**Product Description**

**Getting Ready**
1. Make sure all wrapping and protective tape have been removed from Flosser.
2. Fully charge Flosser before using.
3. Charge by plugging USB cord into charging port of Flosser, then plug other end into USB charging block (not included), then plug into wall socket.

**Replacing Nozzle**
1. Insert nozzle by pushing into nozzle hole until it clicks into place.
2. To remove nozzle, push nozzle release button and remove nozzle.
3. When not in use, store extra nozzles in safe place.

**Daily Maintenance**
- After using, dry off Flosser with dry, clean towel and store in dry, safe location.
- Occasionally remove nozzle and rinse with warm water. With nozzle removed, clean nozzle port with cotton swab to prevent bacteria from building up.
- Flosser is observed, use soap and water to clean the bacteria from the area.
- If not using the Flosser for extended periods of time, empty reservoir water and let it dry out before storing.
- DO NOT immerse the Flosser in water, it is not completely waterproof.

**Features**
- Waterproof and non-slip design
- Removable and replaceable nozzle
- High frequency water pulse effectively removes plaque and cleans between teeth
- USB charging function with LED indication of different modes
- Overcharge protector that shuts off charging when battery is fully charged
- Flosser will enter low power mode when battery is depleted
- 3 modes: regular, gentle, pulsating

**How to Use**
1. Unplug Flosser from charging cord.
2. Fill water reservoir. It is recommended you use lukewarm water. DO NOT use water that is too hot.
3. Before turning on, place nozzle into mouth.
4. Place mouth close to teeth without touching teeth.
5. Turn on power, find mode that is most comfortable for you.
   - Press down on the regular speed, twist the gentle and then twist for pulsating mode.
6. Move nozzle from tooth gap to the next tooth gap, spend about 1-2 seconds at each gap.
7. As water builds up in mouth, either let it drain out of mouth, or swallow it.
8. When finished, turn off Flosser while nozzle is still in your mouth to prevent water splashing.

**Specifications**
- Water pressure: up to 90 PSI
- Input voltage: 5V
- Charging mode: USB
- Water tank capacity: 150 mL
- Pulse Frequency: 1200-2000 times per minute
- Battery: Lithium ion 1000 mAh
- Charging time: 3-4 hours
- Usage time: 15-20 minutes per charge
- Waterproof: IPX7
- Model number: RL-0729

**Warranty**
POP SONIC warrants the Typhoon for a period of 1 year after the original date of purchase, against defects due to faulty workmanship or materials. For warranty claims, you must register your device and log in to your account at www.shoppopsonic.com, then select the option to make a warranty claim. Our customer service department will then contact you to initiate the warranty procedure.

This warranty covers warranty period. It does not cover damage due to normal wear and tear or abuse. This warranty excludes misuse or neglect to the device.

Disposal Information:
The Typhoon should not be treated as normal household waste but should be brought to the appropriate collection point for recycling of electronic equipment.
