**ORNAMENTAL TREE CHERRY KWANZAN**

Planting a tree is a very rewarding experience as its a very easy way to increase the value of your home, and you can enjoy watching it grow and mature to its full potential in the years to come. According to the Arbor Day Foundation, a non-profit whom promotes the planting of trees nationwide " They clean air and water, slow climate change, ease poverty and hunger, prevent species loss, and feed the human soul. All we need to do is plant and care for them. Let's work together to make it happen around the world". Planting trees will help preserve the planet for future generations as it makes it cleaner and greener.

*About This Variety:* Named after a mountain in Japan, the kanzan tree is native to China, Japan and Korea. This is the very same tree made famous at the annual Cherry Blossom Festival in Washington, DC. It is the most popular of all the flowering cherries. The leaves are ever changing in color providing long interest, but its the double blooms that make it famous.

*Growing Instructions:* Plant where it will receive at least six hours of direct, unfiltered sunlight daily. Before planting protect the tree from freezing, overheating, drying out or injury. If the roots have dried, soak them in water about 24 -48 hours before planting. Dig a hole twice the diameter of the root system and two feet deep. Replace some of the loose soil so that the roots can easily penetrate the soil. Spread the roots on top of the soil, planting it at soil level. Firm soil and water well. Do not fertilize at planting time.

*Care Tip:* Good choice for planting along walk ways, streets and buffer strips

*Exposure:* Full sun to partial shade

*Height:* Grows 25-30' tall

*Spacing:* Plant 25-30' apart, ground level

*Hardy in:* USDA zones 5-9
