just re ordered two more bottles of Vein	5	7/18/2010 1:59:59 PM
circulation and vein support for healthy legs	I've been taking these for about a month now. and they helped my aching legs and swollen feet. So I ordered the 360 capsules. I am almost 49 and I started having trouble with my legs aching, restless leg syndrom and swollen feet, now my legs feel alot better.	5	7/17/2010 3:32:42 PM
If You Stand On Your Feet	If you have to stand on your feet for any length of time this is a must. If I do not take this my feet swell at least 1 1/2 times their normal size. It also stops my feet from tingling. How do I know, because I am a teacher and when I don't take it I suffer and I know why.	5	7/14/2010 4:43:41 AM
The Best of this type item	I have tried every brand on the Market over many years for legs. The Andrew Lessman brand has done the Job of Making my old legs feel pretty darn GOOD. I am 78 and still doing my treadmill 20mins-- 7 days a week. Thank you.	5	7/12/2010 5:07:39 AM

Amazing product, great quality and result	I'm a nurse and work 3 twelve hour shifts a week, and I'm standing and walking for majority of the shift. I'm only 23 but my legs will ache and swell slightly from all the standing and walking if I don't take two of these pills a day. I take them EVERYDAY and notice a huge difference if i don't take them. Even small veins are smaller and less noticeable. My mom now takes them and notices a big difference when she stops. She suffers from varicose, spider veins - which I noticed do look better and less noticeable! Amazing! Her restless legs at night is also relieved with this wonderful supplement. I can't say enough about this quality product. I am so fortunate to have found Andrew Lessman products at a young age, so that I can continue to be as healthy as possible with his products and have beautiful legs :) I also take multiple other supplements and vitamins of his and love them all. Thank you Andrew Lessman!!! Love, an RN	5	7/12/2010 2:52:43 AM
Product works well	Since I started taking this product the swelling around my ankles has gone down and my legs and ankles are the shapely size they used to be. I work standing and definitely feel the difference while taking this product. Thanks so much	5	7/11/2010 9:08:43 PM
love this product	I have been using vein support for over a year now and don't want to be without. I have PAD and would get terrible cramping in the calves of my legs. I no longer have this problem. I will continue to use this product for as long as it helps me. Thanks Andrew.	5	7/10/2010 8:02:13 PM
Can't live without it!	Stopped taking for a while- pain in Achilles tendon, varicose vein pain all returned. Resumed taking Andrew's vein support pain gone. Want to exercise, want to be active and on your feet? Gotta have it!	5	7/9/2010 2:53:23 PM
QUESTION	Hi all Lessman fans. What great products! I have a question that I hope someone can answer. My mother is on a prescription blood thinner because of blood clots in her legs. Is there anyone out there who is in the same position who takes this supplement successfully? I have purchased it for myself but I would love to share it with my mom. Thanks in advance, Susan	5	7/9/2010 2:45:31 PM
I'm Showing My Pretty Legs Again	Andrew, your products are God sent. I have been praying for months that God helped me to stop buying pretty shoes if I can;t wear them. Last month my prays were answered when I turned on HSN and you were advertising the Circulation & Vein Support for Healthy Legs. I've been telling everyone that I can now wear sandals again. No Problem.	5	7/9/2010 3:31:38 AM
Awesomely good	I am in early 40 female and have some varicose vein issues with legs. Circulation and Vein Support for healthy legs vitamins are a must daily regiment for me as they really work to ease on legs pains and much reduce swollen legs throughout a day. I take 2 capsules a day and strongly recommend the product for people with issues with varicose vein, leg swollen and/or leg pains.	5	7/7/2010 4:34:57 PM
Love it!!!	I was skeptical... I am a natural cynic and did not believe this would actually work but, I was having such problems with my legs and feet that I was desperate enough to try the product. This is the first Andrew Lessman product I have ever tried but, I love this product so much I am now taking other products of his with great results. Last summer I worked a seasonal job outside where I was on my feet. It was total torture and my legs were very swollen the entire 6 weeks I was working. This summer I had been taking this product for a couple months before I started my seasonal job and let me tell you... my feet never hurt.. my legs never hurt... I was amazed!! I also have less swelling in my legs and veins that were starting to pop out a little have lessened dramatically. I am totally sold on this. I say give it a try and see how it works for you... you have nothing to lose but, so much to gain.	5	7/7/2010 7:32:58 AM

This work's great for the circulation - no more problems with swollen feet or legs. Thank you Andrew - we absolutely love you!!!! Keep up the great work for bringing us wonderful products that make our lives so much better.	5	7/3/2010 7:05:43 PM
Love this product	I could give it 10 stars. After having a heaviness and aching in my left leg, it is gone. I literally can "feel" the blood moving through my leg at last. The veins are also less visible on both legs. It's a miracle that I'll keep buying.	5	7/2/2010 5:08:57 AM
It works	I have been bothered by the fact my right leg swells everyday. My doctor is unconcerned and says it's age related, but I don't like it. I tried this supplement and it works, but honestly I take more than 2 a day- I take 3 pills twice a day. I can really tell when I need to take my second dose because I feel the skin on my leg getting tight and I know it's swelling. Thanks for a great product.	5	7/1/2010 7:52:15 PM
Love this product!	I took this product for about a year but then ran out of pills and didn't order more. There was a noticeable difference in the swelling in my feet after I stopped taking them! So I ordered more, and my feet are better again! I'll make sure I don't run out again!	5	6/29/2010 11:53:26 PM
Cathy	I bought this product because I was suffering from leg cramps. They were so bad, that they were disturbing my sleep. Now, I hardly have any problems with leg cramps.	5	6/29/2010 9:05:50 PM
Works	I have very heavy legs and it appears that this helps with the aches and pains and the swollen ankles that poor circulation causes.	5	6/27/2010 5:06:04 PM
Say Goodbye to Foot Cramps!	I have been bothered with toe/foot muscle cramps	5	6/24/2010 8:07:13 PM
Godsend	I can't sleep without this product. My legs ache so bad without them. I really didn't believe they would work---Boy was I suprised. Now I would not be without them	5	6/24/2010 2:35:08 PM
Hopeful relief noticed in one week	Have been taking 2 per day for only one week now and have felt relief of pressure and pain in legs at end of the day. From a car accident have had knee replacement plus one ankle frozen with bone graft and pins. I remain hopeful that this supplement will bring much needed pain management with greater circulation and less swelling too. I am pleased, Andrew, and thank you so much!!	5	6/24/2010 2:17:16 PM
Best Product of its Kind	This is the only product I know of that really works on keeping the swelling down in the ankles, especially in warm weather when feet have a tendency to swell. I have also used it when travelling and and walking around a lot. Can't do without it.	5	6/24/2010 8:10:01 AM
Amazing!!!	I've used these pills for almost 2 years now and wouldn't trade them for anything. My leg cramps are few and far in between and they make my legs a lot less achy. They are amazing. Thank you for another great product Andrew!!!	5	6/23/2010 5:35:00 PM
Love This Product. I couldn't believe the results.	My legs always fall asleep at night and wake me up several times a night. I thought that I would give Andrew Lessman Circulation and Vein Support a try. I take 3 capsuls in the evening and I am sleeping great. No more waking up to numb legs. Thank You Andrew I Love you.	5	6/23/2010 5:21:28 PM

Helping with my depression also	This is very strange! I have suffered with depression for many years, On many different antidepressants none of which have helped much... My legs were always feeling heavy and was making me very tired and I could not stand or walk for long. After just taking these circulation pills (2 a day) for 3 days I am feeling so much better with my depression, and am now motivated to do these things I have not done in years. My legs are also getting much better also, i don't know what is going on but these pills must be helping getting the circulation and oxygen to my brain and all over my body. I am so happy now and just wait till my Dr hears about this!! Great product. I am buying the largest bottle next time. Thank you so much Mr. Lessman and HSN for offering such a great product.. David	5	6/23/2010 5:50:03 AM
Circulation	I recently been buying Andrew Lessman's vitamins and other products and I love all of them. The circulation capsules keep my legs from getting tired. I had quite a time with blood clots and this product has really helped me. I just love everything that has Andrew's name on it. I will continue to buy his products, for one thing he explains every product and he is such an honest man.	5	6/23/2010 1:45:16 AM
AMAZING CAPSULES	I run around with my 15 month old baby all day. I truly do not think I could do it without Andrew's Capsules. They are so amazing and help me to get around and manage daily. You miss a day of your vitamins you miss ALOT! Your body will remind you.	5	6/22/2010 12:43:08 PM
"WONDERFUL"	I have a PORT WINE STAIN birthmark on the back left leg from my toes to my butt. Port wine stain birthmarks are vascular all my life, I am in my forties I always saw in that leg all the green vascular veins right thru my skin I am fair skinned. Had to use Lydi O'leary covermark just to conceal the redness people do stare. Was checked through out my life specialist, vascular doctors they told me that I would always have to watch for swollen ankles, pain, cramps, etc. I tried this only five days ago and the popped large vascular veins on my leg have gone down. My leg is the best I ever seen it in my life. Believe me this is working for me. Maybe it was made for me. Thanks, Andrew. (100 stars)	5	6/21/2010 5:10:45 PM
Circulation	Cannot be without it - my legs twitch all night if I do not have it. This is a must have.	5	6/21/2010 4:57:06 PM
Vein Support for healthy legs	I've been taking Andrew Lessman Vitamins for over two months now and I love them....this particular one is great if you're on your feet all day...I have varicose veins and used to get leg cramps in the middle of the nite....I no longer get them...I would recommend these for sure...I plan on taking them forever....	5	6/20/2010 3:53:43 PM
Helps a lot!	My husband was often having the creepy crawly feeling in his legs at bedtime. He started taking this supplement from Andrew 3 weeks ago and the last 10 days hasn't felt one episode and has no foot pain when getting out of bed in the morning.	5	6/19/2010 3:08:07 PM
i have legs again	I repurchased circulation and vein support and after two days my legs felt like I was twenty five again. Thank you Andrew and HSN for offering this product. My legs are not feeling heavy and do not get tired.	5	6/19/2010 12:48:07 PM
Vein	My Wife Ann works at her job sitting at long periods of time. Her ankles and calves would swell . Since she has been taking these supplements this problem has been totally eliminated.	5	6/19/2010 1:11:25 AM
MY mom loves this !!	I purchased this for my mom who always has swollen, aching feet and legs. She always had varicose from all the long standing and other rigorous leg work. She is 82 and had to use a cane since the Knees kept giving out. Called her up after a month and she said the swelling is down and she does not get swelling and cramping in her legs anymore. Thank you Andrew.	5	6/18/2010 10:57:26 PM

Can not be with out this capsule!!	I went with out this for a week and could hardly get out of bed and started back on it along with my current medication bingo I was up walking again. I cannot explain this but if it works don't fix it right?	5	6/18/2010 12:51:17 PM
Suluone	I was having problems with my lower legs. I had pains and leg cramps and I have been on this fitamin for a couple of months now and the pains are totally gone and so are the cramps.	5	6/18/2010 12:30:18 PM
Can't believe...what a miracle	I have been taking this for a couple of years...one a day. Was going to give up because I had soo much leg pain. I couldn't sleep. Legs would just throb all day and nite. I read one review that said she takes 3 per day.I started 3 a day. No more pain. Went from 10 in pain to maybe a 1. I have tears just writing this. Thank you Andrew. PS I also have Fibro.	5	6/17/2010 4:44:54 PM
Great product!	I have been using this product for a few month's and have had great success! My job consists of mostly sitting...i was having a lot of ankle swelling...after starting this I had results in less than a week! I think this is a great product! Don't ever want to be without this!	5	6/13/2010 1:39:19 PM
ANKLES NOT SWELLING ANYMORE	This product is easy on my stomach, and my ankles look normal!! I take several different blood pressure meds which caused them to swell all the time. I am so happy that Andrew's product has more than counteracted this! Also, I have noticed my nails are much stronger - perhaps the silicone in this product. It's in his Healthy Hair, Skin and Nails, but I don't take that, altho I do take biotin and MSM from Walmart. They don't sell silicone, and am pleasantly surprised I am getting it in this product and it works!!!	5	6/13/2010 6:24:54 AM
I can sleep again!	I have had a problem with a varicose vein in my leg that is extremely painful. The deep throbbing pain made for many sleepless nights. I tried my first capsule after a late supper and my leg sort of cramped, immediately. I lied down and there WAS NO THROBBING PAIN. I slept so hard that the alarm clock woke me up! I took another capsule and went to work. Though my varicose vein was/is still there - the deep throbbing pain is gone. WOW. A month has past, I sleep better and have less pain than prior this product. I do not want to go w/out so I am ordering another large size bottle while on sale.	5	6/10/2010 11:13:10 PM
Jackie from Cincinnati	I don't have leg pains and charlie horses any more. I take several of andrew lessman products, and every one of them do exactly what he says they will do. The prices and the quality are unbeatable. Truly a man of integrity, and I hope your products will forever be around for generations to come. Thank you hsn for being the market and support by which I was introduced to this great man.	5	6/10/2010 8:19:11 AM
What a difference!	I have used this product for about five years, it keeps my legs from swelling when I have to sit for a long time. I can't do without it.!!	5	6/8/2010 5:40:09 PM
No Pain anymore	This product has help me very much. I have no more pain or swelling in my legs. I feel alot better. Thank you Andrew for this product and other products that you have brought to HSN. DONNA	5	6/8/2010 5:08:35 PM

I try to get up and move around each hour to do what I can and I believe my Circulation and Vein Support helps out too!	5	6/7/2010 5:56:28 AM
Amazing Results	Amazed to find that one little pill can do so much. Not only do my legs feel better during the day, I don't have any 'restless' leg syndrome at night AND this is the bonus....my spider veins are fading. Like I said - Amazing!	5	6/5/2010 5:13:05 PM

AMAZING product!!!	I am a high school teacher and am on my feet all day long. I've had severe varicose veins most of my adult life, and have struggled with leg swelling for over 30 years. It used to be almost impossible for me to get my shoes on in the morning due to swollen feet. After two weeks of taking 3 capsules a day in the morning of this product, NO...MORE...leg swelling!!! You are listening to a skeptic no more...I have been using it for over a year now. Please try this product. You will NOT be sorry!	5	6/4/2010 5:13:00 PM
Excellent Product	I have been using this product for several years and I wouldn't be without it. My job has me on my feet every day for long hours and my legs used to feel very heavy and ache. Since I have been using this product I have not had the achiness and my spider veins do not hurt as much.	5	6/2/2010 12:07:36 AM

creative	I can't live without these vitamins. When I am out I can tell. They really work with the circulation of your blood running through your veins.I don't have to stand up and wait for the blood to go down to my legs before I can start to walk. Keep up the good work Andrew	5	5/20/2010 3:59:14 PM
Excellent Product	Rhis supplement, in conjunction with my physician-prescribed Rx, taken daily helps eliminate the cramping and extreme tiredness in my legs with any kind of exercise. I make sure I never run out of these capsules.	5	5/20/2010 10:40:22 AM
Great stuff Andrew	I was having so much trouble with wrestless leg syndrome and couldn't sleep and my legs would knot up and get cramps. I have been using this product for several years and panic if I run out. I hope you never get rid of this product. I know it has made my life so much better and I can now do things I couldn't before and sleep thru the nite without thrashing my legs anymore. Thanks so much for your great products and dedication to bring us the best products.	5	5/20/2010 12:31:21 AM
Worked for my leg problems	I bought these as a recommendation from a coworker and I'm not disappointed. My legs were feeling bloated and tired and achy at the end of the day, but not after two weeks of this product use. I must say I think they are very expensive for a nonprescription product.	5	5/20/2010 12:29:08 AM
GOOD DR REPORT	My doctor can't believe how good my circulation is for my age, 67. So with exercise and healthy eating I'm doing pretty good.	5	5/19/2010 10:21:49 PM
Great product	I have a condition in my legs that cause them to swell easily.I take this prOduct along wit my medication and it really helps keep the swelling in my lower legs in check. My vascular Dr. and I both give this product of Andrew's glowing remarks. I have taken this product ever since Andrew developed it for us. I wouldn't be with out it Andrew Thank you.You are the real deal!!!	5	5/19/2010 7:54:28 PM

these are great	I use all these vitamins-happy w/them all!	5	5/19/2010 6:29:10 PM

WOW	I was really skeptical at first but have been watching for months and decided to try them since NOTHING else I have tried has worked for me within 2 days I felt a HUGE difference and now I am back to normal with my regular exercise and all!!! WOO HOO thanks Andrew	5	5/19/2010 3:29:47 PM
Wonderful product	My husband is a chef, and loves this product!	5	5/16/2010 2:36:31 PM
EXCELLENT	I would get leg pain especially at night. As soon as I started taking these capsules my pain was gone. I couldn't believe it. So I ordered the largest configuration. Didn't want to be without it ever.	5	5/15/2010 7:00:59 PM
Wonderful!!!	Just tried this for the first time and all I have to say is WOW! I have trouble with swelling in my left foot and while taking this vitamin I didn't have that problem. Since I do not take prescription pain relievers or over the counter ones for every ache and pain I experience, I really couldn't believe any vitamin could relieve this problem, but it did. Also, I really noticed that my energy levels were very high while taking, my skin became very smooth and once I ran out of the vitamin about a week ago that all changed in a bad way. Can't explain it, but all I know is that I just reordered another supply with express delivery and will not be without ever again. So anyone who is THINKING about purchasing this . . . don't hesitate . . . take it from a skeptic THIS PRODUCT REALLY DELIVERS!!!!	5	5/6/2010 12:57:20 PM
Seems to help!	I'm on my feet 15+ hours at work a day. Flight Attendant. Helps alot. I will also say to a previous review that had lots of leg cramps after starting this. Then I mentioned this to a pilot once and he said, eat a banana. I started to look at all my vitamins and diet and saw that I did not have hardly any potassium in it. Added a potassium pill daily and stopped the cramps the first day and ever since. I thought it might be this pill but it was lack of potassium, I believe. Would be nice to add potassium in your vitamins or in this.	5	5/6/2010 3:27:57 AM
Excellent	I have water on the knee and joint pain from doing track and field when I was younger and my legs very often feel heavy like they are weighing me down since I hit 35 so I thought I would give this a shot because trust Andrew Lessman and I really had nothing to lose, it either helped or it didn't, and to my astonishment within the first 3 days the joint pain is gone and the sluggishness has vanished, than you Andrew, you are a God -send.	5	4/29/2010 3:56:26 AM
Smaller Legs	If you ladies and gentlemen out there have not tried this, I would highly recommend that you do! My legs used to hold water and swell but now with this product my legs are actually slimmer thighs and all. Plus they do not hurt like they used to at night. I am a thin person but still had swelling problems and this product has really worked for me. FYI if two capsules do not give results wanted try three as I have, they work great, I take them at night after dinner.	5	4/28/2010 12:03:16 AM
Just in time	I am on medication which makes my ankles swell. It only gets worse as the weather gets warm. I happened to see this product and ordered it hoping it would help me through the summer months. After about a week, I have noticed that my ankles still swell a little, but will return to their normal size after only a few minutes of elevation. I am waiting to see how well this works when the weather gets really hot, but I suspect Andrew has me hooked on another of his vitamins.	5	4/24/2010 3:33:47 PM
excellent product	The quality of this product is great. I recently noticed swelling in my lower legs at the end of the workday. I agree with another viewer about the amount of swelling in the extremities and the amount of swelling other parts of the body may experience. This products worked right away. I also cut down my salt intake and increased my exercise since I believe those options are essential as well. My regret is I only ordered 30 capsules. I have to reorder. thanks Andrew	5	4/23/2010 4:46:01 PM
It works	I have been using this only for less than two weeks but I feel the difference. My legs do not ache as much at the end of the day as it used to. I am well pleased.	5	4/21/2010 1:18:10 PM

INCREDIBLE Product	Thank you Andrew! I have suffered for several years with swelling of my ankles and had even given up wearing crop pants and dresses because of it. After two days of taking the vein support, my ankles are beautiful, absolutely no swelling! This stuff is amazing. I am signing up for auto ship if it is available!	5	4/20/2010 11:36:03 AM

Bye Bye Edema	Thank you Andrew Lessman for a product specifically made for the legs. I had continued problems with swelling and edema, and this product reversed the problem quickly. It's so nice to be able to fit into my shoes consistently, and maintain it throughout the day. My work requires that I stand most of the day, and I've also had problems with leg and foot pain. This product is such a relief!	5	4/11/2010 9:53:06 PM
LOVE this product!!!	I am in my late 40s, and now that I have discovered Andrew Lessman's vitamins and minerals, I am a new person physically. THE MIRACLE VITAMIN FOR LEG HEAVINESS/PAIN	These vitamins are so effective I had immediate relief in my legs the first time I took them and continue to have results. I also ordered them for my daughter who is on her feet alot and they help her to. We no longer have that heavy feeling in our legs and our restless leg syndrome has gone away. I would highly recommend them. I never plan to be without them.	5	4/10/2010 5:54:38 AM
I Feel Young Again.....	Thanks to Andrew and with the help of many of his supplements, including the Circulation and Vein Support. I no longer experience the chronic aching and discomfort that was also disrupting my sleep. Since I started taking these several years ago I've noticed a huge improvement and relief . Works great	This is my second order. Wouldn't be without it.	5	4/9/2010 2:38:04 AM
Great Product!!!	I was very skeptical about the claims of this product, but decided to give it a try. After 3-4 days I had a noticeable decrease in the pain and swelling of my legs. I could tell a difference the days I forgot to take it. I only ordered a 30 day supply to start and that was a mistake. From now on, I will order the large one. I don't want to run out again.	5	4/9/2010 2:28:24 AM
You have to take care of yourself	I love all Andrew Lessman products. I was recently separated from the "stash" due to a suddden move. Now all my things are finally here and I feel great again. Do it for yourself.	5	4/5/2010 8:26:27 PM
5 stars from diabetic Mom	I bought these for my Mom. She has been a diabetic for years. As she ages she has been complaining more and more about her feet and legs. After taking these pills for a couple of months she said her leg cramps have stopped, the pain while walking stairs has stopped, and her feet seemed to ache less. I'm so pleased to buy a product that works. Thanks Andrew!	5	4/2/2010 4:07:16 AM

Legs that last.	Andrew Lessman's Circulation and Vein Support is an all-natural botanical blend of potent Bioflavonoids designed to support the health of the circulatory system, particularly the challenged veins and capillaries in peoples legs. This product has been in use by my Mother for over a Year now and it has done it's job well. My Mother suffers from poor leg circulation and this has been a blessing for her, She can't do with out this in her daily medication supplement. I had her take it to her Doctor whom has been taking care of her Varicose Vein problem and he assure her it was safe to take. If you know of any one who has circulatory Leg problems have them give this a try. Also look at HSN.COM or it's T.V. Show of your local or cable channel and look for the Andrew Lessman Specials. I quit smoking 4 months ago after smoking for 43 years. I will not be without this! Thanks Andrew.	5	2/16/2010 12:03:55 AM

Very pleased shopper	<p>Being that I had the Gastric Bypass surgery 5 years ago, I continually take B-12, Calcium, and Iron pills daily. But my legs are always so heavy and the pain is deep, especially during menstrual cycles. I am only 39 years of age, a Size 14, and very active -- yet my outer thigh area and lower calves were always hurting.</p> <p>After taking this product for one week, the pain has disappeared! I can get up off the couch without hearing the Ughh sound escape me. My legs feel light and energized from sun up to sun down. My physician will be recommending this product to other patients. I have recommended it to many of my friends. I was very impressed & had no idea the results would be so positive. Thank you. The sales presentation & testimonials hooked me & am so glad I made the call.</p>	5	2/15/2010 6:42:03 PM

This stuff works	I don't have swollen legs or feet or veins. I had one sore big toe. I can't wear heels and all shoes hurt. Thongs, Ugg boots, ballet flats, tennis shoes, all hurt my toe. It's been a year or two since it started hurting. Glucosamine hasn't helped. I took this product for 2 days and realized my toe wasn't hurting. I never thought it would help my toe but it's been a week and it barely hurts. I am flexing it in surprise right now. This is an amazing product.	5	2/2/2010 1:53:12 AM

