

*Van Zyverden's*  
SCILLA PERUVIANA

Scilla Peruviana, also known as Giant Scilla, grow from a large bulb. The strap-like, narrow leaves emerge in the fall, and in mid-spring, the tall flower stalks appear fully packed (50-100 blossoms) with blue colored flowers that can last for weeks. This variety is star-quality without the prima donna attitude or cost.

*Striking evergreen  
perennial and long blooming*

*Excellent in containers,  
with 18" diameter blooms*

*Also known as Peruvian Lily,  
Cuban Lily, and Caribbean Lily*

*About This Variety:* It is an easy plant to grow, given proper conditions. The plant goes dormant over summer. Good naturalizer. Good water wise plant and hardy to 5°F.

*Growing Instructions:* Water well during the growing season

*Care Tip:* Leave bulbs undisturbed and they will soon naturalize

*Exposure:* Full sun to light shade

*Height:* Grows 18-22" tall

*Spacing:* Plant 3-4" apart, 3" deep

*USDA Zones:* Hardy in USDA zones 7-10

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
