

Duster Crevice Tool

Two cleaning tools in one! The soft dusting brush is great for grabbing fine dust on hard surfaces, while the crevice tool gives you extended cleaning reach for tight spaces.

Pet Multi-Tool

Another multi-use accessory. Stiff bristle brush removes stuck-on debris from a multitude of surfaces. Detach the bristles to reveal an upholstery tool for cleaning stubborn pet hair.

Fine Dusting Brush

Ideal for fine dusting of knick knacks and delicate objects and in between narrow spaces. Also great for use on fans, glass tables, lampshades, and keyboards.

MultiFLEX™ Under-Appliance Wand

This under-appliance wand features a flexible elbow to clean under, on top of, and behind appliances and hard-to-move furniture.