Excellent product	I have found that this product is very necessary for people like me who are on their feet all the time. My circulation in my legs is always better when I am on Andrews Circulation and vein support, no swelling at the ankles and minimum spider veins on my feet and legs. I would highly encourage anyone who is in a job that requires a lengthy time on their feet to buy this product. I have been on it for years I know it works. Circulation and Vein Support Great Product!	I have seen definite results since using the circulation and vein support capsules . I sit at a desk and am on the phone 7 hours a day and prior to using these capsules , I would find my ankles to be swollen at the end of the day. Not anymore! I come home and there is very little or in most cases no swelling since using these capsules. I would most definitely recommend this product . The dosage instructions say you can take 2 a day. I take one capsule in the morning before work and one capsule when I get home. Thanks to Andrew & HSN for carrying this great product. Ill be ordering more!	5	12/15/2009 5:18:00 AM
amazing product	I am a teacher and on my feet most of the day. I have suffered from heredity varicose and spider veins since my early 20's, and now in my 50's have the added weight and swelling that just make it worse. I read up on the ingredients in this product and read many of the reviews, and decided to give it a try. I was not disappointed. After about three weeks, the constant swelling, which would not even be alleviated by raising my legs up when I got home from work, is completely gone! In fact, I noticed that in tying my shoes, even my feet are less swollen. Even the varicose veins have calmed down and are much less noticeable. I do not get jumpy legs at night anymore, which mostly must have been from the swelling. Thanks for such a great product. I will be putting this on automatic reorder the next time it is offered.	5	12/10/2009 7:52:51 AM
What a Difference...	In my legs. Small spider veins have significantly diminished. I also had pain and cramps in my legs and that's all gone.Love, Love Love!	5	12/9/2009 6:55:47 AM
fabulous	this has helped my legs so much, they no longer fill like logs below my knees. they would swell everyday,Dr checked my heart to insure everything was pumping and it was howeve it appears gravity was working against me on my legs. i have worked for 37 years, majority of the time standing, now i am sitting and thats when the pain began. this is truly a wonderful product. the pain is gone they even look good again. thanks Andrew	5	12/8/2009 10:24:00 PM

Great product!!!!!!!	I get leg, feet and toe cramps that are unreal pain and last for hours sometimes.. I still get a cramp once in a while but they are very mild when I take Andrew Lessman Circulation and Vein Support for Healthy Legs. I was out of the product for a few weeks and the severe cramps came back. I do not ever want to be with out it again. Thanks Andrew for the product that relieves my cramps!	5	11/26/2009 5:29:37 AM
Helps my Peripheral Neuropathy!	I have peripheral neuropathy and I tried this and WOW what a difference it makes in the amount of pain I feel in my legs and feet. I know it is helping because when I miss a day I feel the difference. My legs hurt and feel heavy all night if I don't take it. I will never not take it again. Thank you Andrew for relieving my pain without giving me a drug!	5	11/19/2009 3:14:07 AM
bionic legs	I bought this for my mom, she is a 71 year old retired nurse and her legs have bothered her for years and since she has been taking this she feels great. She doesn't worry about how far she has to park from the store.	5	11/18/2009 12:01:54 AM
Legs do not hurt.	Works very well. I am RN who is very particular about her vitamins, minerals and such. I do not stand as much, but even sitting my legs would ache and burn. With this product they do not. Thanks.	5	11/16/2009 10:36:07 PM
It really works	I started using this product and within a month I realized I had stopped complaining about my legs feeling so tired and heavy. I will not be without this product or any of my other Andrew Lessman products. Thank you Andrew.	5	11/15/2009 6:04:21 AM
Thank You !	Testimony: Today I went to the Mall-several stores, Grocery shopping & to a music store all in heels ! I did this with very little pain. I've been using this product for only 2 months but I knew within a week that I've found something that works. I've suffered for about 20 years of very swollen feet/ankles/legs & daily leg cramps. (I don't know the reason of my condition, I have a small frame and not overweight). This product has helped a great deal. I still have some swelling/ aches/ heaviness but nothing like before. Oh yeah ONLY 2 mild leg cramp episodes. Thank you ! Thank you !	5	11/14/2009 5:31:32 PM
Peripheral Vein Thrombosis - PVT	I suffered swelling and pain in my left ankle due to diagnosed PVT. Apparently, the valve at the ankle can "give out" and quit functioning. Without this controlled valve, the blood flows both directions creating blood clots and inflammation. I ordered this product hoping it would help bolster the functioning of my veins and give me relief. I am happy to report that taking 2 pills a day began to help right away. I no longer suffer swelling, pain or "heavy leg syndrome." (I can also avoid vein-stripping surgery and that is definitely a plus!) I now walk at least 2 miles a day and have lost 20 pounds in 12 weeks. I am a 57 year old female.	5	11/13/2009 2:41:00 AM
Fantastic	I recently ran out of Circulation and Vein Support and by the time my reorder arrived, I had been without it for a week. What a difference in my mobility and fluid retention. This product is amazing. I've been using it for almost two years. I won't be without it again!!!	5	11/6/2009 5:03:06 PM
No more heavy feeling in my calves...	I love this product; my legs were feeling so heavy until I started taking it.	5	11/4/2009 8:32:33 PM
Great	I have been taking this for a few years. Before starting this, my legs would get a jittery feeling whenever sitting or sleeping. I know medical claims can't be made, but my legs can stay still and not feel like that any more. For whatever reason, it works.	5	11/1/2009 2:14:59 PM
Circulation and vein support	All your vitamins is the best on this world I love it thank you Andrew Lessman for all your product.duda	5	10/27/2009 9:00:27 PM
GREAT	I have been using these supplements for about 2 weeks now and have seen a tremendous improvement in my lower legs. I have had an issue for the past 5 years or so with swelling in my lower legs, one leg more than the other. There has been an amazing change in my legs. I will take these until the day I die - just love them.	5	10/24/2009 3:51:07 AM

good product!!!!!!!!!!!!	Andrew, This email is to thank you. I live very close to your plant. So, I guess I am saying I am your neighbor. I bought this product several months ago and left it sitting in the med. cabinet. I went to the doctor and got no help for my legs (I even have puffiness under my knee). Needless to say my legs were not feeling very good. Then, when you were on HSN this last time I remember I had bought this product several months ago. I have taken it every day since, and it least my legs do not hurt like they did. I have gotten so much more help from you then my doctor. Thank you. If you note I said they sat for several months. If this would have been another brand I probably would have thrown them away. I trust what you say about your products. I do not say that lightly. Keep-up the great job.	5	10/24/2009 1:44:06 AM
WONDERFUL	I will never be without these, ever. Wonderful!!!! I did not know how well they worked until I was without them. I am a Flight Attendant	5	10/20/2009 8:20:17 PM
Love it! it works!	Within two weeks I experienced relief from the pain of the varicose veins in my legs. It also diminished the appearance of the spider veins. I encourage everyone to try it.	5	10/17/2009 1:37:54 AM
WOW!	The only thing I regret is not ordering this product sooner. :(Awesome results! No more time consuming nail salons plus have better hair and skin. You've helped me save so much money and be real. THANK YOU SO MUCH ANDREW!	5	10/15/2009 2:36:52 AM
This really works!	This helps my legs to not feel as tired after a long day of walking. I stopped taking it for a couple of weeks and really noticed a difference. Thank you Andrew!	5	10/14/2009 6:29:47 AM
ANOTHER AMAZING PRODUCT FROM ANDREW	ANDREW, I EXPECT NOTHING LESS AND YOU DELIVER NOTHING LESS, THIS PRODUCT HAS MADE SUCH A DIFFERENCE IN MY LEGS. I FEEL SO FORTUNATE THAT I HAVE YOU ON HSN,AND EVEN WHEN YOU'RE NOT THERE WE CAN ORDER ANYTIME, BUT STILL LOVE YOUR VISITS , I LEARN SO MUCH, EVERY SINGLE PRODUCT I HAVE IS OUTSTANDING, THE TIME AND THE RESEARCH YOU PUT INTO EACH PRODUCT, GOD BLESS YOU ANDREW, WHAT WOULD WE DO WITHOUT YOU! I MEAN IT!! YOU SHOULD BE ON OPRAH OR DR OZ, BUT I' M AFRAID THEY WOULD TAKE YOU AWAY FROM HSN, YOUR THE BEST!!	5	10/12/2009 4:23:42 PM
GloriaPA	I have been taking Andrew's Circulation and Vein Support for Healthy Legs since he first brought it to HSN. I have to say that it is EXCELLENT. I ran out one time and I noticed an immediate difference but once my vitamins came and I started to take them I had no problems. No swelling in my legs. I never want to be with out this product. This is definitely a 5 star product. Thank you Andrew.	5	10/12/2009 1:32:32 AM
ANDREW YOU ROCK!!!!	I have had problems with SEVERE swelling in my legs for over 10 years. I have a job where I am on my feet for most of an 8 hour shift. My legs would be so huge at the end of the day I literally have had to peel my jeans off my legs. The impressions of the seams would be left on my legs. And they are not skinny leg jeans either! I would wake up in the middle of the night with leg cramps. I have had myriad blood tests, an ultrasound, an EKG and 2 MRIs on my heart. The diagnosis is: I'm healthy! Doctor told me to go get compression stockings. I have been using this product for a month now and the swelling is markedly reduced. Even after working 12 to 16 hours, I am not peeling my jeans off my legs like before, and I feel healthier and more energetic. No more night time leg cramps either. Thank you so very much. ANDREW YOU ROCK!!!	5	10/11/2009 9:02:09 PM
love this product!	I suffer from restless leg syndrome (RLS). My doctor gave me a sample of Mirapex. I read the side effects and decided not to take it. So instead I tried this product. It actually works great, I don't like to be without. I wish it would be on autoship!	5	10/11/2009 4:08:59 PM
Outstanding product	I took these first and within a week I saw results of reduced swelling. My wife tried them next with the same results. Within a month I noticed the ugly brown spots we called liver spots started to peel off similar to the way a sun-burn would peel and the remainder faded away. These spots were not sun burns and I had had them for a year or better. Great results, far better than I expected.	5	10/11/2009 5:17:01 AM

No pain...lots of gain	Don't ask me why, but with all the AL vitamins I was taking, I thought I can do without Circ and Vein for a while. I hadn't had the restless leg syndrome that would creep up on me unexpectedly until I stopped taking Circ and Vein. There you go...won't be without this product. Thanks, as always, Andrew.	5	10/11/2009 2:52:36 AM
Great Product!	I sit long hours at the computer. Doctor says walk around every hour but I do not. Have taken this product now for years and WILL NOT be without it. Works great!	5	10/10/2009 8:20:27 PM
I LOVE IT!!!!!!!!!!!!	I usually wont write e review but when it comes to this product I just had to. My job requires me to be on my feet for at least 8 hours a day without sitting down and most of the time I'm not standing or walking I'm running.When I was younger it was'nt a problem but over the years I have noticed my legs swelling up , feeling tired, and at one point I felt a sharp pain in my leg. It was so sharp I had to sit down and message my leg to ease the pain even though sitting down interfered with my job. The pain felt like a pintched nerve. When I first started to use this product I hoped it would help with the swelling and tired feeling I had, and it did. What I did not expect was the sharp pain in my leg to disappear too! I was so pleasantly surprised I went off it for awhile to see if my pain would return and it did.Since then I have been taking it everyday and do not have any more swelling or pain in my legs! I will never stop taking this product , ever. THANK YOU ANDREW!!!!!!!!!!!!	5	10/10/2009 2:38:59 AM
This is a GREAT product!	I have used Andrew's products for years and this one is GREAT! I have superficial phelbitis and my leg and ankle swell with a lot of pain. I started taking this product 2 years ago and it is wonderful! No swelling, no pain. If you are "on the fence" about this product, just try it and see what it does for you! Thank you Andrew for your wonderful products!	5	10/7/2009 12:56:40 PM
Excellent product	As a nurse I know medicines. This is an outstanding supplement that provides comfort, increased circulation without side effects of a chemical product. Have recommend this supplement to many. Thank you Andrew	5	10/6/2009 11:59:49 PM
Great Help!	I bought Andrew Lessman's Circulation and Vein Support formula because I had been having problems with pitting edema from the mid-shin area to my ankles for a long time. I spoke to my doctor about this problem on a number of occasions and he did not offer much help. I work in a factory and have to stand for long periods of time in the same place during the workday. My legs always ached and were swollen most of the time. I have been taking this formula for 2-3 months now and have noticed a significant difference! My legs no longer are swollen at the end of the workday and they do not ache. Thank God for this wonderful product!!! Marlene F Schmitt West Winfield	5	10/6/2009 9:19:27 PM

Great Legs	Will not do without this product. I ran out and did not order more...AT FIRST Then I noticed my legs were tired, heavy feeling and swollen. That was all it took I ordered and got back on it. The best !!!	5	10/6/2009 12:52:25 AM

Less swelling in legs and feet	I am a nurse and walk on hard floors 8-10 hrs a day 5 days a week. The added bonus and I am not sure how, I also have a back problem with bulging discs, spinal stenosis, and osteoarthritis and it also diminishes the back pain. There has been a few times that I have run out for a week and back pain increases. I also take 2capsules two times a day. If anyone is on your feet for hours at a time don't think about it just buy and try.	5	9/30/2009 1:22:10 PM

You won't be sorry.	A fellow employee tried this product and recommended it to me. We are on our feet all day long and sometimes my legs and feet would ache at the end of the day. I decided to try it and was glad I did. After a few days of using this product I felt great. Try it for yourself. You won't be sorry.	5	9/23/2009 1:42:31 AM
I will not be without this	I have had problem with circulation in my legs for years. I am in my early 40's and it is just something that I have inherited. I was having pain in my legs every evening from sitting at a desk all day. My ankles and lower legs would swell a little as well. Now that I take the circulation and vein support the swelling is gone and I don't have that ongoing pain in my legs that I use to have. I definitely notice when I do not take the Circulation and Vein Support. Andrew please do not stop making this product. God bless you! Jen	5	9/19/2009 2:23:21 PM

Works GREAT - no more night leg cramps	I had been bothered by leg cramps at night and it would constantly keep me awake. I tried the circulation & vein support and within about 1 week, I was noticing that I wasn't being awakened 2 or 3 times a night by leg cramps, charlie horses, etc. I ran out for about a week and right away the leg cramps came back and I was stiff in the morning. I won't run out in the future because an great nights sleep is so important to waking up refreshed every morning. Thanks Andrew - you rock!	5	9/15/2009 2:12:46 PM
Excellent	This stuff is phenominal. I have PAD and only have one artery flowing to foot. Took this to my DR who said nothing in it would hurt me. After a few days use, the swelling in my legs and ankles have gone down and the pain has lessened tremendously. I recommend this to anyone with circulation problems. It has been a Godsend to me.	5	9/9/2009 1:55:46 PM

LOTS OF RELIEF	<p>This product has given me lots of relief from swelling and tingling and leg cramps.</p> <p>I need five capsules a day to achieve maximum results, but worth the cost.</p> <p>Swelling is reduced and the heavy feeling in the legs with numbness is much less.</p> <p>I highly recommend this product. It is worth the cost, but if it does not seem like it is working for you, try adding one more pill a day for a few days, and if still no results add another.</p> <p>I need five capsules, three at night and two in the morning.</p> <p>Very effective for me.</p>	5	9/6/2009 2:00:52 AM
EXCELLENT	<p>I bought this for my best friends husband, he has Muscular Dystrophy. (did I spell that right) I managed to take some myself, I have Osteo-Arthritis, and I had no pain. I am getting the big bottle for myself. Wonderful!!</p>	5	9/2/2009 6:53:52 AM
Love this product!	<p>I can actually tell the difference in my legs and feet when I take this product. This product works with the first one you take, you do not have to take for days before you notice the improvement. I am 54 and starting working at a company that requires I stand and was ready to give up due the problems in my legs. Little did I know relief was just in this product until I actually decided to try it.</p>	5	8/30/2009 3:10:17 PM

Real differerce	<p>I see a great difference in my eyes getting tired legs. BUT I was disappointed in the video. I told someone they could learn about it, BUT IT WAS ALL SALES PITCH AND NOT ANY INFORMATION ABOUT THE PRODUCT.</p>	5	8/22/2009 3:12:13 AM
Wow, what a difference	<p>I was experiencing pain in my knees for months after some very hard landscaping projects I was working on. After 2 days, my pain was basically gone. After a couple of weeks, no pain at all. Wow!</p>	5	8/17/2009 2:56:55 AM
Andrew Lessman Circulation and Vein Support Legs	<p>I bought this to try for myself because my legs tire easily. After I received the product, I remembered my mom(in her 60's) was suffering from painful leg cramps that woke her up nightly. I gave her the bottle to try and she has is extrememly happy with the product. She has not suffered any leg cramps ever since taking this product. This product really works!! It's pricey though, so I'm going to wait for the next sale before purchasing some for myself and refilling for mom. Thanks Andrew!!</p>	5	8/13/2009 8:15:47 PM
Amazing Product	<p>I'm a full time server who works long days on my feet and I have started noticing my veins have been showing on my legs more and more and Ive been really worried about it but since I have been taking this product I have noticed they are starting to fade. I will defenitly purchase more!</p>	5	8/1/2009 3:01:40 AM
I wondered....	<p>After reading the post below, I had to comment. I began taking these about a week ago. All I've been thinking about is sex, not normally me. Now I think I know why. Thank's for the bonus Andrew!</p>	5	7/30/2009 2:22:31 PM
Way Beyond My Hopes!!	<p>At age 23, the few varicose veins I've been ignoring suddenly had the company of spider veins, and new, swollen blue veins rising ominously to the surface of my thighs, poking out largely behind the knees...</p> <p>My legs feel great now! One week at 3 pills per day (280lbs), and all the major veins are receding/fading, the forming ones disappeared, and the spider veins are breaking up. Also, my missing libido has SHOT THROUGH THE ROOF.</p> <p>I love this product!! Buy it, and don't ever run out.</p>	5	7/29/2009 6:48:43 PM

Great Stuff-Like Many	I added these to my 10-plus other Lessman product regiment and they really work and help. The only negative is the cost-I'm about \$800 in vitamin debt. I try to walk about 8 miles a day and things. I started to get "like" a heavy leg and since taking these-GONE> I really love Andrew's products and he has a customer for life in me. Thanks Again A+++++	5	7/23/2009 2:27:43 AM
Magnifying Glass Couldn't Find them Either!	I'm a 3rd grade teacher with small spider veins above my knees from pushing desks around and from standing. Y'all, I've ONLY BEEN TAKING THIS, 2/day, FOR 3 DAYS AND my spider veins are gone! I even went so far as to grab a magnifying glass to try to find them! I did. THEY ARE GONE! Andrew says, "If you give your body what it needs, you'll be amazed at how it responds." I'm proof. THIS PRODUCT WORKS! Thank you Andrew for making yet another exceptional product! I will NEVER stop taking this.	5	7/19/2009 2:27:18 PM

leg cramps	Finally writing my review. Both my sister and I love this product. I saves me from leg/foot cramps I get at night. It works. When I feel a cramp coming, I hobble to the kitchen and take two or three. The cramp goes away. Anyone who has leg or foot cramps knows the pain. My sister is a waitress also loves the product. If only one product of Andrew's lived in my house it would be the leg circulation. I DO NOT runout of this product.	5	7/11/2009 2:32:01 AM
It really works	I had restless legs and mild neuropathy so bad,I could not sit and watch a program unless my legs were constantly moving--I was miserable and in pain. I saw these and gave them a try,thank goodness I did!!! Within 5 days of taking 2 capsules a day--BIG improvement!! I have been taking them for 2 years now--1 a day for the last year. Thank you Andrew for this product--it really does what it professes!!!	5	7/9/2009 3:41:09 AM

Varicose Vein NO more.	I purchase this product for my mother. whom has been struggling with varicose veins and circulation for so long. She suffer much and I was just devastated having to watch her suffer so. I purchase this wonderful miracle capsules and she has reported how wonderful she feels today. She worries that this pills are to expensive, and I just remained her that if they do the trick for her I don't mind at all, so as long as she is well I'm happy. Thank you Andrew. Sincerely: Reynaldo Salcedo	5	6/30/2009 7:00:44 AM

Proof of excellence after surgery	I have been taking this product for several years to help with my HUGE varicose veins and spider veins. I recently ran out about two weeks after having knee ligament/tendon replacement. My leg, from just above the knee to the tips of my toes, was unbelievably swollen. It was only after borrowing some from a friend did the swelling go down. I won't run out again!!!	5	6/22/2009 11:56:17 PM
Help for spider veins	I had a lot of spider veins. I said had because after taking this formula for 30 days along with riding my indoor bike 2 times a week for 45 minutes; there is a marked difference in the number of spider veins. Please do not change this formula or its strength. I noticed the COQ10 formula changed so did the effectiveness.	5	5/6/2009 2:59:30 AM
cannot live without	I had to stop my Circulation & Vein Support because I was having surgery. After two weeks without it I am having swelling & burning in my feet & legs. If you think it's not helping just do without it a few weeks & you'll see the difference. I will always take this product.	5	5/3/2009 10:58:39 PM
Cured my problem!	I went to the doctor complaining of heavy legs, swollen ankles and more. Had this problem for years and it is getting worse. After much testing he told me that I need to live with it and take a cholesterol pill which has bad side effects. I started taking this pill instead. I take 2 at night and one in the morning, and my problem is gone! I know this is not medicine, but obviously Andrew's pills have contributed to my "wellness".	5	5/1/2009 10:00:48 PM
Best Product Ever	I know I can't make medical claims, but I had such terrible knee and leg pain before using this product that I couldn't hardly finish my daily walk. Now I can do 8 laps at the Mall and more. I rest better at night and I think Andrew sure has a winner in this one.	5	4/23/2009 3:38:31 PM
Good Product that really works!	I bought this product for my sis & I to help with circulation and sever swelling. My sister started having problems with severe swelling a little over a month ago when first purchased. She took this product 1-2 pills to start, then a total of 3 a day, and the swelling was alleviated within about 2-3 wks. Now she uses it daily, and I use this product to help me when I am sitting or standing for long periods of time. Please put this product on autoship! We love it Andrew!	5	4/15/2009 4:32:08 AM
SO THANKFUL	I recently went through several blood tests and leg ultrasounds to see what was causing me so much pain and swelling in my legs to find out that my blood flow through the veins is not working very well and DVT. Andrew this has been a life saver to me. Leg swelling and pain have now both gone and my DR. says your supplements are the finest he has seen. That means so much and I am so thankful the pain and swelling have gone away. Thank You so much. Will not be without this product.	5	4/11/2009 1:29:53 AM
Works	Just like all of Andrews products this one works like it should! I work at a pharmacy and recommend all of my guests to HSN to buy Andrews products.	5	4/6/2009 12:13:55 AM
Very pleased	I would be very disappointed if I ran out of these. With lots of circulation problems because of venous and arterial surgeries, my legs are so much better on this supplemental. My legs used to swell so much and now they are actually not swelling at all. I have very bad circulation in my left leg, again due to surgery, but now both legs are almost equal. Left calf used to be 2-3 inches larger than my right and now you would never know - Totally amazing! Please don't let me run out of this!	5	3/14/2009 10:47:24 PM
Cant live without	I am only 28 and my legs would hurt so bad from walking around so much. I also started investing in compression stockings which were terrible to try and put on and I would always end up getting a run in them even before getting them half way on. I also was starting to develop noticeable large blue veins and some varicose veins ones as well. Since starting this product no more pain, no more blue veins, and the two varicose veins I have are getting smaller and smaller. Miracle!	5	2/18/2009 11:10:29 PM

