SERVICING OF DOUBLE-INSULATED PRODUCTS

In a double-insulated product, two systems of insulation are provided instead of grounding. No grounding means is provided on a double-insulated product, nor is a means for grounding to be added to the product. Servicing a double-insulated product requires extreme care and knowledge of the system, and is to be done only by qualified service personnel. Replacement parts for a double-insulated product must be identical to the parts they replace.

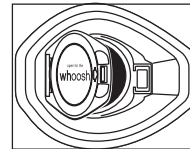

INFLATION & ADJUSTMENTS

For better protection of this product never fold, unfold or inflate the airbed in temperatures below freezing, avoid extensive exposure to the sun and protect from contact with sharp objects and rough ground.

1. Place your rolled-up bed on the floor or other surface free of obstructions or sharp objects.
2. Make certain the Quick Air Release Valve is closed. If the release valve is open, close it by using 2 thumbs to push cover and snap into valve. Be careful to avoid pushing valve cover to the right or left as it snaps into the valve opening.

This is the closed position.

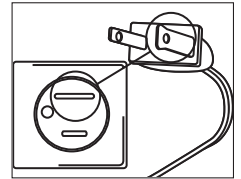

Open Air Release Valve.

Close Valve using 2 thumbs.

3. Remove the AC plug and cord from the plastic bag and shrink wrap.
4. Before plugging the pump into the outlet, please confirm that the knob is in the "OFF" position.
5. Plug into any standard polarized 120 Volt AC electrical outlet. North American Electrical rating: 120 VAC 60 Hz 1.7 A.

(Note: 230 VAC product sold outside of North America). This product has a polarized attachment plug (one blade is wider than the other) as a safety feature. This plug will fit into a polarized outlet only one way. If the plug does not fit fully in the outlet, reverse the plug. If it still does not fit, contact a qualified electrician. Never use with an extension cord unless the plug can be fully inserted. Do not attempt to defeat this safety feature.

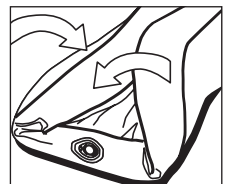

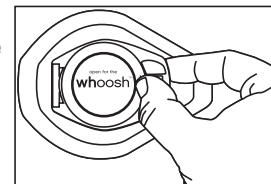

6. Select the desired firmness by rotating the knob on the pump to SOFT, MEDIUM, or FIRM. The light next to the chosen setting will be illuminated to confirm successful selection. The pump will inflate the mattress to the selected firmness setting and then shut off automatically.
7. Once the desired firmness is reached, the pump will monitor mattress pressure and quietly add air if the firmness drops below the selected setting. The mattress firmness is maintained when the Comfort Lock light is illuminated. The product must remain plugged into the electrical outlet for this feature to remain active throughout the night.
8. To change the firmness of your mattress, simply rotate the knob to the new desired setting. The pump will immediately adjust the firmness to the new setting and maintain that selected firmness throughout the night.
9. This product is designed to be used overnight to maintain the mattress at the selected firmness setting. It is not designed to be in operation for extended periods of time. When the bed is not in use, please turn the knob to the OFF setting and unplug the power cord from the electrical outlet. This is a temporary bedding solution and is not intended for everyday use.

USB CHARGING PORT

1. Your AeroBed® product includes a USB port built into the pump for charging your personal device. Please adhere to the following guidelines to ensure proper usage.
2. In order to charge your personal device using the included USB port, the pump must remain plugged into the electrical outlet.
3. Ensure that your charging cable is securely connected to the USB port on the pump and also to the charging port of the mobile device.
4. Once your device is fully charged, please disconnect the charging cable from the USB port.

AUTOMATIC DEFLATION AND STORAGE

1. To deflate the mattress, simply rotate the knob to the DEFLATE position. The pump will immediately begin to expel air and will automatically stop when the mattress is completely deflated.
2. For faster deflation, open the Quick Release Valve and allow air to expel. Then, for more compact storage, close the valve and place the knob into the DEFLATE position. The pump will expel the remaining air and will shut off automatically when the mattress is deflated.
3. Fold the sides of the bed into the center along its length. Open Quick Release Valve and tightly roll the bed, pushing any remaining air out, close Quick Release Valve and place the bed in the convenient carry bag for easy transport and storage.
4. Store your bed in a clean, dry place at room temperature (above 50 °F/10 °C). Storing your bed under 50 °F (10 °C) and over 100 °F (38 °C) may affect its performance and will not be covered under warranty.

