

Thank you for choosing HairMax®,
the first FDA-Cleared Medical Device to treat hereditary
hair loss and promote hair growth in men and women.

180-DAY RETURN OPTION

DID YOU KNOW?

Results in 16 weeks – Hair loss doesn't happen overnight and it will take time to grow your hair back. Please be patient. During our clinical studies, some participants saw results in as early as 16 weeks; it took others 20-22 weeks to see results. **Feel confident because you have a 26-week return option to see the benefits for yourself.**

Signs of progress – After 16 weeks, have your hairdresser or family member look closely at your scalp. They should see new hairs appearing or multiple hairs coming out of the same follicle. These are positive signs that HairMax is starting to work for you.

Real results – 90% of the men and women in our clinical studies experienced hair growth*. After 26 weeks the average change in hair count for men and women was 129 new hairs per square inch.

Minor shedding – Some people may experience a small increase in shedding after 2-3 weeks of using HairMax. This is normal and a very good sign. The old, weakened hair is shed to make room for new, healthier hair.

Clinical results – HairMax has been clinically tested in 7 studies on more than 460 men and women. Rest assured that HairMax is a breakthrough technology to combat your hair loss and promote new hair growth.

Continued usage – Just like brushing your teeth regularly to maintain healthy teeth and gums, continued use of the HairMax beyond 26 weeks is necessary to maintain hair growth benefits.

Questions – Not sure if HairMax is working for you? Having technical problems? The HairMax staff is on call to answer any questions you may have Toll Free at (866) 527-3726.

To provide you with the time needed to see results,
your HairMax is backed with a 180-DAY RETURN OPTION.