Wow a pleasant suprise !	I had a knee injury and broken blood vessels and was unsure about giving this product a try. I am very glad I did. I would definately reccommend !	5	2/3/2009 6:58:24 AM
Solved my leg problems	This product has strengthened the walls of my leg veins. I had swollen ankles & broken spider veins for years, plus I have already had 3 varicose vein surgeries on my right leg. Now I take these 2-3X/day, and the swelling stays gone,& I've quit getting new spider veins! I spent a fortune on laser and saline spider vein removal, & they kept coming back. Now I don't get them! I am so impressed with all of Andrew's products...the highest quality you can buy, & they improve your quality of life!	5	1/25/2009 7:04:30 AM
Great Product!	Being a Pet Sitter on my feet a lot. I suffer from swollen legs, ankles & feet. I've been taking these circulation vitamins for about a year and now I feel great! I also fly a lot where my legs get very swollen. Taking circulation vitamins really helps my legs. I feel so much better taking this product. Im happy and now my dogs are happy. Thank you for this awesome product!	5	1/13/2009 4:07:34 AM
WOULDN'T BE WITHOUT VEIN SUPPORT	Suffered fr. swollen legs, ankles & feet every summer since my 1st pregnancy 38 yrs ago.I think I saw Andrew's 1st presentation of this product. Decided to try to avoid diuretics my MD prescribed. Its amazing. Brilliant. My summer sandals fit, can walk in hot weather. Love, Love, Love. in my experience may take 10 days to take effect. Take the whole bottle before you give up. Ordered a large bottle today be prepared when warm weather comes to S. Calif. I would rather be caught without mascara!	5	1/11/2009 3:44:38 AM
lorelei	I have been plagued by swelling of the feet and ankles for years. I noticed a huge difference by the second day. I have other medical issues,but these are wonderful, for relieving pressure and that tight, heaviness in your legs. I have recommended them to several ladies with the same problems.That pounding ache is virtually gone now. Love 'em!!	5	1/8/2009 5:05:06 AM
Helps a lot!	I am on my feet as a teacher every day. I have noticed a difference in how my feet feel after work. These supplements do not totally eliminate achy feet and legs, but they sure have helped lessen my pain and achiness immensely. I take 2 per day, or if I anticipate standing more than usual, when I have to perform in my choir, I take an extra capsule.	5	1/8/2009 1:46:05 AM
EXCELLENT PRODUCT	Excellent product. After researching this compound I found it on HSN. I have used this for several years, it may take a week or two to notice the difference but it works. I am a nurse that uses this daily. I have also have several other nurses who have started using this product. This is one of my favorite Andrew product!	5	1/8/2009 1:16:05 AM
Excellent Product	This product is wonderful I keep it on hand at all times. You never have to worry about swollen ankles and legs and I never have tired legs.	5	12/30/2008 12:41:38 AM
THANK YOU	I am a nurse and I gotta say, anyone who is on their feet for hours should take this. I am in my mid 30's had a nasty scare with a DVT, which turned out to be negative. I immediatly took my doctors advice, take something with dosimin. Your body will thank you for this.	5	11/26/2008 6:44:15 AM
Believer!	I work sometimes 10 hours a day on the computer. I have a very busy desk, but try to get up and stretch or move around by moving my files cabinets across the room! At the end of the day my ankles and feet were so swollen that they actually hurt when I walked. I'm not in the medical field so I'm not making any claims, but I ordered these and within the end of the week I could tell the difference. They just don't swell. I'm actually feeling more energetic.	5	10/27/2008 6:16:33 PM
"Miracle Pill"	I purchased these for my father in law because he was having trouble with pain in his legs. After 2 1/2 weeks he sees a total difference. He loves them and he is not one to take any medications. Thanks Andrew!	5	9/25/2008 3:04:43 AM

awesome	I gave this to my father because his ankles and feet had been becoming increasingly swollen. I, myself am an Andrew Lessman supplement addict and take practically everything he makes!!! My father was VERY skeptical and said he'd try them. After 3 weeks he asked me to reorder them because he doesn't want to be without them. I can't believe his ankles look great- hardly any swelling!!! This product works!!!	5	9/14/2008 9:10:36 PM
Really works	I have been taking these capsules for about 3 weeks now and I have noticed a considerable difference. Especially when it is hot and humid. I work in NYC and do a lot of standing and walking, especially on the subways. Summer in NY is brutal on your legs. My legs were always swollen. Since I have taken Andrew's product my legs feel and look great. The swollen has gone down considerably. Thank you Andrew and HSN.	5	8/21/2008 1:14:52 PM
Gets the Job Done!	Excellent vitamins. I've been taking these circulation vitamins for about 3 weeks. The varicose veins on my legs have greatly diminished. I can stand and walk more hours without my legs feeling heavy. At first I'd have a headache after taking the vitamins but then I began taking them with food and PLENTY of water and no more headaches.	5	8/16/2008 4:57:48 PM
Even Helps Diabetic Nerve Pain!	I have used this product for a while now and although I was skeptical at first, it really does alleviate pain in my legs and especially my feet!! Although diabetic symptoms like this will not ever go away completely, now that my feet do not hurt so much all the time, I am able to walk more and sleep better, improving my health overall and I am so glad I found it!!	5	7/25/2008 12:07:56 PM
AWESOME - UNBELIEVABLE	I HAVE RLS AND EVEN THOUGH I AM 40 YEARS YOUNG IT WAS A PROBLEM SITTING FOR LONG PERIODS OF TIME. AFTER TAKING THESE JUST FOR A COUPLE OF DAYS I NOTICED A MAJOR CHANGE. NOW I MAKE SURE I HAVE A MAJOR SUPPLY SO I NEVER RUN OUT.	5	7/15/2008 2:17:46 AM
I was skeptical but this really made a difference!	This product really helps my legs. I have MS and my legs usually feel so tired and heavy at the end of the day. This product has really helped to lessen that feeling. I had been told by an acupuncturist that I had poor circulation, and I really think this helps. I know that Andrew and HSN can't make any claims about any medical condition, but I really am thankful for this and so many of Andrew's other products. I really do trust him.	5	6/1/2008 12:36:42 PM
I'm A Believer Too!	I have RLS and fibromyalgia and my legs bother me so much at night they keep me awake. I have tried many things and heard Andrew's presentation and read the reviews and figured I had nothing to lose so I ordered these. For the first time in years my legs did not bother me. I decided to wait a few weeks after my initial order ran out to see if it was just a fluke-but the pain returned. I am re-ordering and hope these go on auto-ship. Thanks again HSN and Andrew for another great product!	5	5/28/2008 6:57:39 PM
I will never be without this product!	With each passing year, I buy more of Andrews products. Circulation and Vein Support is one I do not want to run out of. I sit most of the day for work and my legs would swell and hurt. This would make it hard to get up and get some exercise. When I take this product, my legs don't hurt or swell. I have since been walking for more and feeling great. Great product!	5	5/11/2008 2:16:38 AM
I'm a RN - enough said!	Some days I'm on my feet the entire 12 hr shift! No kidding. My lower legs would ache so bad afterwards I could hardly sleep and end up taking an analgesic for it. I gave this product a try and honestly, I was skeptical (but desperate). Boy, oh boy, was I surprised! Needless to say, I'm now a believer and a fan of Mr. Lessman. I'm now taking CoQ 10 among many other of his supplements. Thank you sooo much.	5	4/6/2008 3:33:41 AM
Great product	I was skeptical but bought this product & I'm glad I did. I always had swollen feet and ankles. No more. I've been taking this product for about 8 weeks. What a difference. I used to get horrible leg cramps at night. These are gone too. My son is studying to be a pharmacist; I told him about this product. He told me it has very high quality ingredients. He also said Andrew Lessman has an excellent reputation in the vitamin supplement industry.	5	4/4/2008 6:02:09 PM

No longer a skeptic	I work at a nat'l chain stores' dist ctr.I am on my feet for 12 hours per shift & my legs told me about it. After listening to Andrew's presentation several times, I decided to give it a try. WHAT A DIFFERENCE! Before, I'd get home and collapse on the couch. My legs ached-not a lot-enough that all I wanted to do was sit. This weekend, after 3 12-hour days, I had the energy to go into the basement and do a load of laundry! I even slept better because the achiness was not there to bother me.	5	2/18/2008 2:32:05 PM
Another great Product!	Yes it works and I've been reordering ever since I tried it the first time. Another great product to add to my other AL vitamins and supplements. Thanks Andrew.	5	12/28/2007 6:09:45 PM
It actually works!!	I am a teacher, so I stand a lot during the day. At 35, I was having swelling of feet, ankles, lower legs, and aches in my calf muscles. Saw this on TV and assumed like most pills, it was a gimmick. I started at two pills a day and saw some changes. So I tried 3 pills a day, and that is the key for me. No pain, no swelling. So low and behold, a supplement that actually does what it say it will! Now that I have this working is easier for me and I am a new fan of Andrew!	5	11/12/2007 3:28:28 PM
These are life savers.	I have been taking these for swelling in my feet and they worked so well that now my mom and sister take them too. My mom could not ever button a shirt without these and my sister has carpal tunnel and can't afford an operation so she takes these instead. Now she no longer wakes up with numbness in her hands.	5	10/30/2007 3:26:56 PM
This Really Works!!	I bought this for my hubby who has terrible fidgety restless legs during the night. After about the third night the shaking and restlessness stopped. I feel so much better for him knowing that he is getting a much better nights rest! Thank you for this product, now we can both get our zzzzzzzzzz's.	5	10/15/2007 2:55:27 AM
Can't Live Without This Product	I can't even begin to tell you what a difference this product has made in my life. My legs would swell and at the end of the day would feel incredibly heavy - often times even painful. In addition, I had these unsightly bulges towards the top of my legs, most likely varicose veins that were protruding. Within a matter of weeks after I started taking this product, each and every single one of the symptoms described above are now gone.	5	9/30/2007 5:41:02 PM
PLEASE LISTEN UP!	I've known Andrew's dedication to helping his family and others ever since he started, and have been taking many of his products for years. I have peripheral neuropathy, BUT with definite commitment to this product, I am now walking over 1 mile each day with my husband pain free! There are still some symptoms, but my doctors are thrilled with my success, and SO AM I! Please try this product! It is wonderful and may help you as it has me. I won't be without his vitamins, his sincerity.	5	9/28/2007 5:51:58 PM
Restless Leg Syndrome	I thought it was just my imagination, but THANK YOU ANDREW! I can sleep again. My legs are relaxed and not jumping anymore. Hooray.	5	9/28/2007 3:40:54 PM
Relief from Schamberg's Disease & Eczema	Schamberg's disease and eczema made my legs look awful. I started taking these along with Healthy Hair, Skin & Nails in June and my legs have improved 98%! I plan to take both products to my dermatologist in November. Hopefully, he will pass along the information to other patients. I just ordered two more bottles of each.	5	9/16/2007 1:42:40 PM
A spring in your step	I had been experiencing leg fatigue after working long hours in retail. I decided to try this product and it definitely makes a major difference. I first ordered the small bottle just to see what kind of results I would get and I didn't know how great it worked until I ran out. Now, I can't imagine being without it.	5	9/15/2007 1:03:40 AM
Exceptional Product!	Was a little skeptical but have arthritis and nothing else has seemed to be of much help in relieving the swelling, pain, and stiffness in my ankles and joints. After only 2 weeks - 2 capsules a day - I am almost completely pain free! What a blessing - my doctor said "just live with the pain, we all get old". I'm glad I didn't listen and took a chance on Andrew Lessman. Thank you from the bottom of my heart!	5	8/24/2007 3:52:17 PM

RLS now manageable	TRY THIS!I have had a severe form of (Primary Type) Restless Leg syndrome for over 15 years.I am a nutritionist and after starting to take this product for 14 days my symptoms improved about 30-40%. After being consistant for 4 months- I was almost symptom free-WOW! My previous symptom were tortorous and deprived me of sleep. This supplement should be in everyone's home even if you don't have RLS. I have recommended to 100's of clients of mine and they tell me the same thing. They LOVE IT!	5	8/13/2007 5:58:01 AM
nothing could be better	What a difference this has made. I stand alot of my day and found this product to take care of all issues I was having with my legs. I gave to my mom who is 81.She has severe blood clots in her legs, even so she started almost running up and down her stairs! Andrew you are my superman!!! THANK YOU	5	7/31/2007 11:55:35 PM
I'M A BELIEVER!!!!	Andrew delivers what he says about his products! I am so thankful for a super product that really works in a short amount of time! I have pain in my leg due to sports injury and never believed in surgery. Lived with pain for the longest time till Andrew invented this and it helps every pain in my legs. I have been taking it for a year and even though I don't take them religously, but it still works! I love it and thank you for the honesty, sincerity, and the valuable informations	5	7/16/2007 3:50:27 AM
THIS IS AMAZING!	My shoe size has gone down 1/2 size since I've been taking this product. I take 3 capsules once a day. My legs and feet are no longer puffy at the end of the day. I forgot to take them one day, and wondered why my legs felt so heavy--then it occured to me that I missed my dosage. This product really works.	5	7/15/2007 4:49:38 PM
outstanding	I used to have such leg and foot cramps especially at night. No more. I have not been without this and will not be .	5	7/10/2007 12:05:04 PM
Fabulous	This product is fabulous. It has been life changing for me in terms of providing my circulatory system, especially my legs, with the nutrients they need to look and feel good. I can't say enough about it, other than that I tried to order 360 caps today and was only able to order 60. Apparently, other people love it as much as I do, but I wish it were more available.	5	6/9/2007 6:32:10 PM
WONDERFUL! WONDERFUL! WONDERFUL	I love, love, love this product. I had started having problems with circulation in my legs with breakage in some of the small capillaries. The veins are starting to fade and the circulation which was leaving my skin blotchy is going away. Thank You Andrew.....Marilyn	5	5/17/2007 1:11:38 AM
can't live without it	I love this product I'm on my feet all day and I can tell the difference when I run out. I take it twice a day especially when I know I'm going to be standing and walking alot on concrete. I ran out and my feet and legs hurt and anklers are swollen due to my job. Trust me this really helps even my doctor approves it. No leg cramps. I take potasium each because I don't get it in the foods I eat.	5	5/12/2007 11:06:18 AM
Why did I wait so long?	I finally ordered this product in March. I started taking it right away. After 2 days the pian in my legs was gone. Most importantly to me, the ugly veins in my legs improved in appearance about 80% in just 14 days. Even my doctor could not believe the difference in the look of my veins in such a short time. Thanks Andrew, I hope to take this always!	5	4/13/2007 12:10:07 AM
this is a must have	I have a problem with cramps mostly in my toes/feet and sometimes legs at night while sleeping. Taking this product completely eliminated the cramps. I ran out and yes, sure enough, the cramps are back. I'm reordering and will not be without it again.	5	3/31/2007 3:10:04 PM
The absolute best !	This product is miraculous! I cannot believe the relief I got (restless legs,) after taking 2 pills! I kid you not! I was at the end of my rope, & thought I was going to have to take prescription meds. I happened upon Colleen & Andrew on HSN, & heard them discussing this product. I gave it a try, & it ranks right up there with the smartest things i've ever done! Thanks Andrew, for your great product! Your Hair, Skin, & Nails is awesome,too!	5	3/17/2007 1:11:03 PM

My husband and I won't be without it!	This has worked wonders for myself and my husband. I used to get leg cramps at night, often after wearing high heels, but this product takes care of the problem. My husband has terrible varicose veins and is undergoing laser surgery on his legs. He's had a lot of leg pain for several years, and this is the only thing that has provided relief. Even after he is done with his laser surgery (he only has had one leg done so far), he will continue taking this marvelous product.	5	3/16/2007 6:52:22 PM
I can finally sleep through the night!	I have RLS and have had problems falling asleep and staying asleep. After taking this for a few weeks, I have noticed I am finally able to stay asleep through the night and don't even have problems falling asleep anymore. I feel great in the morning after a full night's sleep. I couldn't believe this actually worked for me! It is definitely worth a try. I highly recommend it.	5	2/24/2007 3:57:55 AM
Great Product	Ordered this product hoping it would do just what I had purchased it for. I would have trouble with my legs being still while I was watching tv or laying in bed, after just a few days of using these vitamins I can actually sit still and watch tv. I ordered the small size only because I was not sure if it worked, I will be re-ordering very soon. Thank you Andrew.	5	2/21/2007 8:01:01 PM
Definite Difference	The circulation in my legs was not good. I have had a clerical job my whole life and I'm 53. I took a second job catering and on my feet alot. My legs throbbed with any kind of activity. I walked around like I was 90. I took this product and felt wonderful results the next day. Now it is the first thing I grab for in the morning because each day just gets better and better. All of Andrews products do just as they say. Trust in Him for all your supplemental needs, you won't be sorry.	5	1/15/2007 7:24:18 PM
VERY EFFECTIVE!!	I don't use this product but my mom has been using it with great success.I am shocked at how much the appearance of her legs have changed! She had bruised looking legs that were swollen and veiny, I would say the appearance of her legs are about 90% improved! AMAZING!	5	1/9/2007 4:22:02 PM
sleeping at last	This product helps me so much with my restless legs. I always knew I had poor circulation in my feet & hands, but when my legs started waking me up in the middle of the night, I thought I would give this product a try. I am SO GLAD I DID!! I can sleep thru the night and those little quivers I was having have ceased. It may not be for everyone, but it sure is for me!!	5	1/6/2007 4:52:12 PM
Just the Best!	After taking this, serious leg pain weakened and was gone in 3 days! After a week swelling was reducing that had not gone down after a car accident 3 years earlier. Gradually, swelling in both legs has reduced. Pain has only returned twice and lightly. Six months later major patches of varicose veins in my thighs were almost gone. Thank you for a great product!	5	1/3/2007 9:45:56 AM
oh my god!	this product works! Thank-you thank-you! I work at Lowes i merchandise there plants and there floor is awful pure cement! Well i don't have to worry about being to sore when i get off work thanks to these vitamins. one day i forgot to take them and OH MY GOD i was hurting so bad. I had no idea that these work as well as they do! Keep up the good work i have allot of his vitamins! Thankas~!	5	1/2/2007 3:29:49 AM
Absolutely Unbelievable!	I have only been taking these supplements for a couple of weeks and the change in my legs and feet is nothing short of miraculous. I had swollen feet, legs all the time. I had no idea why, as I am relatively young. Well my pain is gone, the swelling has never reappeared, and my legs don't get as tired during my long days. I will never stop taking them and plan on getting everything Andrew sells..His supplements are the best...simply amazing!	5	11/30/2006 4:58:41 AM

What a difference in my legs	I have been taking the Circulation & Vein support for quite some time, & am now taking the improved one. I had a fall down a flight of steps and had nerve damage, this product has made so that the feeling came back into my legs and feet. I also stand for long periods of time at work & no more swelling. I understand that we cannot make any medical claims but these vitamins have even amazed my doctor. I only take meds if it is absolutely necessary. Thank you Andrew!	5	11/29/2006 6:55:05 PM
These are the Best!!!!	This may sound hard to believe but I can feel a difference in my legs after the first dose of these wonderful pills!! My family has a history of severe varicose veins and I have had both sclerotherapy and a venus closure procedure. But guess what? My legs were still hurting with redness around the ankles and sensitivity to touch. The pain and uncomfortable feeling goes away with these pills! Please, please don't stop making them!!	5	10/16/2006 10:50:53 AM
It Works All Over!!!	I had a 360 count bottle given to me and WOW I noticed a difference in 4 days!!!! BTW people, Andrew always offers auto at his company directly!	5	9/30/2006 4:50:02 AM
Wonderful!!!	I recently bought this product for my 85-year old mother who couldn't even sleep at night because of the restless leg syndrome. Her poor legs are covered with horrible veins because she worked until she was 80 years old standing up. Just a week after she started taking this wondrous pills she doesn't have the tingling in her legs and can rest at night. She will never be without these pills as long as I live. Thank you so much	5	9/17/2006 4:16:44 AM
thrilled	I am so happy with this supplement. My legs feel infinitely better. I will be trying other products from this line.	5	8/28/2006 9:37:52 PM

Great product	I have had trouble with "restless legs" in the evening and night. Since taking this, the restless legs have stilled and I actually get a good night's sleep. I'm very happy with the results and will continue to order this product.	5	8/14/2006 2:31:42 PM
One of the best products offered by HSN	My Dad has had incredible results with this product - he and I highly recommend it!	5	8/1/2006 11:14:06 PM
The Best	I ordered the fist formula and now I am ordering the new improved formula. I cannot express strongly enough how wonderful it is to find a nutritional supplement that does what you say, Andrew. I have sold herbal products years ago and now I am disabled..I can walk except my feet swell so quickly after a day of shopping. This works. Yes, this is my opinion and not a medical statement. I am expressing my personal experience of taking this supplement and feeling the help to my legs.Pepelephew	5	7/31/2006 11:27:21 PM
Happy Legs in South Carolina	I have used this product for several months, the swelling in my legs and ankles are gone, When I would have a pedicure it would hurt when they rub my legs that is gone, I like this product so much that I have ordered it for my daughter and sent it to her I have also given it to my hair dresser and a travel friend of mine they to have problems with there legs and feet. The bottom part of my legs was red and warm before I started using this product and now they are back to a normal color I use several other products by Andrew and I have been very happy with all.	5	7/31/2006 6:24:11 PM
It's Good	Thank you HSN/Andrew Lessman,Just forgot to review, all of the vitamins I have received have all been great quality vitamins!	4	5/24/2019 6:07:18 PM
Better circulation	Notice less cramping of lower legs at night. Color better.	4	4/9/2019 3:12:50 PM
Helps	this has helped with the feeling in my left leg. This leg suffers with nerve damage from my back. Any help I am grateful for.	4	4/2/2019 5:31:06 AM
GREAT PRODUCT IF YOU HAVE TIRED LEGS!	i DIDN'T THINK IT WAS POSSIBLE FOR MY LEGS TO FEEL SO GOOD AFTER A LONG DAY, BUT THIS PRODUCT HAS REALLY MADE A DIFFERENCE. MY LEGS DON'T SWELL AS MUCH AS THEY USED TO.	4	3/28/2019 1:27:49 PM

very pleased with results	I have neuropathy in my feet that is very painful & causes large patches of painful red splotches on my lower legs. Also have blood clot in my lower left leg that has resulted in my skin to be very tight. After a couple of months of taking this product, I noticed that I have less pain in my feet, all of my sore red splotches have disappeared & the skin on my left leg has become more soft & flexible as before my blood clot. I reordered a year's supply & will continue to use this product!	4	2/15/2019 4:52:17 AM
Andrew lessman	Didn't work for me, I tried them, but with my other meds, gave stomach upset. Thanks again for your business. Sending product back.	4	2/5/2019 1:25:26 AM
Vein support helps me	Ive had bad veins for most of my life. Have ordered before and always seems to help.	4	2/2/2019 2:28:02 PM
Time will tell	Hopefully these will help my edema. A week is not long enough to say they help or a waste of money.	4	1/31/2019 11:56:27 PM
Love it.	If I stop taking it, then I notice it. It must be helping.	4	1/29/2019 4:47:21 PM
Vein Support and Circulation	Product helped leg cramps. Also aided energy levels.	4	1/29/2019 4:34:31 PM
Really helps with my condition!	Genetic lymphedema runs in my family. Circulation and vein support helps to keep my legs pliable, they are not as hard since I began using this product.	4	1/9/2019 2:16:29 PM
This wasn't for me	I'm sorry Mr. Lessman, but this product didn't do it for me, I've sent it back and was delighted that the refund was promptly taken care of. I use many of your product and this is the first time I sent anything back from your company.	4	11/12/2018 6:18:00 PM
Not sure	Well I am not sure that these are the reason my Charlie horses stopped but they did right after I started taking them so I am giving them credit for it.	4	9/21/2018 12:20:22 AM
Got legs	No complaint, hard to tell if helpful. My new sonogram of leg arteries shows all fine. I can't afford to order more products.	4	8/1/2018 9:39:13 PM
Circulation	Use daily w/gludicosemine. Have had leg & ankle seeking for many years. Believe less swelling since take but still there. Overall see and feel improvement.	4	7/27/2018 3:59:44 PM
Butcher's Broom was cut in half.	Works well for swelling. Doesn't do anything for discoloration. I have been taking this for over one year. I just re-ordered. Unfortunately, I missed the Today's Special. I have not started the reduced Butcher's Broom bottle yet. I hope it doesn't affect my future results.	4	7/26/2018 3:13:35 AM
Leg circulation	I am using this to try to strengthen my veins in my legs. I don't know how well it may be working because of carrying a lot of weight on my legs puts stress on my veins making them to pop discoloring my leg purplish the doctors say my legs can't reverse the color. So I am taking this so as not to make more veins to pop it seems to be working	4	7/26/2018 2:27:40 AM
Great product!	I have been using this product for years and swear by it! Worth a try!	4	4/9/2018 7:48:19 PM
Good Product	I've been taking this product for years. I noticed that it took away some discomfort I'd been feeling in my legs at night (mostly calf area), so I continued on just trusting and hoping it's doing what it's supposed to overall. By the way, I very highly recommend Ultimate Eye Support as well. Have been taking that for years, and my readers are far lower in magnification than they're supposed to be at my age.	4	2/11/2018 3:06:12 PM
helping	It has only been a week, and I believe it is helping my nerve pain in legs and feet. My husband had shingles in his legs several years ago and he also thinks it is helping. will re-order. thank you	4	2/3/2018 12:26:01 AM
Circulation pills	Have been taking the pills for a week and have noticed a slight improvement. Hopefully it will get better and if so I will reorder. Easy to swallow.	4	2/2/2018 9:11:44 PM

surprised	My husband has had a chronic poor leg circulation. His left ankle has been swollen twice the size of his right ankle. Our doctor has "sort" of ignored this condition. My husband developed a pain in his leg, behind the knee. I made an appointment for the doctor to look at it and hoping for a referral to a specialist. I remembered that quite some time ago I ordered a small bottle of Circulation and Vein support....He said he would try it. When I ordered it I was skeptical so we haven't used the pills. To make a long story short, we were so surprised to the response of the product. My husband's swelling in the ankle has gone down and his pain has stopped. He cancelled the doctor appointment. I wasn't pleased about that but it's his choice. Besides all the other vitamins that he takes from Andrew Lessman, these have become a nightly regiment. He takes 2 before going to bed and that seems to work. Now he won't be without them.	4	2/1/2018 5:16:22 AM
Skeptical	I was quite skeptical at first and suddenly I have realized that my ankles are NOT swelling and my legs are not throbbing. Nothing else has changed in my diet or routine other than taking these capsules for circulation and vein support. Only more time will continue to support.	4	12/5/2017 3:01:22 PM
NOTICEABLE IMPROVEMENT	My legs aren't cramping up as severely and as often every night.	4	11/2/2017 7:50:19 AM
Can't Really Tell	Once in a while, I take this when my legs hurt.	4	11/2/2017 12:48:58 AM
I can only hope these pills are working	All my sisters have bad veins. I am taking these pills faithfully, hoping that I won't be as bad. I did have two veins pop up on my foot recently, but they are almost back to normal. I never go to the Dr. so I am doing my part by taking vitamins.	4	10/22/2017 6:39:02 AM
Work	only problem is the bottles are getting smaller and so is the quantity-but the price is getting higher....	4	9/14/2017 9:21:42 PM
Good product	Have been taking about 6 months. Helps with heaviness in legs & restless legs. Not sure if it is all it is said to be to rave about but it does seem to help.	4	8/9/2017 2:51:49 PM
Relief	I have problems with my veins. I even had the greater saphalix vein removed. After procedure still had some discomfort. Have started using this product just a few days and the pain is gone. My feet are not swelling as much. Will continue with this product. Thanks Dr. Weissman	4	8/3/2017 1:19:57 PM
Have been using for since it was introduced	I stand on my feet all day (on a cement floor) and these seem to help my legs and reduce pain through the day. I can tell when I don't take them.	4	8/2/2017 10:11:44 PM
helps	I have Lupus and expreience problems with blood circulation to my fingers and toes. This product seems to help.	4	7/31/2017 4:05:09 PM
Helpful supplement	I purchased this specifically to help get my leg circulation in a healthy condition before my TKR surgery. I also took other supplements for the same reason. Surgery went well, my bruising was not as bad as normally happens, the leg itself felt good. I'd like to think this was a healthy contributing factor in my present good recovery .	4	7/7/2017 6:16:18 PM
Love love love this	This has helped with the achee feeling I get in my legs...appears to be calming the veins and opening the veins more. Recommended to a friend who has circulation problems. Told her this would help her out....she liked the idea.	4	6/16/2017 9:17:51 PM
Vein Support	Good product, would recommend.	4	6/3/2017 2:15:48 AM
Vein support	This is not a medical claim, but my knees feel so much better since taking the caps. I had bilateral knee replacement surgery March 2016 and still have tenderness, which the MD stated is due to "scar tissue" & healing process. My knees feel so much better, the tenderness is VERY minimal & I only take one daily instead of two due to the expense of product.	4	5/11/2017 7:35:19 AM
I can't live without them!! Literally !	They work !! My legs feel so much better with them then without them !!	4	4/30/2017 8:58:11 PM
Product works but.....	This product works. I have reordered this a few times. The cramps in my legs and feet have gone, but I am disappointed that now there are only 350 capsules, previously, I received 750 capsules for the same price, The price is now doubled. I do not know if I will be purchasing this product in the future. It has become quite expensive.	4	3/5/2017 3:57:43 AM

