

Van Zyverden's
FOOTBALL SIZED ELEPHANT EAR BULB

Elephant Ear bulbs are among the most eye catching of the bulbs available for purchase. Not only are they one of the largest growing bulbs but they are also very versatile and can grow with little sunlight to full shade. Beautiful on their own or planted as a back drop for your favorite blooms, they provide a bold tropical effect in nearly any garden. Grown for only their foliage which are reminiscent of an elephant's ears. Once established they require little to no attention.

huge tropical leaves

*can be grown in full sun,
but partial shade preferred*

adapts well to growing in containers

About This Variety: What sets this bulb apart however from our other Elephant Ear Bulbs is its mammoth football size bulb. It is the largest bulb commercially available! Starting out with a larger bulb from the get go, rewards you with bigger and stronger leaves sooner. A little more expensive, but why wait?

Growing Instructions: Plant outdoors only after soil and night temperatures have warmed up above 60°F.

Care Tip: They love water so much that you can even plant them in ponds. Never let the soil dry out.

Exposure: full sun to partial shade

Height: grows 6-8' tall

Spacing: plant 4-5' apart, 2-3" deep

USDA Zones: hardy in USDA zones 8-11

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
