Get shredded! The Sun Joe® Shredder Joe SDJ616 13-amp electric leaf mulcher/shredder instantly turns the hefty heaps of dead leaves crowding your yard into mulch that can be easily disposed of or utilized as compost.

Shredding leaves into mulch is easy with Shredder Joe. Simply dump handfuls of leaves into the easy-to-load 18.9-inch hopper, and watch its powerful 13-amp motor and bladeless mulching system make quick work of your yard waste. With its 12-inch cutting diameter and heavy-duty trimmer line, Featuring Smart Shred technology, Shredder Joe employs an advanced motor cooling system that diverts the air from the shredded leaves.

Unique to Shredder Joe is an easy-to-read control dial with adjustable settings for wet or dry yard waste, including leaves, thatch, grass clippings and even pine needles.

Weighing only 13.4 lbs, Shredder Joe is easy to transport and its space-saving design lets you remove the legs and nest the motor housing inside the hopper for compact storage. Shredder Joe assembles in minutes with no tools required! Twenty replacement cutting lines are included and are equally effortless to install.