Hopefull	I just started using this product,soo I really can not say right now how it is working-as I need to use it for at least a month..Although I do hope the results are as other reviewer's claim..	4	2/20/2017 3:37:30 PM
Awesome product.	Can't say enough good things,about this product!	4	12/22/2016 3:05:46 PM
It Works!	I used to wake up in the night with leg cramps so bad I'd cry and the muscles would be sore for several days. Since using this Vein Support, the only time I've had a cramp is when I know I've allowed myself to become dehydrated. I think I had the early signs of restless leg syndrome but since using the Vein Support, I can relax and not feel the need to keep moving. Thanks Nessman! I use several of your products and haven't found anything bad about any of them.	4	12/9/2016 4:18:28 PM
Good Product, NO cushioning in Packaging	I love this supplement, it really helps my legs. However, these are mailed with absolutely no cushioning inside the bottle and none in the mailing box. An earlier order arrived with broken capsules and powder everywhere due to a simple lack of padding. These supplements aren't cheap but padding them for transit is an inexpensive and easy thing to do. Please upgrade your handling.	4	10/24/2016 7:36:26 PM
so far	so far I like only gave 4 because I just received and started using but I trust Andrew and all his products	4	10/22/2016 6:59:15 PM
aida	I rying the second time because I fill better and I want to triet more times to write a review later on	4	9/26/2016 4:52:38 PM
works great	like the idea behind this product	4	8/28/2016 7:28:54 PM
Did not work for mom	I love Andrews products I bought these for my mom who complia.mn she couldn't sleep at night due to pain in her legs. I was hoping these would work for her but they didn't. And this doesn't take away the fact that Andrews product are by far the best m. Love everything Andrew Lessman.	4	8/24/2016 2:48:08 PM
Good for achy knees	Am using these daily plus gym workouts twice a wk to help me lessen pain in my knees. I think I will need another bottle to be sure these vitamins are making s difference.	4	8/10/2016 9:57:37 PM
Vivacious Vein Caare	I purchased this product proactively as I started to notice a vein issue on one of my calves. Apparently this product does what it says; my veins have not become any worse. It is difficult to rate a medical product as there are so many variables but I would recommend giving this a try.	4	7/31/2016 12:53:46 AM
Just Started Using a Week Ago	I have not been using this product that long and yet I seem to be seeing some results in my legs. I am hoping to see some fading of some veins in my legs. I don't like to see any discoloration on my legs and I don't like any swelling, so I will continue to use this product because I do think that I will see further results. I am very pleased in the fact that I can tolerate the capsules. I have a very sensitive stomach.	4	7/30/2016 4:14:33 PM
Helps my legs	It is the only thing I have used since developing a blood clot in my right leg due to chemotherapy to help me. Good product.	4	7/29/2016 4:21:13 PM
New legs	I am 61 years old and have a lot of leg pain. I have only been using this product for one week but have noticed a marked difference. I still have leg pain but this is due to back issues. I also get Restless legs and this has helped. The most noticeable change so far is the appearance of my legs and hands. I have large veins that are puffy on hands and top of feet. I can't believe these puffy veins have decreased significantly in just a week. If this continues, I will never be without this product. I hope this helps someone make the decision to give this a try. I am anxious to see what continual use will do. My terrible legs are an embarrassment and this is doing something to their appearance. It must be doing good internally.	4	7/23/2016 5:21:31 PM
Good	I take one in am one in pm. The spider veins on my ankles were getting worse on just one. Now they're much better! My doctor told me there was nothing I could do, that my whole lower leg would turn black! Thankfully he was uninformed. Thank you Andrew.	4	7/18/2016 5:10:24 PM
Circulation Vein Support	It has been 3 weeks.....no change yet. I will give it more time.	4	5/20/2016 4:38:05 PM
Great product	I has notice some improvement in the swelling in my legs since I been taking this product. I will keep using it.	4	5/12/2016 6:16:03 PM

Working so far	I've only been taking these for a few days but my legs seems to have stopped bothering me at night and I'm going to sleep faster.	4	5/4/2016 1:38:54 PM
try it	I sometimes get what is called "restless leg" at night and this seems to help in not getting it as often. I also take it before working out in the mornings.	4	4/24/2016 1:49:16 PM
relieved	This is my second order. I let it run out and I could tell the difference. My feet were uncomfortable at night and would get hot and look red. I don't have this problem when I am taking this product.	4	4/10/2016 5:30:40 PM
HOPE FOR MY LEGS	I havn't used these long enough to rate the product. However, I read the ingredients and it appears they have everything I need to increase vein circulation. This is a quality product.	4	4/8/2016 5:42:22 AM
vein support	I have been taking these for a while, then ran out and had to wait a month. I feel generally better when I take them. I did not have any major issues with circulation but I did experience swelling of the hands and feet when the humidity and heat were high. I do see much less swelling even in the humidity in NC.	4	4/2/2016 3:32:03 PM
A-	Good Quality!	4	4/2/2016 12:21:10 AM
Time will tell if this works...	still waiting for results...legs & feet are swollen so much of the time, sure hope this helps!!	4	3/26/2016 1:29:59 PM
Good Product	This product appears to help with my foot/leg circulation as determined by faster growth in toe nails. I have not used this long enough to know for sure if taking this product one capsule a day helps with the strength of my legs yet. But so far, it shows promise that it has positive effect. I look forward to taking this product longer term - however, I no longer see this product on the website. Is it just temporarily out of stock or removed for good?.	4	3/20/2016 10:46:14 PM
Good supplement	This is a very good supplement with excellent ingredients. However, personally I didn't see any effects it had on my legs.	4	3/19/2016 3:42:45 PM
Just started	Just started taking. Have neuropathy so figured it surely can't hurt. Can tell difference, coloration has greatly improved, tingling has diminished some but too early to tell full results. Impressed	4	3/10/2016 4:22:59 PM
Works great	part of my daily regimen - no side effects	4	3/7/2016 12:30:07 PM
unsure	took these for about 2 weeks and started to feeling different after reading up i think some ingredient was throwing my thyroids off and i had to stop but my legs were feeling better immediately. I wish Andrew could speak on my theory because someone else said the same thing.	4	3/3/2016 1:39:54 AM
It REALLY Works	I suffer from spider and varicose veins. My legs would feel heavy and sometimes would just hurt so bad at the end of the day that I had a hard time sleeping. I've tried other brands and nothing worked. Until now, I started taking this supplement about a month ago and I cannot believe how well this has worked. I know this wasn't created to improve the visual appearance of my legs, but in my case I have noticed my spider and varicose veins have diminished in appearance, but this is my bonus. My legs don't hurt at the end of the day and are not swollen. I sleep better due to the lack of pain. I took a trip and forgot to pack this supplement and my legs started to bother me again and I finally realized it was because I wasn't taking these. I got home and started taking them again and it all got so much better again. I will do my best to ensure I never run out or forget these again.	4	2/27/2016 6:23:20 AM
Surprisingly	I am totally liking this new product for me. I think it's actually helping my pore leg circulation from an old injury.	4	2/17/2016 9:13:04 PM
I keep taking them	I am not sure if they are helping or not. I keep taking them though. I have some bad veins and also restless legs at night. I am afraid to stop taking them to see if they are really helping!!!	4	1/29/2016 11:58:56 PM
Actually worked for my legs	I can't say I would recommend the other supplements in this product line. But this one actually helped me regain relief in my legs and hands.	4	1/29/2016 8:35:00 AM
Still too soon	I purchased this product after reading the positive reviews. I am having vein surgery in a few seconds months and I hope this will help until I do. I got the largest bottle so that I can take them for a full year.	4	1/28/2016 11:25:09 PM

Good results/take it daily works for me	On my feet all day, this helps my tired legs & spider veins. i sometimes get leg cramps but when taking this product, I don't. Can't make medical claims as the say, but it works for me.	4	1/28/2016 2:16:50 PM

CIRCULATION	I USE "CIRCULATION AND VINE SUPPORT" BECAUSE I HAVE CIRCULATION PROBLEMS IN BOTH LEGS, BUT ESPECIALLY THE LEFT. .I FEEL THIS PRODUCT HELPS WITH THAT PROBLEM!!	4	12/16/2015 3:25:07 PM
good support	I enjoy this product my legs are stronger than before thank you	4	11/22/2015 2:34:01 AM
circulation and vein	I tried this product and could see the difference in the appearance of the veins in my left foot.also my left ankle would swell some but when taking this product it helped with that as well, I don't have hyper tension or diabetes but was told that I need to have A large vein in my left leg removed. Taking circulation and vein has made A difference in the way my leg looks and feels. It can be expensive because you have to take more than 1 capsule. I've had good results.	4	10/22/2015 7:49:52 PM
Circulation and Vein Support	I get these to take along with neuropathy pills I take. They seem to help reduce the swelling in my legs. .	4	10/20/2015 9:24:36 PM
It's ok	Can't see any differences	4	9/3/2015 4:10:14 PM

vein support for legs	works great and would recommend	4	8/18/2015 12:34:50 AM
I itially purchased a bottle for my mom...	and her vericose vein issues. She loves the stuff. I now want to try to see if this helps with small spider veins around my ankes and upper thigh. Too early to see if this will eliminate 'em, but I do notice my legs aren't so tired from working construction all day. I've always had "rugby" type legs so I wonder if these will help with swelling, or if I even have swelling issues..only time will tell.	4	7/29/2015 2:18:06 AM
Every little bit helps	I decided to reorder the circulation & vein support. My hubby is not a big supplement taker since he takes so many medications for heart & circulation issues. He doesn't mind taking these & It can't hurt to take something that benefits his body without side effects like his medications have. We don't take these in place of his meds but in addition to them.	4	7/21/2015 6:35:40 PM
Amazing...A daily MUST	I bought the largest bottle the first time and just bought my second bottle. I ran out for a week and won't do that again! I wanted to know if I would be able to tell that my circulation was worse when not taking it. Proven fact for me: Circulation and Vein Support improves your circulation. You will have less swelling and discomfort if you take this product. It is amazing.	4	7/4/2015 2:48:59 PM
Great!!	I bought these for my mom! She immediately said they stopped the pain in her legs! Would recommend to others!	4	5/22/2015 9:55:38 PM
Circulation support for healthy legs	I feel like this has helped my legs not feel as heavy after putting in 12hrs at the hospital	4	5/16/2015 5:13:18 PM
This product works.!!!!	I've only been taking these a short time, but have already seen less swelling in my legs and feet. I am so happy to have found this product and feel safe taking it. With no extra additives, you can feel secure knowing this is made with nature in mind. I plan to try other products by Dr. Lessman.	4	5/1/2015 2:05:20 PM
Circulation & vein support for healthy legs	I purchased these in combination with the Glucosomine pills. I didn't start to see a differance until my sixth day of taking these pills. The combination makes me extremly tired. But my pain has been alliviated from a 10 to a barely there 2. I get heart burn and these seem to cause more heart burn.	4	4/24/2015 4:43:13 PM
Won't be without it	I am a 60 year old active woman, and this product keeps my legs from becoming heavy and feeling tired at night. I experienced RLS for awhile, but that has stopped since taking 2 capsules a day. Love it!!	4	4/24/2015 1:51:28 PM
its helping	was very pleased to see that what they said does work - my legs are feeling better and with a job that you sit 8 hours out of the day you need some help - very happy to be taking these	4	4/22/2015 2:48:39 PM
great	I was having leg pains, since I had had surgery and they had removed some of my veins from my legs for my heart. Read reviews and then decided to try this. I can say how glad I did as I do not have the leg pains waking me up in the night and they do not bother me during the day like they were. would highly recommend anyone to give this a try if you are have problems with your legs.	4	4/20/2015 1:48:28 AM

Excellent	I have been taking lactic acid and potassium for swelling of my feet and legs for years. The swelling only got worse. Within one week of taking this circulation and vein support supplement the swelling has decreased tremendously . Thanks so much Andrew	4	4/19/2015 9:56:02 PM
WIFE WANTED TO TRY THIS!	Before retiring I drove a big rig and walking for about 14 hours four days a week and was in pain. These pills seem to help and when I retired I still use them only taking one a few days a week. Now my wife on her feet at the store she works at has been having trouble last couple months and ask me if I thought these pills helped. I told her it seem to so she started taking my pills four days ago just to see if anything helps. She just ask me to reorder for her so we will see it helps her. The doctor gave her pills but it hasn't helped so we will see.	4	4/14/2015 9:26:38 PM

Great	This does really seem to help but have only taken a short time.	4	2/19/2015 10:51:32 PM
The circulation support is awesome	i am so happy I ordered the circulation and vein support. Within 1 week I noticed a difference. My legs were in bad shape. My feet, ankles, and legs were so swollen I thought I was retaining a lot of water. I took water pills and I was still swollen. I decided to order this after watching your show and I could not believe how well this product worked. I bought the biggest bottle I could get and I am glad I did. I definitely recommend this product. My swelling went down and I feel so much better.	4	2/8/2015 11:24:11 PM
Great product	I bought this as TSV. I felt results within a few days. My legs used to feel heavy and painful after exercise. I can now keep walking and my legs feel normal and light. They used to feel like logs. I will purchase again.	4	2/7/2015 5:45:06 AM

Awesome	After only 2 weeks of using this product, I felt a noticeable difference to the extent that I purchased a bigger bottle.	4	1/30/2015 6:54:35 AM
very beneficial	I got this for my mom who is 82 years old. She is taking daily 1 capsule instead of 2. She is noticing the difference now. She used to get leg cramps at middle of the night. Thank you Andrew for wonderful product.	4	1/24/2015 6:20:50 PM

B+	Still waiting and watching too feel the effect.	4	11/9/2014 2:39:40 AM
Nice product	I bought these to share with my mom who is 89. Both of us have noticed our legs don't have that 'heavy' feeling, and I have noticed that I don't get as tired walking - the opposite is true! I feel energized and light-footed. Both of us will keep using this supplement.	4	11/6/2014 3:33:51 AM
Vein support	I have the bottle and still taking these pills, but I have found at least 10 empty capsules. They are still put together but empty inside. I cannot afford to buy more if there are empty capsules.Roselene KorkosSanta Clarita California	4	10/5/2014 7:35:38 PM
Swelling gone !!!	If your ankles swell if find that your legs feel a little tired at the end of the day. This is a must. Believe this or not but it has also helped in reducing my blood pressure.	4	9/25/2014 12:05:46 PM
Feels better	I have tried these supplements and I feel better when I take them. Not quite sure what is happening but my legs feel good. Very happy I tried this product.	4	9/13/2014 12:59:27 AM

Willing to try another bottle	I don't have huge problems with my legs, but after listening to Andrew say how nobody's lower legs are the same as they get older (I am 54 but did not have children, so don't have some of the "issues" women I know who have kids do), I thought, well, I do have some spider veins and my ankles swell when I am sitting with my feet on the floor rather than raised up. So I ordered the 60 capsules, to be able to take two per day and try it out. I haven't been taking them that long (and have missed some days). Don't see a difference in the spider veins as of yet, but I have noticed a decrease in the ankle swelling, so I have already ordered a second bottle.	4	8/29/2014 8:38:17 PM
Use every night!	I use to have a lot of leg cramps... but not when I take this. I do have a few varicose veins and I think that this have slowed them down! Thanks Andrew!!	4	8/23/2014 4:04:07 PM
Wonderful Product	I purchased this product for my dad as he has PAD. He's been taking this for approximately 2 weeks and he's noticed a remarkable difference. He stated thate his legs aren't as heavy and aren't hurting as much anymore. Can't wait until he's taking it for much longer and he's feeling much better.	4	8/14/2014 7:51:16 PM
Circulation Vein Support	Like the product but cannot afford.	4	8/11/2014 8:11:38 PM
vein support	Seems to be working.	4	8/8/2014 4:53:55 PM

Andrew's Circulation Vein Support Capsules	I have been using these vein support capsules for several years and they do work and help my legs, and the swelling. This is a great product for the legs especially if you stand a lot.	4	8/6/2014 2:14:52 PM

Good product	I have varicose veins. They cause me a lot of pain and discomfort. I really didn't think these capsules would help, but I find that my pain is really lessened and the swelling is gone. I'm glad I tried these capsules. Now if they could only make my veins disappear, they'd be super!	4	7/25/2014 4:28:01 PM
Great legs	My husband has been in a wheelchair for 16 months with neurologic problems with his legs. He now goes to the gym 3 x a week with a personal trainer for gentle exercise, gets daily massages on his feet for stimulation and I'm hoping that this product, which I just ordered for the first time, will keep my husband's quality of life the way it is, or improve it. As a caregiver, I'm on my feet all day long, I'm thinking of using it myself!	4	7/25/2014 3:16:40 PM
Works well	I never had any trouble with aches/pains with joints, but as I got older, I noticed if I sprained anything it took a lot longer to heal...with this product it has helped me tremendously and I no longer have any joint pain at all	4	7/16/2014 2:24:35 PM
great product	I tried these pills for my circulation and vein issues. My legs don't feel tired at night and standing on my feet at work for 8 hours and driving for 2 1/2 hrs. It helps.will try again.	4	5/30/2014 8:48:47 PM
Legs working better!!!	I've been using these supplements for almost a month now,and I sincerely believe they are making my legs feel better!! Good Product	I have used this for a few weeks now. I had enlarged vains on both legs. It has helped me greatly for the most part. One area is being stuburn and doesn't want to clear up. But for the most part I like this product. I'll see what happens by the time I finish the bottle.	4	5/26/2014 7:32:39 PM

legs feel better fast	I just started taking these vitamins as I am 64 and moderately active. I run around all day playing with my granddaughter. My legs feel slightly heavy at night and I know my circulation is not as good as it used to be. I started taking 2 of these supplements for leg and vein support and within 5 days, the feeling of heaviness is gone. As with all Andrew's supplements, they are easy to swallow, there is no weird feeling in my stomach that some supplements have and I feel better. I will know after this month whether to re-up and get more. I am sure I will continue to take them. I love his vitamins!	4	2/5/2014 8:59:05 PM
Very Nice	I have started to use it and I am wanting to see how great it is. I am seeing that it is helping my legs some. As a truck driver I think this is going to be something that helps me do my job better.	4	2/4/2014 2:44:05 PM
Used previously	Ordered the vein support for the second time.I ran out and could not find anything like it on the market. I have only been using it again for a week, but I believe I feel a difference in my legs at night. I	4	1/31/2014 8:49:28 PM
Love these vitamins	There are only certain one's that I can take because I'm ESRD so I cannot take the multi vitamin I have to take renal vitamins. However Vein support I can take and need to because I get my blood drawn once a month some times twice a month and I get an EPO shot once a month which weakens the veins. I would like to request one thing. Can you make these a little smaller. I took them for the first time and they did not go down my throat easily they felt like they got stuck and it made me cough If they were a little smaller it would help but over all good product. I will have to re order soon as I only ordered the smallest count. I wish these smaller counts were on auto ship.	4	1/29/2014 7:50:26 PM
Helps Circulation!	I love the Circulation and Vein Support and ordered last weekend; received the order on Wednesday, 1/15.Today (1/19) is an offer of 500 capsules for the same price I paid for the 360 (\$99.00).!! Guess that's the way the cookie crumbles but I am not happy about it!!!	4	1/19/2014 6:33:40 PM
vein support	I think they do help, but I reduced my pills per day to 2 of them as I am a small person and it seems to work better. I think 2 pills were a little too much after a while	4	12/13/2013 4:25:00 PM
so far so good	I have fibromyalgia and arthritis. My ankles, calves, and knees are in constant pain. Day and night. In bed I can't find a place that they are comfortable. I used to feel like bands were around my ankles. I couldn't rub my calves and knees enough. The good news I feel they are working at least for ankles and calves. Knees not so much but with longer use I feel hopeful.	4	11/4/2013 11:25:45 PM
Fantastic product!	Andrew, thank you for staying true to Konica CoQ10. Those of us who take this product know its better than CoQ10 bought in retail stores. That's why we keep buying more! I have never felt that my nervous system was in better shape and my gums are thriving, thanks to your CoQ10. Keep up the good work. My husband and I take many of your products and feel blessed to be able to do so.	4	10/20/2013 4:06:28 AM
Doesn't swell	really dd my legs good.I won't be with out this Thanks.. Jennie	4	10/18/2013 4:43:09 PM

