PROVEN WINNERS® 2023 ROSE OF THE YEAR ROSA RINGO ALLSTAR™

Why choose Proven Winners®? Proven Winners® searches the world to bring you vibrant flowering annuals, perennials and shrubs that deliver the most beautiful garden performance. When you garden with Proven Winners®, you'll surely fall in love with the carefully curated collection. Proven Winners® plants have been proven in trials conducted in numerous sites worldwide to be; easy to grow and care for, bright and colorful, long blooming, covered with blooms, healthy and vigorous and trailed and tested. These premium young dormant plants ship in an one quart pot, without leaves nor flowers in its sleeping beauty stage as it is all about starting with a solid foundation of roots. Dormant potted plants are less likely to be shocked by adverse shipping conditions and/or initial planting and save; shipping weight, time and money.

*Award winning, 2023  
Proven Winners® Rose Of The Year*

*Ships as a dormant young plant  
in a 2 quart nursery pot,  
in its sleeping beauty stage*

*Dormant plants ship without leaves nor  
flowers as it's all about the roots*

*About This Variety:* Rose Ringo All-Star™, Rosa 'Cheweyesup' PPAF, CBRAF will be Proven Winner's® 2023 Rose Of The Year. Named the Royal Horticultural Society Rose of the year in 2015, this new member of our Ringo series features single flowers with a unique color blend of melon-orange and pink with distinct cherry-red eye and showy yellow stamen. They age to lavender pink. Award winning variety.

*Growing Instructions:* 1. Select a well-drained location away from trees and hedges where there is sun at least half a day. 2. Prepare the site by digging a hole 12-15" deep and about the same width. If available add 6-8" of compost, manure or top soil. 3. Best to plant immediately upon arrival. Remove packaging and soak the in water for about an hour. Prune the canes back to about 1" above the bud union. Spread the roots out evenly into the prepared hole. Plant at a depth with the bud union (where the branches come together) about 1" above the soil level after back filling the hole. 4. Best to mound soil or mulch over the bud union until the danger of frost has passed - removing once new growth is observed. 5. Soak soil every week until established when rain fall is deficient. 6. Fertilize with a season-long balanced fertilizer once leaves start to emerge.

*Care Tip:* Pruning an inch or so off the canes will help send a message to the rose that it is time to start growing once again.

*Blooms:* Summer

*Exposure:* Full Sun

*Height:* Grows 2-3'

*Spacing:* Plant 2-3' apart, set root ball even with ground level

*USDA Zones:* Hardy in USDA zones 4-8

Guaranteed to grow 1 year from purchase if directions are followed. Any concerns related to quality and/or counts feel free to contact us.
