

VanZyverden's
NARCISSUS GOLDEN BELLS

Daffodils (botanically called *Narcissus*) are long term perennials and make for great companions to not only other bulbs, but also annuals, perennials, and all sorts of shrubs. They soften hardscapes, accent most any garden, and are an inexpensive solution to adding color to your garden on nearly any budget. They are relatively pest free, and deer will not eat them. Daffodil classifications become quite technical, as they are divided into 13 divisions according to their flower shape and heritage by the American Daffodil Society. They do well throughout most of the U.S., as long as there is a discernible winter. Daffodils are ideal for large plantings and naturalizing, making them an exceptional value item and providing years of carefree color.

*4-8 little hoop
petticoats from each bulb*

*Deer resistant and
years of carefree color*

Excellent in containers

About This Variety: The Golden Bells variety is also known as a Jonquil daffodil and Yellow hoop Petticoat. Amazingly, there can be as many as 15 stems per single bulblet. The blooms are cupped, large, and bell shaped. The flowers are fragrant and known for their scent, looking like the smaller version of their larger cousins.

Growing Instructions: In fall, plant the bulbs pointy end up in deep, fertile, well draining soil in full sun to light shade. Bulbs do not like wet feet. Water during their growth period. Fertilization helps growth and increases naturally by offsets. Daffodils can be left undisturbed to naturalize for years. If you cannot plant them immediately, store in a cool, airy place.

Care Tip: When given ample sun light, water, and proper nutrition, removing the flowers as soon as they fade but allowing the leaves to brown before removing, they will return for years to come with little other effort.

Exposure: Full sun to partial shade

Height: Grows 4-6" tall

Spacing: Plant 6-8" apart, 6" deep

USDA Zones: Hardy in USDA zones 5-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
