# MOTOR TREND®

## » FrostGuard

PROTECTIVE WINDSHIELD COVER

Note: The Motor Trend™ Frost Guard is designed to cover the substantial viewing area of the windshield. Perimeter edges may not be covered.

### INSTALLATION INSTRUCTIONS

1. Place the elastic loop over the driver's side mirror. Choose the loop that provides for the best placement and most snug fit to the windshield. Unroll the FrostGuard as you walk around the front of the vehicle.
2. It may be necessary to slightly stretch the elastic loop as you walk in front of the vehicle to attach to the passenger side mirror.
3. When you reach the passenger's side mirror, slide the other elastic loop over the mirror.
4. Lightly tug on the FrostGuard to center the unit on the windshield. Check the cover to make sure it is laying flat against windshield.
5. Extend wiper-blade cover over windshield wipers for added protection.
