

CARBONKLEAN peeps™

Prescription Glasses • Sun Glasses • Reading Glasses

VERY IMPORTANT - MUST READ INSTRUCTIONS

- 1) ALWAYS** use the Retractable Lens Brush to remove any dust, dirt or debris from your lens before using cleaning pads.
- Before using the Cleaning Pads on your lenses, **ALWAYS** remove any lotion, hairspray, makeup or gunk from the lens first by using our **Renew Cleaning Wipes**. "If it is more than facial oil and fingerprints, Renew it away!"
- Separate your **Peeps** cleaning pinchers from the recharging station by placing your fingers on the holder, grip the cap, and pull.

Retractable Lens Brush

INSTRUCTIONS CON'T

- Place your lens in between the two cleaning tips and gently squeeze the cleaning pads against the lenses, while rubbing in a back and forth or circular motion until the lenses are clean. **Do not squeeze too hard, or it could cause the oils to smear.**
- When replacing the pinchers into the recharging station **DO NOT SQUEEZE THE ARMS**. Simply guide them easily back into the Cap/Recharging Station, on their track.

Peeps Arm Sliding Track

"DO NOT Squeeze the arms, simply guide them easily back into the Cap on their track."

***Note:** It is important to understand that your **Peeps** will provide the best, most effective cleaning for your lenses that they may have ever had. You may very well see imperfections and scratches in your lenses that you did not realize were there before. **Peeps** are safe for all quality lenses and coatings, and will never scratch or damage your lenses or coating when used as directed.