SO FAR SO GOOD	I AM TOLERATING THIS PRODUCT WELL. NO SIDE EFFECTS. IN A COUPLE OF WEEKS I HAVE HAD SLIGHT INPOVEMENT IN MY NEUOPATHY PAIN. NOT MUCH DECREASE IN SWELLING.I WILL STAY WITH IT TO SEE IS THERE IS AN IMPROVEMENT OFVER TIME.	4	10/18/2013 4:07:56 AM
LOVE THESE	HELPS MY LEGS.I AM A DIABETIC. GIVES ME SUPPORT	4	10/14/2013 9:14:42 PM
Helped greatly	I have diabetes and have had circulation issues where I can't walk more than about 50 feet without severe pain in my lower legs and ankle area. When walking from the airport gate to baggage, I need to stop multiple times to allow the pain to subside. Honestly, since taking these pills I have seen dramatic improvement. It's not a cure, but still a major improvement. Took about a week to kick in and improved continuously up to the 2 month time frame. Now pretty much leveled out and I continue to take to maintain the improvement. Note: I did stop taking for a couple weeks because I ran out of pills, and the pain came back. So, I'm pretty convinced these really helped.	4	10/5/2013 5:57:15 PM
Good product	I like this product. My legs and feet feel good and are not as cold has they have been. It seems that circulation to my feet has improved.	4	10/2/2013 4:40:14 PM
It works!	I did not realized how well this product worked until I stopped taking them. If you are on your feet a lot then I highly recommend CVS. It really stops my legs and feet from swelling up. Only rated four stars because I have not done enough research on the ingredients.	4	9/22/2013 3:02:00 AM
Dad liked them	I ordered these for my 73 yr old father who has had knee survey (15 yrs ago) and has knee arthritis. He said he liked them so I'm ordering again.	4	8/29/2013 2:46:44 AM
Good stuff	I used this product for years for my varicose veins and Edema issues, it works! I stopped over two years ago when I noticed I needed two caps instead of one, finally I caved recently and bought it again not on clearance, its quite expensive when its not on clearance, but I am glad I did I've been using it for a week and its doing its job, the swollen ankles are getting under control. I have got to try Andrew Lessmans Glucosamine/Chrondoiten next.	4	8/28/2013 12:37:33 AM
content	Bought this product for a friend as gift, She was very happy with the result that I ordered it a second time for another friend.	4	8/24/2013 5:47:38 AM
Better Circulation	I have always had cold hands & feet. Now they are warmer, & not so many leg cramps. I will continue to buy these.	4	8/13/2013 2:11:00 PM
Love Andrew's Products	but felt for the money that this was that I get the same results with another brand otherwise I love all his products & having the payment options really does help to try the products & see what works for you & what you may want to change. HSN is great with the customer service!!!	4	8/12/2013 6:52:30 PM
Legs feeling better, in Georgia	I ordered one bottle of 60 capsules vein and circulation . my legs feel so much better, the heaviness disappeared. I will order more. I also take the vitamins for women over 50.	4	8/11/2013 9:46:23 PM
Hoping it works...	I just started taking this, so it's too soon to know if these will help me or not. I'm hoping this will help my legs at night.	4	8/10/2013 4:05:22 PM
Good product	I think this is a good product but haven't taking for too long so can't really tell too much of the benefits hopefully it will be as good as the other people that are on it.	4	7/26/2013 10:39:52 PM
love this product	it really seems to work. I've been using it for years. I use a lot of other Andrew lessman products and recommend them to others.	4	7/26/2013 5:33:59 AM
I like these supplements	I notice when I ran out of them. I am a smoker, (hate to admit) and these vitamins have made a great difference in my circulatory system. Fussy25	4	7/8/2013 4:41:20 PM
GOOD PRODUCT	I FEEL THAT THIS IS A GOOD PRODUCT WITH GOOD INGREDIENTS. I HAVEN'T BEEN TAKING TOO LONG, BUT HAVE SOME PAIN IN LEFT LEG AND IT SEEMS TO BE HELPING SOMEWHAT. I WOULD RECOMMEND GIVING IT A TRY	4	6/18/2013 4:35:48 PM

Love this	I take about 10 of Andrew's vitamins. This one I can't do without. If I happen to run out, within 48 hours I definitely notice a difference. My job requires me to be on my feet at least 4 hours a night, since I have been taking this I notice my legs feel alive. Before I knew about this my feet would bother me, now what a difference. I also take his glucosamine with chrontin. As a matter of fact, someone I work with who drives & delivers recommended this to me, he also takes it. So now I also take the glou also.	4	5/13/2013 7:32:55 PM
Happy veins	Been taking this product for over a month and see a difference. My legs don't feel tired at the end of the day and my veins (especially in the front) seem not as puffy.	4	5/9/2013 3:42:51 PM
great feeling	I have used these for years, but didn't realize how much I needed them until I ran out. sure was happy when they arrived in my mailbox. legs feel much better	4	4/25/2013 2:02:43 PM
This really helps!	I had ordered this item previously, and didn't realize how much it helped with the swelling & discomfort in my legs and feet until I ran out and went without it for a couple weeks. I won't run out again, although it doesn't completely eliminate the swelling in my feet.	4	4/8/2013 5:44:29 PM
seems to help	i have been taking this product for awhile now. i suffer from severe leg and foot cramps. it seems to help me. i still get the cramps, but not as severe. i will continue to use. it is worth the money if it helps with the severity.	4	12/30/2012 4:08:31 PM
SEEM TO BE WORKING	I have RLS and have never been able to find anything to help with this annoying problem. Since taking this supplement...it seems to be much better...fingers crossed! Thanks Andrew!	4	12/8/2012 12:55:58 AM
SO FAR SO GOOD!	My husband and I both suffer from tingling in the toes and leg cramps at night. We have been taking the Circulation and vein Support for two weeks and it seems to be working on our problems so far. Am ordering again to give ourselves more time without running out. Thanks, Andrew. RS from N. c.	4	11/15/2012 11:04:14 AM
CIRCULATION & VEIN SUPPORT	I really cannot tell how good this stuff is. But, since there are days that I can't move around at all as well as how much I trust Andrew I feel I need to add this to the supplements that I take. When it comes to circulation, I'll take whatever help I can get!!	4	10/26/2012 1:30:27 PM
I'VE NOTICED A DIFFERENCE - NO LEG PAIN ANYMORE	I had purchased this product in the past, and stopped using after a while. I noticed w/in a few weeks that I had started getting leg pain/cramping again. I started taking these, and within 2 wks. no more leg pain. I do have circulation issues w/a hip injury 40 years ago. These help somewhat w/that as well. I like most of Andrew's products. He really knows what he's doing. Thank you Andrew for your knowledge, and helping people w/your great quality products.	4	9/23/2012 7:51:11 PM
This a re-order - tried a smaller size & it works!	While not totally eliminating the edema in my legs and feet due to other medications I take, this has certainly helped. Tried it for 30 days, then went without for 30 and could definitely tell the difference - much less discomfort when using this product.	4	9/1/2012 9:57:16 PM
Good Product	I am very please with this product. The same amount of Butchers Broom is good for my water retention. I reordered a larger size. I don't get the cramping in my legs that I got before using it.	4	8/29/2012 4:17:36 PM
Seems to work so far!!!	I have been having a lot of numbness and pain in my legs due to an illness that began in 2009. My doctor wanted to prescribe medication for me. However, I really did not want to take medication, since I was already taking so many. A friend had suggested i try what she was taking. It was not working. Then I saw Andrew advertise on HSN several times. Before placing my order, i read the reviews. I have been only taking these supplements for 3 weeks or so. They seem to be working. Thank you Andrew!	4	8/17/2012 1:07:08 AM
Works	Bought the product for my Mama and she is feeling good already. need to this on autoship.	4	7/30/2012 1:24:30 PM
Too early to tell	I just started this about a week ago. Too early to know if it's going show a significant improvement in my swollen feet and ankles. I am a type 3 diabetic, so circulation is an issue.	4	7/30/2012 12:14:45 PM

Like	I think Andrew Lessman's vitamins are too expensive however, I am re-purchasing this item. My legs are not nearly as achy at the end of the day and my ankles do not swell much any more. I think this one is worth the money.	4	7/9/2012 1:02:26 AM
My Legs	I have only been taking this for about a month and have not noticed much difference. I have a lot of problems with my legs, so I feel that I have to give it more time to really be able to tell whether or not it will work.	4	5/18/2012 9:59:02 AM
my circulation	This is only temporary. I take it in the evening and then I sleep better at night. But really I can only take these for so long and then it wears off quicker and doesn't seem to work as long. I need to spread this support capsule out a bit, not everyday. More like only when needed. I was getting too much of a numbing feeling when taking everyday. Also for better health is for me to make sure I'm getting the circulation going. The teeter incline helps a great deal.	4	5/16/2012 2:48:16 PM
RECENT PURCHASE	JUST STARTED TAKING. IT'S A FIRST TIME PURCHASE EVEN THOUGH I TAKE MANY OTHER VITAMINS FROM ANDREW. I ORDERED THIS BECAUSE I SOMETIMES GET A CRAMP IN MY TOE. SO FAR HAVE NOT HAD ANY CRAMPING. I ALSO MAY HAVE SLIGHT RLS AND AM HOPING THIS WILL HELP. SO FAR SO GOOD.	4	5/6/2012 10:10:51 PM
good product	Mr Lessmans products all are very easy to take and digest .	4	5/6/2012 3:04:31 AM
Gee...I hope this works!	I've been suffering from leg pain about a year now. It diminishes leg pain but doesn't stop it. Guess there isn't a cure all. Maybe there's a culminitive effect to this...	4	5/4/2012 10:18:41 AM
STILL IN THE FIRST STAGES	I haven't been taking it very long, just 4 days and have noticed my feet don't hurt like before. At the end of the day my feet usually hurt, I am diabetic and this is something I've been dealing with for the last few years. I hope it helps with the cramps I experience late at night and very painful. So, far so good!	4	4/27/2012 3:58:05 PM
GOOD ORODUCT	It helps with pain and cramps in my legs. Have taken it for years and can't be withoutit.	4	4/5/2012 2:05:21 PM
only taken one month	I've only taken for one month so far and they seem fine. Will order another bottle.	4	3/1/2012 7:02:15 PM
leg circulation	I would get horrible restless achy pains in my legs at night, couldn't sleep, irritating, tingly feelings, after taking AL Circulation and Vein Support, I have very few nights that I loose sleep due to pain in my legs. I do believe these really helped me with my leg circulation.	4	2/17/2012 4:06:28 PM
Circulation & Vein Support	This is my second purchase of this product which I first bought a year ago. I can't say I notice any difference, just felt it couldn't hurt.	4	2/9/2012 1:15:47 PM
Husband loves it	He has pain in his leg on and off, which I think is some type of circulation issues, which Ive bben telling him to c a Doctor about. Since hes been taking these he said his leg pain is gone and hes walking more. Hes still schedule ot c the Dr. of course, but whatever it is, this has helped him plenty.	4	1/22/2012 4:07:09 PM
Thanks Andrew !	Very nice product..keeps the swelling down on my legs.	4	1/15/2012 1:24:17 PM
Great Vitamins	It took about 30-45 days before I noticed an improvement in the swelling in my ankle. I am very pleased. The capsules are easy to swallow. I would definitely purchase again.	4	10/12/2011 2:18:48 PM
I guess it works	I got this for my husband and I guess it works just because I trust Andrew that much and my husband seems to like them.	4	9/7/2011 11:49:40 AM
Supplements	I think these supplements are great and really help my legs.	4	8/26/2011 9:25:13 PM
They seem to help	Purchased these to assist with my varicose veins. As I age the pain seems to progress so I ordered these to see if they would help alleviate this issue and I must say they seem to help. OK, if I remember to take them consistently that's the truth. I don't want to mislead anyone.	4	8/18/2011 9:00:24 PM
Great product	Love Andrew Lessman's vitamins and supplements. I feel these really do help improve the circulation in my legs.	4	8/6/2011 5:08:43 PM
Swelling has gone down	I use a lot of Andrew's products and the Vein Support is a stable in my supplements. Without it, my ankles would be HUGE by the end of the day. There is still some swelling, but it's minimal. The swelling is kept under control as long as I take the vein support. Another great product from AL.	4	8/4/2011 2:19:31 PM

JM in Michigan	Great - really seems to help my legs.	4	7/28/2011 4:43:22 PM
I take one daily	I think I notice a difference but it's hard to know for sure. Still, I'm hoping this will help with leg cramping.	4	7/25/2011 5:03:26 AM
liked old formula better	The Vein Support with the Pine Bark doesn't work as well for me as the old formula did. Wish you could make that one again.	4	6/11/2011 6:11:48 PM
Andrew Lessman Circulation and Vein Support For He	It really worked my legs swell almost everyday in the last month it only happen about three times and that is with only one capsule each day	4	5/28/2011 11:13:49 PM
swelling	Since I have been taking this I have noticed 2 things. First the swelling in my bad leg has cut in half. Very pleased with that. It never will be normal but half I'm pleased. Next the discoloration is almost normal also. Will never be normal either but now looks much better. THANK YOU for at least a halfway normal leg.	4	5/22/2011 5:07:42 PM
Circulation	I'm only a week into these peels. My Dr. informed me that my problem with my knee should not have been a circulatory problem but the pills did stop the pain in my knee and I am satisfied.	4	5/13/2011 5:02:30 PM
Reviews were on point	I tried these after suffering with swollen legs and ankles for several weeks. I read the reviews and decided to try it.I can say that I felt something within an hour of taking a dose. I have only used this product for less than a week but I feel 50% better. Wow!	4	5/5/2011 2:44:05 PM
what a welcome change	i have been plagued with several health issues. restless leg syndrome, as well as pain in my legs, especially at night has been one of them. have only had this a week, but whow what an improvement. thank you Andrew Lesman	4	5/5/2011 2:54:07 AM
Great Product	I am not sure yet if this is helping me as I take them 2x week only. However, I believe in Andrew... what I noticed is none of his products upset my stomach. His clear and detailed explanation made me buy his products. At least I know what I am taking and why...unlike when I get vitamins from a drug store.	4	5/3/2011 9:41:34 PM
5 days	I will be giving a review in about three weeks since I have only been on this product for 5 days. I will tell you that I do feel a difference in the achiness in my lower legs. I do have varicose veins and spider veins so I hope this product will help me.	4	4/28/2011 4:47:03 PM
tired legs	use as evening supplement and find that legs are tired late night or early morning -	4	4/28/2011 11:08:53 AM
Healthy Legs	My old looking legs are improved I had spider veins and some pain. No pain and spider veins are improved.	4	4/20/2011 12:24:10 PM
Great	I do believe these are helping. I am 68 and my legs have been feeling heavy. A friend told me about these. I'll be ordering the larger bottle.	4	2/17/2011 7:42:13 PM
Circulation and Vein Support for Healthy Legs	Recently ordered this product for my reluctant Dad to try for swelling. He called me to ask where I ordered the product because it was helping him.	4	2/13/2011 1:12:50 PM
Worth a try	I've been using this product for about a month and I've noticed I don't get as many leg cramps or tired legs anymore. I will keep buying.	4	1/31/2011 2:55:17 AM
A customer for life.	What can I say about Andrew Lessman's products that haven't been already articulated by thousands of others? I've been using his products for about 20 years and feel they have helped me stay a young, active, healthy woman at 71. I know genetics have a lot to do with it, but I take NO medications so far. But I do make sure to keep Andrew's products in my "good health world". Thanks for your products and your constant awareness of our environment. Giovanna	4	1/27/2011 4:53:46 PM
Great Product	I tried this product because of the great reviews on how it makes your legs feel. I have had problems with my legs for several years and this product really has helped. I have noticed a difference in the month that I have been taking it and will continue to order. Thanks Andrew for all of your great products.	4	1/25/2011 4:21:52 PM
great	I was a bit skeptical about this product but after using it, I have found it to be very good.	4	1/23/2011 3:31:53 AM

So far...no night leg cramps	I started taking this product about a week ago, and I have noticed that I am no longer waking up in the middle of the night with leg cramps...nothing else has changed in my daily habits or diet other than these tablets.	4	1/17/2011 3:17:43 PM
very good	I have been taking this product for 3 months and feel the difference..	4	12/18/2010 5:29:39 AM
My Health	I like all of Andrew's products. This product has helped my leggs and the circulation,thank you Mr. Lessman.	4	12/15/2010 6:55:26 PM
helpful for leg cramps	This has helped me a lot with my frequent night leg cramps. I am not giving it a 5 star rating, because they have not completely disappeared, but the cramps have definitely gotten better.	4	10/27/2010 2:43:18 AM
Excellent!	I have diabetic neuropathy and finally decided to give this a try. I want to make sure everything is working so I assume all is well with it's use.	4	9/23/2010 7:37:10 PM
Good Product	I do a lot of sitting at work and at the end of the day my legs feel heavy and have swollen some. I take this once in the morning and once in the evening and it helps me.	4	9/16/2010 1:23:55 PM
So Far So Good	I bought this during Mr. Lessman's last visit as I have pain in my legs. I haven't been taking it that long but the pain is going away. This is a big relief for me.	4	8/25/2010 6:28:01 PM
Pleasantly Surprised	My feet, ankles and now my legs have been swelling for years. I decided that I should try this product after reading the reviews. This product has made a difference in the swelling of my feet and legs. While I still balloon up monthly, I feel that consistent use of the product has been helpful.	4	8/25/2010 3:01:39 PM
it works but had to amp up the dosage	PRO:notiable amount of reduction in the imflamation and swelling in my leg but had to increase the amount I take. I also notice that my legs don't feel so heavy at the end of the day. My husband and I both use it now. we are on our second order. Note: when the frist bottle ran out,was when started to notice the benefit of ths product.. Con: initial packaging was defective and had to go on waitlist to get more.	4	8/13/2010 3:17:39 PM
ahh ha moment	I ordered these because I stand on a concrete floor all day and then run 4 miles as a workout..at first I must admit I was thinking that I didn't notice much of a difference until one evening I thought wow my legs arent aching like they usually do ...and then ahh ha the light bulb came on the only thing I was doing different was takin the Circulation and Vein Support...def will be ordering more...	4	8/9/2010 12:33:09 PM
TREAT YOURSELF	If you stand on your feet alot like I do, treat yourself. These pills make a difference. I no longer come home from work with my legs hurting. Thank you Andrew.	4	8/6/2010 2:34:01 AM
Good For Circulation	After taking the Circulation and Vein Support For Healthy Legs for 5 days I noticed a big difference in my legs. I can walk and down the steps with ease. My legs feel better. I am able to walk on the tread mill now. Can hardly wait to see how I will feel in a month! Try this product if you have circulation problems in your legs.	4	7/30/2010 3:30:46 PM
hopeful	I have only been taking this for a week, but I seem to think my legs are feeling better. I will continue to take them and let you know.	4	7/23/2010 8:37:29 PM
Keeps me going	I have used this product for years. I find that my legs don't hurt and I can go all day without any problems concerning circulation.	4	7/19/2010 2:40:42 PM
No more night cramps!	Of course, I am taking many of Andrew's formulations, but I think this might be the reason why I am getting less cramps, particularly since I have been working out hard for some time now.	4	6/20/2010 6:33:07 PM
SHAKY LEGS	I GAVE THIS TO MY 24 DIABETIC DAUGHTER WHO FOR SOME REASON LEGS KEPT SHAKING WHEN SHE WASN'T WALKING. SEEMS TO HAVE HELPED HER.	4	5/26/2010 3:37:52 PM
Great Product!	Noticeable difference in how my legs feel when I take Circulation	4	5/20/2010 4:32:08 PM
What a difference!	I used this product for a while, but never looked for a difference in the spider veins in my calves and thighs. Then, lo and behold one day I did look, and realized there was very noticeable difference! The spider venis weren't completely gone, but they were greatly diminished... even my best friend noticed it. I'll keep on using this product!	4	5/20/2010 3:21:57 AM

THIS WORK! My legs feel better	My legs felt bad all the time, even kept me awake. I tried a bottle then stopped for a while and my legs felt awful again. So I reordered and within 2 weeks, voila! my legs felt better again. This works!	4	5/20/2010 1:31:08 AM
Circulation and Vein Support	Good but expensive to maintain	4	5/19/2010 6:27:17 PM
veins in my hands are less visible	this product is very good if you're veins in your hands are very visible because now my hands looks better the ugly veins are lessened. However the numbness is still there, hopefully by continuously using this numbness will diminish	4	10/8/2009 12:09:12 AM
Teel	I've used these for over a year and a half. Like other products, they take a while to work. But now I do not have most of the leg pains I had before.	4	1/7/2009 8:21:57 PM
JUST RECENTLY STARTED TAKING THIS SUPPLEMENT	I ALWAYS GIVE A NEW PRODUCT THE BENEFIT OF THE DOUBT UNTIL I'VE GIVEN IT AN HONEST TRY AND THEN MAKE THE DECISION IF IT HAS HELPED, I HOPE THIS WILL HELP, BECAUSE I LIVE IN A VERY HOT CLIMATE AND MY LEGS PUFF FROM THE HEAT AND EVEN MORE WHEN I CONSUME SALTY FOODS. I AM VERY SODIUM SENSITIVE AND JUST ABOUT ANY FOODS MOST PEOPLE CAN EAT WITHOUT BEING BOTHERED BY SWELLING, BOTHER ME!! I HOPE THIS WILL HELP AND ANDREWS OTHER PRODUCTS I HAVE TRIED HAVE BEEN GREAT, SO I HOPE THIS ONE WILL, TOO!	4	8/1/2007 7:03:45 AM
not as great as I thought	I have not seen the viens go away as others have stated. I have a long history of DVT's, so my legs are pretty messed up. I do however notice that my legs are not as heavy as they use to be. Now when I exercise the one leg does not start to drag the ground(it really use to do that). I have started to buy straight from Andrews website(Procaplab) it is cheaper and they only charge you a flat rate for shipping no matter what the order.	4	2/22/2007 7:13:51 PM
helps with discomfort	i have used these pills for a few months now, and i was skeptical, as i have lousy, ugly veins in my legs, and sometimes have pain.. obviously, they dont help in keeping veins from coming, but, they do help with your legs feeling better.. i just ordered my second bottle directly from his website.. check prices there first..	4	11/8/2006 11:42:30 PM
so far, so good!	i've never been one to put much faith in supplements, but i could end up "changing my tune" with these. it's only been a week, & already my legs dont feel as heavy, nor have my ankles/calves swollen after i've been on them awhile. it seems to help with my joint pain as well, by alleviating that swelling. the true test will be when my daughter & i go on one of our "sunday shopping expeditions", & i dont peter out on her, 1/2 way through the day. lol! so i say: "so far, so good!"	4	9/24/2006 7:34:03 PM
vien support	How can I review the product when I just got it about 1 week ago. Contact me after I've used it for a more informed view of the product in 4 to 6 months.	3	3/8/2019 3:08:05 PM
Didn't chance it	I ended up returning it without ever using it. I'm sure it works great, but there are certain ingredients in the capsules that aren't safe to take with specific prescribed medications. After doing some research, I thought better of it and decided not to chance it.	3	11/21/2018 11:00:34 PM
Not sure it is doing much	I have bad knee's and poor circulation this may help some but not like turning on a light switch may take more time then i have been using not sure i would buy again maybe after i stop i will notice a bigger change ?	3	11/11/2018 4:43:37 PM
too soon to tell	I have been taking this product for only a few weeks and have not noticed any difference in my legs I will finish the bottle and if there is still no difference then I will not reorder	3	7/25/2018 3:32:47 PM
Circulation & Vein support	Had a reaction with this product.	3	5/27/2018 4:03:39 AM
overpriced	I took this and another Andrew Lessman product to my doctor visit to see if it was OK to take with my current medication. My doctor looked at the ingredients and said I could take it. He then added I hope you didn't pay a lot for this, its an inexpensive vitamin.	3	5/7/2018 12:34:14 AM

