Replacement parts for a double-insulated product must be identical to the parts they replace.

INFLATION & ADJUSTMENTS

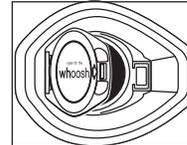

NOTE: BED MUST BE AT ROOM TEMPERATURE PRIOR TO INFLATING OR IT MAY CAUSE AIR LEAKS.

NOTE: PRESSURE CAN VARY DEPENDING ON ROOM TEMPERATURE AND CONSUMER WEIGHT.

1. Place your rolled-up bed on the floor or other surface free of obstructions or sharp objects.
2. Make certain the Quick Air Release Valve is closed. If the release valve is open, close it by using 2 thumbs to push cover and snap into valve. Be careful to avoid pushing valve cover to the right or left as it snaps into the valve opening.

This plug will fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not attempt to defeat this safety feature.
