

QUICKSTART INSTRUCTIONS

PHONE SOAP

In just 10 minutes your PhoneSoap device will kill the germs on your phone!

After PhoneSoap kills the germs on your phone, use the included 2-in-1 screen cleaner to wipe smudges from your screen.

1 Plug the power adapter into the wall.

2 Plug the other end into the port on the backside.

3 Plug your phone's charging cable into your Phone.*

4 Plug the other end of your charging cable into the USB port on the backside of the PhoneSoap.*

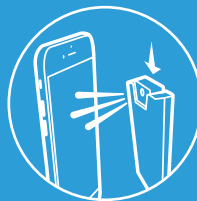

5 Close lid and sanitizing will begin automatically and shut off automatically after 10 minutes. You can leave phone inside PhoneSoap to continue charging your phone until fully charged. It will still charge your phone once UV cycle has finished and light has turned off.

** Charging your phone is optional, not required.*