Circulation & Vein Support	I was looking forward to using this because I have circulation problems. Unfortunately, after checking the Ingredients online, and reading the fine print on the bottle of who should not take this medication, I determined I was not a good candidate to take it.	3	4/24/2018 5:21:54 PM
Too Soon	My husband and I both started taking these as soon as they arrived. I think it's to early to know if they help. My husband will be the real test since his legs hurt much worse than mine, but I'm hopeful. Will write a real review within 30 days.	3	4/21/2018 1:27:54 PM
not for me	I love Andrew Lessman products however I have tried these for a month now and I cant tell any difference in my legs. Im a nurse at a hospital and I am on my feet 12-13 hours a day, was hoping this would help but I will send back it hasnt proved to be worth the money spent.	3	2/21/2018 6:50:33 PM
Leg pain diminished	Have been taking these for about two weeks and my leg pain has diminished significantly, but my calves still have a lot of swelling. I was under the impression that these vitamins would diminish the swelling and the pain. Disappointed in that aspect.	3	2/17/2018 10:03:11 PM
Upset my mom's stomach	I ordered these for my mom thinking they might help with intermittent leg cramps she gets. They upset her stomach, even though she took them with food. Might be good for others, but didnt' work for her.	3	2/12/2018 10:00:17 PM
Too strong	It was too strong for me, I sent it back	3	2/5/2018 5:27:13 PM
Helps but.....	I dont know where to begins it did help with my leg hurting a lot almost right away but my blood pressure went up quite high I dont know if it was from that or other product from Andrew which was metabolism and fat pills I discontinued both It was a very scary experience Andrew what do you think about it ? Sorry to write such a sad review but it was very concerning to me	3	2/2/2018 4:17:47 PM
No results as yet	I will have to come back at a later date in order to give an accurate review of this product as I have only been taking this item for one week and so far I have not had the results I had hoped for. I will keep taking for another two weeks and then come back to revise my review to a more accurate one. I said no to recommending this product to a friend as there was no other choice.	3	2/2/2018 2:23:40 PM
Not sure	I have not been taking these long enough to know how good they are. I do like that they are in capsule form. That is a big must for me. I do wish all his supplements were NOT PRICED SO HIGH. I will have to keep on looking because of price.	3	8/17/2017 3:19:51 PM
circulation	I just started using so I can't give a realistic review.	3	8/7/2017 6:27:29 PM
I think they work,	Not very sure though, because I had vascular surgery in my two legs. So I cannot say that my legs look better because of the surgery or for the capsules. By now, I will continue to take them until I see the veins coming back again. then, I will know that they did not help me at all. Fair enough.	3	6/13/2017 2:01:45 PM
Premature Opinion	I have only had the product for a few days. Taking the supplement has produced no ill effects :however it is too early to tell if it is helping with leg and circulation problems. While it may be difficult to qualify this early in the process of taking, the ingredients certainly can do one no harm. It has all the promise of being a helpful addition to one's health resources.Unfortunately this review insists upon the choice of a star to submit a review. I have selected average since I don't know with any absolutely certainty how to definitively rate the product at this time.	3	2/4/2017 5:03:45 PM
Just OK	Some improvement after 5 weeks in ankle swelling but not what I hoped for. I will continue to take the supplement because I believe there is some benefit even if it's small. I'm not getting foot cramps anymore but that could be the magnesium I now take. I'm neutral on recommending this for others. It may be more helpful for others but I can't speak from experience. My age is 67 if that makes a difference.	3	11/22/2016 3:10:36 AM
could be better	i did not feel any different	3	11/11/2016 1:59:53 AM
The jury is out on this one	Not sure helpful for my issue - swelling on one foot and leg	3	10/1/2016 4:24:39 PM
Too Expensive	Andrew, your products are too expensive! Please lower your prices!	3	9/29/2016 8:00:40 PM

they get me thru the day	working on my feet all day, I take 2 (even 3, yes I consulted my doctor) of these right before my shift. they seem to "lighten the load" if you will, and seems to reduce stiffness, pain, and pressure overall. it definitely is a better experience with these than without, makes it a bit more tolerable to stand for long periods.	3	9/17/2016 10:47:57 PM
It's OK	IT'S OK that's all just OK	3	9/8/2016 2:46:48 AM
Not sure about this one	I took them for a week but had a funny feeling while taking them. It was like I could feel the blood running through my veins (?) and kind of scared me..... might try them again after talking to my dr.	3	8/23/2016 8:31:17 PM
Don't notice anything	I myself don't notice or feel a difference but everyone is different. I do use other supplements by Andrew Lessman. I know they are good quality but I never feel improved with anything.	3	8/19/2016 1:30:01 PM
Undecided	This vitamin did not work for me as upset my stomach. First of any of his vitamins that have done that to me or my family Returned it as I didn't get to use it as directed and so I do not know if it would work. Gave it three stars because I love his products, this one just didn't work for me.	3	7/16/2016 12:19:19 PM
Disappointed	Nothing in them that can hurt you to take but didn't notice any improvement and was hoping they would work.	3	7/11/2016 2:29:30 AM
No change	no noticeable changes.	3	7/8/2016 2:21:40 AM
Who knows if it works	I'm not a Dr.	3	6/22/2016 1:23:47 PM
OK product	It is an OK product...did not seem to improve my leg pain...meanwhile, I did have a increase in leg cramps and charley horses for some reason...I guess it would be OK for other people.	3	6/5/2016 1:20:22 AM
No Discernable Difference	Three stars out of respect for all the other of Andrew s products I take and enjoy. I ve been taking this suppliment for a month now, twice daily, and have experienced no benefit/difference. Still love and admire Andrew, just will not be reordering this one. Too late to return it.	3	5/17/2016 1:03:11 AM
What is it supposed to do?	I have not yet seen any benefit but it has only been about 10 days.	3	4/22/2016 3:02:30 PM
Consult Doctor	I would consult a doctor before starting a regement. My legs began to hurt the day after I started taking the supplement.	3	4/21/2016 1:23:47 PM
No Re-order	Most of the ingredients in the product "might" be effective but there isn't enough research to be certain. It hasn't proven to be the solution for me so I won't re-order.	3	2/27/2016 5:42:26 PM
I see no change	A lot of money for something that didn't seem to work. To late to send back, so will keep it.	3	2/24/2016 9:46:41 PM
Leg Cramps	Just started taking them but seems to be working,don't have as many leg cramps.	3	2/13/2016 2:20:40 PM
I'm optimistic	Just ordered my second bottle. I think they help somewhat, but I still have bad nights now and then. I'll give it another three months and hope for the best.	3	11/9/2015 2:32:47 PM
CIRCULATION AND VEIN SUPPORT	I only purchased enough for a month's supply. I didn't see any difference either pro or con. I would not order it again because it didn't help me. I know that all of Mr. Lessman's products are good and of high quality. I take several of them. This one just didn't do anything to make my legs feel any better. I still have swelling. Seeing my MD next week. Hope she can help me.	3	9/11/2015 8:42:56 PM
not for me	wanted so much for this to work but my intestines thought otherwise. this stuff played havoc with me. gave it two weeks but the discomfort didn't stop. had to return.....	3	8/31/2015 1:57:09 PM
healthjunk	first time I bought this. too soon to notice any differences	3	8/17/2015 5:27:56 PM
too early to tell	will write a review when I have taken this product for at least a month. hope it works!	3	8/5/2015 1:16:38 PM
Ok	These seem to be working I will keep taking them to hopefully see more results	3	7/25/2015 5:07:05 AM
Not As Promised	I took this in hopes it would improve my legs circulation. There was no difference at all so I cannot recommend this product especially under all the claim's made about it.	3	6/4/2015 6:59:10 PM
Still waiting	I have used these for over a month and can't really tell any difference in my achy and tingling in my feet and legs. I am still hoping for relief.	3	5/27/2015 5:01:08 PM

No Venus return viewpn in left leg	Got this for my mom who has issues with her veins . She does not have a Venus return in her left leg and has issues healing because of it. She seems to be experiencing a difference but says she is nervous after taking it so will not take after 1100am or her energy is like drinking coffee so we will see what happens	3	4/24/2015 7:49:18 AM
Could not tell	I love several of Lessman's products, but after a whole bottle I couldn't tell if they were a help or not.	3	4/14/2015 10:36:51 PM
no relief for fat legs and ankles	Because of the price and reputation of this company, I thought this might help lipoedema in legs since I take NSAIDS for arthritis that causes swelling of legs, too. No difference occurred. Additionally, my right eye grew a nasty bag under it. No real problem under the left eye, though. This has persisted since then, but I also take Lessman multi-vitamins and then his glucosomine and chondroitin. It is mysterious that this occurred especially under just one eye. Not certain if this supplement caused it though, but it was the only thing I did differently.	3	4/3/2015 7:27:06 PM
New Purchase	I work in an environment that requires sitting for 7 out of an 8 hour workday and I purchased this to help maintain circulation. This is a first time purchase so not sure of the results at this time used less than 30 days. Not sure how to rate at this time, but gave 3 stars because it is a product from Andrew and I have used his other supplements that has been satisfying.	3	3/14/2015 3:17:35 PM
Haven't used this yet	Waiting to show the ingredient list to my Holistic Pharmacist to be sure it doesn't interact with medications. I do wish there would be information on possible interaction with blood thinners like Warfarin as it could be life threatening.	3	2/17/2015 3:22:14 PM
Can't review	I still haven't recieved them so I CAN'T review.	3	2/16/2015 6:48:24 PM
ok	Had ordered it before but didn't take it each day. Hope to take it each day this time! Will let you know months later.	3	2/1/2015 8:18:54 AM
Vitamins	I have just started these, however, I am very excited about the reviews that I read.	3	1/29/2015 9:35:12 PM
Advice?	I was taking it twice a day but it gave me heartburn and nauseous feel so I dropped to once a day. It helped but did not get optimal benefit. Any suggestions?	3	12/12/2014 6:47:47 AM
Haven't noticed any difference yet	I started taking these twice a day approximately a month ago. I have pretty bad spider veins and my legs get tired as I stand (not walk) at work for about 10 hours a day in heels. I haven't noticed a significant difference but I would expect it to take a while longer to build up and work. We will see.	3	11/24/2014 3:40:49 AM
use caution	I had a bad reaction to this .. I have a sensitive system ..the saving grace was they took it back. If it works for you then you are a lucky one!	3	11/5/2014 3:15:45 PM
Veins	I haven't felt very much difference while taking the pills.	3	10/27/2014 12:43:16 AM
Great Legs	So far, nothing to notice or report; but have only taken them for one week. If they do nothing, by the end of 4 weeks, they are going back. Too expensive!	3	10/23/2014 1:30:41 PM
Too Soon to give review	I received my Circulation Support Capsules a week ago. It is too soon to tell if it is helping. There is one thing I can tell is that my legs don't feel as heavy as they use to.	3	8/11/2014 10:46:03 PM
Circulation&Vein Support	I have only taken these for a short amount of time. Its hard to say how well they're doing. Right now I cant tell any difference, but will continue to take them until finished.	3	8/7/2014 7:24:53 PM
Okay	I have been using these for a couple of years. I am not sure if they are helping or if they are not, but have not wanted to stop using them to see. I have varicose veins and swelling in my feet and legs.	3	7/25/2014 3:57:53 PM
Still the same legs	Still using haven't really noticed a difference, maybe it takes a long time. I will not give up.	3	7/3/2014 1:40:15 PM
Easy on the stomach	I tried these, but I really couldn't tell a difference	3	6/7/2014 2:50:39 AM
First Try with This Supplement	I had an infection of eczema on my ankle & a lot of swelling... My doctor said I should maybe wear support hosiery to reduce the swelling in my left foot, ankle and lower leg. I NEVER even wear socks so this was very disturbing to me. I turned HSN on when I came home & Andrew was on extolling one of the virtues of this is discarding the support hose.So I'm giving it a try.. We'll see!	3	5/3/2014 7:38:58 AM
Will find out	Just started this morning .	3	4/15/2014 7:30:48 PM

Too Early!	I just got this product and truly to soon to leave a review when I have only been taking them for 4 days now..I am wishing they will help me.Only leaving a three stars because I don't know..	3	4/14/2014 4:06:18 PM
Just wondering	I have edema from my cancer drugs and this product helped reduce the swelling. The only problem is the leg cramps. Mainly at night, but sometime when I am driving. Am I the only one with this reaction?	3	3/30/2014 12:05:48 AM
Not the same	I noticed right away, after taking these capsules for some years now, that the Today Special capsules seems a bit smaller at first glance. Well I've been taking them for three weeks and I have swelling I have not had since I began taking them. I will increase the dosage. I do think a corner was cut to give us the special price. I want the same great product. That is my view.	3	3/23/2014 3:38:50 PM
Good for Circulation?	I like that this product is all solar manufactured right here in the USA, is 100%pure-no filler or additives, is easy to swallow and is gentle even to sensitive stomachs. If all the statements made by Andrew Lessman and his company regarding these supplements are true, then I am also grateful for the purity, quality, integrity and effectiveness of the product.	3	3/17/2014 8:07:09 PM
Fingers Crossed!	I have been taking this for a week and are new to the product. I have Venous Insufficiency. I am in my later 30s and have been dealing with pain, swelling and not to mention, being self conscious of the way my left leg looks for many years. I was first diagnosed some 10 years ago with Lymph Edema and just couldn't wrap my head that I had developed this. A couple months back, I changed my vascular Dr. and was diagnosed with VS. I am hoping this will work for me! It is gentle on my stomach and doesn't have any nasty taste to it.	3	2/6/2014 5:50:49 PM
pills	Never rec'd yet. Ups screwed up and I really want them. They may be sending back to U. I am now trying to get them to deliver again.	3	1/31/2014 11:34:50 AM
Not Sure	I've been taking these supplements in the hopes they will help my lymphedema and problems with the valves in my leg veins. I don't know if it's helping or not. I haven't noticed any changes yet. Will keep taking them until they're gone. They don't upset my stomach or anything like that.	3	1/13/2014 2:28:29 AM
Just started..	Looking forward to good results	3	10/19/2013 3:11:20 PM
Andrews Circulation-Vein Support Capsules	I am a small person and have a hard time swallowing pills. These pills are very difficult for me to swallow, therefore I could not swallow them. I had tried to talk to Andrew while they were on air advertising his product to ask if the pill powder could be digested another way and was not able to get through to find out if it was okay to pull the capsule apart and put the powder in pudding or apple sauce in order to digest it. I would still like to know if it is okay to do this.	3	10/18/2013 11:15:42 PM
CIRCULATION VEIN SUPPORT	JUST STARTED TAKING THEM. YOU HAVE TO GIVE IT A LONGER TIME IN ORDER TO NOTICE ANY DIFFERENCES.	3	10/18/2013 10:46:03 PM
Not for me	I cannot take because it makes me shake.	3	9/17/2013 7:29:00 AM
okay	It is hard to tell if a supplement is working. I did not take any other supplement in this category.	3	8/28/2013 12:28:20 PM
Healthy legs	Not sure when I'll see results. Have only taken for 5 days. Hopefully it delivers what it says, and going by what others have rated it that it does actually work.	3	8/12/2013 6:42:43 PM
Informative	My mom has only taken the vein and circulation support for 3 days so it is premature to make any comments. Andrew's research on his products is informative and complete. I am a big supporter of Co Q10 and Omega products.	3	8/11/2013 6:22:28 PM
Using Daily	I haven't seen much of a difference yet. I am going to use the whole bottle to tell the difference.	3	8/7/2013 4:41:23 AM
So So	I stopped my cheap vitamins from the VA Hospital and started these. I like my Vitamins from the VA better. Not only did I feel a difference taking these (not as good as the VA) but they were harder for me to swallow - not heavy enough so when I would drink the pills would go to the roof of my mouth instead of immediately down my throat. Product looks of good quality. Ingredients look nice but not for me. I returned them.	3	7/25/2013 3:11:40 PM

circulation & Vein support	<p>I have been taking them a week now I am hoping this is going to work I sure need something</p> <p>My sister told me about them does she get Credit for telling me about them she also told her Pastor about the it wuld be nice if she does they have been taking them for years her and her husband</p> <p>Thank You</p> <p>M Zayac if u need my sister name jut eail me and I would love to give it to u</p> <p>Thank You again</p> <p>I rated 3 right now and hoping these will work and then I will let u know the rate again</p>	3	6/11/2013 1:44:06 AM
healthy legs	<p>I have such a hard time with my legs due to being diabete.I'm not overweight.I read all the reviews and I wanted to get out of bed in the morning with no pain. So I tried this product.But it didn't work for me,so I had to send it back.</p>	3	6/6/2013 10:41:04 PM
legs	<p>I 'm not sure about this product. I recently had surgery on my foot and had bought it to see if it would help me with swelling. I don't think that it did. However, I just was able to eturn to the gym and workout really hard. I was exprecting to be really sore the next day. To my surprise, I was not. So, It is good for soreness , but not swelling</p>	3	5/17/2013 3:46:00 PM
Just started using product	<p>My husband and I just started using this product, and believe that we've noticed an improvement in the circulation in our legs. But honestly, will not be able to characterize this product until I've used it for a longer period. I will submit another review on the product after I've used longer.</p>	3	4/28/2013 5:46:56 PM
Looking forward	<p>This is the first time I will be trying this product and will see how it works. Thanks for making all your products.</p>	3	1/31/2013 12:56:28 PM
Didn't help...	<p>Bought these for my Mom who has neuropathy, hoping they might help. They didn't seem to do anything, so I decided after two orders to drop the idea.</p>	3	12/3/2012 4:15:08 PM
Don't know...	<p>I just started using these so I won't know for awhile what they are like. It will be great if they work because I'm on my feet all day. Thanks.</p>	3	7/23/2012 3:36:58 PM
Helpful	<p>This product helps a lot for poor circulation.I so used not daily but I use at lease twice a week.</p>	3	6/1/2012 4:54:55 PM
Didn't help	<p>Was really hoping this product would work. But tried it for almost a month and am returning it today.</p>	3	6/1/2012 4:35:18 PM
Nothing Special	<p>I really could not tell much difference in the way my legs felt. At least not enough to order again.</p>	3	2/10/2012 3:01:45 PM
returned them	<p>didnt try them sent them back</p>	3	2/1/2012 8:29:45 PM
Not too sure	<p>I received my order last Wednesday. I stared taking it on Thursday and noticed a change in my legs, but these pills upset my stomach. I have cut back to taking 1 pill every other day and hope it will improve my circulation.</p>	3	8/24/2011 6:24:03 PM
waiting for results	<p>I have been taking this for 2 weeks and still haven't had any benefits. I hate to give it 3 stars as I believe 2 weeks is not long enough to give a review. I have hope, based on others reviews, that it will help my circulation soon.</p>	3	8/12/2011 1:02:09 PM
too costly	<p>Wish this was less costly. I believe this is a good product and probably a good idea.</p>	3	7/12/2011 5:25:31 AM
Sorry to say, new formula gives me headaches....	<p>Dear Andrew, Please bring the original Circulation & Vein support back. The new formula does seem to work well, but I was getting headaches from it. I have been taking circulation & vein support for years and now I can't be without it! Please Help!</p>	3	2/10/2011 10:52:46 AM
Okay	<p>It might have just been my husbands experience, but didnt really feel any difference.</p>	3	12/21/2010 5:26:31 AM
great product	<p>but finding pills open in bottle is not good news, love the supplement but each time more and more pills are open or 1/2 full</p>	3	11/15/2010 4:00:29 PM

Used to Swear By This Product	I have used this product for years. I sit at a computer all day and my ankles swell. When using this, it reduced the swelling but it never went away completely - but it did have some positive results so I kept using it. I recently tried a "Sexy Legs" product sold by another celebrity on another shopping network. I stopped using Andrews product and started just using the other product so I could see if there was any difference. I didn't expect it to work any better but I was wrong. After 2 weeks and with no other changes to my routine, the swelling was COMPLETELY gone. I do not know what the difference is between the 2 products, but plan to use the other celebrities product from now on. I gave Andrews product 3 stars because it does work and did have a positive effect on my swollen ankles - just not as good as the other networks product.	3	10/18/2010 4:15:45 PM
WORKS	THIS PRODUCT WORKS OK	3	10/17/2010 5:06:03 PM
Disappointed that i had to return it	I use MANY of Andrews products and this was the ONLY one that did not work for me. I would get bad cramps in my legs while on this product. I had no choice but to send it back. Just because it didn't work for me doesn't mean it won't work for you. I love Andrews products and use them religiously.	3	10/11/2010 2:46:46 PM
Several months later	I've been taking these religiously, but have not yet experienced any results..I'll continue to take them, and hope eventually they'll kick in to where i notice the results.	3	9/30/2010 5:37:53 AM
not sure yet	I really haven't felt anything but because they haven't hurt either I will continue to use them for awhile. I trust him. so I will wait and see.	3	9/21/2010 2:59:51 AM
Don't see anything that shows it helps!	I have taken this product many times just because I trust Lessman products. Problem is when I went off I found no improvement in my legs circulation. I understand the mind tries to tell you different because you do want to believe but I have never found it.	3	9/16/2010 3:07:29 PM
OK	I could not keep taking these, because of the non-veterian capsule. Questioned the company about it, they told me that it was not possible to get veg. capsules. I don't understand this answer, they are on many, many products. I am unable to order Lessman products because of this.	3	7/19/2010 3:52:07 PM
Will try again	Just beginnining to get some spider viens on my leg, due to the long standing and walking on my job, so I decided to try the vein support to see if it would help or stop more spider vein from forming, but after taking for couple of days I began to feel pain behing my legs. Dont know if its the spider vein that hurt or the vein support that is working, it hurt so bad I stop taking to see what the cause is. Would try again if I feels no pain. BTW I take multi vitamin, and iron plus supplement with it.	3	7/8/2010 3:55:54 AM
Tianen	seem to help my legs Dr. said I don't have poor circulation	3	7/6/2010 5:55:58 AM
ok I guess	I took these for a month, but cant say I noticed any difference	3	6/18/2010 1:55:11 PM
Still On The Fence	I only purchased the 30 day supply. I suffer from continual leg cramps and leg pain. I must say the product did help some, but the price was too high for me to explore any further long term use. There were no adverse effects from taking the supplement, I just wish it was more affordable.	3	6/15/2010 9:08:24 AM
didn't notice anything in 2 months	I have foot and leg sweeling, this didn/t help like it was claimed by shannon.	3	6/7/2010 12:29:31 AM
OK!	I started taking this product because my doctor had recently told me that my circulation is off a bit. I think they are helping me. I have only been taking them for about 3 weeks now. When I took them to my doctors office she was not impressed, although she did say I could continue to take them but what I really needed was exercise. I will continue to take them along with exercise and see how my future tests come out.	3	5/19/2010 6:23:57 PM
I was hoping	I was hoping this work work for me. I read all the reviews and thought it would...I tried it for two months and noticed no difference. It did not work for me, but try it for yourself, the reviews for this product are outstanding.	3	4/1/2010 1:04:19 PM

Did not work for me	I bought this product because my feet would swell and become hot at night. This did not solve the problem. I still have to elevate my feet every night.	3	11/16/2009 4:37:36 PM
flex play on larger sizes please	Even though I get positive results, I can't buy them unless they're on flexplay,(I refuse to buy the non-economical small size), so in reality they don't work when we can't afford to buy them, so that's why only 3 stars	3	11/9/2007 2:57:34 AM
Feel no difference.	I have neuropathy of the feet and was hoping this would help and/or improve it. Took the entire bottle as, but felt no difference.	2	4/29/2019 6:20:59 PM
Not sure About this supplement.	I've been noticing that my veins are getting bigger & my legs sometimes tired. So I will give this a try. I bought 720 capsules so I could save money. But I after taking it for over a month I've been noticing that my legs are getting weaker when I tried to stand up from bending down! So I decided to stopped taking it, to see if it gets better. I have been off for more than a week now & my legs are getting better I will rest for a month without it & maybe will try again & see what will happened.	2	4/26/2019 7:35:56 PM
Not as expected	I have been taking French Maritime Pine Bark for several years, which is marketed as Pycnogenol. This product DOES NOT have this ingredient. Was so disappointed.	2	2/7/2019 2:24:22 PM
Disappointed	Since I take prescription medications, one of which is for blood pressure, soI contacted my physician and pharmacist before taking this product. They both advised me to NOT take this product as the Butchers Broom would counter the effectiveness of my BP medication. I therefore returned my shipment. Hopefully Andrew will make an alternative Circulation and Vein without the Butchers Broom. I will say I take other products from Andrew which my physician approved.	2	2/2/2019 5:04:18 PM
Cant take them	I was looking forward to see how these capsules worked, however I am allergic to them and have to send them back.	2	2/2/2019 3:22:53 PM
not for me	I took for one month, but, it did nothing for me returned	2	12/12/2018 8:20:05 PM
Did not help me.	These didn't help me; being a type 2 diabetic, the only things that will help my legs is exercising and eating the "right" foods.	2	12/5/2018 4:41:40 PM
No change	Purchased for my 37 year old daughter who has been having issues with circulation, and there was no change. Sorry Andrew.	2	10/27/2018 3:37:52 PM
Ok	Over priced. Worked for about a month.	2	8/16/2018 7:31:20 AM
Saw/felt no change	I was hoping this product would help with my edema, but after taking it for a full month, I saw no change in my legs at all. I didn't get the results they showed on-air nor the ones I read about in the reviews. Plus, I emailed the company to ask if the pills were to be taken once (2 pills a day, no further instructions on package) or could be taken 1 pill twice a day and they didn't really answer my question. Not ordering this again. Glad I didn't get it on auto-delivery.	2	3/24/2018 2:12:57 PM
Trouble	After using for about 30 days, my veins started to show, which they didn't do in the past and my lower legs did not feel right.	2	2/25/2018 2:01:41 PM
Ask yo ur Dr	I ordered this product for my mother who has issues with cramps and circulation. Although these seemed to help with her issues, she had an allergic reaction. She literally had welts all over. It took us a couple of weeks to figure out it was these vitamins. Once she stopped, the welts went away. So, if you decide these might work for you, check with your physician 1st.	2	10/23/2017 12:11:58 PM
confused!!	Initially I was flabbergasted with the results I got. Then I ran out and in no time the swelling and pain returned. So i purchased the 350ct bottle an promised myseld I'd never go without it again. I was super excited when I recieved it and wasted no time getting started . Its now been two months and I've not had any changes! In fact around six weeks I started to notice it got worst on the days I took these vitamins but I taught maybe I over reacting and it just needs more time. Obviously it works I had outstanding results just three months earlier plus all the reviews	2	10/15/2017 2:54:36 PM
No Difference	Noticed no difference. Sorry.	2	8/23/2017 4:11:04 PM