WARNING: Read airbed instruction manual and follow all safety instructions to avoid serious injury or death.

Not suitable for children under 3 years of age.

Risk of Suffocation

- Infants have suffocated on inflatable mattresses. Never allow a child under 3 years of age or persons with limited mobility to sleep on an inflatable mattress.
- Children can be entrapped between the inflatable mattress and an adjacent vertical surface. Provide at least a shoulder width space between the inflatable mattress and walls, dressers or other vertical objects to avoid entrapment.
- Always keep the inflatable mattress fully inflated when in use.

This furnishing has not been evaluated for flammability or cigarette ignition resistance. See instructions for additional warnings.

This airbed can melt or burn. Keep away from open flames, heaters, and other hot objects. Do not smoke on or near the airbed.

This airbed is not for use in water. It is not a life saving device, personal flotation device, or water toy.

This airbed is not a toy. Do not stand, walk, jump or play on the airbed. This can result in serious injury or damage to the airbed.

CARE AND MAINTENANCE

WARNING: Do not attempt to disassemble, repair, or service the pump. No serviceable parts are contained inside. Contact The Coleman Company, Inc. at 3600 North Hydraulic, Wichita, KS 67219 U.S.A. 1-800-835-3278 or TDD 1-316-832-8707 in the United States or Sunbeam Corporation (Canada) Limited, DBA Jarden Consumer Solutions at 20B Hereford Street, Brampton ON L6Y 0M1, 1-800-387-6161 in Canada for repair and service center information.

1. Inspect your bed prior to each use.
2. Keep your bed away from any sharp objects. Large cuts or snags may not be repairable and will not be covered by your warranty.
3. When not in use, store your bed in a clean, dry place out of extreme temperatures. Product must be at room temperature.
4. Do not store your bed folded inside sofa beds or roll-aways. This may cause damage to your bed and will void your warranty.

CLEANING

DANGER: To reduce risk of electric shock:

Always unplug this furnishing from the electrical outlet before cleaning.

We recommend that you do not let the plush surface of your AeroBed® mattress get wet. Repeated exposure to water or other liquids may cause damage to the plush surface that will not be covered by your warranty. Should liquid come in contact with the plush surface, blot liquid dry and use a damp cloth to remove any stain. Let surface air dry completely.

You may clean the PVC on the sides and bottom of your bed with a mild dishwashing detergent or household cleaner. Do not use strong chemicals or other compounds. Allow your bed to air dry completely after cleaning and before storing.

FCC INFORMATION

NOTE: This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and the receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

LIMITED EXPRESS WARRANTY

The Coleman Company, Inc. ("us") warrants to the original purchaser ("you") that this AeroBed® ("product") is guaranteed against defects in materials and workmanship for the following periods: pump and valve, three (3) years from date of purchase; mattress, one (1) year from date of purchase.

OUR EXCLUSIVE OBLIGATION, AND YOUR SOLE AND EXCLUSIVE REMEDY UNDER THIS LIMITED WARRANTY OR OTHERWISE SHALL BE THE REPAIR OR REPLACEMENT OF ANY PRODUCT OR PARTS WHICH MAY PROVE DEFECTIVE UNDER THE CONDITIONS OF NORMAL USE DURING THE WARRANTY PERIOD. IN THE EVENT THE PRODUCT OR PARTS CANNOT BE REPAIRED OR REPLACED, YOU SHALL RECEIVE A PRODUCT OF COMPARABLE VALUE AT OUR EXPENSE. THIS WARRANTY IS NON-TRANSFERABLE, AND IS VALID FOR THE FIRST, ORIGINAL PURCHASER FROM AN AUTHORIZED DEALER OF AEROBED® PRODUCT. THIS LIMITED WARRANTY GIVES YOU SPECIFIC LEGAL RIGHTS, AND YOU MAY ALSO HAVE OTHER RIGHTS WHICH VARY FROM STATE TO STATE.

EXCLUSIONS

Our obligation under this limited express warranty shall not apply if our inspection shows:

- A. That the product has been used for other than normal indoor sleeping purposes.
- B. Any product or part has been damaged by alteration.
- C. Any product or part has been subject to accident, misuse, abuse or has been operated contrary to our written instructions.
