

Length of Warranty

This warranty begins on the day that you purchase OR take possession of your mattress. Remember to keep your sales receipt as proof of purchase and DO NOT REMOVE THE LAW TAG from your sleep set. Your receipt and Law tag will serve as a means of establishing your warranty rights. In the event your mattress is deemed defective, the limited warranty would not be renewed or extended after repair or replacement of the original set. **If you have a problem with the mattress you purchased, please visit**

User Guide and Warranty Information

Opening Instructions:

Please open and set up your roll packed mattress as soon as possible.

- 1. Unbox your mattress on it's side, next to the foundation.**
Avoid using a sharp object to open the box, as you run the risk of unintentionally cutting your mattress.
- 2. Position the rolled-up mattress on any solid or slatted foundation and unroll the outer plastic wrap.**
- 3. Unfold the mattress and carefully cut the inner plastic.**
- 4. Watch your mattress expand and take shape.**
Each Northern Nights Mattress is a uniquely made and hand crafted product. While most mattresses will fully expand within 3 hours, these times can vary from as little as an hour, to as long as 8 hours. Any slight odors will dissipate shortly after setup is complete.

NOTE FROM THE MANUFACTURER:

Mattresses conform to the Federal Flammability Standard known as 16 CFR Part 1633. Every FR Mattress is certified to be sold alone. Please note: a FR Certified mattress may NOT be sold with a box spring or foundation that was not tested and certified for use under that particular mattress.

Congratulations and Thank You!

Please open and set up your roll packed mattress as soon as possible. You have just purchased a quality mattress manufactured by BIA. In order to prolong the life of your bed and be more satisfied with its overall performance, please remember the following points:

- **Body Impressions** are normal in quality bedding. They indicate that the upholstery layers are conforming to your body's individual contours. These are not structural defects, but normal occurrences in the superior performance of the mattress.
- Impressions are going to be more noticeable on king and queen sizes.
- To equalize impressions, rotate your single-sided (no flip) mattress end to end regularly every two weeks for the first 3 months of use and every two months thereafter. This mattress will NOT need to be turned over.
- Use of a box spring/foundation and a frame with a proper center support is required unless the mattress is laid flat on the floor. This warranty will be null and void if the mattress is not used with a proper frame with a rigid center support.
- We recommend a premium quality mattress protector cover be placed on your mattress to act as a barrier against stains to the mattress. Stains, burns, or abuse of the mattress will void the warranty.
- Do not use dry cleaning fluid on your mattress as it will cause damage.
- Do not get your mattress wet. Some of the upholstery materials may compress or deteriorate.
- Do not iron your mattress. This may cause the cover to deteriorate.
- Loose threads are common on the quilted top of the mattress. These threads can be trimmed if desired.