No change	For my husband and I we did not see a change. Too expensive to keep purchasing without significant change.	2	8/16/2017 3:46:51 PM
Not so much	I bought this after listening to Lessman speak about the kegs circulation,etc. One of the things he discussed was how this product lessened leg cramps something I frequently suffer with. After a month of religiously taking 2 caps daily I have found no change in the number of times I get leg cramps or the intensity of the cramps I experience. Disappointed and will not return133590881 for another Lessman product.	2	5/18/2017 1:23:25 PM
Circulation and Vein Support	I did not see any difference	2	11/12/2016 9:33:30 PM
No change	Not sure what it should do. Did nothing for me.	2	9/12/2016 10:15:39 PM
No change	I haven't seen any difference our felt any difference since I have been taking them. It hasn't quite been a month.	2	8/2/2016 5:34:28 PM
Depends on Problem	I am taking this product to help leg and foot cramps. I have been taking it for over a year and I don't really know if it helps or not. I am going to gradually cut down my 4 per day and see if there is any change.I am also doing Dr. recommended things, none of which are RX related. For the past two weeks I've had cramps every night, so at this point I've gone off 2 meds which could have contributed to the recent cramps.	2	7/22/2016 11:46:49 PM
Not Worth \$31, let alone \$131.00	Andrew Lessman's prices are going sky high, too many products that don't work, too many we don't need, and I'm finding less and less HSN quality control. Andrew needs to return to HSN more and less in his expensive facility he likes to show off and we all paid hard earned money for.	2	4/25/2016 8:02:38 PM
no noticeable difference	Like so many supplements, can't see a huge difference. I'll use up but won't order more. I found out the hard way one is better off seeing a naturalpath and finding out what is really needed rather than just ordering a supplement because it sounds good. That's a waste of money.	2	3/28/2016 4:55:15 PM
No difference	I've been taking these faithfully for about a month now and I can tell no difference in my legs at all.	2	3/21/2016 3:30:23 PM
No difference yet	I had very high expectations for success taking the supplement based on previous consumers reviews. So far I have not seen any improvement in the appearance of my veins. I am very disappointed so far but will continue taking them until all gone. Not sure if I will reorder. Lots of hoopla about nothing as far as I'm concerned.	2	3/14/2016 2:38:36 PM
NOT FOR ME	I USE ALL ANDREWS PRODUCTS, AND LOVE ALL OF THEM. THIS ONE MAKES MY FEET BURN AT NITE.	2	2/15/2016 5:39:11 PM
Not working	Two star cause they are easy to take.But have not helped my legs at all.	2	2/8/2016 5:05:24 PM
TOO PRICEY	I buy so many Lessman products, but I am finding the cost is getting too outrageous. When you are living on a fixed income, you can't afford so many of his products now. Don't know if Andrew reads these reviews, but I rather than supplying free vitamins out of this country why don't you offer savings for the people who live here and have difficult affording your products.	2	1/30/2016 11:23:20 PM
Hyper Husband!!!	I ordered this for my husband. He took 2 per day for 4 days and couldn't sleep for 3 nights in a row!! He normally sleeps like a baby! Very odd!! I want him to try one more run at taking these....I am sold on all the wonderful benefits presented by Andrew! Hoping!!! If not...I will return.	2	1/30/2016 5:04:25 PM
Energetic Legs	I find these to really energize my legs. Theydon't get tired like they used to and I can be onmy feet longer without any problem. Andrewthese are really great. Thank you	2	8/6/2015 2:00:44 PM
not sure	To costly really didn't feel any difference on my legs	2	7/1/2015 7:37:45 PM
no real improvement	I probably won't order again.I still like Pro caps and use other products, from Andrew and HSN.	2	6/17/2015 2:31:20 PM
Ineffective	This product,for me, is totally ineffective! I see no difference between it and a placebo. I've kept it for 2 months hoping that possibly it needs to build up in ones system but it didn't for me. I am going to call cs to see about returning it.	2	3/20/2015 1:24:08 PM
It didnt work for me	I was so excited to receive this, I used to use another circulatory product for the legs that I can no longer find. I'm on week 3, no difference, I was a former nurse who bartended during nursing school, so I have issues with my legs. I am disappointed, I think I am returning, I purchased the 180 capsules.	2	2/25/2015 4:05:39 PM

Seen No Difference	To be fair I have only been taking it for about 10 days and I have not noticed any difference. I will continue to take it and see if it makes my legs less swollen. I rarely purchase any vitamins or pills like this but I am glad for all the people in the other reviews that this is workingwill try in for a year.	2	1/30/2015 2:43:49 PM
Had to stop	Could not take them. Tried them for 4 days. And began having chest pains and difficulty breathing they did however help my leg pains	2	10/9/2014 12:30:24 PM
circulation-vein support	have been taking these for my leg problems. not doing anything for me.....I WAS TRULY PRAYING AND HOPING FOR BETTER RESULTS.	2	8/26/2014 1:22:54 PM
nothing	Gave them to my sister. She say they did "nothing" for her. No change whatsoever. SORRY!	2	5/21/2014 1:34:03 PM
Bing Back the Old Formulation	I took the old formulation of this vitamin for years and was very happy with it. I've been taking the new formulation for a few weeks now and noticed that I had terrible bloating and stomach pains. I haven't changed anything else in my diet, so I have to attribute it to these vitamins. Andrew, please bring back the old formulation.	2	5/7/2014 4:33:30 PM
No Difference for Me	I noticed no difference whatsoever when taking these after a few months. I take one, twice a day. Should have sent them back but kept them and am still taking them. They're probably doing some good that just isn't noticeable.	2	4/18/2014 4:11:09 PM
Didn't work for me	I've been using this supplement for over a month now and have seen little to no change in my calves and ankles swelling, so I won't be ordering this again.	2	4/5/2014 11:40:21 PM
UNSURE	I have been taking these for about a week and I am not sure I should continue. Every morning when I blow my nose, I get blood. I am going to stop for a week and see if I get any results. Then I will try again and see if the symptoms repeat themselves.	2	2/2/2014 10:51:27 AM
Not worth it	I found no difference in how my legs feel. Not worth the money.	2	12/22/2013 8:56:21 PM
my legs feel the same	took this product for 30 days, and my legs feel the same	2	9/1/2013 1:47:31 AM
circulation and vein	I try the product for 4 days and have to stop. First day, I have funny feeling inside my knee. It went away few hours later. I took one after breakfast and one after dinner. Then I started getting constipate and had to get up 3-4 time during the night. After 3 days, I experience headache. I wonder 5000 iu diosmen is too much for me.	2	8/22/2013 2:23:52 PM
have severe foot and leg pain	after reading the reviews was so hoping like others that this took care of my issues. I only got the 30 day supply and took 2 a day and didnt notice a difference. It's probably me though cause no Dr seems to be able to tell me exactly what is causing this issue, after 18 years of it. So it very well may help others who have a different condition. Made me so sad!!! Love the quality and the fact your vitis dont make me nauseous. I do take the eye vitis and notice a big difference in vision and the pressure I was getting. My fathers side has macular eye very bad in his family, so I want to make sure I protect my eyes and not go blind, So thank you so much for that!!	2	3/24/2013 6:04:13 AM
not so good	This product did nothng for me I use it for a month. I seem to get a problem from it when there was none. I was using this as a preventive from geting bad circulation from age.	2	3/21/2013 12:36:43 AM
Experianced heartburn	everytime I used it I got heartburn at night. so I quit for a couple days and when I took it again the heartburn came back. Sorry	2	12/2/2012 1:03:47 AM
Tina-Richmond, VA	I have been taking the pills almost a week now, and have noticed no difference. I paid alot for this, and I want them to work.	2	5/10/2012 1:17:09 PM
works good	dont have any other products to compare this to good when its on sale with free shipping	2	1/3/2012 5:48:01 AM

nothing changed	I guess I was waiting for for an improvement in leg and toe cramping. Maybe it's doing something but I don't feel any better.	2	11/12/2011 9:20:42 PM
Probably Just Me	I have a problem swallowing pills and this one is just too difficult for me. I try to break capsule and put in yogurt but the capsules are very difficult and messy to cut. I have absolutely no idea if they do anything whatsoever for circulation and vein support. If they made this in a liquid I would try again.	2	10/7/2011 6:06:31 PM
Haven't noticed any difference	Need I say more?	2	9/5/2011 1:24:09 PM
still waiting....	ive ordered a 30 quantity bottle. This is the second time i order them. always wait for his specials i have been taking two each nigh before bed. Do not see any positive changes yet. Still hoping though. Maybe i need to order the big bottle maybe it will take that long to see results?	2	8/11/2011 11:31:45 AM
Not what I expected	I had used this in the past, especially for leg spasms. I still am having the spasms nightly, despite using this as directed.	2	6/7/2011 2:38:18 PM
meh	didn't notice anything	2	3/9/2011 2:20:43 AM
I'm not sure	I've been taking this for about a week now and I haven't really felt any change. If it stops my legs from getting cramps, I'll be happy. Time will tell.	2	1/26/2011 12:04:18 PM
ok product	I'm not sure about this product only used for 1 month no results	2	10/14/2010 4:42:54 PM
No Difference	Unfortunately I did not notice any difference in the heavy feeling in my legs and since I take so many other vitamins I won't continue with this one.	2	8/15/2010 6:10:47 PM
Bought 2 bottles 80 days nothing!!	Didn't help my welling like Shannon Smith claims she gets	2	6/7/2010 12:31:13 AM
Not Good	Sent these back because didnt notice any difference.	2	5/21/2010 3:43:54 AM
No Change	Sorry, these circulation and vein support did nothing that I could notice,sorry I'm sure it is my own health situation. Customer service was great, when handling my return thank you HSN, you are the best!	2	11/19/2009 4:12:37 PM
Didn't fair well	This is more than likely a great product. I had to return them because there was in conflict with my meds.	2	11/18/2009 4:22:50 AM
Had Side Effects	Tried taking this product for a week. From day one experienced dizziness problems and overall did not feel well. Problems went away as soon as I quit taking it.	2	7/28/2009 1:20:03 PM
Not Impressed	Took whole bottle and the leg swelling still persisted. This did not help at all.	1	6/11/2019 6:20:22 PM
Bad side effects	I wanted this to help my vein issues but unfortunately within a few days of taking this supplement I began to have aches and soreness in my limbs (arms & legs). I didn't attribute to the supplement at first but when it progressed to sluggishness I became concerned and discontinued taking. Within 2 -3 days the aches & sluggishness subsided. I love Andrew Lessman vitamins and currently take 12 with wonderful results. Just not this time.	1	5/7/2019 2:29:43 PM
Husband allergic	Returned due to my husband being allergic to something in it.	1	4/7/2019 5:06:46 AM
Meh.	I think a pair of support hose would have better results.	1	4/6/2019 6:53:06 AM
No like	No difference	1	4/1/2019 12:45:41 AM
vein support	Have not noticed anything different taking this supplement, still having leg cramps, pain, etc.	1	3/24/2019 9:51:00 AM
Was Hopeful	My husband has trouble with restless legs as well as cramps, it doesn't seem to help him. I also get cramps in my feet and calves so I tried it and I really don't see much difference We got the huge bottle and will finish it but I will never re order!	1	3/23/2019 4:29:05 PM
Did nothing for minor leg swelling	Maybe this is meant for older people. Im 40 and have moderate leg swelling at the end of the day. My job requires extended sitting and standing with little opportunity for walking. It seemed like I am the ideal person for this product when listening to the HSN hosts - after 3 weeks (and Andrew stated you need 3 weeks) Ive seen absolutely no results. Same leg swelling, same stiffness at night, etc. this WILL be returned!	1	2/9/2019 1:11:37 AM
Swollen Knees	After 4 days of use my knees were so swollen I could barely walk. I had to go to urgent care. Watch out for unusual swelling!	1	2/2/2019 6:08:35 PM

Not working for me.	I havent seen any improvements since taking this supplement but it has only been a week. Other reviewers saw differences In a few days. It appears this isnt working for me.	1	1/31/2019 7:53:40 PM
Bad reaction	I tried this with the metabolism product and had a severe stomach reaction not sure which product caused the severe pain or the combination. Opened so could not return	1	1/4/2019 7:28:20 PM
no change in my legs	was really hoping this would help me,so far no change,still taking them though.	1	11/14/2018 1:32:41 PM
Vein Support	Did not Do as it said	1	11/10/2018 12:37:44 AM
Don't bother	This product did absolutely nothing to help....won't be purchasing again.	1	10/28/2018 4:37:45 PM
Not for me!	I watched every second of the promotion of this product and read every single review and decided to try this. Unfortunately, this product enhanced an episode of something I didn't even have to begin with and that is my feet started tingling 24/7 a day and my legs swelled up as if I had 3 rubber bands on them, removed them and the layers of skin we're triple the size they have ever been. No, I didn't stop the product because I believed in it so much but I never had this problem! Permanent dama	1	9/23/2018 7:57:36 PM
Disappointed	I have swelling in my legs and ankles especially when I travel or on my feet all day. I also have some leg pain. I was really hoping to love this product because the swelling in my legs is really bad when I travel and when I'm up on my feet all day long. I decided to buy based on all the reviews that said they saw an almost overnight change for a lot of the people that had written reviews. I see no difference at all while taking this product unfortunately. I will not buy again.	1	9/10/2018 6:30:02 PM
Did not work for me	Did not reduce leg cramps or pain.	1	7/28/2018 3:07:11 PM
didn't like how it made me swell	I bought the small bottle to try and I had some hsn kash but first time I took it my legs tinkled and felt like they were swelling. the next day my co workers said "did something bite you? your ankles look so swollen I looked down and couldn't believe it as the day went on my lower legs were becoming swollen I took a allergy pill and it helped. Must be something in it that didn't like me.	1	7/19/2018 3:37:37 PM
No Difference	I am not sure about other reviews, but I see no difference using this product. My legs still get slightly puffy when I stand on them too long and this product has not eliminated it. I have no medical history to speak of so its not like I have a chronic issue.	1	5/8/2018 9:42:56 PM
Leg circulation	Causes extreme pain in legs.	1	3/26/2018 3:03:23 PM
Circulation.	Since beginning this Supplement, I have had extreme pain in my legs. I am going to persist in taking it until supply is finished, but I will not be reordering. This saddens me, to no end. I ordered, not just #60 capsules, but several months worth.	1	3/26/2018 2:46:05 PM
check with your doctor before taking	This product has pine bark in it and I cant take it per my doctor. be careful when taking supplements some ingredients are not good for certain people and Andrew should warn about this.	1	2/17/2018 11:46:28 PM
Had Problems	I started Circulation & Vein Support on Jan 25. I also was taking CholestCare. On Jan 29 my doctor noticed my blood pressure was elevated over what is normal for me. He recommended I immediately stop taking C&VS as it might be interfering with BP prescriptions. I thought I might adapt and continued using both until Feb 4 but BP was still elevated so I stopped. Finally on Feb 8 my BP returned to near normal so I assume it could have been C&VS and/or CholestaCare that elevated it but speculation on my part. To be safe I am returning C&VS and CC. I would advise anyone taking C&VS to monitor their BP. During the very short period I took these I felt fatigued in my legs, it did not help them.	1	2/9/2018 10:24:42 PM
Doesn't work	Tried it and it didn't work for me. Got TERRIBLE leg cramps after using it when I slept. Will be sending it back. Sorry Andrew.	1	2/4/2018 11:41:31 AM
not working	comments from other customers told of results in days but I have felt no change	1	2/1/2018 3:19:22 PM

Extremely disappointed.	Extremely disappointed. I purchased this for my Mom. She was so excited to try it, but it turned out to be useless. Did nothing for her at all, nothing. It is nothing as described, an absolute 0. Plus had a super hard time returning it.	1	1/23/2018 4:58:47 AM
mmeyer	Have not noticed any effect from taking this product. It's like it is a placebo. Would not buy this product again.	1	11/28/2017 6:20:33 AM
Circulation Support, Crucially Needed!	Purchased the large size of this supplement but within the first several days of use experienced an alarming allergic reaction that frightened me greatly. Immediately thereafter discontinued use therefore unable to accurately rate this product.	1	11/23/2017 9:58:08 PM
Circulation and Vein Support	I didn't care for this product it made me feel strange and off balance.	1	10/19/2017 9:54:34 PM
Stopped working	My first 180ct bottle worked wonders. I was now experiencing everthing I read in the reviews i read and heard on the presentations. Then I ran out and in less than a week the swelling and heaviness started so I ordered double the amount. After about a month I still had no improvement in fact it felt worst but of course I didnt stop taking it because I new the change was coming. Then two months the usual pain and swelling mainly in my right leg was now in both legs. No joke when I walked I had to walk like a penguin leaning side to side with each step. I just turned 40 I could not believe it got to this point. So a week ago I decided to stop taking it and have already started to feel and see a change. I guess that saying all good things come to an end should.have been my review title!!	1	10/15/2017 4:27:23 PM
Not sure	Expensive for what it does	1	6/28/2017 11:19:09 PM
Don't Buy	These do not work. My husband has been using these and hasn't had any results. Don't waste your money	1	6/15/2017 4:27:54 PM
Side Effects	I used one pill for a week and 2 pills for at least another week. I have had a few dizzy spells with blurred vision. Then I went to my eye doctor and she found bleeding in the back of my eye. I also had high blood pressure and never have had that before. My doctor told me to stop taking this vitamin. I was taking it with Omega-3 (one pill) that I bought from HSN too. I saw other reviews had the same dizziness, so not sure if this vitamin caused my issue, but just in case I am not taking this any more per my doctor's orders.	1	5/25/2017 4:47:53 AM
Stan the Man	I felt this was a total waste of money I felt no difference in my legs from when I started using it till now tingling all over I think it's garbage the guy sounds pretty smooth on TV but	1	5/4/2017 9:11:40 PM
Restless Legs Returned	I'm a big fan of other AL products, but this one cause my legs to cramp so badly I almost sought medical attention. If you have ever experienced legs cramps, kindly think before purchasing this item.	1	4/28/2017 5:58:15 PM
Splotchy legs	I have only been taking these pills for 2 weeks. As of yet, I don't see or feel a difference. I worked an event this weekend, standing and walking for over 6 hours. My ankles were throbbing and there was a red rash around them. Thought these pills were to help with the circulation. I will keep taking them until the end of the month, if no change then back they go.	1	4/22/2017 9:11:37 PM
Didn't help me	I used these for 2 months and could not tell a difference.	1	3/8/2017 7:26:11 PM
Does not work	I have tried this product for about three months. I didn't see much changes.	1	2/17/2017 4:38:33 PM
Not for me!	Unfortunately, this did not work for me. I tried faithfully and no change at all.	1	1/19/2017 8:29:08 PM
did not work for me	There was no improvement after taking these supplements, and they are over priced.	1	1/16/2017 8:04:11 PM
Snake oil..	Did nothing for me. All hype.	1	1/13/2017 4:19:11 AM
Legs swelled	Does not tell you it makes your legs swell. Had to quit taking it.	1	1/6/2017 11:40:11 PM
made my legs itch constantly	This product made the inside of my thighs itch so badly that I would scratch until bruised. Just to be sure that this was the problem, I stopped using them for a couple of months used them again and ... the itching came back.	1	10/2/2016 4:48:14 PM

Disappointed	I purchased this product hoping to have some relief from my leg pain. I work 10 and 12 hour days; 7 days a week; walking 75% of the time. I took this product as directed for 4 days and my pain became almost unbearable while I was at work!! I was really hoping this would be a solution for me. Instead, it intensified my pain!!! I will probably finish the bottle but only 1 capsule every other day.	1	10/1/2016 7:01:08 PM
Too Late to Return	I've been taking these as directed by the product label since receiving them but see no difference or value. I guess I will just finish what's left since I've paid for it. Save your money.	1	9/29/2016 1:07:43 PM
Makes our legs worse	These pills we thought would do us wonders but they make mine and my husbands legs hurt worse. We do not understand why but it does.We had to stop taking them.	1	9/20/2016 2:25:19 PM
Vein support	This product did nothing for me. I have several spider veins, small. No difference after use.	1	9/4/2016 7:20:31 PM
Does not work	I have been using these pills for three months but still did not see results.	1	8/28/2016 11:56:19 PM
Vien Support	Interestingly, I just read a comment here about someone who got winded, shortness of breath, fatigue, I also experienced being winded after some mild activity like walking slightly uphill or from one side of my house to the next. On days I took them I now realize it did indeed tired me out. I didn't think anything about it at the time because on days I was rushing out to go bike riding, jogging, to the beach or shopping I skipped/forgot taking the pills in my rush to get out the door. I was just fine those days. I'd take them later in the evening then go to bed. I've decided to stop taking these pills just in case they are causing this tired reaction.	1	8/5/2016 12:29:27 AM
Failed Me	After taking 360 capsules I had no noticeable change in my RLS. I bought the capsules to coincide with my vein surgery, sorry to write the surgery was not a success. So I can't give this product a favorable rating. Wish I could.	1	8/3/2016 5:43:42 PM
After 2 Months, No Improvement.	As I approach menopause, I discover unexpected changes every day. I use to have very trim ankles and feet. Now, after a day in the office my ankles are swollen, especially when I wear light sandals. Ugly! I now shy away from shorter pants, dresses, or shorts. I hoped this support solution would work. After 2 months of 2 capsules each day taken religiously, I hate to say there is no difference. I am glad for those whom received help from this solution, unfortunately, I am not one of them. I will continue to finish the bottle; however, unless something changes, I will not reorder.	1	7/20/2016 1:42:33 AM
Didn't work for me!	Returned. Didn't see (feel) any difference in my circulation, so returned. I normally purchase many of Andrew's product, but this one was not for me.	1	7/17/2016 10:36:05 PM
No results	No difference at all! Wont order again!	1	6/26/2016 11:22:03 PM
Check with your doctor first.	This product almost sent me to the emergency room.Immediately after I started taking it I experienced debilitating fatigue, labored breathing, vomiting, diarrhea, headache and chest pains. The worst symptom was the exhaustion and fatigue. It was an effort to walk across the room. Then I would have to sit or lie down and catch my breath as if I had just ran 10 miles uphill. Dangerous product.	1	5/22/2016 11:20:17 PM
No help	After several month I didn't notice any change in my circulation.	1	5/15/2016 6:23:40 PM
Didn't see any difference	I have taken the pills as directed for a month now and didn't feel or see any difference in my veins	1	5/11/2016 7:51:39 PM
abslutely no positive results	I'm very happy for all the people this product gave positive results, but for me there was no result whatsoever. I've used more than half the bottle of capsules giving it a chance to feel a difference in my feet and legs, but unfortunately I have felt no change whatsoever. I had so many hopes in this product, but I am very disappointed.Blanca, Puerto Rico	1	4/29/2016 4:26:30 PM
legs	I have been taking the product faithful and I haven't noticed any different in my legs.	1	4/1/2016 6:14:45 PM
Bad advise from HSN	This item gave me such headaches. When I finally researched each ingredient I found out that the each have a side effect ---- HEADACHES. I am very disappointing that they neglected to mention this. I was so mad that I flushed them down the toilet.	1	3/16/2016 8:52:45 PM

Do not work, surgeon did not like!	I went to my surgeon and had him look at these pills. He said to not take them that they do not have anything in them of any value to me to help my legs. I need surgery and he suggested I send back. Could these just be another fluke????? Took them awhile and they did not help. Sorry doctor and buyers.	1	3/5/2016 7:39:56 AM
Can't tell that they've done a thing!	I have purchased several Andrew Lessman products and NONE of them have done any of the things they've been advertised as doing. Last time I spend any money on his products! I can do better at Puritan's Pride!	1	3/4/2016 5:50:57 PM
Not sure	I've been taking this product for about 2 weeks now, haven't notice a difference yet. Maybe it too soon. I will continue until I'm done with the bottle.	1	2/25/2016 11:46:39 PM
No Results	My husband had developed some foot/ankle swelling while on vacation at Disneyland. I saw these and thought they might help with swelling. He has noticed no improvement. Will be sending back.	1	2/21/2016 4:26:38 PM
did nothing for me	Been using 6 weeks and has done nothing for me now to late to send back.	1	2/19/2016 6:27:42 PM
Horrible	I had high hopes that this would get rid of my leg pain and sore feet. Instead it gave me chest pains and an upset stomach. I stopped taking it immediately. I don't know what's in there that would cause this but I am not taking a chance of trying it again. I will stick to taking Alevee.	1	2/7/2016 3:15:23 PM
legs	I feel No difference in circulation and leg feel. I won't get anymore of it!	1	1/28/2016 3:13:21 PM
Disappointed	Love Andrew Lessman's vitamins!! However,it seems the Circulation and vein support causes pain in my legs. Unfortunately, will have to return.	1	1/28/2016 3:12:10 PM
Severe leg cramps	I bought these vitamins hoping to get some sleep at night. After taking for several days I started to get severe leg cramps. I took them for several more days the cramps got worse. Right now I have a 180 day supply siting I'm my cabinet.	1	1/17/2016 4:30:18 PM
Neno56	I saw no difference in pain or circulation. Too late to send back.	1	1/6/2016 9:32:59 PM
Waiting	Keep waiting for the aches and pains to go away. Don't believe these caps work.	1	12/12/2015 12:14:31 AM
Not Impressed	Should of read ALL the reviews prior to buying. I too had headaches, dizziness, and nausea. Stopped taking for a few days and was fine. Not for me. I would not recommend for others. Seemed to just be a diuretic for the most part.... which you can buy over the counter for alot less money.	1	11/4/2015 10:30:35 PM
Something odd here	I purchased this in the 180 capsules size (don't ever buy a big size folks, until you try it in smaller size first). The problem is I didn't start using it until after the 30-day return policy. The only thing I can say is that something in this product makes me feel strange in my chest. I tried the product twice and at night I notice a strange feeling in my chest. Maybe it's doing something to the small capillaries, veins, arteries around my heart...I don't know. But I'm too scared to take again. I had good luck with European Leg Solution though (not by Andrew). One of these days I'm going to research every ingredient in Circulation and Vein Support and see what was the issue with the strange feeling in my chest.	1	10/18/2015 3:50:26 PM
Legs Ached	After one month of continued use my legs started to ache and feel weak. I stopped use and within another week my legs were back to normal. Be careful.	1	9/11/2015 1:39:05 AM
Haven't done a thing!	I've taken almost the whole bottle of these and haven't noticed the first difference. This is the last time I buy any of these Lessman supplements. Haven't had a one of them do what they say they will.	1	8/22/2015 2:39:17 AM

