677 Roomba® Robot Vacuum

Intelligently navigates your home

Powered by a suite of intelligent sensors, the Roomba® robot vacuum makes more than 60 decisions per second to adapt to your home and help thoroughly clean your floors

Loosens, lifts, and suctions dirt

The 3-Stage Cleaning System uses Dual Multi-Surface Brushes, a specially designed Edge-Sweeping Brush, and vacuum suction to attack everything from small particles to large debris on your carpets and hard floors.

Dirt Detect™ Technology

Dirt Detect™ Sensors alert the Roomba® robot vacuum to work harder on concentrated areas of dirt such as high traffic zones of your home

With 25 years of robotic expertise and continuous innovation, iRobot® has optimized our Roomba® robot vacuum to help thoroughly clean floors in homes around the world.

Roomba® 677 features:

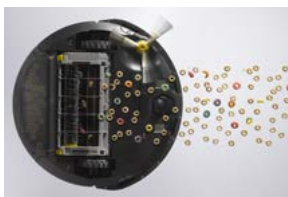

Intelligently navigates your home

A full suite of intelligent sensors guide the robot under and around furniture to help thoroughly clean your floors.

Dirt Detect™ Technology

The robot will recognize and focus on high traffic areas where dirt collects.

Dual Multi-Surface Brushes

Multi-Surface Brushes grab everything from small dust to large debris from carpets and hard floors. The first brush loosens and lifts dirt, and the second brush pulls it in to be suctioned up.

A clean you can see and feel, every day

The 3-Stage Cleaning System attacks everything from small particles to large debris on your carpets and hard floors.

Take cleaning to the edge

The specially-designed Edge-Sweeping Brush sweeps debris from along wall edges and corners.

Control from your smart phone

Control and schedule cleanings on your Wi-Fi® connected Roomba® robot vacuum with the iRobot HOME App. You can monitor cleaning activity, view cleaning history, and watch maintenance videos.
