

Van Zyverden's  
HOSTA MIGHTY MOUSE EARS

Hostas are grown for their foliage that comes in a spectrum of blues, golds, greens, yellows, whites, variegated, some speckled and others striped. They thrive in the shade, are long-lived and low-maintenance. Many Hosta varieties have seasonal color or can change color depending on growing conditions. While there are well over 3,000 cultivars to choose from, we offer a range of foliage shapes, colors and sizes. Hostas can take years to fully mature, each year exhibiting a change in color, texture and form.

*About This Variety:* Hosta Mighty Mouse Ears is a sport of famous award winning Hosta Blue Mouse Ears. It is smaller in stature, with rounded heart shaped variegated blue-green leaves with yellow margins. Slug resistant and leaves are curled to resemble the famous mouse's ears. Adorable choice for containers.

*Growing Instructions:* Plant Hosta outdoors in spring after all danger of frost has passed in a partially shaded to full shade location. The ideal soil is rich and porous and drains well, yet still holds enough water for the roots. If your soil is heavy clay and drains slowly, or very sandy and does not hold water, add organic soil amendments like peat moss or ground bark. Spread a 3-4 inch layer of soil amendment if needed and incorporate into the soil to a depth of 10 inches. Plant roots 2-3" deep and 12-36" apart. Cover with soil. Water thoroughly at planting. While actively growing, water frequently and thoroughly so that water will reach roots. Mulch to keep the soil cool and to prevent the soil from drying out. Fertilize regularly.

*Care Tip:* Remove foliage after it has completely yellowed and died back. Divide every two to three years.

*Blooms:* Summer

*Exposure:* Partial Shade to Full Shade

*Height:* Grows 6-8" tall

*Spacing:* Plant 10-12" apart, 2-3" deep

*USDA Zones:* Hardy in USDA zones 3-9