Unfortunately I saw no results	I was very excited to try the Circulation and Vein Support supplement. I purchased the 180 count bottle. I was hoping it would help my sore feet and ankles. I took it 2x's a day for 28 days and felt no relief. I was planning on returning the item until I read there is a \$6.95 return fee which I was shocked by. I've never returned anything before and never heard anything about a return fee on air. I'm very disappointed that a company this large would charge to return a product that does not work. I will be very careful before purchasing any products in the future.	1	8/20/2015 9:40:36 PM
doesn't work	This fan quit in a short period of time and now I have to pay to mail it back.	1	8/20/2015 2:00:28 AM
I was skeptical.	As a terminal, stage 4, metastatic breast cancer patient, I was hoping for some circulation improvement in my legs. Chemo has really damaged the circulation. Unfortunately, I saw no improvements.	1	8/14/2015 2:27:54 AM
Nice legs	Varicose veins run in my family and I've had veinsstripped already. This product helps keeps the aches away and also helps greatly with the appearance of my legs since the veins have not reappeared. I believe the diosimin helps with circulation and avoids the bulging vein problem. I find if I take it 2 or 3 times per week everything stays fine. Thanks for a very good product.	1	7/23/2015 4:02:56 PM
Saw no difference	I purchased the big bottle, took it as directed until it was all gone but I saw no difference.	1	7/17/2015 4:44:50 PM
I'm SHOCKED, this is NOT like Andrew's Vitamins	The ingredient Dyosimin literally made me sick to my stomach. I tried it on two different days (2 weeks apart) after a meal and I was sick for 24 hours each time. I am shocked as I have been a ProCaps customer for 8 years and never had such a reaction. I called HSN Customer Service and since I was not within the 30 days they wouldn't help with my return. Thus, into the trash it went and I will be extra careful with ordering Andrew's products thru HSN! I'll stick to order from ProCapsDirect!	1	7/12/2015 6:44:42 PM
No difference	I ordered a month's supply as a test. The bottle is nearly done but I've not noticed any difference. Glad I only got a month's supply.	1	6/27/2015 1:48:39 AM
Does not work	My husband and I both decided to give this product a try to see if it would help our legs as we were both beginning to feel a bit of leg pain as we aged. We both took it as directed for several weeks. My husband saw no change in his legs. At first, I saw no change either. Then after a few weeks, I noticed my legs and feet were hurting worse than ever. Not knowing what was causing the pain, I kept taking this product, thinking it would help. Then after analyzing what I was doing differently that might be causing the pain, I realized taking Circulation & Vein Support was the only thing I was doing differently. I stopped taking this product and within just a couple of days my legs felt much better. Now I have a giant, expensive bottle of supplements that we are no longer taking. We can't return it, because it took more than 30 days to see the ill effects. I am very disappointed in this product.	1	6/19/2015 11:19:45 AM
Got severe leg cramps AFTER using this product	And no cramps since I stopped using them. I wish I returned them.	1	6/7/2015 12:19:48 AM
Nothing	To be honest I have seen nothing, not sure this even does anything??	1	5/29/2015 5:04:18 PM
don't go well with thyroid meds	This messed with my thyroid medicine. ...I take armor thyroid med & this made my medicine not work ! I was in bed felt so sleepy ! Had to go get blood work done !	1	5/6/2015 3:07:20 AM
Don't bother	Had no relief from these capsules. I am sending the remainder back for a refund.	1	4/29/2015 10:40:36 PM
DIDN'T NOTICE ANY DIFFERENCE	Glad I purchased the smallest bottle. Did not see any difference. Disappointed. I purchase other Andrew's products and they work. I guess just one of those things!	1	4/24/2015 3:35:59 PM
NO GO	THESE DID NOT WORK FOR MY FEET.	1	2/26/2015 8:00:07 PM

My Opinion	I ordered this product and was taking as directed for two weeks when I started getting tightness in my chest and back between my shoulder blades. I stopped taking it and within days the pain stopped and I was back to being okay. I don't know if there was something in there not agreeing with my current medication, but this is what happened to me.	1	2/20/2015 6:33:06 PM
Don't know	Just did not see any different.	1	2/18/2015 2:48:34 PM
Don't do it !!!	Not only left a bad taste in my mouth but made my tongue sore.....made my legs and other joints hurt worse...also think it gave me a bladder infection....RETURN !!!!	1	2/17/2015 3:19:51 PM
Dizziness, Headaches, Nausea, Blood in Nose	Circulation & Vein Support caused an episode of dizziness about 1 - 1 1/2 hours after taking, mild headaches on and off, mild nausea, blood on my tissue after blowing my nose, and caused my sleep to go from 8 - 9 hours per night to sometimes as high as 12 hours. I had only been taking one capsule per day, for about a week, but for one day I took a second capsule later in the evening, and that's when I had the scary dizziness. At that point I discontinued use and am returning the product. I read the reviews when I chose "Ratings - Low to High" from the drop down menu, and noticed that one person researched and discovered that dizziness can be a side effect of Rutin.	1	2/16/2015 4:38:33 PM
Save your money	I have used Andrew's supplement's and had results,but did not receive any bebefits from this supplement. Very disappointed.	1	2/14/2015 4:40:21 PM
disappointing	this did nothing to alleviate the swelling in my feet and ankles.	1	1/14/2015 6:26:51 PM
Allergy??	I got this over a year ago but have stopped taking it due to skin rash.Which I have had since first using,did not associate the rash with this.My dermatologist could find no reason and finally before Labor Day said try eliminating all vitamins and add one at a time back.This was the last,one and in three weeks since I stopped the rash is almost gone,now I look back at the calendar it all started when I started with this one.i use all of Andrews products and will keep on but not this one.This one goes in the trash.	1	1/13/2015 8:43:33 PM
did nothing	Been using since Oct 2014 so waited to write a review. This has done nothing for me and my doctor said that also. I purchased during the holiday returns so Im able to send them back which I'm doing ..	1	1/9/2015 6:15:32 PM
Sounded good	I had no serious issues with legs. Swelling if consuming too much sodium, no varicose veins etc., occassional cramping.When on this product, the above conditions remained. I did not have the "heavy" feeling others speak about, the redness at end of day.So, maybe I did NOT need this product. Nevertheless, I consumed until gone. I will not re-order. Probably deserves more than 1 star, if it works. Not sure the 4 and 5 stars are nothing more than "jumping on the bandwagon"! Seldom any serious, contemplative reviews.	1	12/1/2014 9:25:04 PM
Not Quite Sold on These.	Did not notice any changes in my health.	1	10/23/2014 6:21:47 PM
Didn't work for me.	I was disappointed in this product as it did nothing for my varicose and spider veins. I was hoping it would just help with the tiredness in my legs and the joint pain like another product did for me. I have gone back to the other product and have had fantastic success with the veins and no pain in the joints.	1	7/10/2014 7:55:13 PM
NOT FOR ME	AFTER CHECKING WHAT WAS IN THE PRODUCT AND CHECKING WITH MY DOCTOR I HAD TO RETURN.	1	6/26/2014 8:12:37 PM
no difference	my legs looked and felt no different after using this product...I still suffer from leg cramps	1	6/8/2014 8:17:59 PM
NOT WORKING	I ordered these for my Dad and he has taken them for about a month and does not see any improvement in his leg circulation. He has also gotten three nosebleeds since he started and we are concerned this may be part of the issue. Showed to ENT doctor and he told him to stop taking them. Therefore, he now has a very large bottle of a supplement he cannot use.	1	5/24/2014 8:13:28 PM
I didn't notice any difference	After I had my second child I developed an ugly varicose vein in my leg. I had really high hopes for this product. I used it as directed for three weeks and noticed no change. I am very disappointed.	1	5/19/2014 8:29:48 PM

Circulation-Vein Support Supplement	I had to stop taking the supplement after just 2 days. After just one capsule, the next day I had an issue with a sinus headache. I did not consider the two issues connected until the third day after taking one more capsule the night before and the sinus headache returned with an even greater severity. I have not taken a capsule after that point, and it took a couple more days of sinus headache issues to recede. Taking OTC sinus and cold meds were the only reasons this issue was tolerable as much as it was. Do I know for a fact that the supplement is the direct cause, no I do not, but the only difference in diet and food intake for those 3 days was the supplement. After the fourth day, I no longer had the severe sinus headache, nor have I had them in the week since that time. I can provide only a lowest rating based on my side effects I encountered.	1	5/15/2014 11:09:32 PM
Really wanted these to work.....but	I really wanted these to work for me, but after taking these for 2 days, I experienced stomach upset and diarrhea. Not to mention the fact I should've checked with my doctor. If you're on certain prescription medication, this formula may not work for you. I was so desperate to find something that worked; my doctor has no answers for the swelling in my ankles; he just said it comes with age and I'm only 45, so needless to say, it made me feel like an old lady! Now, I'm not sure what to do at this point. Hopefully, these work for some people, but unfortunately, I'm not one of them.	1	5/14/2014 12:53:34 PM
Returned It	I took a few days and it my legs felt very uncomfortable and heavy. I a sure it helps some people but not for me	1	5/3/2014 2:19:08 PM
Did not work for me.	I had some pain in my leg and ankle joints and purchased this product when I saw it on HSN. After two days of taking this vein support capsule, the pain became much worse. I discontinued it after two weeks when the pain was unbearable. The worsened pain deminished after discontinuing. Also ordered the vitamins, not sure they are working, but dont see any side effects, so continue to take them.	1	4/14/2014 4:23:39 AM
Didn't help	This product might work for others but not for me	1	4/11/2014 8:43:09 PM
Hasn't worked yet	I have been using this for almost 2 months and have not seen any results yet. I bought a six month supply so I will keep using it and see if my legs look any better.	1	3/14/2014 10:25:25 PM
Tried for too long to return	I was so hoping these would work. I have R/A and a left swollen ankle and puffy feet. I wanted to give them a fair try but gave them too much time....they did not work and I waited too long to return them. I will finish them and live with my puffy feet. I believe I gave them a fair shot but will not re-order. Many of AL's products are in my cabinet and give me good results but not Circulation and Vein Support.	1	3/2/2014 7:12:55 PM
Send back	Did not work	1	3/2/2014 5:51:49 PM
Should have known better	Noticed no difference or less swelling in legs & feet after 2 weeks so it's on its way back	1	2/6/2014 6:32:07 PM
wish it worked for me	I bought this hoping it would help the swelling in my calve but after taking it for 4 days I realized that this product was not for me. My calve had a pain in it I never had before and I began limping cause of the pain. So unfortunately I returned it. Everything isn't for everybody	1	2/1/2014 8:13:48 PM
Not for me	Since I have been taking these I have been getting headaches and nausea, I tried taking them with food-without food-at different times of the day-same problems every time. I also have not noticed any difference in the swelling in my ankles. Sorry-they are going back.	1	1/31/2014 6:15:36 AM
Very disappointed	My mother has occassional swelling in her ankles, and I bought this product in hopes that it would help her. After taking this product twice a day for one week (as per instructions), it made her problem much worse. The swelling has increased to both of her legs. Her legs have become huge. Maybe an allergic reaction??? I don't know, but I told her to stop taking the medicine. I am returning this product. I had high hopes that this would help her.	1	1/27/2014 2:01:01 AM
Buyer Beware	As with the Co Enzyme, I only purchase a small trial size and once again I can see nor feel no difference in circulation and vein support with this supplement !	1	1/25/2014 11:57:18 AM

did not see a difference	discomfort in legs, returned product	1	1/10/2014 1:16:02 AM
Used to be my Favorite!	I have loved this product for years, the difference in my legs and how quickly any bruises went away was amazing!! HOWEVER,.....Andrew, you have changed the formulation, and added products that my body has had a reaction to. I can no longer take this. PLEASE bring back the old, simpler and less potent product. Sometimes more isn't better.	1	12/18/2013 2:44:03 AM
not effective	These are large capsules to swallow, and the dose for one day is two. I had to separate them to get them down, and even then they would stick in my gullet and feel like lumps. After a week of use, no noticeable change in the swelling and discomfort from hours of teaching. Will not reorder. I have found another product that works, and I only have to swallow one veg. based table. (Suzanne Somers)	1	11/27/2013 6:17:49 PM
Did not Work	I purchased this on July 21. I ordered the 130 Capsule bottle. I took two capsules per day. I only have a few more capsules til the bottle is empty. I waited in writing my review to totally have a real perspective on this product. It did nothing for me. I read all the reviews before purchasing. For me this product did nothing. I would not repurchase since I feel that I did take it long enough. I even took two capsules a day and nothing. I would have liked it to work as it did for others but alas it did not.	1	11/24/2013 2:26:18 PM
painful	I teach fitness and as I get older my body has a heightened level of sensitivity. This product and the Glucosemine Condroitin (sp?) contracts my muscles. I guess its an allergic reaction.	1	10/31/2013 2:28:08 AM
Didn't do anything	I bought this product, hoping it would help veins in my legs. I even took pictures to see if there was even a slight change. I just finished this bottle and there is no change.	1	10/8/2013 12:08:16 AM
Not worth it	No noticeable difference in veins. I went back to purchasing Rutin at local health food store.	1	10/2/2013 7:48:06 AM
Concerned about Results	Had to ask for a refund on the Cholesterol. Am now concerned this product doesn't do what it says. Will be requesting a refund on this one too.	1	10/1/2013 9:21:10 PM
Disappointed	Have used the whole bottle and feel nothing different. After months I hoped to feel some improvement.	1	9/27/2013 1:57:24 PM
Didn't notice a difference.	This is the second "Lessman" product I've ordered. I love their Multi-Vitamin! However my husband has restless leg syndrome and I was hoping this product would give him some relief. Unfortunately there seemed to be no difference.	1	8/7/2013 8:27:43 PM
Made me very sick to my stomach!!	My husband & I have been taking Andrew Lessman vitmains for 4mos. One of them started making me sick to my stomach so I stopped taking all Andrew Lessman vitamins & adding them back one at a time to find out which one needed to be eliminated completely. Turned out to be the Circulation & Vein Support. It's too late to send back this product so I'm letting my husband finish the bottle but will not be reordering!!	1	7/22/2013 8:22:51 PM
Not for me	Each time I took one of these pills, I got leg cramps in the night. I've used other products from this company with no problems , it's just this one that did not work for me	1	6/4/2013 4:41:27 PM
KNOTHING	I HAVE SEEN NO CHANGE	1	5/9/2013 11:11:14 AM
No Results Yet	I really wanted to like this product, I can't say that it has made any difference, I see no quality of any kind in my leg support or the support of any of my veins. I hope I change my mind, but it has been too long and I think this is a waste of money.	1	9/6/2012 2:40:28 AM
Can't tell	I don't notice any difference.	1	9/5/2012 12:56:15 PM
ok	Didn't see where it help.	1	8/3/2012 5:43:08 AM
Disappointed	after carefully reading the reviews on this product, I decided to order and give it a try, I am almost finished with my 60 day supply, and I feel absolutely no difference in my legs, so I will not be ordering again, save your money, it is just a bunch of hype..	1	6/25/2012 9:12:34 PM
would never re buy	This is a so what product that cannot be really tested, not by me anyway. I used it and nada. So much for that.	1	6/24/2012 8:08:34 PM

Sending it back	I take a lot of Lessman Products and love them. However, about a week and a half after starting this product, my right leg started feeling very uncomfortable from knee 2 ankle. I did not, immediately, attribute it 2 the product since I do lots of cross training: spinning, yoga, cardio-blast, etc. I thought I had injured myself without realizing it. However, the feeling then moved to my left leg. Eliminated product and discomfort went away. Don't know which ingredient caused this. Kind of scary.	1	5/12/2012 9:00:41 PM
Don't waste your money	I get swollen ankles in hot weather-thought this might help. Nothing! Ice and leg elevation are what helped.	1	10/11/2011 4:08:11 PM
They made me dizzy	gave to my husband made him sick as well.	1	10/11/2011 12:11:41 PM
vein support not for me	this product didnt work for me at all.. I used andrew product and i like it and works for me, but not this one wanted to returned it. still at home, i wish had kept the package slip so i can returned it..	1	9/17/2011 9:37:41 AM
No difference	I have not noticee any difference or change in my leg. What a waste of money for me since it is over my 30 days refund out so much money	1	9/7/2011 12:23:17 PM
Product doesn't work.	Sorry, but this product is over priced and really hasn't worked for me.	1	8/23/2011 5:20:47 AM
ANOTHER PRODUCT TO BUY	THIS DID NOT WORK!! FOR IT TO BE BENEFIT WOULD BE BETTER IF YOU WOULD ADD THEIR VITAMINS..	1	8/22/2011 6:10:35 AM
no	I took for two weeks and felt zero difference in my legs.	1	8/11/2011 12:38:37 AM
Horrors	I had some minor leg surgery and had alot of leg pain and swelling as the circulatory system redirected itself. I decided to try this product, as I use several other Andrew Lessman products. This product gave me relief, but altered my vision to the point that I developed ocular migraines while on this product. The ingredient, diosym, that it contains, is well know thru Europe as causing visual problems. When I purchased this formulation, I had no idea, until after the fact. Horrible symptoms.	1	6/4/2011 2:50:53 PM
Feel nothing, no change	I have been using this as direct and even added a pill and nothing. I still am getting the swelling and the leg cramps. Sorry Andrew I use alot of your items but this one is doing nothing for me. Too much money for no results back it goes.	1	5/6/2011 4:21:19 PM
nothing	This product has done nothing for me. I've taken it for about 20 days now. I take it at night and have twice woken up in the middle of the night feeling sick. If you are suppose to take it for a long period of time before you notice results then they need to extend their return policy beyond 30 days. Otherwise for some of us we'll never know because if your like me, no results will equal a returned item.	1	5/5/2011 9:53:41 PM
Sorry didn't work for me	Tried it but it did not take away the vein pain in my leg.	1	4/28/2011 4:07:58 PM
not good	This product made me sick of my stomach. This is the third product that I tried that is endorsed by Andrew and it is not satisfactory.	1	2/21/2011 1:37:42 PM
New Butchers Broom RUINED this product!	I HAVE BEEN TAKING CIRCULATION AND VEIN SUPPORT WITH AMAZING RESULTS, WHICH CHANGED MY LIFE FOR THE BETTER. I WAS EXCITED WHEN THIS WAS A TODAYS SPECIAL SO I ORDERED 2 OF THE LARGEST JARS. HOWEVER, THE ADDITION OF THE INGREDIENT CALLED BUTCHERS BROOM MUST HAVE MADE THIS PRODUCT ALOT DIFFERENT BECAUSE NOW MY LEGS FEEL STRANGE AND TINGLY. I STOPPED TAKING THIS PRODUCT AND IT CLEARED UP. I WENT BACK ON IT AGAIN AND SURE ENOUGH, THE STRANGE FEELING STARTED UP AGAIN ALONG WITH THE TINGLING. A FRIEND OF MINE SAID SHE HAD THE EXACT SAME PROBLEM WITH HER LEGS SINCE THE BUTCHERS BROOM WAS ADDED TO THIS PRODUCT AND SHE TOO IS HEARTBROKEN SINCE HER LEGS WERE ALOT BETTER ON THE OLD VERSION. PLEASE ANDREW, BRING BACK THE OLD CIRCULATION AND VEIN SUPPORT!! IT CHANGED MY LIFE AND NOW I DON'T KNOW WHAT I'LL DO WITHOUT IT!!	1	1/20/2011 3:32:17 PM
Charlie Horse Return	I had been doing well with less frquent charlie horses in my legs but when I started taking vein support they increased. I persevered for a few weeks then discontinued when they didn't subside.	1	10/1/2010 3:33:59 AM

Was something suppose to happen?	I have been taking these for a while now and I don't feel any difference. Wasted money! The mind can make you think anything works if you really want it to. Don't believe the hype. These did nothing!	1	8/1/2010 1:44:48 PM
can tell no difference	Can tell no difference in my legs after taking this product for a month. Seems like a waste of money, and too late to return.	1	7/31/2010 12:25:05 PM
Not for Me	They gave me an upset stomach. Perhaps the pine bark did it. I will be returning them.	1	7/13/2010 11:35:28 AM
Opposite Effect	I love Andrew's products, but this one not only did NOT work, it actually made my ankles & feet swell to the point where I had to take a prescription diuretic for a month to get back to normal. Too bad; I've had such great results from most of Andrew's vitamins.	1	6/13/2010 4:06:22 AM
Leg Support!!!	Sorry, my product went back...I did not notice any difference. First time, all the products are wonderful! Keep on trying them, they all do its job..for me NOT THIS ONE!!!	1	4/19/2010 11:03:20 AM
Didnt work	Could be a good product. But did not work for me sorry Andrew will be sending back.	1	3/1/2010 2:07:40 PM
Doctor told me to stop using this product	Unfortunately this product was not recommended for me by my own family physician so naturally I had to stop taking it and yes, I did not feel any different taking the product or my now having stopped taking it. Go figure.	1	10/10/2009 1:49:36 AM
Check with your doctor first.	I checked with my doctor and he said, "No way." If you are on any meds I would check with your doctor before you order this. I had to send mine back and thus pay the return fee.	1	10/6/2009 5:22:16 AM
Circulation and Vein Support	I am hugely disappointed with this product. I purchased it based on the other reviews, so I was looking forward to seeing results. I had been using another product I purchased online, and after 3 weeks into it, I started seeing results. Once that product was used, I began using the Circulation & Vein Support, only to see the swelling come back to where it was prior to using any product.	1	8/13/2009 3:09:45 PM
Suffered Side Effect to Ingredient	I had ordered the 360 count of this product for the first time because I tend to have heavy legs. The first day I took one capsule and noticed that I was light headed, but I ignored it thinking it's one of those things. The second day I took 2 capsules and ended up getting very dizzy after several hours. After checking out the ingredients, I learned that Rutin can cause dizziness. I am sure the product works for those who don't suffer side effects.	1	7/19/2009 5:11:50 PM
Waste of Money - Didn't Help At All	I've used the 30 count bottle and there is absolutely no difference in the swelling of my feet or legs. What a waste of money. My doctor laughed when I showed him the empty bottle - said would never recommend this.	1	1/31/2009 6:30:27 AM
Did not work for me!	I am so disappointed! I tried the product for 1 month and it did NOT work! For 11 years I have suffered with swollen ankles due to high sodium intake, lack of sleep, standing or travelling. I took up to three pills a day. My ankles are still swollen. When I take the pills it feels as if my legs are going to burst! After reading the testimonials I wanted so badly to get a solution to my problem! I am so sorry to be the bearer of bad news; I felt compelled to tell the truth.	1	12/14/2008 1:13:30 AM
twice tried.....	Tried the first bottle, took two capsules daily with no real results. Thinking that I needed to give it more time as I had on my herbal supplements I take, I ordered a second bottle still with no discernable results. I have no arterial diseases, no diabetes, nothing else but sorness of the legs. I exercise regularly, have no degenerative muscle issues, and circulation is fine in my legs, just occassional heaviness in my legs. A definite dissappointment.	1	3/5/2007 5:03:36 PM
No change	Have been taking them twice a day for more than 2 months & have noticed no difference. My overall veinous structure may be better, there'd be no way for me to know that since my symptoms have not changed. Not every supp helps every person - I need a 60 day return policy on this one. I'll take the rest since they're paid for, but don't expect improvement and won't order again.	1	9/15/2006 3:58:58 PM
