

# BERNINI™

INNOVATIVE GARDEN

## FILTERED NOZZLE

The Future Of Water Is Filtered Water

www.berninifountains.com

### ① Changing Filter (It is recommended to change filter every 4 to 6 months)

1. **Remove Filter:** A. Hold the Main Body/Collar (a) and unscrew the Hose Connection/End Cap (b). B. Pull filter out of the Main Body/Collar (a) (The filter may be hard to remove, grab end of filter and wiggle back and forth while pulling).

2. **Install New Filter:** A. Insert the Filter into the Main Body/Collar (a), as shown in image. B. Install Hose Connection/End Cap (b) into Main Body/Collar (a), as in image. Ensure End Cap O-ring matches image. Do not over-tighten.

### ② Assemble hose to faucet

1. Attach the inlet of the Metal Garden Hose® to the faucet of your home.
2. Turn on the faucet to the Metal Garden Hose®.
3. When using the nozzle to turn off the water **DO NOT OVERTIGHTEN**. To use the nozzle correctly, hold the Main Body/Collar of the nozzle and twist the Nozzle Head to turn on, off or adjust spray.

### ③ Storing your hose

You can store your Metal Garden Hose® on just about any common hose reel or simply coil your hose next to your faucet.

**TIP:** When you are finished watering with your Metal Garden Hose® It's best to release the water pressure from your hose before storing.

### ⚠ WARNING

- The water in ANY garden hose may become contaminated and cause serious health effects.
- DO NOT use for drinking water.
- Strangulation hazard. Hose wrapped around neck may cause serious injury or death.
- Keep out of reach of children.
- For general OUTDOOR use ONLY in applications under 80 psi.
- DO NOT use this hose for commercial applications, in hot water applications, or high pressure applications. Doing so may cause serious personal injury and or damage/ destruction to the product. However you can use it on the low pressure inlet side of a high pressure washer.
- DO NOT leave this product unattended when it is in use or under pressure.
- DO NOT step or stand on hose as it may cause injury.
- This product is NOT A TOY.

**Coupling Protection:** to avoid any kind of corrosion causing fusion between faucet and hose coupling, we suggest disconnecting and reconnecting the hose from any metal spigot a minimum of 3 times per year.
